Horse-power.

1 The power or rate of work of a horse in drawing; hence, in *Mech.*, a conventional unit for measuring the rate of work of a prime motor, commonly taken (after Watt) as = 550 foot pounds per second (which is about 1¼ times the actual power of a horse). Abbreviated H P

1805 Gregory *Mech.* (1807) II. 357 The usual method of estimating the effects of engines by what are called 'horse powers' must inevitably be very fallacious. 1881 *Knight's Bk. Mech.* 278 Nominal horse power is a purely conventional term adopted by makers of steam engines, and has no fixed relation to indicated horse power 1891 *Electrician* Sept. 551 A new and also kindly unscientific unit, the electrical horse power, is insensibly coming into use 1897 *Pall Mall & St. James's Budget* 6 Feb. 3/5 The term 'horse power' has probably seen its best days As a scientific term it has been much abused, and as a commercial term it conveys no meaning

b With prefixed numeral, expressing the power or rate of work of an engine, etc.; as 'an engine of 40 horse power', or 'a 40 horse-power engine'.

Properly the numeral + 'horse' form an attrib. phrase, qualifying 'power' (as in 'four horse coach' *cf. two foot rule, half mile race*), but the whole phrase (esp. when used *attrib.*) is often analysed as numeral + 'horse power'

1823 Byron *Juan* x. xxxiv *note.* A met-phor taken from the 'forty horse power' of a steam engine 1838 Marryat *Olla Podr.* iv, She preferred the three horse power of the schuyt to the hundred horse power of the steam packet 1841 *Hunter Catal. Note OF *hōh* (Ho 18) is recorded only in the sense 'thumb nail', which does not at all correspond to 2 above but the OF compound *hōhsinu*, Hough sinew, used of horses, implies that *hōh* was also the bunch or hock of a horse, as in sense 1 above From the latter, a may have been transferred after the OE sense 'heel' was obsolete and forgotten; the length of a horse being pointed analogous to the knee of man, and often popularly called the 'hind knee' As to the phonology, OF *hōh* would regularly give *Sc hewch*, Hough *hiuh*; as in *mearh*, *teach*, *pleach*, etc, while *Sc hoch*, *howch* (hox·) goes back to a form with short *o*, as in *cough*, *trough*, *thocht*, etc The words can then be identical only if the *ō* in OF *hōh* was shortened early enough to give *howch*, and not *hewch*, in Sc The only apparent solution of this is that, as the compound *hōhsinu* (Hough sinew) was evidently shortened to *hohsin*, *hosen*, *hokshin*, *hochsin*, *hoksin* before the consonant-group becoming *ch*, this reacted in some way upon the simple word, so as to give early ME *hoh*, *hoȝ*, *hogh*, with short *o*, whence in later times *Sc hoch*, long *hoch* Perhaps the compound, with its derived verb, was in more general use than the simple word

1511, 1600, *a* 1825 [see Hob *sb*1 1]

2 The central solid part of a wheel from which the spokes radiate, and which rotates on (or with) the axle, the nave

Although used by Blithe in 1649, and (from him) by several 19th-c writers, and in Bradley's *Farm Dict* 1742 (see *Knee*), this word appears to have been merely dialectal, being unrecognized by the Dictionaries till the 19th c, when it appears first in the American Webster (1828) and Worcester (1846). It has received literary currency mainly from O W Holmes, and has recently become generally known in connexion with bicycles. Forby gives under *Nob*, *hub* (besides the entry cited below) the alleged meaning 'the hilt or guard of a weapon, with which he connects *nyb to the knob*,' so far as possible, this phrase is in American use associated with the hub of a wheel, as aforesaid, 'dropped to a great extent, inextricably involved'

Hunch (hʌnʃ), *v* Also **† hunsh** [Of obscure origin but cf Hinch *v* If sense 3 belongs to the same word as 1 and 2 (which is doubtful), the sense-development may have been 'to thrust or shoot out', 'to cause to stick out', and hence 'to form a protuberation or protuberance'.

It is noteworthy that the first trace of sense 3 appears, not in the simple *hunch* vb. or sb., but in the comb *hunch backed* substituted in the 2nd Quarto of Shakespeare's *Richard III* (1597) for the *bunch* of the earlier and ordinary 16-17th c word *bunch backed*, which the 1st Quarto and all the Folios have here, and which all the Quartos and all the Folios have in the parallel passage in iv. 436 The substitution of *hunch backed* in the one passage might be thought to be a mere misprint of the 2nd Qo, but it is retained in all the four subsequent Quartos (1602-1622), and the word appears again in 1635, and becomes frequent after 1675 We have *hunch back* c 1636, *hunch'd or back* 1676, *hunchback* 1712, *hunch back* 1718, and finally *hunchback* c 1800 Johnson 1755-87 knew only *hunch* vb. in our senses 2 and 3 and *hunch-backed* With these words must be considered *hitch, hutch, hotch, hatch*, in their various senses, given by Cotgr 1611, which are thus earlier than the *hunch* group, except for *hunchback'd* in the Shak. Qos Also the forms *hulch, hulch back, hulch backed* (= *hunch backed*) found 1624-1667 We have further to compare the some 15 s. with similar sense of Hump, when *humpbacked* is known earlier than *humph* sb. or *v*, or *humpback*.)

1 The cardinal number equal to ten times ten, or five score denoted by the symbols 100 or C.

a. As sb or quasi sb, with plural

(*a*) In singular. Usually a (arch *an*) *hundred*, emphatically *one hundred*, in phrases expressing rate, *the hundred*

In (*upon, † at, † for*) *the hundred* (in reckoning interest, etc.), now usually expressed by 'per cent.'

The construction (when there is any) is in OE with gen pl. later with *of* and a pl. noun, and in ME, Eng. this is limited to *definite* things (e.g. *a hundred of the men, of those men, of them*), except in the case of measures of quantity, e.g. *a hundred of bricks*, we do not now use this construction for a noun standing alone (e.g. *a hundred of men*), but substitute the construction in (b). But *a hundred* is construed with a plural verb: e.g. a hundred of my friends were chosen; a second hundred were then enrolled.

b As adj. or quasi adj., followed immediately by a plural (or collective) noun

In OE. sometimes used as a true adjective, other invariable like other numerals: hundres *Hwæs*, or declined in con cord with its sb. The use in later times may be regarded either as a continuation of this, or as an ellipsis of *of* before the noun (see (*a*)). The adjectival character is seen in its being always preceded by a or some adjective (numeral, demonstrative, possessive, relative or interrogative). Either the sing. or plural is used in the plural sense, as in *a hundred horse*, which has precisely parallel constructions.

5 In England (and subseq. in Ireland) A sub division of a county or shire, having its own court, also formerly applied to the court itself cf COUNTY 4. *Chiltern Hundreds* : see CHILTERN

Most of the English counties were divided into hundreds, but in some counties *wapentakes*, and in others *wards*, appear as divisions of a similar kind. The origin of the division into hundreds, which appears already in OE times, is exceedingly obscure, and very diverse opinions have been given as to its origin. It has been regarded as denoting simply a division of a hundred hides of land, as the district which furnished a hundred warriors to the host, as repre senting the original settlement of the hundred men, or as composed of a hundred hides, each of which furnished a single warrior (Stubbs *Const. Hist.* I. 83). It is certain that in some instances the hundred was deemed to contain exactly 100 hides of land (F. W. Maitland). The hundred, OHG. (Alemannisch *hunteri, hunte*, was a subdivision of the *gau* in Ancient Germany, but the connection between this and the English *hundred* is not clearly made out

Hurdy-gurdy (hə·ɹdigə·ɹdi) [app a rimng combination suggested by the sound of the instrument Cf Hurr-curry, uproar, disorderly noise]

1 A musical instrument of rustic origin resembling the lute or guitar, and having strings (two or more of which are tuned so as to produce a drone), which are sounded by the revolution of a rosined wheel turned by the left hand, the notes of the melody being obtained by the action of keys which 'stop' the strings and are played by the right hand, thus combining the characteristics of instruments of the bowed and the clavier kinds b In recent times, applied popularly to any instrument having a droning sound and played by turning a handle, as the barrel organ

Hurry (hʌrɪ), *sb.* Also 6–7 **hurroy**, in (*Hurry*) sh. and vb., with the exception of a doubtful M1 instance of the latter, are known only from end of 16th c., it is uncertain which of them has priority etymologically, and the order of sense development is not clear. In the earliest cited instances the sb. is identical in sense with Hurry I, so *hurry hurry* with *hurly hurly*. With these cf. also mod Du. *horrie*, *hurrie*, agitation, bustle, disorder, tumult. The earliest cited instances of the vb., on the other hand go with branch II of the sb., and point to more immediate onomatopoetic origin, the element *hur* being naturally used in various languages to express the sound of rapid vibration, and the rapid motion which it accompanies. Thus MHG and Ger. *hurren* to whirr, Sw. and Norw. dial. *hurra* to whir, *whizz*, whirl round, Da. *hurre* to whir, loci *hurr* hurly hurly, noise.]

