Hence **Waterlined** *a.*, of paper, marked with water-lines. **Waterliner**, a sheet that hits a vessel on the water-line.

1898 Kipling *Fleet in Being* ii. 21 Oh, good shot! That was a water-liner... That was the Marines' three-pounder.

**Waterlog** (wɔ̄·təlɒg), *v.* [app. f. Water *sb.* + Log *v.*]

Cf. Log *v.*[1] 3 a, where the only example cited is:—1751 Smollett *Per. Pic.* lxxvi, Several feet of under-water logging in her hold. In this passage (qu. editions have altered *logging* into *lodging*) this is doubtless wrong, but the sense of 'logging' is somewhat obscure. The likeliest view seems to be that it has absolute sense of active sense, 'to reduce (a ship) to the condition of a log': cf. quot. 1622 under Log *sb.*[1] 2, 'Having lost all her masties, and being no other than a logge in the sea.'

The finite verb is not recognized in previous Eng. dictionaries, which give only *waterlogged* ppl. adj.]

**1.** *trans.* To render (a ship, etc.) unmanageable by flooding with water: see Waterlogged *ppl. a.*

1779 Forrest *Voy. N. 1. The side or brink of water; the bank or margin of the sea, or of a river, stream, or lake.

In dialects or periods in which *a water* means spec. either 'a river' (Water *sb.* 12c), or 'a lake' &c., (Water *sb.* 12 b), the same remains in the combination. In early use *water-side* was often simply equivalent to *water's side*: cf. quot. *c* 1375, where the rel. pron. refers to *water* as a separate word.

¶ 2 In Ps xlii 7 (Bible version) the word is now commonly apprehended as an example of sense 3 below. It was, however, probably intended, in metaphorical use of sense 1, and it seems likely that the meteorological sense 3 arose from recollection of the passage of the psalm

The Heb word *tsinnor*, here rendered by waterspout', occurs elsewhere only in 2 Sam v 8, where it has been interpreted 'spout or gutter on a roof'. Vulg *domorum fistulas* (Wyclif 1382 'the goters of the hows eues,' Douay 'the gutters of the house tops') the Vulg of 1611 has 'the gutter,' and the Revision 1881 'the water course'. In the psalm the word is rendered in the I XX by καταρράκται and in the Vulg by *cataracta* (Wyclif 'cataractis,' Douay 'flud gates'), the most translators of the Heb essayed to find a literal rendering in accordance with the apparent sense of the word in 2 Sam v 8, han e Paginus has *fistularum* (whence Coverdale by misapprehension renders 'whistles'), the Great Bible (1539) has 'water pipes'

1611 Bible *Ps* xlii 7 Deepe calleth vnto deepe at the noyse of thy water spouts

3 *Meteorol* A gyrating column of mist, spray, and water, produced by the action of a whirlwind on a portion of the sea and the clouds immediately above it.

**Watling-street** (wɒ·tlŋstrīt). Forms: 1 **Wæolinga-, Wæxling(g)a-, Wætlinga-, Wætlinga-strét**, 2 **Watlingestrate**, 3 **Watelinge stret**, 4 **Wat(e)lynge-, Watelyn-**, 5 **Wadlyng-, Watelyngе-**, 6 **Wadlan-**, 6 **Watlyng-**, 6- **Watling-**. [OE. *Wælinga stræt*; the first word, app. the genit. pl. of the name of a (real or imaginary) family or clan, occurs also in *Wælinga ceaster* ('the Waelings' city'), the OE. name of the Roman-British Verulamium (now St. Albans), through which the ' Watling-street ' passes.

The forms with *tt* for *cl*, which have been universal from the 11th c, are all but non-existent in MSS. of pre-Conquest date; a solitary example is *Wætlinga ceastre* in *OE. Martyrology, St. Alban*, 22 June (MS. Cott. Julius A. x. fol. 112, written *c* 975). The change of *cl* into *tt* in *Wætlingas* was hardly be due to the close resemblance of *c* and *t* in OE. script (though many instances of the latter form in modern editions of OE. texts are mere editorial misreadings), because the existence of sense 2 seems to show that the name of the Roman road was preserved in popular and not merely literary tradition. Perhaps the word may have been assimilated to the *Wattinga* which occurs in the place-name Watlington (Oxon and Norf.).

