Ps-. Words beginning with this consonant combination (with the exception of a few interjectional monosyllables, *psa, pshaw, pst*) are all taken or formed from Greek, in which language the combination is frequent, and has been represented from about B C 450 by the single letter Ψ, *ψ*

The only words in *ps* which go back to Old English times are the ecclesiastical terms *psalm* sb and vb. and *psalter* *Psedeteron* and *psaltery* appear in the 13th c. *pseudo*, and some five of its compounds, occur in Wyclif. All the other *ps* words are of Modern English formation, few before 1600, the great majority of the 19th c. In *psalter* the initial *p* was dropped already in OE as in OF and the cognate languages, and in English has never been restored ; the pronunciation (as it has been in French and German) Thus appears to have served as a precedent for dropping the *p* in the pronunciation of other words as time, badly, practice often leading to ambiguity or to disguising of the composition of the word As the *p* is now pronounced in French German and other languages, as well as by Englishmen in reading Greek, and by many scholars in English also (there being no organic defect in the English mouth to prevent it), it is here marked, except in the *psalter Psalter* group, as an optional pronunciation which is recommended especially in all words that retain their Greek form (e g *psora psych*), and in scientific terms generally, which have not been irretrievably mutilated by popular use.

Pseudo- (ps-, *sjūdo*), before a vowel usually **pseud-**, repr the Gr combining element *ψευδο-*, *ψευδ-*, 'false, falsely', from stem of *ψευδ ης* adj. false, *ψεῦδ-os* falsity, falsehood, *ψεῦδ ειν* to deceive, cheat, *ψευδ ασθαι* to be false, speak falsely. Forming in Greek many compounds, with sbs., as *ψευδομάρτυς, τυρ* false witness, *ψευδαπόστολος* false apostle or messenger, *ψευδάργυρος* a false number, *ψευδάργυρος* mock silver; with adjs. or adj formatives = falsely, as *ψευδολόγος* speaking falsely, *ψευδόλογος* feigned to be rich; and sometimes with verbs, as *ψευδωνυμεῖν* to falsify

Some of these Gr substantives and adjectives were adopted in later Latin, esp terms of natural history, as *pseudanchūsa* bastard alkanet, *pseudosphex* false wasp, *pseudosmaragdus* false emerald, and words of Christianity, as *pseudapostolus, pseudochristus, pseudoprophēta*, etc In later times, *pseudo-* was prefixed also to L. words, as *pseudofūrtus* bastard yellow, *pseudolūpanārius, pseudopastor* (Jerome) Thence it became common in med L, as in *pseudodoctor, pseudonumnus*, etc see Du Cange

In English, *pseudo-* appears first in Wyclif, viz in adaptations of L words of the Vulgate, as *pseudo Christ, pseudoprophet*, and in words formed after these, as *pseudo clerk, pseudo Jerre* (= friar), *pseudo-priest* Few examples occur in the 15th and 16th c., and in these *pseudo* was usually written separately, as an adj see prec word But after 1600 the combination of *pseudo-* with a sb became common at least 20 examples appear before 1700, and 20 more before 1800 By 1800 *pseudo* had become a living element prefixable at will, instead of the adjective *false*, or *virtual*, as in the 17th c and the examples during the 19th c are very numerous. To adjectives *pseudo* began to be prefixed in the 17th c., but examples are not numerous till the 19th c, when the use with an adj became nearly as free as with a sb

In this dictionary, words in *pseudo-* are dealt with in three groups 1 Those in which the two elements have their obvious and ordinary sense, *pseudo-* being thus equivalent to an adj or adv

2 Scientific and technical terms, not in general use in which either the element with which *pseudo* is combined, is not a separate word in English, or if it is, the combination is a permanent term, with a special meaning

3 Important combinations and compounds, in general use, or of long history, or having derivatives these are treated as Main words.

1 Prefixed to any noun or adjective, forming combinations, mostly nonce-wds, with the sense 'false, pretended, counterfeit, spurious, sham, falsely so called or represented, falsely, spuriously, appearing really but not really'. Here *pseudo-* is properly hyphened

As *pseudo-* can be prefixed to any word almost as freely as it can be qualified by false or the like, the possible combinations are unlimited in number, and no purpose would be served by giving a long list instead of this, a catena of quotations is given in chronological order to illustrate the use, a, with a substantive, b with an adjective.