The *l* is probably due to weakening of the stress on the second syllable. *Cf mastrel* from older *mast-prêl*. The change may conceivably have already taken place in Danish, as in OD. *gasts* for *gadsp*.

The form *hustings* found in 16-17th c may have been due to association with HOUSE-, but there is no evidence that the word was taken to mean 'platform' before 1682, Blount (1691) who suggests a derivation from *h. haulier* (*hauzier*) to raise does so on the ground that it is 'the principal and highest court in London'

2 A court held in the Guildhall of London by the Lord Mayor, Recorder, and Sheriffs (or Aldermen), long the supreme court of the city

The early history of this is in many points obscure. The mention of 'husting's weight' in the charter of Cnut (see 5) suggests that the *husting* had already then become a permanent institution for the transaction of city business

The *Hustings* or *Court of Hustings* was formerly a court of common pleas of probate, of appeal against decisions of the sheriffs, a court of record for the formal enrolment of property, etc., but it is now convoked only for the purpose of considering and registering gifts made to the City. In the Charter for 1858 'Hustings' is set down as 11 days in the year, although there has been only one meeting since 1888

Hus, north dial f. US

Huss, *sb.* ? *Obs* [Origin obscure. In the northern glossary to J. Hutton's 'Tour to the Caves' 1781, is '*Hussin*, an husk.'] (See quot.)

1747 *Gentl. Mag.* 310 The smaller hulls, chaff and husses, that is, grains of corn in their hulls, passed into this wide wire grate.

Huss (hus), *int* [Echoic.] A buzz.

1827 HARDMAN *Waterloo* 20 The sprouts of the twig will rustle out Huzz! While their verdant branch lies buried in the furze.

Huss (hus), *v.* Also 6 **husse** [Echoic, see prec. cf *tobizz*.] *intr.* (rarely *trans.*) To hurr. Hence **Hu ssing** *vbl. sb.* and *ppl. a.*

1555 W. WATERMAN *Fardle Facions* I. vi. 94 Gnattes drive the Oxen with their stinging and terrible hussyng, to runne out of that quarter. 1557-8 PHAER *Æneid* VI. 83 b, As bees With buzzing fennell noyse. 1616 SURFL. & MARKH. *Country Farme* 320 Whether you heare a great noise and huzzing within [the hive]. 1664 BUTLER *Love in Tub.* I. 9, Mrs. Grisalda hearing a Squib into her bosom, where the Wild fire will buzz for a time, and then, crack, it flies out. 1688 OSWALD *Prince Prov.* v. 69 The waves Hussing and boomeng round my sinking head. 1747 *Gent. Huzza (hŭzā, huzā), *int* and *sb.* Also 6–8 **hussa**, **7 hussaw**, **7– hussah**, **huzzay** (hŭzēʹ). [app a mere exclamation, the first syllable being a preparation for, and a means of securing small tuneless utterance of the final.]

It is mentioned by many 17–18th c. writers as being originally a sailor's cheer or salute. It was derived from the marine and the shouts of welcome to sailors when from some aboard or go off' (North *Examen* 1740) 617. It may therefore be the same as *hessan! hussa!* originally hailing, or hoisting cries: see HEAVE. 7 quot 1549 and HUSH. (German has also *hu sa* as a cry of hunting and pursuit, and, subsequently, of exultation.)

A *int.* A shout of exultation, encouragement, or applause, a cheer uttered by a number in unison, a hurrah.

1682 N. O. *Bolleau's Lutrin* III. 33 Oh see (says Night) these Rogues sing Huzza' proud Of sure success, under my favouring Shroud. 1706 J. ARQUHAR *Recruit Officer* I. 1, Huzza then! huzza for the queen, and the honour of Shropshire! 1830 C. Hydracid (hɑ̈drăsĭd) *Chem* [f Hydro- d + Acid Cf F *hydracide*, and Hydro acid] A term applied to an acid containing hydrogen, to distinguish it from an *oxyacid*, or *oxacid*, containing oxygen, now esp to the halogen acids, or simple compounds of hydrogen with chlorine, bromine, iodine, fluorine, or cyanogen

1846 Henry *Elem Chem* I 374 These results are calculated on the supposition that hypophosphorous or per phosphorous acid is a binary compound of oxygen and phosphorus, but it is doubtful whether it may not be a triple compound of oxygen, phosphorus, and hydrogen, or a hydracid **1851** P Jones *Courses Chem* 220 If there are several acids in which hydrogen performs the office one supposed to belong exclusively to oxygen Acids of this kind are called hydracids **1854** J Scoffern *Org Chem* 351 Hydrosulphuric acid is the first hydrogen acid or *hydracid*, that has come under our notice **1864-72** Watts *Dict Chem* II 665 Ampère, in 1820, suggested that it (HCl) was a hydracid analogous to hydrochloric acid and this was confirmed by Davy **1869** Muir & Morris *Watts' Dict Chem* II 702/1 The name [hydracid] is more particularly applied when it is desired to distinguish between two classes of compounds of the same element, those which contain oxygen and the hydracids of the halogen elements

b *attrib* or *adj* Of or belonging to a hydracid

1854 J Scoffern *Org Chem* 352 The attempt to assimilate oxyacid salts with the type of hydracid salts

Hydracrylic (hɑ̈drăkrĭlĭk), *a Chem* [f Hydro- d + Acrylic] In *Hydracrylic acid* $C_3H_4O_3$, a monobasic lactic acid, which exists as a thick uncrystallizable syrup, and decomposes on heating into acrylic acid ($C_3H_4O_2$) and water (H_2O) Hence **Hydracrylate**, a salt of this acid

1877 Watts *Fownes' Organ Chem* 398 Ethene lactic or hydracrylic acid *Ibid*, The metallic hydracrylates are crystallisable

Hydradephagous (hɑ̈drădĕfăgəs), *a Entom* [f mod L. *Hydradephaga* (f Gr ὕδωρ, ὑδρ- water + ἀδηφάγος voracious) Sec Adephaga] Belonging to the *Hydradephaga* or aquatic carnivorous beetles

1840 Swainson & Shuckard *Hist & Nat Arrangem Insects* II v 295 Some few [predaceous beetles] live in fresh water, from which circumstance they have been named Hydradephagous

‖ **Hydræmia** (hɑ̈drī·mĭă) *Path* Also **hydremia**. [f Hydr- o- h- (f Gr -αιμία (as in *dysæmia* An semia) + -ia] Dropsy of the blood Cf F *hydrémie*] A watery condition of the blood

Hydrastina (hɑ̈drăstī·nă) [f mod L *Hydrastis* (see def) + -ine] **a** An alkaloid obtained from the root of *Hydrastis Canadensis*, a North American ranunculaceous plant **b.** A medicine used by eclectic physicians, consisting of this alkaloid mixed with berberine and resin

1876 Hartley *Mat Med* (ed 6) 281 It contains an active

principle called hydratism 1876 Hartshorne *Mat. Med.* (1879) 142 Hydratisme, the alkaloid, should not be confounded with the eclectic preparation, hydrastin, which is composed chiefly of berberine

Hydratation (haidrăt·ĕ·shŏn) *Chem.* [Cf. next.] = HYDRATION

1878 tr. *Schulenberg's Fermentation* 32 The hydratation is effected under the influence of water.

Hydrate (haidrēt), *sb.* *Chem.* Also **hydrat** [Fr. *hydrate*, f. Gr. ὕδωρ, ὑδρ- water + -ATE¹.] 1. C. F. *hydrate*.] A compound of water with another compound or an element, e.g. hydrate of chlorine. Formerly, and still by some, applied also to a HYDROXIDE, e.g. KOH, potassium hydrate, NH_4OH, ammonium hydrate

1802 Smithson in *Phil. Trans.* XCIII. 23 A peculiar compound of zinc and water, which may be named hydrat of zinc. 1807 J. Dobson in *Chem. Ind.* (1938) 1041 In attention of chemists was drawn to them by Mr. Proust, who has given to such combinations the name of hydrates. 1822 Imison *Sc. & Art* II. 20 An oxide combined with water is called a hydrat. 1871 Lyndall *Progress Sc.* (1879) I. xviii. 450 Faraday analysed the hydrate of chlorine. 1876 Harley *Mat. Med.* (ed. 6) 172 Hydrate of lime is formed whenever water is sprinkled upon caustic lime. 1889 Muir & Morley *Watts' Dict. Chem.* II. 703/2 The compound $C_{18}H_{17}O_{18}N_3$ is a hydrate of $C_{18}H_{17}O_{15}N_3$. Another way of stating the theoretical difference between hydrates and hydroxides is to say that hydrates contain water as such, and that hydroxides contain the elements of water.