The Waelings may have been either an actual family that had obtained possession of the old Verulamium, or a dynastic family celebrated in Mercian tradition, to whom, as typifying remote antiquity, the road and the city were attributed by popular fancy. It has been suggested that *Wæclingaceastre* is a corruption of *Werlamu ceaster*, an alternative OE. name of Verulamium (*Wæclingaceastir sive Verlamaceastir*, Bede *H. E.* i. xxxiii, ed. Plummer); but the British name in a later form i but the conjecture is untenable.]

1. The English name given in pre-Conquest times to the Roman road running from near London through St. Albans to Wroxeter; by antiquarian writers from the 12th c. onwards extended to Roman roads leading from London to the S.E. and from Wroxeter to the north or west.

The placest mentioned in OE. charters as situated on or near the ' Waelinga-strát ' are i Hampstead ; Chalgrave (Beds.); Stowe (Bucks.); Weedon (Northants); Aston (close to Wroxeter) : see Birch *Cartul. Sax.* Nos. 1309, 695, 786, 798, 1315. According to Henry of Huntingdon (*died* 1154) the Watling-street extended from Canterbury to Chester ; according to Robert of Gloucester (*c* 1290) from Dover to Chester; according to Higden (*c* 1340) from Dover to Wroxeter and thence to Cardigan. Modern writers usually assign Dover or Richborough as the eastern terminal point, but some apply the name Watling-street to the road running northwards from Wroxeter through Lancashire.

**Watt** (wɒt). *Physics.* [f. name of James *Watt* (1736–1819), the inventor of the modern steam-engine, and a pioneer in the science of energy.] A unit of activity or power (used chiefly with reference to electricity), corresponding to 10⁷ ergs of work per second, to the rate of work represented by a current of one ampere acting under the pressure of one volt, or to 3·73 (= 550 ÷ 746) English horse-power.

1882 Siemens in *Rep. Brit. Assoc.*, Presid. Addr. 6 The other unit I would suggest adding to the list is that of power. The power conveyed by a current of an Ampère through the difference of potential of a Volt is a unit convenient with the practical system. It might be appropriately called a Watt, in honour of.. James Watt.. A Watt, then, expresses the rate of work represented by a Volt, while a Horse-power is 746 Watts, and a Cheval de Vapeur 735. 1882 *Athenæum* 9 Sept. 310/3 Two of his [Dr. Siemens's] units were introduced, the ohm and the weber, (2) the unit, which is the rate of doing work when a current of one ampere passes through a resistance of one ohm, [etc.]. 1886 Thurston in *Trans. II. 4. *Australian.* [Originally *wattle-tree*, from the use of the long pliant branches for making wattled fences or wattle-and-daub buildings.] The common name in Australia for indigenous trees of the genus *Acacia*. Also with defining word indicating the particular species: **black** *A. decurrens*; *A. binervata* and *A. decurrens*; **Broad-leaved, Golden, Green Wattle**, *A. pycnantha*; **Silver Wattle**, *A. dealbata*; but the application of these (and other similar terms) varies according to locality.

The bark of most of these trees is valuable for use in tanning, and they exude a gum resembling gum arabic. The golden yellow flowers are collected for their beauty and fragrance.

The acacias were included in the Linnean genus *Mimosa*. Hence in popular use *mimosa* was long current as a synonym of *wattle*, and is still sometimes so used, at least in England. See Mimosa 1 b.

**Wattle** (wɒ't(ə)l), *sb.*[2] Also **6 wattell(e, 7 waddle, wadle**. [Of obscure origin; possibly an altered form of Wattle (which, however, does not appear so early in our quots.), due to assimilation to prec.

Usually believed to be identical with Wattle *sb.*[1] On the ground of the reading '*a wattel* ful of nobles' in two closely related MSS. of *Piers Plowman* C (where other MSS. have *watel*) it has been assumed that from the primary sense of 'something intertwined' (see prec.) was developed the sense 'basket'; hence that of 'wallet', which would be a possible source of the senses below. (Cf. Shaks. 'wallets of flesh': see Wallet *sb.*[2]) This explanation is connected with the view that *watel* is a metathesis of *watil*; but in all probability the reading *watel* in *Piers Plowman* is merely a scribal error for *wallet*.]

