Pasha, **pacha** (pɑ·ʃa, pā·ʃā) Forms 7–8 **pascha**, 7 **passa**, 9 **pashaw**, **pacha**, 8– **pasha**. [Turkish *pasha*, generally held to be the same as *bāsha* from *bāsh* head, chief, in some Eastern Turkish dialects *pash* The form with *b* was app the earlier, being that first adopted in Western languages see BASHAW

In Turkish there is no hard and fast line between the breath and voice stops and in the case of *p*, *b*, the confusion is increased by the absence of *p* in Arabic and the occasional replacement of Persian and Turkish *p* by *b*: *pādshāh*, *pādeh-i-hahuchēr*, *bādeh*, thus may have conduced to interchange of *b* *p* and survival of the *p* in *pasha* Some however think *pādshāh* and *bādsh* originally distinct words (cf quot 1687) Zenker distinguishes the latter of the Janizaries from *pāshā* which is now largely a civil title; but Barbier says that the title in either form, was under the ancient régime exclusively a military one The best Turkish scholars think there is no ground for connecting the word in any way with Pers *pādshāh* king or emperor, Turkish *pādishāh* the Sultan]

A title borne in Turkey by officers of high rank, as military commanders, and governors of provinces. Formerly, esp in the case of military commanders, written BASHAW

There are three grades of pasha, formerly distinguished by the number of horse tails displayed as a symbol in war, the highest grade (of three tails) corresponding to a commanding general, admiral, or governor of equivalent rank; the second (of two tails) to a general of division or vice-admiral, etc; the third (of one tail) to a general of brigade, rear admiral, or naval officer of corresponding rank.

Pasquin (pæ·skwin), [ult ad. It *Pasquino*, in L. *Pasquinus*, F *Pasquin*

Pasquino or *Pasquillo* was the name popularly given to a mutilated statue or piece of ancient statuary, disinterred at Rome in the year 1501, and set up by Cardinal Carafa at the corner of his palace near the Piazza Navona Under his patronage, it became the annual custom on St Marks Day to 'resuscitate temporarily and dress up this torso to represent some historical or mythological personage of antiquity on which occasion professors and students of the newly restored Ancient Learning were wont to salute Pasquin in Latin verses which were usually posted or placed on the statue In process of time these *pasquinate* or pasquinades tended to become satirical, and the term began to be applied, not only in Rome, but in other countries, to satirical compositions and lampoons, political, ecclesiastical, or personal, the anonymous authors of which often sheltered themselves under the conventional name of Pasquin According to Mazzocchi, in the preface to the printed collection of the *pasquinate* of 1509, the name Pasquino or Pasquillo originated in that of a schoolmaster (*Alterator seu magister ludi*) who lived opposite the spot where the statue was found; a later tradition given by Castelvetro, 1558–9, made Pasquino a caustic tailor or shoemaker; another of 1544 has a barber. See L. Mvandi in *Nuova Antologia* 1885 I. 271, 755. D. Gnoli *ibid* 1890 I 51, 275 *Storia di Pasquino* The latinized form *Pasquillus* was already 1534 ‘quite both to the auth r and the pasquinade, in which extended application it was subsequently followed also by *Pasquin*]

In Eng *pass* has become the most general verb expressing onward motion; *passes & goes* may almost be generic for flying, swimming, sailing, floating gliding, or in being carried drawn driven impelled or moved on in any way. In many cases the intr. sense can be expressed by *go*, especially when construed with or extended by prepositions or adverbs expressing varieties of direction etc but it can be used in many that cannot be so expressed, is simplicable, e.g. to *pass* into a new state or condition or to a new subject. It differs from *move* in expressing the effect rather than the action. Without an expressed or adverbial extension the original and literal use is now chiefly confined to branches of Navigation, and being otherwise less frequent than the derived uses, and colloquial forms of it.
As in other intransitive verbs of motion (*q.v. come depart* etc) the perfect of resultant action is not unusually the auxiliary *be* (*he is passed* they were passed set seen in which *pass* = 1380, 1 b 14 2 c1400 etc. This was sometimes retained even when *pass* was transitive (of sense 14, quot 1375 38, quots 14 1526 etc. Here also those the latter Past *Prep.*, q.v.

4. The general name, in modern writers, for the small towers or fortified dwellings built in the 16th c. on the border counties of England and Scotland, for defence against hostile forays, consisting of a massive square edifice, the ground-floor of which was vaulted, and used as a shelter or refuge for cattle, while the upper part (the access to which was by a door on the level of the first floor, with external ladder or movable stair) was the abode of the owner and his family

[*Note.* Our earliest examples of the name *pengu in* are due to Hakluyt His account of Hore s Voy 1536 to Cape Breton was taken down by him some fifty years after from the mouth of Thomas Buts, a survivor of the voyage If we could be sure that the name Penguin Island dated back to 1536 this would be the first occurrence of the word, as it is certainly the earliest English notice of the bird. Ingram s *Narrative* if reliable, would be evidence for the name in 1568-9 but this tale as Hakluyt says, gives no confidence only that he had heard of the penguin by 1582 four years later than Parkhurst s letter to Hakluyt. The southern fowl found by Drake as by Magellan before him at Magellan s Straits, is fully described in *The World Encom passed by Sir Fran s Drake* published by his nephew in 1628 out of the Notes of Mr Francis Fletcher, Drake s chaplain (ed Hakl Soc, 1854 p 75) but no name is there given to it The name occurs however in a MS of 1577 stated to be a transcript of Fletcher s original Notes of 1578 infinite were the number of fowles which the Welsh men named Penguin and Magalanus tearmed them geese (*ibid* 79) but if these Notes of the name from the Straits of 1578, 9 from three other 1616 accounts of the voyage (*Ibid* Appendix 217 235 270) in which the bird is described, makes the occurrence of *Penguin* in Fletcher's original Notes somewhat doubtful The name certainly occurs in the narrative of Candendish or Cavendish 1588, though his state ment that Drake named one of the Falkland Islands in attendance with that of the eye witnesses Fletcher and Wi ter (*ib* d 76 279 who both state that he named it *St George s Island* in honour of St George Fletcher's notation of the name *Penguin* to the Welsh men and its explanation as Welsh *pen gwyn* white head appears also in Ingram and later in Sir Thomas Herbert s *Travels*—ed. 1634 as a surmise in ed 1638 as an accepted fact But, besides that the Great Auk had not a white head (though it had white spots in front of the eyes), there are obvious historical difficulties which some would remove in part by supposing the name to have been originally given by Breton fishermen Other suggestions that the name is derived from *Penn* a fat or is an alteration of pan wing referring to the rudimentary wings, are merely unsupported conjectures.]