Pt. Words beginning with this combination of consonants are all (with the exception of the fancifully ms spelt *ptarmigan*) from Greek, in which the combination is frequent

In English the *p* of initial *pt* is commonly omitted in pronciation so as to confound words like with those in *T* As the *p* is pronounced in French, Germa , and other languages as well as by Englishmen in reading Greek, and by some scholars in English, the full form is here given as an opt ional pr nunciation often to be preferred Few of the words are in famil ar use

Note from Gaelic. *Armachan* evidently goes back through the cited *tarmis hen* and *tormican* to *tormachan* in 1685, and prob much earlier It has the form of a diminutive of *t'armach* (cf *balachan* dim of *balach* boy *tulachan* dim of *tulach* hillock, etc) and *tármach* is given as a synonym in living use in Armstrong s and the Highland Society's Dictionaries. In the word has thus all the appearance of being native *A priori* also, it is natural that the name of a bird found only on the Highland mountains should have been Gaelic But *t'armach* has no obvious derivation in Gaelic and some Celtic scholars think that it may be a foreign word which has put on a Celtic guise On the other hand, the word if not from Gaelic, is without any etymology in Lowland Sc , for *termagant* can only be considered a popular perversion of the 'sparrow grass order']

The varieties of sense are numerous and pass into each other by many intermediate shades of meaning. The exact shade often depends upon the substantive qualified and in some expressions more than one sense is vaguely present; in others the usage is traditional, and it is difficult to determine in what sense precisely the thing in question was originally called public.

Public school. A school which is public, in senses varying with time and place

The Latin *publica schola* under the Roman Empire to the fourth (and by impl cation, the first) century A.D., and also appears in the Capitula of Louis the Pious A.D. 829, in the sense of a school maintained at the public expense national or local

1 In England, originally, A grammar school founded or endowed for the use or benefit of the public, either generally, or of a particular locality, and carried on under some kind of public management or control, often contrasted with a 'private school' carried on at the risk and for the profit of its master or proprietors In recent English use (chiefly from the 19th century), applied especially to such of the old endowed grammar-schools as have developed into large boarding schools, drawing, from the well-to-do classes of all parts of the country or of the empire, pupils, who in the higher forms are prepared mainly for the ancient universities or for the public services, and to some large modern schools established with similar aims As it is a general characteristic of these large schools that order is maintained and discipline administered to a great extent by the elder pupils themselves, this has come to be a recognized feature of the English public school, and is often the prominent notion in such phrases as 'a public school education' or 'training', 'the English public school system', and the like

The Latin form appears in the 12th c, and is frequent from the 14th c as applied to an endowed free grammar school The English form *public school* is known in the 15th, but was no doubt used earlier Down to the 18th c it was very generally opposed to 'private school,' and education in a 'public school' was also contrasted with education at home under a tutor The term was officially used in 1860 in the appointment of a Royal Commission, and in 1867 in 'An Act for the better government and extension of certain Public Schools As this act applied to the ancient endowed grammar-schools or colleges of Eton, Winchester, West minster, Harrow, Rugby, Charterhouse, Shrewsbury, these have sometimes been spoken of as 'the Seven Public Schools: but the name is generally used to include these and more than twenty other large schools, ancient and modern, of similar organization, which are not separated by any definite line from other endowed schools that depend upon a more local constituency

3. In Scotland, British colonies and dominions, and the United States of America. A school provided at the public expense and managed by public authority for the use of the community of a defined district, as part of a system of public (and usually free) education

The term has been used in New England and Pennsylvania from the 17th c., and has been adopted in all States of the American Union. An early synonym was 'free school', and a later one in some States, 'common school', which is now however generally confined to a school of the lowest grade or 'public elementary school In Scotland, the name was made official by the Education Act of 1872 see quot Scottish 'Public Schools were by the Code of 1908 classed as *Primary Intermediate*, and *Secondary*, a classification based solely on the extent of their curriculum. II 6 A preparation of food of a soft or moderately firm consistency, in which the ingredients, animal or vegetable, are either mingled in a farinaceous basis (chiefly of flour), or are enclosed in a farinaceous 'crust' (cf. DUMPLING), and cooked by boiling or steaming Preparations of batter, milk and eggs rice, sago, tapioca, and other farinaceous substances, suitably seasoned, and cooked by baking, are also called puddings

