The ~~method of using the Simplified Ready Reckoner~~ is illustrated by the following example :

Suppose the naye paisa equivalent of 6 annas and 6 pies is required. Find the *horizontal* column beginning from 6 in the "annas" column (extreme left). Then find the *vertical* column beginning from 6 under the "pies" column at the top.

It will be seen that these two columns meet at the figure 41. This figure, namely, 41, is the equivalent in naye paise of 6 annas and 6 pies.