Hydrate (haidrēt), *v.* [f. prec. Cf. F. *hydrater.*] *trans.* To combine chemically with water, to convert into a hydrate

1850 Daubeny *Atom. Theory* (ed. 2) 262 Acidified by 3 atoms of oxygen, and hydrated by the addition to each of 1 atom of water. 1877 Allbutt *Syst. Med.* II. 814 The gland cells manufacture a ferment-peptone or trypsine—which hydrates the albumins, forming albumoses.

Hydrated (haidrēt·ĕd), *a.* [f. prec. sb. or v. + -ED¹.] Chemically combined with water or its elements, formed into a hydrate

1809 Davy in *Phil. Trans.* XCIX. 465 Hydrated sulphur was instantly formed. 1846 Henry *Elem. Chem.* II. 99 A combination of peroxide of copper with water, or a hydrated peroxide of copper. 1851 *Illustr. Catal. Gr. Exhib.* 1449 Steatite is a hydrated silicate of magnesia and alumina. 1885 Muir & Wilson *Elements Chem.* (ed. 2) 149 Most hydrated salts dissolve in water with absorption of heat. 1889 Muir & Morley *Watts' Dict. Chem.* II. 704/2 Cupric baryta combines with water to form a compound BaO_2H_2, $8H_2O$, this compound is said to be a hydrated hydroxide

Hydration (haidrēi·shŏn) [f. HYDRATE sb. + -ATION.] The action of hydrating or condition of being hydrated, combination with water

1854 J. Scoffern in *Proc. Chem.* 452 In both conditions of hydration the crystals of sulphate of nickel are very beautiful. 1876 J. Fowler in *Technologist* XLVI. 128 *note*, The hydration of lime in badly tempered mortar. 1878 Kingzett *Anim. Chem.* II. 36 The chemical decompositions for ever occurring in the living body are all included in two processes, viz., those of hydration and oxidation [see HYDROLYSIS.] 1889 Muir & Morley *Watts' Dict. Chem.* II. 703/2 Another form of words is to speak of *water of hydration*, or water of *crystallisation* and to contrast these with *water of constitution*.

Hydraulic (haidrǫ·lik), *a.* and *sb.* [ad. L. *hydraulic-us*, a. Gr. ὑδραυλικ-ός, f. ὕδωρ, ὑδρ- water + αὐλός pipe. In Greek ὑδραυλικὸν ὄργανον denoted a kind of musical instrument played by means of water (also called ὕδραυλις, ὑδραυλος), the extension of the word to other kinds of water-engines is first found in Latin authors (*hydraulicae machinae* in Vitruvius). Cf. F. *hydraulique.*]

A *adj.*

1. Pertaining or relating to water (or other liquid) as conveyed through pipes or channels, esp. by mechanical means, belonging to hydraulics

Hydraulic mining: a method of mining in which the force of a powerful jet of water is used to wear down a bed of auriferous gravel or earth, and to carry the debris to the sluices where the precious metal is separated.

1661 *Hermetic Industry* 37 Birds on the tops of Trees, which by Hydraulick instruments conveyances of water are made to sing. 1789 Smeaton *Hydr. & Hydraul.* 99 Nero Alexandrinus, and other Hydraulick Writers. 1851 *Illustr. Hydro- (haidro), before a vowel also **hydr-**, = Gr. *ὑδρο-*, combining form of *ὕδωρ* water, employed in many compounds adopted or formed from Greek

Of the numerous compounds in Greek some were adopted in Latin, whence they passed into English either directly or through French. The earliest of these are *hydrops, hydropic, hydromancy*, and *hydromel*, found in the 13th and 14th c. A few others were added to the language during the 16th and 17th c. as *hydrocele, hydrography, hydrotic, hydrophobia, hydrostatics*, but the greater number of the words now in use belong to the common scientific vocabulary of the 19th c. (including the end of the 18th c.)

The words so formed may be thus classed

a Miscellaneous terms, in which *hydro-* has the sense of 'water', as in *hydrography, hydrometer, hydropathy, hydrostatics* These pass into terms in which *hydro-* is used in more or less loose combination, as *hydrogeology, hydro-galvanic, hydro-electricity, hydro-extractor, hydro-propulsion*

b In medical and pathological terminology, *hydro-* is commonly used to form names of diseases (chiefly in Latin or Greek form), being prefixed (*a*) to names of parts of the body, to denote that such part is dropsical or affected with an accumulation of serous fluid, as in *hydrocephalus* (dropsy of the abdomen, ascites), *hydrobilephalon* (*rum*) [Gr. *βιλίφαρον* eyelid], *hydrocardia* [Gr. *καρδία* heart, used for 'Fallopian tube.], *hydrocharsis* [belly], *gastrina, -hystera* [Gr. *ὑστερα* womb], *hydromphalus* (*us*) [Gr. *ὀμφαλός* navel], *hydromyelus, myelia* [Gr. *μυελος* marrow used for 'spinal cord'], *nephrosis* [Gr. *νεφρος* kidney], *hydro-ovarium* [sc. OVARY], *pericardium, -peritonæum, hydrorhachis* [Gr. *ῥαχις* spine], *hydrosalpinx* [Gr. *σαλπιγξ* trumpet, used for 'Fallopian tube.], *hydrothorax*, also, in the combination *hydropneumo*, to express the presence of water and air, as in *hydropneumopericardium, hydropneumothorax*, (*b*) to names of diseases or diseased formations, denoting the accompaniment of dropsy or of an accumulation of serous fluid, as *hydrachnia, -y* [see CACHEXY], *hydrarthrus, -rhachitis, -rhachitic, -meningitis, -peritonitis, -pericarditis, hydrorrhachitis*, etc., *hydrocarcele, hydr(o)enterocele, hydromeningocele, -myelocele, physocele, -sarcocele, hydrotubocele*, etc.

c Prefixed to names of minerals, *hydro-* denotes a hydrous compound, or the addition of water or its constituents to the elements of the primary mineral.

d In modern chemical terms (the earliest of which were formed in French), the prefix *hydro-* originally meant combination with *water*. In many cases however this really amounted to combination with the hydrogen supplied by the water, so that *hydro-* has become the regular combining form of *hydrogen*, like *oxy-* for *oxygen, nitro-* for *nitrogen, cyano-* for *cyanogen*

1822 IMISON *Sc. & Art* II. 21 To distinguish the acids formed by hydrogen, from those formed by oxygen, the former are designated by the word *hydro*, as the hydro chloric acid. 1843 W. GREGORY *Inorg. Chem.* (ed. 3) 4 If composed of oxygen united to a metalloid, such as sulphur, it is called the acid is simply named from the metalloid or metal, as carbonic acid, chromic acid. But if the acid contains hydrogen united to a metalloid, the word 'hydro' is prefixed, as hydro chloric acid (hydrogen and chlorine), hydro-sulphuric acid (hydrogen and sulphur), &c.

Prefixed to the name of a compound substance, *hydro-* usually means the addition or substitution of hydrogen in its constitution, e.g. *benzoin* $C_{14}H_6O_2$, *hydrobenzoin* $C_{14}H_8O_2$, so *ammonium, hydrocinchonine, cellulose, hydrocellulose*, etc.

e In modern zoological terminology, *hydro-* is used in the nomenclature relating to members of the class HYDROZOA and their characteristic organs or parts. Strictly speaking, *hydro* is here a combining form of the generic name HYDRA, but this name is a derivative of Gr. *ὕδωρ, ὑδρ-* water, so that, as being ultimately from the same source, these terms may be classed with the other *hydro-* formations

f Derivatives of Gr. *ἱδρώς* 'sweat' have been erroneously written *hydro-* instead of *hidro* (the error being encouraged by the fact that sweat is a form of water), e.g. *hydroadenitis* inflammation of the sweat glands, *hydrocystis, hydropyetic*

The more important words in all these groups appear in their alphabetical order in the main series, others of less importance follow here

Hydroaeric (haidroe·rik) *a.* (see quot.). **Hydroa patite** *Min.*, hydrous apatite, a milk-white substransparent mineral **Hydrobaro meter**, an instrument for determining the depth of the ocean from the pressure of the superincumbent water (Webster 1864). **Hydrobe nacin** *Chem.*, a crystalline substance, $C_{14}H_{14}O_3$, obtained by the action of nascent hydrogen on oil of bitter almonds. ‖ **Hydrobiosis** (-bəiōu·sis) *Zool.* [Gr. *βιωσις* way of life], the development of living organisms, as bacteria, in fluid media, the conditions of life of such organisms. **Hydrobo racite** *Min.* [named 1831], hydrous borate of calcium and magnesium, resembling gypsum. **Hy drobranch** (hroiŋk) *Zool.* [Gr. *βράγχια* gills], a member of the *Hydrobranchiata*, a division of gastropods in Lamarck's classification, containing species which breathe water only, so **Hydrobranchiate** (-ranĭkĕit) *a.*, pertaining to the *Hydrobranchiata* (Mayne *Expos. Hydrometer (hɒidrɒ·mĭtər) [mod f. Gr *ὕδρο-* water + -meter.]