Outside Teut. the word occurs as Lith. *vãškas*, OSl. *vŭsŭ* (Russ. воскъ, Pol. *wosk*, Czech *vosk*), but prob. adopted from Teut. The root may be identical with Teut. ***wahs-** to grow (WAX[2]), it seems not impossible that the etymological sense may have been 'that which grows (on the honeycomb)'. The variation in grade in favour rather than of the Teut. germinal root ***wex-** to weave, found in OIr. *fiasm* 'I weave', *l. vexāmen* veil, sail (believed to be from pre-historic ***vegʰ-slom*), and in certain Teut. words (see WICK[1]) the advocates of this etymology appeal to the apparent semasiological parallel of G. *wabe*, honeycomb, presumed to be from the root of *weben* WEAVE[1]. Some other hypotheses have been proposed; but they are all unsatisfactory with regard either to form or meaning.

1 A substance (also distinctively called BEE-WAX) produced by bees, and used by them as the material of the honeycomb. It is a secretion of special glands in the abdomen, mixed with the secretion of the salivary glands in the process of mastication, when slightly warmed it is readily moulded into any shape, and when heated to about 150° melts into a liquid, in its natural state it is of a bright yellow colour *Butter of wax* see BUTTER *sb.*[1] 3. *Cf. wax butter* in 2.

The OTeut. conjugation of the verb is retained in Goth., OHG., OS., and O.N.) in OE. it is confined to the Northumbrian dialect (pa. t. *wéox*) the WS. pa. t. *wéox* and the Du. *w* are due to the analogy of the reduplicating verbs.

The strong pa. t. became rare after the 14th c., and is now wholly obsolete ; the one or two examples in the poetry of the 15-16th c. are deliberately archaistic. For the pa. pple. the Bible of 1611 has *waxed* four times and *waxen* eight times ; in recent use *waxen* is not infrequent when the verb is conjugated with *to be*, but is otherwise very rare.

Originally a more frequent synonym of Grow *v.*, which has now superseded it in general colloquial use, exc. with reference to the moon (see 6). With this exception, the senses below which are not marked as obsolete are confined to literary use, and have, in varying degrees, a somewhat archaic flavour ; some of those under branch I survive only in the traditional antithesis with Wane *v.* The verb is said still to be current in certain dialects : see *Eng. Dial. Dict.*

In several writers of the 16th c (chiefly poetical) the forms WAXEN, WEXEN occur for WAX *v*.1, but only in those parts of the verb (inf. and pa. pples pl present) in which these were in Mdr. the normal inflected forms of WAX. Thus in my some times be due to intentional grammatical archaism, but when these forms are used by writers whose grammar is in all other respects normal, it seems probable that the inflexional *waxen* in quotations from older writers was mistaken for a verb synonymous but not identical with *wax*. It has been thought desirable to give here all the examples in our historical, in order that their individual significance may be judged of by comparison The 17th c quots from H More, which are added for completeness, are of course intentionally archaistic

b Qualified by poss pron, the word often occurs as object or as adverbial accusative to the verb *go* (see Go v 21 b) and its synonyms, *ride*, *steer* (see Lead v 1, Steer v), *wend*, etc. From an early period *my, his* (etc) were in these collocations were often merely equivalent to 'away', and with this weakened sense they were formerly used with other verbs of motion, as *flee* (see Flee v 1 d), *run* (see Run v 34), *come, pass, ride* In present literary use *to go, wend one's way* survive as archaisms; mod dialects have only the imperatives *go, come your (thy) way* (or *ways* see 23 b).

c In the Bible phrase *to go the way of all the earth* (Josh xxiii 14, 1 Kings ii 2) meaning 'to die'. Also in erroneous forms (due to confusion with other Bible passages), *the way of all flesh, of all living* (*The way of all flesh* has sometimes been used to mean the experience common to all men in their passage through life)

A passage (dated 900) in Hexh *Corpus Gosp.* II 241 'Quando Adfred rex suam uitæ cursus adiit', shows that the substitution of of all fl sh (*universæ carnis*) for 'of all the earth' (*universæ terræ*) was current in mod Latin The reading of the Douay Bible (post 1609) suggests that the substitution must have found its way into some printed copies of the Vulgate also the Plantin Concordance (1632) reads *carnis* and *Gen.* and *Exper.* through elsewhere the two readings are cited with the reading *terræ*