The earliest use (connecting this with 2) apparently implied the boiling of the composition in a bag or cloth (*pudding bag* or *cloth*), as is still often done; but the term has been extended to similar preparations otherwise boiled or steamed and finally to things baked, so that its meaning is not applicable to any one rather indefinite

[*Note* Suggestions as to the origin of the name *puffin* have mostly supposed some connexion with the verb or *sb. puff* 1 the adj *puffy*. Thus it has been conjectured to refer to the puffy or corpulent appearance of the bird (quot. 1678), or esp to the plumpness of the young, formerly considered a delicacy (cf the simile 'as plump as a puffin'), also to the soft downy clothing of the young (Prof A. Newton). Others have sought an explanation in the remarkable puffed form beak, or in a puffing sound uttered by the bird or its young when seized Calius (1570) expressly declares that the name is derived 'a naturali voce *pophin*'. But, as the ME. forms of the name are spelt *poffe*, and the earliest known association of the bird under this name was with Cornwall and Scilly, it is evident that these conjectures rest on insecure bases. The name may even have come from Cornwall, and its change to 'puff' may be due to 'popular etymology' in English. The erroneous sense b is due to RAY, who was took young ape i nens of the shearwater from the Isle of Man for puffins and applied to them the name *P. anglorum* (adopted by Gesner to the real puffin) which has unfortunately been retained in ornithological nomenclature.]

Pump (pump), *sb* 1 Also 5–7 **pompe, pumpe,** (5–6 **pomp, poompe,** 6 **poumpe**) : see also Plump *sb* 2 [Late ME *pumpe, pompe*, = early mod Du. *pompe*, Du *pomp*, LG *pumpe, pumpf*, mod.Ger *pumpe*, whence Da. *pompe*, Sw *pump*. also Fr *pompe*

Machines for raising water were in ancient and mediæval use, but no trace of the name *pumpe* appears before the 15th c. this is, as yet, known first in Eng *c* 1440, in the sense of a ship's pump, for pumping out the bilge water, in which sense it was quite common 1450–1500. In Du, LG HG not recorded in this sense before the 16th c, in Fr cited 1517 in Hatz Darm., in Da in Verwijs & Verdam, in Ger *c* 1550 (Hans Sachs in Grimm). Plantijn 1573 gives for Du only the sense 'bilge, *de bonsp des schips*,' Fossec de la mayre, sentina, *pompen, pompers*,' and Kilian 1599 has *pompe* in same sense both of a ship's pump, and a pump generally In Du dialects, *pompe* is found as 16th c name of a pipe or tube of wood or metal, or a stone conduit, for the conveyance of water under ground, a sense also found in Frisian, and in some Low German dialects. In most of these dates and various senses it is not easy to form any inference as to the language in which the word arose; but the probability has been in English and Dutch (or Low German) in either case, and prob. first in nautical use The primary sense seems to lie between that of 'pipe, tube,' and an echoic formation from the sound of the plunger striking the water. In the latter case the latter of the collateral form *plumpe*, Plump *sb* 2 found as early as 1477, also LG *plumpe* pump; and conversely Ger *pumpf* the sound of a heavy *pumpen* to make such a sound (Grimm), admittedly echoic. The Cat, Sp Pg *bomba* (pump), viewed by Diez as the source of the French, may have been derived from F *pompe*, but is more prob an independent though analogous echoic formation The It. is *trombe*, orig = trumpet, tube, but Venetian and some other north It dialects have *bomba* from Fr or Ger]

I 1. A mechanical device, commonly consisting of a tube or cylinder in which a piston, sucker, or plunger is moved up and down by means of a rod, or rod and lever, so as to raise water by lifting, suction, or pressure, the movement of the water being regulated by a suitable arrangement of valves or clacks; from early times used on board ship to remove bilge-water; also, from 16th c, for raising water from mines, wells, etc., now, a generic term for a great variety of machines and mechanical devices for the raising or moving of liquids, compressing or rarefying of gases, etc.

Pumps are variously qualified according to the principle of action, manner of working, mechanism of operating, purpose, etc, as *force, lift, lifting, suction pump* : *bure, centrifugal, centripetal, chain, double-acting, jigger, oscillating, post, rope, rotary, spiral pump* : *bucket, pump* : *air-beer, bicycle, bilge brest, circulating, dental, donkey, dredging, feed, gas, mining, oil, pneumatic, sailing, stomach pump*, etc, for many of which see the specific words.