1 *Instruments* (first recorded 1768) was app. adopted from French but has commonly the sense: A gauge, the hydrometer being called the *areometer*, *aerometer*.

1 An instrument for determining the specific gravity of liquids, or sometimes (as in *Archbishop Hydrometer*) for finding the specific gravity of other liquids or solids.

The common type consists of a graduated stem having a hollow bulb and a weight at its lower end, so that with the stem upright in a liquid, the specific gravity of which is indicated by the depth to which the stem is immersed. Special names are given to it as constructed for particular liquids, as *alcoholometer*, *audiometer*, *lactometer*, etc.

Nicholson's Hydrometer consists of a brass cylinder having a small pan supported on a stem above the water and another pan dependent below in the water, the specific gravity of a solid body is calculated from the difference of its weights in air and in water, as determined by weighing it in the upper and lower pans respectively.

Hyper- (haɪpə), *prefix*, repr. Gr. *ὑπερ-* (*ὑπὲρ* prep and adv, 'over, beyond, over much, above measure'), in Gr combined adverbially with verbs, in the local sense 'over, above, beyond', as *ὑπερβαίνειν* to step over, overstep, cross, *ὑπερβάλλειν* to throw over or beyond, and hence in the adjectives and substantives therefrom derived the notion of going across, transposed (cf Hyperbaton), *ὑπερβολή* a throwing over or beyond, overshooting, excess, extravagance, Hyperbole, *ὑπερβολικός* Hyperbolic Also with adjectives formed on substantive stems, implying that the thing or quality is present over or beyond the ordinary degree, as *ὑπέρφυης* over-darling, high-spirited, *ὑπέρθυμος* of overwhelming might, and later with ordinary adjectives with the sense 'exceedingly', as *ὑπέρμεγας* immensely great, *ὑπέρκαλος* exceedingly beautiful In this sense also sometimes with verbs, as *ὑπεραγαπᾶν* to love exceedingly, *ὑπερεχθαίρειν* to hate exceedingly Also combined prepositionally with sbs, forming adjs with the sense 'lying or going beyond, surpassing, as *ὑπερβόρεος* that is beyond the north wind, Hyperborean, *ὑπερόριος* lying over the frontier, *ὑπεροφρύοισι* that is above the heavens, *ὑπέρθεον* more than divine, *ὑπέρμετρος* going beyond measure (or metre), whence also with sbs from adjs, as *ὑπερθύριον* the lintel of a door, *ὑπερμετρία* a passing all measure

Comparatively few of these have come down or been adopted in English, *hyperbole*, *hyperborean*, with their derivatives, being the chief, but from the 17th century *hyper-* has been extensively used, more or less on Greek analogies, in the formation of new compounds, and has even become a kind of living element, freely prefixed to adjectives and substantives, as in groups 1 and 4 below

Hyperbola (haɪpɔ·bŏlă) *Geom* [a mod L *hyperbola*, ad Gr ὑπερβολή the name of the curve, lit excess (cf Hyperbole), f ὑπερβάλλειν to exceed (*ὑπέρ* over + *βάλλειν* to throw)] In full *hyperbole cone*

The hyperbola was so named either because the inclination of its plane to the axis of the cone exceeds that of the side of the cone (see Ellipse), or because the side of the rectangle on the abscissa equal to the square of the ordinate is longer than the latus rectum

One of the conic sections, a plane curve consisting of two separate, equal and similar, infinite branches, formed by the intersection of a plane with both branches of a double cone (i e two similar cones on opposite sides of the same vertex) It may also be defined as a curve in which the focal distance of any point bears to its distance from the directrix a constant ratio greater than unity It has two foci, one for each branch, and two asymptotes, which intersect in the centre of the curve, midway between the vertices of its two branches (Often applied to one branch of the curve)

1605 Camden *Rem* (1637) 16 The hypercritic all controuler of Poets, Julius Scaliger, doth so severely censure, Nation that he seemed to sit in the chaire of the scornfull 1621 Cowley *Cutter* 161, I suppose that some hypercritick all carpers will taxe me of vanity 1738 Swift *Pol Conv* Introd 56, I hope, that such Hypercritical Readers will please to consider [etc] 1865 Miss Braddon *Eleanor's Victory* I 13 It would have been hypercritical to have objected to the shortness of the skirt

Hence **Hypercri tically** *adv*, in a hypercritical manner

1715 M Davies *Athen Brit* I Contents at end 7 1/2 Too Hypercritically lavishing of their Lashes and Encomiums upon Friend and Foe, Indiscriminately rather than impartially 1887 *Spectator Med Mag* (1886) 14 God forbid that we should speak contemptuously or hypercritically of any honest worker

Hypercriticism (hāɪpəkrĭ tĭsĭm) [f Hyper-4 + Criticism] Excessive criticism, criticism that is unduly severe or minute

1678 Phillips (ed 4) *App*, *Hypercriticism* an over-curious or curious Judgment or Censure passed upon the works of any one 1824 *Edin Rev* XL 147 The shells of minute noxious hypercriticism 1835 Mrs Carlyle *Lett* I 43, I do in beautifully when you do not bolt barren me with hypercriticism 1873 H Smith *Stud Sword Notes* 414 Even were these hypercriticisms, it might be said that they use rightly to be made on a par use which is considered a model of style

Hypercri ticize, *v* [f Hyper 4 + Criticize] *trans* To criticize excessively or unduly *Intr* To be hypercritical

1812 *Religionism* 55 What! hypercriticise the dead? for shame! 1834 *Fraser's Mag* VI 668 Those who hyper criticised on the awkward terminations of some of his plots 1863 Mrs C Clarke *Shaks Char* xvi 406, I have no desire to hypercriticise, or to see more in our poet than he himself intended

Hyperdeterminant, *sb* and *a* *Math* [see Hyper 3] *a sb* A determinant of operative symbols, a symbolic expression for an invariant or covariant invented by Cayley b *adj* Of the nature of a hyperdeterminant

1845 Cayley in *Camb Math Jrnl* IV 198 The function to whose properties we proceed to investigate may be conveniently named a 'Hyperdeterminant' a 1846 — in *Camb & Dublin Math Jrnl* I 104 The question may be proposed 'to find all the derivatives and any number of functions, which have the property of preserving their form un altered after any linear transformations of the variables I give the name of Hyperdeterminant Derivative, or simply of Hyperdeterminant, to those derivatives which have the property just enunciated 1895 Elliott *Modern Quantics* 161 Hyperdeterminants form a complete system of covariants *Ibid*, The hyperdeterminant symbols

Hypermetamorphosis (hāɪ pəɹmĕtămĭ·fŏsĭs) *Entom* [Hyper- 4 + Metamorphosis] An extreme form of metamorphosis occurring in certain insects (esp in beetles of the family *Meloidæ*), in which the animal passes through two or more different larval stages So **Hypermeta morphism**, the character of undergoing hyper metamorphosis, **Hypermetamo rphic**, **-morpho tic** *adjs*, characterized by hypermetamorphism.

1875 W Houghton *Sk Brit Ins* 155 Hypermetamorphosis of the larva, as in the Meloidæ 1875 Darwin *Anim & Plants* (ed 2) II 363 Certain beetles undergo what has been called a hypermetamorphosis, i e they pass through an early stage wholly different from the ordinary grub like larva 1881 R MacLachlan *Insect Life* XIII 149/1 Hypermetamorphosis in which the larva at one period of its life assumes a very different form and habit from those of another period 1883 — I 143 The extraordinary genus *Sitaris* (equally hypermetamorphotic), a parasite on bees nests 1888 Rolleston & Jackson *Anim Life* 508 In a few instances (*Mantispa* among *Neuroptera*, *Meloide* among *Coleoptera*) we have hypermetamorphosis. The first larva is Campodeiform, the second more or less eruciform

Hypermeter (hāɪpəɹmĭtəɹ) [ad Gr *ὑπέμετρ-ος*, *-ον*, beyond measure, beyond metre, f *μέτρον* measure In mod L *hypermetre*]

1 *Pros* A hypermetric verse

1656 Blount *Glossogr*, *Hypermeter*, a verse having a redundant syllable, or one syllable above measure, called by some 1 feminine Verse

2 (*humorous nonce-use*) A person above the ordinary stature

1713 Addison *Guardian* No 108 P 3 When a man rises beyond six foot, he is an hypermeter, and may be admitted into the tall club