**Way**, obs form of WEIGH *v.*, WEY, WHEY, WOE.

**-way** (*wēi*), as a terminal element of advs, is identical with WAY *sb.*[1]

1 Phrases consisting of the sb. qualified by an adj. are often used adverbially (see WAY *sb.*[1] 8, 14 d, etc.), and some of the combinations of adj and sb. thus used have come to be apprehended as single words, and so pronounced and written; the second element, losing its separate stress, has assumed in some degree the aspect of an adverbial suffix. The only early example of this process is the OE. *ealne weg*, an adverbial accusative, which after the disappearance (in the 14th c.) of adjectival flexion became ALWAY (q. v. for the development of meaning). *Anyway, everyway, noway, someway*, written as single words, are not found before the 16th c. The only advs in *-way* f. descriptive adjs. are *broadway* (16th c.), *crossway* (early 17th c.), *straightway* (as two words in 15th c.; as one word from 1530). Most of the above-mentioned advs. have parallel and synonymous forms in -WARD.

**2.** The few advs f. sb. + *-way* do not originate from phrases, but are genuine compounds; they all have parallel forms in -WARD. †*Needway* 'necessarily' occurs in Barbour *c* 1375 (*needways* in *Cursor M. a* 1300). *Edgeway, endway, sideway, sunway*, which denote direction of movement, are, like the corresponding forms in -WARD, not older than the 16th century.

**3.** *Crossway* and *sideway* are frequently used as adjs.; the other advs in *-way* expressing spatial direction would perhaps admit of a similar use, but it is not evidenced in our quotations.

**Waysag(e**, obs. Sc. forms of VOYAGE.

## Way-bill.

1. A list of passengers booked for seats in a stage-coach or other public vehicle for places on the road. Also a detailed statement of goods entrusted to a public carrier for delivery at stated destinations.

**-ways**, the terminal element of certain advs, was originally a use of the genitive of Way.

1. Many phrases consisting of the genitive of *way* (in various senses) qualified by an adj, were formerly used adverbially (see Way *sb* 1 23 a). The earliest known examples are in the Peterborough Chronicle (first hand, A D. 1124) which twice has *dores weges* in the sense 'by another route', in this phrase the adj appears uninflected before the end of the 12th c (see Otherwaies). Similarly *alles wes*, *manes* (*monnes*) *weis* occur early in the 13th c, becoming *allweys*, *manyes* in the 14th c. On the analogy of these words were subsequently formed *everyweys* (1398), *anyways*, † *likeways* (16th c.) and (from descriptive adjs) *crossways*, *longways*, *straightways* (16th c.), *broadways* (18th c

**2** A solitary instance of an adv f sb + *-ways* before the 16th c is † *medeaways* ' necessarily ', occurring in the *Cursor M* (*a* 1300) and in Barbour In the later formations the general sense is a specified direction ', so *countryways*, *lengthways*, *sideways* (16th c), *edgeways*, *breadthways* (17th c), *sternways* (19th c), *sunways*

**3.** As there is no perceptible difference of function between the adverbial genitive and the adverbial accusative, most of the advs. in *-ways* have synonyms in *-wys*. Further, most of the advs. in

*-ways* are synonymous with actual or possible parallel formations in *-wise*; and the similarity of sound of the two suffixes has given rise to the notion that they are mere alternative forms of one and the same ending. Johnson's erroneous statement (s. v. *Way*) that '*way* and *ways* are often used corruptly for *-wise*' has probably led many to prefer *-wise* to *-ways* or *-way* on the ground of supposed correctness. Cf. *alway, always, †always ; anyway, anyways, anywise ; breadthways, -wise ; broadway, -ways, -wise ; crossway, -ways, -wise ; edgeway, -ways, -wise ; endway, -ways ; everyway, †-ways ; lengthways, -wise ; †likeways* (obs.), *likewise ; longways, -wise ; noway, -ways, -wise ; otherways, -wise ; sideway, -ways, -wise ; straightway, -ways, †-wise ; sunway, -ways, -wise.*

**4.** The combinations of *-ways* are, unlike those of *-way*, hardly ever used as adjs., with the exception of SIDEWAYS.

**[Wayward, -wards.** In the 17–18th c. the suffix- *ward(s* was often appended to phrases like *this way, that way, our way*, etc., preceded or not by *to* or *from*. (See WARD *sb.*[1] 4, -WARD, 5.) In printed looks it was common to join the suffix to the word *way* (either with or without hyphen), but to leave the preceding words of the phrase without hyphen, so that *way-ward(s* or *wayward(s* has a fallacious appearance of being a word.