[*Note* As to the origin of the name *punch* Yule thought that there is something of Indian idiom in the suggestion of Fryer But there are serious difficulties. The word for five' in the Indian vernaculars Hindi, Guzarāti Marāthi etc, is *pānch* (in Anglicised form formerly spelt *panch*), while the drink has unfortunately been *punch* and was by Fryer spelt *paunch* app. only to support the alleged derivation The combining form of *pānch*, however is *pānch* with short ā (= Eng *ŭ* in *but*) as in Hindī *panchāmrit* a mixture of five substances *panchkhhadra* a sauce of five ingredients, *panchgavya* the five products of the cow etc; and it has been suggested that *punch* may have been short for some such compound as, in fact *panchthāl* a council of five has been colloquially shortened to *panch* PUNCH *sb*[3] But the history of English pronunciation shows that *punch* was in the early 17th c. pronounced not with the *u* in *pun* but with the *u* in *pull* and as it still is in the north of England, and was by Dr Johnson (' Who s for Poonah? see PUNCH BOWL quot 1751)) which is confirmed by the *punch* in *punchbowl* regarding the five products of the cow etc; *punch* so pronounced does not represent either *pānch* or *punch* in Indian languages, which makes its origin from that source improbable Moreover the number of ingredients does not seem to have been at any time so fixed as to give origin to a name; some early writers give four, some only three some as many as seven; it has been usual to say five but the fifth has been very variously specified. As several early passages show that punch was esepc ally a seaman s drink the Rev C. P. GRANT has suggested that the name originated not in India but on the way thither and may have been a sailors shortening of *puncheon*, as that to which sailors would look for the first allowance of liquor See *N & Q* 10th s IV 401 28 Nov 1905, and subseq. articles to 27 Jan. 1906]

Punch (pʌnʃ), *sb*[4] and *a* Now chiefly *dial* [Of uncertain origin No words certainly related are found outside English

It has been suggested that it is short for PUNCHEON[2] cf Bav dial *punsom* a cask, also a short thick person or thing (Wedgwood) also that it is connected with Burnt But as Pepys, in quots. 1669 in PUNCHINELLO 2 and in A here records the use of both *punchinello* and *Punch* as appellations for a short and thick person, it is highly improbable that *Punch* in this sense as well as in the next word, was in its origin short for PUNCHINELLO As it is not certain whether the *sb* or adj was the original the senses are here arranged chronologically on the hypothes s that the adj B was an attrib. use of the sb. A and that an elliptical use of the adj. gave rise to the substantive sb C

[*Note* There is every probability that the Eng *polichinelle* and F *polichinelle* are derived from the Neapolitan word, and that *Punchinello* although evidenced somewhat earlier, and actually given prob. in error as the name of the puppet showman was an English alteration. The Italian word is said in the *Vocabolario Napoletano* of 1789, to be a corruption of the name of a comedian *Puccio d'Aniello*, originally a peasant of Acerra, whose uncouth physiognomy is said to have served as the model for the mask of the character: another conjecture cites the name of *Paulo Cibellio*, said to have been a buffoon at Naples. Setting aside these legends or conjectures, it has been pointed out that It. *polichinello* is dim. of *polichino* chicken, and according to Quadrio and Berretti, cited by Panigiani *Vocab Etimol Italo lingua Ital*, 1907, in the Neapolitan dial. *pollecenella* is dim. of *pollecena*, the young of the turkey-cock to the hooked bill of which the nose of the mask bears a resemblance]

2. From the middle of the 14th c , sometimes applied (in Law French) to the piece or tract of land between the wider bounds of a forest and the restricted bounds as fixed by perambulation, and thus passing into the sense of PURLIEU, q v

The exact history of this transfer of sense is not evidenced, it was prob. at first an incorrect popular use of the term, but it appears to have been already established before 1344 (when the L. *perambulatio* appears in the same sense), and thus within ten years of the time at which Robert of Brunne used *purald* in the original sense. *English* examples have not yet been found before 1480, when the word evidently appears as PURLIEU ; but *purallye* (*purlye*), was used by Manwood and by other legal writers as identical with *purlieu*, and the form *purlye* has come down from the 16th c to modern times in the comb *purlyeman* as variant and spoken form of PURLIEU MAN, q v