Hypermetric (hāɪpəɹmĕ·trĭk), *a* [f Gr *ὑπέμετρ-ος* (see prec.) + -ic, cf *μετρικός* Metric]

1 *Pros* Of a verse: one having one or more syllables beyond those normal to the metre, having a redundant syllable or syllables Also said of the redundant syllable

1865 *Athenæum* No 1975 303/3 Hypermetric lines 1887 *Lalf Mall* 19 Aug 3/4 While the two silver cur him, and underfoot, for example, is hypermetric

2 *gen* Beyond measure, excessive, immoderate

1854 Lady Lytton *Behind the Scenes* II vii 34 His sublimated hypermetric impudence

Hypermetrical, *a Pros* [f as prec + -al] = prec 1

1751 Johnson *Rambler* No 88 P 15 Milton frequently uses the hypermetrical licence of redundant syllables 1872 *Dublin Sch Inst Gram* 466 Hypermetrical verses were introduced by Ennius, probably from his misapprehending Iambic 1886 J Mayor *Eng Metre* VI 98 Verses with hypermetrical syllables

Hypermetrope (hāɪpəɹmĭtrōp) *Path* [mod Gr *ὑπέμετρ-ος* beyond measure + *ὤψ*, *ὠπ-α* eye] A person affected with hypermetropia

1864 tr *Donders Accom & Refr Eye* 60 Hypermetropes lose for a time their asthenopia 1875 H Walton *Dis Eye* 345 The hypermetropes have a little more difficulty in seeing at all ranges 1893 *Brit Med Jrnl* 30 Sept 732 The eye strain necessary in hypermetropes and others to focus a clear image on the retina.

‖ **Hypermetropia** (hāɪpəɹmĭtrōpĭə pă) *Path* Also in anglicized form **hypermetropy** (-me tropi) [mod L, f as prec + -ia 1a†] An affection of the eye, usually due to a flattened form of the eye ball, in which the focus of parallel rays lies behind instead of on the retina, 'long sightedness.'

1862 *Donders Accom & Ref Eye* VIII 8 Hypermetropia, or morbidly long sight in this affection, the organ is too flat from front to back 1876 T Bryant *Pract Surg* I 200 This anomaly is known as hypermetropia or far sight 1880 *Le Conte Sight* 51 Hypermetropy is the true opposite of Myopy

Hypermetropic (-pĭk), *a* [f as prec + -ic] Pertaining to or affected with hypermetropia, 'long-sighted'

1864 tr *Donders Accom & Refr Eye* VIII 525 The compound hypermetropic astigmatism often keeps very close to the simple 1870 *Field Mall Gaz* 23 Feb 3 3 Hypermetropic subjects are not, except in extreme cases, conscious that they see differently from others 1876 Lowe in *Lyle I* 5 The other [eye] was hypermetropic

b. A small connecting link.

1868 G. Dyer *Pol. Surv.* 169 It was a bridge for migrations. It was a hyphen, connecting different races. 1882 *Daily Tel.* 21 June 6/8 M. de Lesseps, who is the sworn foe of all such geographical hyphens [isthmuses].

Hyphen (hai·fen), *v.* [f. prec. sb.] *trans.* To join by a hyphen; to write (a compound) with a hyphen.

1814 W. Taylor in *Monthly Rev.* LXXIV. 306 The Englishman imagines all words connected by apposition to be hyphened together and inflects them as a single word. 1884 *New Eng. Dict.* Introd. 23 Many specialized combinations are often not even hyphened. 1891 Mosses *Creation* 128 The Joneses, when their father was induced to move from Shepherd's Bush to Kensington, showed their gratitude to their mother by hyphening her name with their own 'The Misses Robinson Jones.' 1894 *Sunday Sch. Hence **Hyphenisa·tion**, the action of joining or writing with a hyphen.

1892 *N. & Q.* 1st Ser. IV. 204/1 A neglect of mental hyphenization often leads to mistake as to an author's meaning. 1894 *Sunday Sch. Times* (Phila.) 3 Feb., No two writers, probably, would agree as to the hyphenization of any fifty words taken at random.

Hyphomycetous (hi·f, hai,fomai·sĕtăs), *a. Bot.* [f. mod.L. *Hyphomycetes* (f. Gr. ὑφή web + μυκητες fungi) + -ous.] Of or belonging to the *Hyphomycetes*: a group of fungi consisting simply of hyphæ. 1880 *Gray's Struct. Bot.* (ed. 7) 117.

1887 Garnsey tr. *De Lacy's Fungi* II. v. 172 The Entomosporæ are simple hyphomycetous forms.

Hypidiomorphic (hipi,diŏmōr·fik), *a. Min.* [mod. f. (Rosenbusch) *hyp-*, Hypo + Idiomorphic.] Partially or incompletely idiomorphic.

1888 A. C. Lawson in *Amer. Geologist* Apr. 204 The order being first phaneocrase in more or less idiomorphic lath-shaped individuals, filling in the interstices with augite generally allotriomorphic, sometimes hypidiomorphic.

Hence **Hypidiomo·rphically** *adv.*

1888 W. Bayley in *Amer. Naturalist* Mar. 209 The rock is hypidiomorphically granular.

Hypinosis (hipinōu·sis) *Path.* [f. Hypo- 4 + Gr. ἴς, ἰν- tissue + -οσις.] A diseased state of the blood in which the quantity of fibrin is below the normal, opp. to *hyperinosis*.

1842 tr. *Andral & Gavarret's Anim. Chem.* I. 296 These researches exhibit less of the character of hyperinosis than those instituted on the blood at the commencement of consumptive diseases. 1878 tr. *Huguier's Gen. Pathol.* 704 Hypinosis may be a result of hemorrhage.

Hypnotism (hi·pnătizm) [f. Hypnotic-ism + -ism.] This word is due to Dr James Braid of Manchester, who in 1843 introduced the term *neuro-hypnotism* for 'the state or condition of nervous sleep', and in 1843 used the shortened form *hypnotism*, when the context made the sense plain]

1 The process of hypnotizing, or artificially producing a state in which the subject appears to be in a deep sleep, without any power of changing his mental or physical condition, except under the influence of some external suggestion or direction, to which he is involuntarily and unconsciously obedient. On recovering from this condition, the person has usually no remembrance of what he has said or done during the hypnotic state The term is also applied to the branch of science which deals with the production of this state, and its causes and phenomena See Braidism, Mesmerism

The usual way of inducing the state consists in causing a person to look steadily, for several minutes, with complete concentration of the attention, at a bright or conspicuous object placed above and in front of the eyes at so short a distance that the convergence of the optic axes can only be accomplished with effort.

1842 Braid in *Trans Brit Assoc* (29 June), Practical Essay on the Curative Agency of Neuro-Hypnotism 1843 — *Neurypnol.* 13 By the term 'Neuro-Hypnotism' then, is to be understood 'nervous sleep', and, for the sake of brevity, suppressing the prefix 'neuro', by the terms—*Hypnotic*, will be understood 'The state or condition of *nervous* sleep'; *Hypnotise*, 'To induce *nervous* sleep'; *Hypnotised*, 'One who has been put into the state of *nervous* sleep'; *Hypnotism*, '*Nervous* sleep'; *Hypnotist*, 'One who practises Neuro-Hypnotism' 1847-9 Todd *Cycl Anat* IV 60/2 Modes of inducing somnambulism practised under the designation of hypnotism 1852 Braid (*title*) Magic, Witchcraft, Animal Magnetism, Hypnotism and Electro Biology (ed 3) 1883 *19th Cent* Oct 696 Under the name of Hypnotism, the subject has after a long interval reappeared on the scientific horizon 1892 *Brit Med Jrnl* 27 Aug 459 Hypnotism is an agent of great value in the treatment of chronic alcoholism 1893 *Pall Mall G* 10 Jan 1/3 Hypnotism is the science which deals with the phenomena of a peculiar mental state produced by artificial means 1898 *Times* 14 July 14/3 The habitual use of hypnotism on women is greatly injurious, both morally and intellectually

Hypnotist (hi·pnătist) [f as prec + -IST] One who studies or practises hypnotism, a hypnotizer Also *attrib*

1843 [see sense 1] 1884 *Proc Soc Psych Res* I v 13 Results which indicate a special sympathy or rapport between a hypnotist or mesmerist and a sensitive subject 1890 *Athenæum* 10 May 604 Like a fevered hypnotists have recently told us that they cannot induce a victim to commit an act altogether repugnant to his or her moral character 1893 L. Hart in *Brit Med Jrnl* 18 Feb 363 The hypnotist hath curer of the hospital ward and the priestly hath curer of the grotto are in truth utilising the same human element

Hence **Hypnoti·stic** *a*, relating to hypnotists or hypnotism

Hypnotise (hi·pnătaiz), v [f as Hypnot-ic + -ise] *Hypnotize.*] *trans* To put into a hypnotic state, to place under the influence of hypnotism, to mesmerize Also *to hypnotize into* (a state or belief) Also *absol*