**Wayzgoose** (wē'zgūs). [Alteration of Waygoose, under which the earliest evidence for the word is given.

The eccentrically spelt form *wayzgoose*, which, although established in recent use, has not been found, exc. in Bailey's Dictionary (see below), before 1825, is probably a figment invented in the interest of an etymological conjecture (see quot. 1733). Bailey's assertion that the word had the sense of 'stubble-goose' is unsupported, and is very unlikely; this allegation, and the accompanying fantastic misspelling of Ware, may have been suggested by the idea that the obscure word *waygoose* could be explained on the assumption that it had lost *n*. *s*. (The *King. Dict. Dial.* refers to Cope's *Hampshire Glossary* for '*noose-goose*, a stubble-goose', but Cope's authority for this is a MS. word-list which, he says, 'contained many words that had certainly no relation to the dialect of the county'.) It seems clear that the genuine traditional form among printers was *waygoose*, and that the form *wayzgoose*, now prevailing is a supposed correction following the authority of Bailey. The statement that goose was 'the principal dish' for even that it was eaten at all) at the 'waygoose' dinner is also without evidence. It is possible that *waygoose* may be a corruption by popular etymology of some earlier word, but no satisfactory explanation has been found either in English or in any Germanic language.

Originally, an entertainment given by a master-printer to his workmen 'about Bartholomew-tide' (24 August), marking the beginning of the season of working by candle-light. In later use, an annual festivity held in summer by the employees of a printing establishment, consisting of a dinner and (usually) an excursion into the country.

1733 Bailey *Dict.* (ed. 3) s.v. Straw, Straw-*Waygoose*, a Stubble-Goose, an Entertainment given to Journeymen at the beginning of Winter. [1823 Temperley *Songs of the Press* 23 *note*, Way Goose.] The derivation of this term is not generally known. It is from the old English word *waye*, stubble. A waye Goose was the head dish at the annual feast of the forefathers of our fraternity, '*Wayes Goose*', as the printers call it, an entertainment given to journeymen at the beginning of Winter.'—Bailey.]

1875 Southward *Dict. Typogr.* 117 The waygoose generally consists of a visit to the country, open-air amusements, a good dinner, and speeches and toasts afterwards. 1892 *Surrey Mirror* 23 Aug. 2/3 The members of the typographical staff of the *Surrey Advertiser* (Guildford) and the *Surrey Mirror* (Redhill) had their waygoose on Saturday last, when they journeyed to Brighton.

[Com. Teut.: OE. *wē* corresponds to OFris. *wī* (WFris. *wi*, *wy*, NFris. *wi*, *we*, *wei*), OS. *wi*, *wē*, MDu *wī* (mod. Du. *wij*), OHG. *wir*, *wer*, *wier* (MHG. *wir*, mod.G. *wir*), ON. *vér*, *vær* (Sw., Da. *vi*), Goth. *weis*.

These forms seem to go back to more than one OTeut. type. The Gothic form represents OTeut. **wiz*-:-*wiz*-Teut. **weiz*, an extension (with nominative suffix -*z*) of Indogerm. nasalless base found in Skt. *nyám*, Avestic *vaēm*, *vas*. With regard to the OE., ON., and some other forms, there is difference of opinion, some scholars referring them to an ablaut-variant of Indogerm. **nĕ*-, or **nō*- of **nē*-, and others to a pre-Teut. **wē* of which **wī* is supposed to be an extension by the addition of a demonstrative particle.]

**1.** The pronoun of the first person plural nominative, denoting the speaker and one or more other persons whom he associates with himself as the subject of the sentence.

[*a.* ON. *veik-r*, corresponding to OE. *wāc* : see Woke *a.*

The earliest known examples are in the *Cursor Mundi* (*a* 1300, but MSS. 14th c.); the word gradually took the place of the corresponding native adj. (OE. *wāc*, ME. Woke) which did not survive beyond the 15th c. There seems to have been some difference of meaning between ON. *veik-r* and ON. *veikr*: in OE. the primary Teut. sense 'yielding, not rigid or firm, pliant' was still prominent, while in ON. it had developed into the sense 'not strong'.