1 *Hist.* A member of that party of English Protestants who regarded the reformation of the church under Elizabeth as incomplete, and called for its further 'purification' from what they considered to be unscriptural and corrupt forms and ceremonies retained from the unreformed church, subsequently, often applied to any who separated from the established church on points of ritual, polity, or doctrine, held by them to be at variance with 'pure' New Testament principles

According to Stow (see quot 15) the name was (if origin ally) assumed by congregations of Anabaptists in London; but this is probably an error, for otherwise it appears in early use always as a term of reproach used by opponents and resented by those to whom it was applied see quot from Fuller 1655 Its application changed with time and the course of events Originally, it was applied to those within the Church of England who demanded further reformation, especially in the direction of Presbyterianism; afterwards, naturally, to the same party when they were separated from the Church, and became the anti episcopal Presbyterians, Independents, or Baptists, and consequently to the typical 'Roundheads' of the Commonwealth period, whose puritanism was sometimes little more than political In later times, the term has become historical, without any opprobrious connotation, and has even, from its association with *purity* and *pure*, come to be treated, by those who in opinion agree more or less with the early Puritans, as a name of honour

Note The various senses above have been treated together rather for convenience, as it is difficult, in the manufacture of apparel, to say from any certainty that they are all uses of the same word The derivation of sense 3 seems clear That sense 2 had the same origin is likely, but the *twist* given to the minute loops was the characteristic. Or it may be that as the purl edging of lace, etc. had a similar ornamental use to that of gold and silver wire, the name was extended from the one to the other; the possibility of this appears to be shown by Cotgrave's inclusion of both as meanings of *Canetille*, and by the fact that Randle Holme's manches II and III is much more difficult to explain and their inclusion must be considered as merely provisional; the latter may very well be a distinct word perhaps better spelt (as it often is *pearl* Minsheu in his *Dictior* suggested that *purle* was the same word as PURFLE, but this is historically as well as phonetically impossible.

Pusseyism (pu·siz·iz'm) [f the name of Dr E. B Pusey, 1800–82, professor of Hebrew and Canon of Christ Church at Oxford + -ism] A name given by opponents to the theological and ecclesiastical principles and doctrines of Dr Pusey and those with whom he was associated in the ' Oxford Movement ' for the revival of Catholic doctrine and observance in the Church of England which began about 1833 , more formally and courteously called Tractarianism Now little used

Dr Pusey's initials were appended to No. 18 (of Dec. 1833 on Fasting) of the *Tracts for the Times*, and of the ninety, seven were written by him His academical ecclesiastical position gave great weight to his support of the movement and specially associated his name with it.

1838 Sterling in *Ess & T* I. (1848) 101 Calvert an Oriel man a contemporary and friend of Froude s but quite opposed to Puseyism. 1840 Mrs. Car. Put (put), *v.*[1] Pa. t. and pa. pple. **put** (put). Forms: see below. [Late OE. *potian* (? **potiende*), represented *c* 1050 by the vbl. sb. *putung* (? **pūtung*), PUTTING; thence early ME. *pōten* and ? *putten*, later *putten*, *putt*, *put*. Beside this, late OE. had *potsan* (11th c.), ME. *pōten* (see POTE *v.*), and *potten*; also, OE. *pyttan* (repr. by *pytan dē* in the OE. Chron., MS. F, (12th c.), anno 796, and *dē ápýtan*, put out, thrust out, Numbers xvi. 14), which made, by sound assimilation ME. *putten*, *puytte* (= *pitte*), and may even have been the source of the late ME. *pytten*, *putten*, *pyt*, *put*. Prof. Sievers thinks that the stem-vowel in OE. *pýtan* (...**pūtjan*) was certainly long, and in *putian* probably so, and suggests that the ME shortening of the vowel was carried over from the pa. t. and pa. pple *pytte*, *putte* from *pýtt*, *pytt*. The normal conjugation in pa. t. *put-te*, now *put* (cf. *cut*), in ME. and early mod. Eng also *puttede*, *putted*, pa. pple ME. *yput*, *yputte* and *putt*, now *put*, also in 14–16th *c* *putted*. But in Sc. and north Eng. dialects, *put* (or rather its northern form *pyt*, *pit*), has been from the 15–16th c. conjugated as a strong vb., with pa. t. *pat*, pa. pple. *putten* or *putten* (also in Eng. dialects *putt-en*, *-in*, *-un*), and sometimes *put*, and also arose out of **putten*. With these compare the northern inflexion of HIT, *hat*, *hutten* or *hitten*. The variant *pot*, *pott*, occurs as an existing dialect form, besides surviving in a differentiated form and sense as POTT. The differentiated vb PUT[2], PUTT (*pʊt*), used in golf, and in Sc. also in 'putting the stone', is conjugated *putt*, *putted*, *putting*, and is thus quite distinct in Sc. from *pit*, *put*, *putten*, as well as from the ordinary Eng *put*, *put*, *put*.