1843 [see Hypnotism 1] 1847-9 Todd *Cycl Anat* IV 60/2 Observations upon individuals hypnotized by Mr Braid 1880 *Brit Med Jrnl* 4 Sept 382 The natural normal state of those who may be readily hypnotised 1890 *Daily News* 17 Dec 5/5 They hypnotised themselves into believing in it 1892 *Brit Med Jrnl* 3 Dec 1219 Anyone can hypnotise, and every one can hypnotise if he is patient enough, and either scientifically intelligent or ignorantly fanatic 1896 *Lancet* (N Y) 6 Feb 2/4 Houses of Representatives have been hypnotized into subservicncy

Hence **hypnotized** *ppl.a*, **hypnotizing** *vbl.n*, and *ppl a* Also **Hypnotisable**, capable of being hypnotized. **Hypnotisability** (hipnɒtəizăbi·liti), capability of being hypnotized **Hypnotization**, the action of hypnotizing, or condition of being hypnotized **Hy pnotizer**, one who hypnotizes

1886 *Proc Soc Psychol Res* 230 To furnish a criterion of the 'hypnotizability of the subject 1888 *Ling Mechanic* 13 Feb 512 The number of "hypnotisable subjects 1893 *Proc Soc Psych Res* I iv 69 After a very short process of 'hypnotisation 1892 *Spectator* 2 Jan 26/2 Horses are very susceptible to hypnotization 1843 'Hypnotized [see Hypnotise 1] 1888 Romanes in *19th Cent* Sept 475 When he clattered his teeth, the hypnotised patient repeated the movement 1883 *Ibid* Oct 702 The 'subject' imitates whatever the 'hypnotizer' may suggest mechanically 1889 *Athenæum* 25 May 661/1 He meets the monk Heliodus has reputed hypnotiser and mesmerist 1843 Braid *Neurypnol* 13 Hypnotism, or the mode of hypnotising 1888 was no novelty 1893 *Proc Soc Psych Res* I v 63 The hypnotising process may carry a 'sensitive' subject in a minute into hypnotic sleep

Hypnotoid (hi·pnɒtoid), *a.* [f Hypnot-ic + -oid] Like or resembling the hypnotic state

1889 F Gurney in *Proc Amer Soc Psych Res* Dec 201 This young lady had a wonderful hypnotoid sensitiveness, by which she was sometimes able to make unconscious estimates.

1 Hypnum (hi·pnăm) *Bot* Pl **hypnums**, hi·pna. [mod L, ad Gr *ὕπνον* (Theophr.) 'moss growing on trees'.] A large genus of pleurocarpous mosses, feather-moss.

1753 Chambers *Cycl Supp* s.v., The branches of the Hypnums are usually spread about upon the ground, and are perennial 1861 Hooker *Brit Flora* I 1 The family of Hypna is very numerous. 1877 Johnston in *Proc Berw Nat Club* No 2 152 Hypnum hispidum in spongy places. 1890 Lindeau *Autumn* (1891) 138 One whole side, the upper, was covered with green hypnum

Hypno (hi·pn), *sb* ? *Obs.* Also 8 hippo, hypno, 9 *pl* (*rare*) hypos. [Abbreviation of Hypochondria of Hyp.] Morbid depression of spirits

1728 Mandeville (*title*) A Treatise of the Hypochondriack and Hysterick Passion vulgarly call'd the Hypo in Men and Vapours in Women 1735 Bailey *Erasm Colloq* 163 When he's neither in a Passion, nor in the Hippo, nor in Liquor 1738 [see Hyp] 1756 65 Amory *T Buncle* (1770) III 157 A chronic hippo 1851 H Melville *Whale* 1 When my hypos get the upper hand of me 1869 Mrs Stowe *Oldtown F* 133 Alleging as a reason that 'I would bring on her hypos.

Hypo (hai·po), *sb* ? *Photogr* [Abbreviation of Hyposulphite.] The salt formerly called hyposulphite, now thiosulphate, of soda, used for fixing photographic pictures Also *attrib*

1861 *Photogr News Almanac* 31 Dec 8 (1861) I 155/1 A little will be lost in the hypo fixing bath *Ibid* 155/2 The proof assumes a disagreeable red tone after it is washed with the hypo 1889 *Anthony's Photogr Bull* II 36 Hypo is cheap, and can be bought at nearly every drug store *Ibid* 274 The action of restrainers and retarders, of hypo eliminators

Hypo- (hipo, haipo), before vowels also hyp-, *prefix*, repr Gr *ὑπο-*, *ὑπ-* (*ὑφ* prep and adv. under) = L. *sub*), largely employed in Greek in the formation of verbs, adjectives, and substantives

With verbs, and their derivatives, *ὑπο-* had the senses 'under beneath, down, from below', underhand, secretly, in a subordinate degree, slightly' With adjectives and substantives, *ὑπο-* had the local sense 'beneath, under' in a prepositional relation to the substantive implied in the radical part, or the sense 'in a lower relation, in a lower degree, slightly, somewhat, a little ' in an adverbial relation Few Greek words containing the prefix came down through late L and Fr into English, the only notable exception being the ecclesiastical words *hypocrite* and *hypocrisy*, found soon after 1200 the derivatives, *hypocrit-ic, -al*, etc are later, of 16th c A few others in words, e g *hypostasis*, *hypostasy*, occur (though hardly in Eng.) in end of 14th c considerable number, including *hypochondr-y, -chondr-iac, hypodiastole, hypoderm-a, -ic, hypogee, -gean, hypothesis, hypothesize, hypothesis, hypothesist*, appear in 16th c, and others, as *hypo-acid, hypogastry, gastrium, hypogeal*, in 17th c. But the great majority of the *hypo-* formations belong to the 19th century of modern science, and have no actual Greek prototypes, but are formed (usually) on Greek elements, and more or less in accordance with Greek principles of word-formation *Hypo-* has not, like *hyper*, become a living element, capable of being prefixed at will to words of any origin

The first vowel in Gr *ὑπο-*, L *hypo-*, is short, and all the early words in English were introduced with the *y* short as in *hypocrite, hypocrisy*, etc The *y* is marked as short in all compounds with *hypo-* in Pronouncing Dictionaries down to the middle of the 19th c Some later Dictionaries, while retaining short *y* under stress, primary or secondary, as in *hypocaust, hypothesis*, make it long (ai) in unaccented syllables, as in *hypothesis, hypothesize* But the later tendency in the South of England has been to treat *y* in all positions except before two consonants as (ai), and, against etymology and history, to say *hʃpoulphate, hʃpoutaid*, etc

1 1. In words from Greek the most important of these are *hypochondria, hypocrisy, hypocrite, hypotenuse, hypothec, hypothesis*, and their derivatives

2 In modern formations, with sense 'under, beneath, below', of relative position, sometimes antithetical to terms in Epi- or Hyper- In one set (*a*), *hypo-* has a prepositional relation governing the sb occurring or implied in the following element, as in *hypoatlal*, Hypobranchial, Hypoglossal, in another (*b*), *hypo-* qualifies the second element adverbially or attributively, signifying that this is itself the *nether* or *lower* of two (or more), as in Hyoblast, *hypomere, hypozoa* (animals low in the scale)

3 *Also* a Prefixed to the names of musical modes in *hypoeolian, -dorian, -ionian, -lydian, -mixolydian, -phrygian*, to denote either (*a*) the grave modes in Ancient Greek music, beginning at a definite interval below the ordinary *Æolian, Dorian*, etc or (*b*) the 'plagal' modes in mediæval music, each of which has a compass a fourth below that of the corresponding 'authentic' mode Also formerly in names of intervals measured down wards, as *hypodiapason, diapente, diatessaron, ditone* (see Diapason, etc) (Cf Hyper- 2)

1597 Morley *Introd Mus* 98 If the leading part were highest, then would they call it [a Fugue] in Hypodorian, which is the fourth beneath 1652 [Herake] *Agreeable Occ Philos* 260 Cho with the Moon move after the Hypo dorian manner *Ibid* 261 Luna sinks down the High ereate And musick Hypo Lydian elevate 1760 Stiles *Am. Greek Music in Phil Trans* L. 312 We have already shown the Hypodorian mese to have been a tone below the phrygian in *f*, and the Hypolydian in *g* ♯ *Ibid*, The Hypoionian mese was inserted in *f* natural, and the Hypoeolian in *g* natural, as a fourth respectively from the Ionian and Æolian 1844 Heck & Felton tr *Munk's Metres* 290 The Mixolydian and Hypolydian were subordinate species of the Lydian [mood] 1867 Macfarren *Harmony* 1. 1897 *Daily News* 29 Mar 6/4 Much fun was made of a sailor's ditty said to be written in the hypomixolydian mode

4 'To some extent', 'slightly', 'somewhat', in many adjectives, similarly in substantives, with the sense 'slight' or 'deficient' These words belong chiefly to pathology, and are the opposites of similar formations beginning with Hyper- II

5 In Chemistry, *hypo-* (in contrast to Hyper- 7) is used to name an oxygen compound lower in the series than that having the simple name without *hypo-*, thus, *sulphurous acid* = H_2SO_3, *hyposulphurous acid* = H_2SO_2, *vanadic oxide* V_2O_5, *hypovanadic oxide* $V_2O_4(VO_2)$, *vanadious oxide* V_2O_3, *hypovanadious oxide* $V_2O_3(VO)$

II The more important words belonging to all these groups appear in their alphabetical order as main words, others of less importance or less frequent use follow here. (In many of these the immediate derivation is obvious, they being simply formed by prefixing *hypo* to another word, the etymology of which will be found in its place e.g. *hypoxanthic*, *hypo-* + Xanthic, etc.)