For the earlier history evidence is wanting, but the various forms appear to be parallel formations from a stem *pŭt*, *pŏt*, whence also PUTT, PUTTOCK, PUTTY, in which it appears in Kalkar only from the 17th c. Rietz gives a southern Swedish *putta* (with variants *pitta*, *pottai* in two senses (1) a knife, (2) a knuffa ill linefter (to strike with a push gently)); (2) = sticka undan, ställa bort, 'putta i lom man' (to put out of the way (or conceal), put away, 'put in the pocket'). The Welsh *pwtio* and Gaelic *put* are from Eng. ME. had also a vb. *putten*, *pitten* (see PUTT), which was synonymous with *put*, and even occurs as a variant reading in 1381 *c* MSS., but could not be formally related. It became obs. (at least in the senses in question) before 1500. In the sense 'strike with the head or horns', ME. *putten* was in early use identical with *butten*, BUTT *v.*[1] 1, by which it has been superseded in literary English; but some dialects retain *put* in this sense

Obs* [Origin obscure see below.] The original name of the small or short shrouds connecting the lower shrouds with the top, also, where there is a top gallant mast, the similar set connecting the topmast shrouds with the top gallant top. After 1700 usually called **puttock shrouds**, and now *puttock-shrouds*, from an erroneous confusion of the word with Futtock in the latter half of the 18th c.

a 1625 *Nonsenc Navalis* (Harl MS. 2301) 100 *Puttocks* are the small Shrowdes which goe from the Shrowdes of the Main, Fore and Mizen mast also to the Topmast shrowdes, if the Topmast have a topp gallant topp, t'e use whereof is to goo of the shrowdes into the topp, for when the shrowdes come neare upp to the mast they fall in so much that otherwise they could not gett into the topp from them. [*Note.* The form *puttock* is so regularly used down to 1750 at least, but after that date it appears to have been from simplicity of sound, confused with Futtock, the name of the middle timbers of the ship's frame, with which the *puttocks* had no manner of connexion Hence in Falconer's *Marine Dict* 1769, and app in all later works, *puttock* is replaced by *futtock*, as the combinations given in Falconer 2, *futtock hole, hoop, plate, rigging, shroud stuff stave* belong to this erroneous substitution of *futtock* for *puttock* As *futtock* was perh only a *sea-sound*, it has been suggested that *puttock* was = *pothook* (of which a form *puttock* occurs in 1707) but nothing in the sense appears to confirm this suggestion Some alliance of Puttock[1] has also been conjectured. More probable is a connexion with Du *puttinc*, applied in 1673 to the chains of the main shrouds, while *staes i puttinc* 1731 renders F *cauches de hune* the puttock shrouds. Cf Efris *puttinq* (pl *-s*, *-en*), ter *putting* or *pulting* (*-s*, *-en*), Da. *pytting* (*-er*), *sw pöttinq*, the iron links or chains by which the shrouds of the mast-s are secured to the ship s sides, the chains of the dead eye, ter *puttinq tane*, Da. *pytting vanter*, *sw pöttingvant* = 'puttock shrouds' But the source of *puttinq* or *pulting* is unknown]