Hypantil monate *Chem*, a salt of antimony tetroxide. ‖ **Hypoa ria** *pl Biology* (Gr *ψάμμος* little egg), a pair of protuberant oval ganglia developed beneath the optic lobes of osseous fishes, hence **Hypoa rian** *a*. **Hypoaso tic** *a Chem* Hyponitrous, hence **Hypoazotide** = hyponitrous acid, $H_2N_2O_2$ (*Syd Soc Lex* 1886). **Hypoba sal** *a Bot*, applied to the lower of the two cells or portions of the oospore of vascular cryptogams (cf Fitzbasal). ‖ **Hypobole** (hipp'bŏli) *Rhet* (Gr *ὑποβολή*, *ὑποβάλλειν* to throw under, suggest), the mentioning and refuting of objections which might be brought against the speaker's case by an opponent. ‖ **Hypocatha rsis** *Med* (Cathartic), a slight purging, so **Hypocatha rtic** (*Syd Soc Lex* 1886). ‖ **Hypocha chilium** (-kălĭăm) *Bot* (Gr *χεῖλος* lip), the basal portion of the labellum of an orchid (*Treas Bot* 1866). **Hypochlo rin** *Chem* (Gr *χλωρός* green), Pringsheim's name for a substance found in every plant cell which contains chlorophyll. ‖ **Hypoclidium** (-klai dĭăm) *Ornith* (Gr *κλείς*, *κλειδ-* key), the interclavicular element of the clavicles of a bird, seen in the merrythought of a fowl, hence **Hypocli dian** *a*. + **Hypoco lon**, a synonym of **Hy pocone** *Zool* (Gr *κώνος* the sixth cusp of the upper molar tooth of mammals of the group *Bunodonta*. **Hypocory stalline** *a Min*, consisting of crystals contained in a non-crystalline or massive mineral substance. **Hy pocycle** *nonce-wd* (see quot.) and Pycnite. ‖ **Hypodactylum** *Ornith* (Gr *δάκτυλον* finger), the lower surface of a bird's toe (Mayne, 1855). + **Hypoden con** (Gr *ὑποδένδρον* under-servant), a subdeacon. **Hy poderma tomy** *Med* (Gr *δερμα* skin + *τομη* cutting), incision of a subcutaneous part (*Syd Soc Lex* 1886). **Hypodermoclysis** (-dĕrmŏklĭsis) *Med* (Gr *κλύσις* a washing, drenching), the injection of nutrient fluids under the skin in the collapse from cholera or other exhausting diseases. ‖ **Hypodiastole** (-dăĭæ stŏli) Gr *Gram* (Gr *ὑποδιαστολή*) = Diastole 3 (a) (see quot 1833). **Hypodicrotous** (-dĭ krŏtŏs) *a Phys*, having a slight secondary wave in each pulse beat. + **Hypodida scal** [ad Gr *ὑποδιδάσκαλος*, see Didascalic], an usher, teacher, an usher. **Hy podigmatical** *a* Gr *ὑποδειγματικός*, indicating by way of example or symbol. **Hy podrome** [mod L *hypodromium* (see Du Cange), f Gr *ὑπο* under + *δρόμος* course], a roofed porch or colonnade. **Hypodyna mic** *a Path*, characterized by weakness or prostration (cf Adynamic). **Hypo ellipsoid** *Geom*, a curve traced by a point in the circumference of a circle or ellipse rolling along the inside of an ellipse (cf Hypocycloid). **Hypogmate** (dăzh'ĕt) *Chem*, a salt of hypogæic acid. **Hypogæic** (-dăzh'ĭk) *a Chem* [f mod L *Arachis hypogæa*, the earth-nut: see Hypogean], an *hypogeic acid*: see quots. + **Hypogei ody** [f Gr *ὑπογειος* underground, Hydrology + *ὁδος* way], that branch of applied mathematics, by which subterrene distances and directions are ascertained, subterraneous surveying. **Hypogenous** (-pŏ jĭnŭs) *a Bot* [Gr *-γενης* produced] (*a*) growing upon the under surface of leaves, (*b*) growing beneath the surface. **Hypo gnathism**, hypognathous conformation. **Hypognathous** *a Ornith* [Gr *γνάθος* jaw], having the under mandible longer than the upper. + **Hy pogram** [Gr *ὑπόγραμμα* something written below] see quot). **Hypohy al** *a Anat* (see Hyo-, Hyoid), forming the base of the hyoid arch, also as *sb*, that part of the hyoid arch which lies between the stylohyal and basibranchial. **Hypokinesso metry** [Gr *υποκειμενον* underlying substance or essence + *μετρη* see quot). **Hypoxine tic** *a Path* (Kinetic), having defective muscular action (*Syd Soc Lex* 1886). ‖ **Hypolemni scus**, + **hypole mnisk** [Gr *ὑπολημνίσκος*, f *λημνίσκοι* band, fillet], the critical mark — **Hypologism** (-pŏ lŏdʒĭz'm) [Gr *ὑπολογισμός* a ratio in which the antecedent is the smaller number] (see quot.). **Hypo menous** *a Bot* (Gr *μένειν* to remain) (see quot.). **Hy pomere** *Biol* [Gr *μέρος* part], the lower half of certain sponges, hence **Hypo meral** *a*, pertaining to a hypomere. **Hypomnema tic** *a* [Gr *ὑπομνηματικός*, f *ὑπόμνημα* note, memorandum], having the form of memoranda or notes. **Hypopne stic** *a* [Gr *ὑποφηστικός* suggestive to the memory], pertaining to or awakening recollection. ‖ **Hyponeu ria** *Path* [Gr *νεῦρον* nerve], deficient or diminished nervous power (*Syd Soc Lex*). ‖ **Hyponoi a** [Gr *ὑπόνοια*, f. *ὑπονοεῖν* to suspect], underlying meaning. **Hy ponome** (hipponōm) *Zool* [Gr *ὑπονομη* underground passage], the ambulatory pipe or fleshy funnel of a cephalopod. **Hyponychial** (-nĭ kĭăl) *a* [Gr *ὑπό*, *ὄνυξ* nail], seated under the nail (*Syd Soc Lex* 1886). ‖ **Hypo nychon, -chum** *Path* [as prec], an effusion of blood under a nail (*ibid*). **Hypo-o smious** *a Chem* (Osmium), containing less oxygen than osmious compounds, as *hypo-osmium monoxide* (Os_2O), *-acid* (H_2OsO_3). **Hypope pay** *Path* [Gr *πέψις* digestion], defective digestion. **Hypopetalous** (-pĕ tălŭs) *a Bot* (also + **potaleous**, **-ious**), having the petals inserted beneath the ovary (Mayne 1854), belonging to the *Hypopetalæ* of Jussieu, a division of dicotyledonous polypetalous plants, hence **Hypope taly**, hypopetalous condition (*Syd Soc Lex* 1886). ‖ **Hypophet** [Gr *ὑποφήτης*], an interpreter, expounder. **Hypophloeous** (-flē'ŏs) *a Bot* [Gr *φλοιός* bark], of lichens growing under the outer layers of bark on trees, etc (Mayne 1855), so also **Hypophlœodal**, **Hypophlœo dic** *adjs*. **Hypophonic** (-fo nĭk) *a* [Gr *φωνη* voice], serving as an accompaniment or response. so **Hypophonous** *a*. ‖ **Hypophora** *Rhet* [Gr *ὑποφορά*], the statement of an opponent's probable objection to the speaker's argument (cf *hypobole*). ‖ **Hypophy llium** *bot* [Gr *φύλλιον* little leaf] (see quot) + **Hypophyllospe rmous** *a Bot* [Gr *φυλλον* leaf + *σπέρμα* seed] (see quot). **Hypophyllous** (-fi lŭs) *a Bot* [Gr *φύλλον* leaf], growing under, or on the under side of, a leaf (Lindley). ‖ **Hypophysa** [Physis], lying beneath, below the physical. **Hypophy sics**, matters that lie beneath physics. **Hy popial** *a*, pertaining to the hypopus. ‖ **Hypopla sia** *Path* (Gr *πλασία*, *πλάσις* formation), defective growth of an organ or tissue. **Hypopla stral** *a*, pertaining to the hypoplastron. ‖ **Hypopla stron** *Zool*, Huxley's name for the third bilateral piece of the plastron in Chelonia (*hypostomial*). **Hy poplasty** *Path* (Gr *πλαστος* moulded, formed), 'a diminution of the fibrin in the blood, also, a diminution of the nutritive or generative activity' (*Syd Soc Lex* 1886). ‖ **Hypopo dium** *Bot* (Gr *ποῦς*, *ποδ-* foot), the stalk of the carpels (*Treas Bot* 1866). **Hypo pteron**, **-um** *Bot* (Gr *πτερόν* wing), applied by Mirbel to a cupula when it is winged inferiorly' (Mayne 1855). ‖ **Hypoptilum** *Ornith* (Gr *πτίλον* feather), the subsidiary shaft or plume of a feather, which springs from the main stem at the junction of quill and rachis, the after-shaft, the hyporachis, hence **Hypo ptilar** *a*. ‖ **Hypopus** (hi popŏs) *Zool* (Gr *ὑπόπους* having feet beneath), a hypothetical nymphal form of certain acarine ticks. **Hypopygial** (-pĭ dʒĭăl) *a*, pertaining to the hypopygium, situated under the end of the abdomen. ‖ **Hypopygium** (-pĭ dʒĭŭm) *Entom* (Gr *ὑπουρυγιον* rump, tail, *πυγη* buttock), (*a*) see quot, (*b*) the clasping organ at the end of the abdomen of many male dipterous insects. **Hypo rachian** (**hyporrhachis**) *a*, of or pertaining to the hyporachis. ‖ **Hyporachis** (**hyporrhachis**) (*ῥάχις*), *Ornith* (Gr *ῥάχις* spine), the accessory rachis or shaft of a bird's feather, the hypoptilum. **Hypora dial** *a*, of or pertaining to the hyporadium of a feather. ‖ **Hypora dius** *Ornith*, one of the barbs of the after shaft or hyporachis of a feather. ‖ **Hyporcha sis**, **hyporchema** (hipŏrkē'ma) (Gr *ὑπόρχησις*, *ὑπόρχημα* to dance), a choral hymn to Apollo, accompanied by dancing and pantomimic action. **Hyporchematic** (hipŏrkēma tik) *a* (Gr *ὑπορχηματικός*), accompanied by dancing. **Hy porrhined** *ppl a nonce-wd* [Gr *ὑπόρρινος* under the nose, *ὑπορρίνιος* moustache], moustached. **Hyporrhythmic** (-rĭ thmĭk) *a* (Rhythmic), deficient in rhythm, said of a heroic hexameter in which the cæsura is not observed (*cent Dict*). **Hyposcleral** (-sklē răl) *a Surg* [see Sclerotic], performed beneath the sclerotic coat of the eye. **Hyposclerite** (-sklē rait) *Min* [Gr *σκληρός* hard], a blackish green less hard variety of Albite (Dana *Min* (1868) 350). **Hyposole rous** *a*, somewhat hard (*Syd Soc Lex* 1886). **Hyposte lestal** *a Anat* [see Skeleton], developed below the endoskeleton. — Hypostal (cf Episkeletal). + **Hypospha gma**, **hy posphagm** [Gr *ὑποσφαγμα*], a contusion, a bloodshot eye. **Hyposphene** (hi pŏsfēn) *Comp Anat* [Gr *σφήν* wedge], Cope's name for a wedge-shaped vertebral process situated on the neural arch below the postzygaphophyses, in some extinct reptiles of the Permian period, hence **Hyposphe nal** *a*. ‖ **Hypospora ngium** *Bot* (Sporangium), the indusium of a fern, when this grows from beneath the sporocase. **Hyposte rnal** *a Anat* [Gr *ὑπόστερνον* see Sternum], in *hypesternal bone*, also *hyposternal* as *sb*, Huxley's name for the hypoplastron of a chelonian, also called ‖ **Hyposte rnum** **Hyposthenic** (-sthe nĭk) *a Path* [Gr *σθένος* strength], of a medicine or disease having power to lower or reduce strength (Mayne 1855). **Hyposti gma** *Iubergy* [Gr *ὑποστιγμή* a comma], the comma, which in ancient punctuation had the form of a modern full stop. **Hyposti bite** *Mem*, a hydrous silicate of alumina and lime allied to stilbite, with which it is often associated. **Hyposto matous**, **hypo stomous** *a Zool* [Gr *στόμα*, *στοματ-* mouth], having the mouth inferior, as certain fishes and infusoria (*Hypostomata*). ‖ **Hypostro ma** *Bot* [Gr *στρῶμα* layer], Martius' name for the cellular layer supporting the stroma of fungi. ‖ **Hypostrophe** (hi pŏstrŏfi) [Gr *ὑποστροφή* turning back], a *Path* (*a*) a turning or tossing as of the sick in bed, (*b*) a relapse, return of a disease, (*c*) a falling back, as of the womb (Mayne 1855), b *Rhet* reversion to a subject after a parenthesis. **Hypostyle** (hi pŏstail) *a Arch* [Gr *ὑπόστυλος*, see Style], having the roof supported on pillars. **Hyposty ptic** *a Med* [see Styptic], slightly astringent (Mayne 1854). **Hyposyllogi stic** *a*, having the value, but not the strict form, of a syllogism. **Hypota ctic** *a Gram* [Gr *ὑποτακτικός*], dependent, subordinate (see quot). (cf *hypotaxis*). ‖ **Hypota rsus** *Ornith* [Tarsus], a process of the hinder part of the tarso-metatarsus of most birds, the talus or so-called calcaneum, hence **Hypota rsal** *a*. ‖ **Hypota xis** *Gram* [Gr *ὑποτάξις*, *τάσσειν* to place], subordination, subordinate construction. ‖ **Hypothecium** (hipŏ jĭ sĭŭm) *Bot* [Gr *θηκίον*, dim of *θήκη* case] (see quots), hence **Hypothe cial** *a* (*-phōrial*) *a Anat* [Gr *ὑποθέναρ*, *ὑ θέναρ* palm of the hand], of or pertaining to the eminence on the inner side of the palm, over the metacarpal bone of the little finger. **Hypothe rmal**, **Hypothe rmic** *adjs* [Gr *ὑπόθερμος* somewhat warm, *ὑ θερμός* warm, hot], (*a*) tepid, (*b*) relating to reduction of the heat of the body, as in fever, 'the condition of being hypothermal' (*Syd Soc Lex* 1886). **Hypotrichous** (hip-, haipŏ trĭkŏs) *a Zool* [Gr *θριξ*, *τριχ-* hair], of or pertaining to the *Hypotricha*, an order of the class *Ciliata* of *Protozoa*, having the locomotive cilia confined to the ventral surface. **Hypotrophy** (-pŏ trŏfi) [Gr *τροφή* nourishment], a condition of an organ or part due to defective nourishment (Mayne, 1855). **Hypotympa nic** *a Anat* [see Tympanum], situated beneath the tympanum, applied esp to the lower bone of the jaw-pier in osseous fishes, also as *sb*, the quadrate. **Hypoty pic**, **Hypoty pical** *adjs*, subtypical, not fully typical. **Hypova ndate** *Chem*, a salt of hypovanadic acid. **Hypovanadic** (-văna dĭk) *a Chem*, containing less oxygen than a vanadic compound, as *h oxide* = vanadium tetroxide, V_4O_8. **Hypovana dious** *a Chem*, containing less oxygen than a vanadious compound, as *hypovanadious oxide* = vanadium dioxide, V_2O_3. **Hypoxylous** (-pŏ ksĭlŭs) *a Bot* (Gr *ξύλον* wood), pertaining to ascomycetous fungi of the genus *Hypoxylon*, which grow on trees, decaying wood, etc. ‖ **Hypozeu gma** *Gram* [Zeugma], the combination of several subjects with a single verb or predicate. ‖ **Hypozeu xis** *Gram* (Gr *ὑπόζευξις*), the use of several parallel clauses, each having its own subject and verb. ‖ **Hypozoa** (hipŏzoa ă) *Zool* [Gr *ζῷον* animal], a subdivision of the animal kingdom, including the lowest living forms, = Protozoa (*Syd Soc Lex* 1886), hence **Hypozo an** *a* **Hypozoic** *a* (*a*) *Geol*, lying beneath the strata which contain remains of living organisms, (*b*) *Zool* of or pertaining to the *Hypozoa* (*Syd Soc Lex* 1886)