[*Note* 1 The etymology of *puzzle* the first question is the relation of the vb. has and vb. to the noun. It is held to be derived from the sb, and the latter viewed as an aphetic form of Apposal or Oppose. But the chronology of the words and still more the character of their earliest history seem to make it clear that the verb came first and that the sb. was its derivative In the light of this, the vb. has been referred to Poke *sb*.2, as a diminutive or other derivative formation; as in *smack : smackle*. This is phonetically possible cf *nozzle* from *nose*. But there are serious difficulties in the application. Of the earlier sense of *puzzle*, as seen in the examples under 1 a above, no trace appears in the original sense *sb*.2 and *sbpose* to examine by putting questions, and it is only the derivative senses of *pose* and *v.* of *Puzzle* that come into use. Again, this theory seems to be that of two words originally distinct, which (as in some other cases) have subsequently intersected each other *Puzzle* was possibly the same word of which the pop Poselet occurs late in the 14th c. app in the sense be wildered confused confounded', and which, ruming with *bewilet*, i e *Bazelet*, Holmet, was early pronounced (pǝ'zel, let) which would regularly give by 1600 (pu zled), later (pu zled) the non appearance of the verb during the later 16th and 17th centuries might be owing to its being one of the colloquial words which came into literary use in the 16th c. This is however conjectural and, even if true, leaves the ulterior derivation still to seek A similar form appears in late OF *pushun* 'to pick out best pieces of food (Sweet), = Du *peuzelen* to pick to peddle, Ls *pōsin, pozzelin*, Norw *pusla* but it is difficult to see in its sense any connexion with that of 'puzzle 1]

Note The numerous Latin versions of Dioscorides left πυρακακανθα unidentified, and merely latinized as *pyracantha* According to Lobel *Adversaria* 438 (1576), this was derived from L. *pyrus* pear + Gr. ἀκανθα thorn from the resemblance of the leaves to those of the wild pear (arbusta cui facies folium Pyraste) (hopter thorum simstudiumen nonnulli Pyracanthum vocant But this hybrid origin was of course impossible for the Greek word and the name has been commonly taken as meaning fire-thorn f πυρ fire + ἀκανθα thorn, and considered to be appropriate to the pyracanth from its profusion of scarlet or flame-coloured berries. For the late use of this with the πυρακακανθα of Dioscorides (here a no other evidence.)

4. *Arith.* Applied to the several series of numbers, each beginning with unity, obtained by continued summation of the several series of POLYGONAL numbers, so called because each of these numbers, represented (e.g.) by balls, can be arranged according to a certain rule in the form of the corresponding pyramid (on a triangular, square, or polygonal base).

Thus the series of *triangular* numbers 1, 3, 6, 10, 15, 21 gives, by summation of its cessive terms the series of *1st angular pyramidal* numbers 1, 4, 10, 20, 35, 56. Similarly from the series of square, pentagonal, etc. numbers are obtained corresponding series of pyramidal numbers. The pyramidal numbers constitute the second (sometimes called the *third*) order of figurate numbers; see FIGURATE *spl. s.* 3. The term was formerly extended (with ordinal numerals) to the succeeding orders of figurate numbers, each obtained similarly from the preceding by continued summation; see 1795 in b. (In quot. 1674 erroneously used.)

1674 Jeake *Arith.* (1696) 663 Six is called the first Pyramidal Number; for the Units therein may be so placed, as to represent a Pyramis. 1795 Hutton *Math. Dict. 3 In Chemistry, *pyro* is prefixed to the name of a substance or to an adjective forming part thereof, in order to name a new substance formed by destructive distillation or other application of heat.

Names thus formed appeared first in the *Méthode de Nomenclature Chimique* of De Morveau, Lavoisier, etc. 1787 Many of the substances originally so called have subsequently received other names.

a. Prefixed to the adj denominating an acid (+ sometimes an ether or spirit), to form the name of a new acid, etc. The substances properly so denominated were themselves mostly acids, but sometimes anhydrides or other derivatives.

Πῠθῐος is now generally held to have been derived from Πῠθώ or Πῦθών, the older name of Delphi and the surrounding district, and to have been in ancient times connected with the legend of the *πῦθων* or monstrous snake said to have been slain there by Apollo: see Python 1.]

Of or pertaining to Delphi, or to the oracle and priestess of Apollo there; also, of or pertaining to the games held near Delphi.

Pythian Apollo, Apollo in his legendary and oracular connexion with Delphi. *Pythian games*, one of the four national festivals of the Greeks, held near Delphi: *Pythian meter* or *verse* (L. *versus Pythius*), the dactylic hexameter: said to be so called either from its use in the Pythian oracles, or from the first song of triumph to Apollo on his victory over the Python