The β-forms show the same development of Scand. *ei* to *ē* which is found in Berk *a.* (earlier *bleyke*, ON. *bleik-r*), Steak *sb.* (OE. *steche, stecþe*, ON. *steik*), still pron. dialectally with *ē*, and Reak, var. of Rake *sb.*[3] (ON. *reik*).

In mod. dialect literature the word is often written *weath* or *weake*. Graphically, these forms belong to the *a* group; but in certain areas it may be doubtful whether the shade of pronunciation denoted by the spelling descends from ME. *e* or from ME. *ei*. As the normal Sc. representative of OE. *wāc* is *wauk*, which in late Scottish might have been written *waik*, it is possible that some of the Sc. examples given below belong etymologically to Wauk *a.* rather than to the present word.

*A. adj.*

† **1.** Of a material thing: Pliant, flexible, readily bending. (Usually with implication of want of strength.) = Wauk *a.* 1. *Obs.*

The recognition of this sense by Johnson (who has been followed by later Dicts.) is remarkable; his authority has not been 1 verified.

**b.** In the translations of the Bible from Tindale onward, used to render Gr. *ἀσθενής, ἀσθένεια*, applied by St. Paul (esp. in Rom. xiv and 1 Cor. viii) to believers whose scruples, though unsound, should be treated with tenderness, lest they should be led by the example of the more enlightened into acts condemned by their conscience. Hence allusively in *weaker brethren* (often supposed to be a scriptural phrase), applied to the more timorous members of a party, who are in danger of being shocked by extreme statements of principle or policy.

In the Wycliffite and other early versions the rendering is 'sick' (Vulg. *infirmus*).

**6.** With little vigour of action, inefficiently.

1663 Jer. Taylor *Serm. Funeral Alp. Armagh* 1 The Condition of Man in this World is so limited . . that the best things he does he does weakly. 1696 *Phillips's Rarities* 162 *Pa* We please our pride with the effects of our influence that weakly exerted. 1853 Dickens *Bleak Ho.* xiii, Mr. Boythorn, who interested himself strongly in the subject—though I need not say that, for he could do nothing weakly. 1905 J. E. Fitzmaurice *Ld. Granville* I. xv. 430 Mr. Lowe considered that he had been but weakly defended by some of his colleagues in the House of Commons.

**7.** With little force of argument; unconvincingly.

1660 Stillingfl. *Orig. Sacræ* III. i. § 7 Now I appeal to the reason of any Person, Whether either of these two Hypotheses . . be not far more weakly proved, then the existence of a Deity is. 1855 Pusey *Doctr. Real Presence in Fathers* Note F 73 He blamed by others, as expressing the doctrine which he defends weakly. 1870 Emerson *Soc. & Solit.* i. 9 He spoke weakly, and from the point, like a flighty girl.

**Weak-minded,** *a.*

**1.** Having a weak mind; lacking strength of purpose. Of actions, opinions, etc.: Indicating weakness of mind.

1782 Miss Burney *Cecilia* v. xiii, 'Oh fie,' cried he, 'to suffer *your* understanding to be lulled asleep, because the weak-minded Mr. Arnott's could not be kept awake!' 1842 *Anne Wather Cwre* 57 Nor will any one, who wilfully prejudices the weak-minded will be convinced against this method, . . stand guiltless. 1863 Miss Braddon *Eleanor's Vict.* III. xv. 227 It is my misfortune to be weak-minded. I can't say 'no' to people. 1878 J. Grant *Oath.* IV. i. 5 The Duke of York . . fruitlessly endeavoured to bind a weak-minded king by pledges. 1890 H. James *Tragic Muse* xxxv, If he should go aboard his brother must think he had some weak-minded view of joining Julia Dallow.

**2.** Mentally deficient; half-witted.

**4.** *Economists.* A collective term for those things (the abundant possession of which (by a person or a community) constitutes riches, or 'wealth' in the popular sense.

There has been much controversy among economists as to the precise extent of meaning in which the term should be used. The definition that has been most widely accepted is that of Mill (1902, 1848 below).

**1841** Torrens *Exx. Produce Wealth* i. 3 When we say, a man of wealth, the term implies quantity, and signifies an abundance of the comforts and luxuries of life. But when we say, again, silver is a source of wealth, the necessary idea of quantity is not implied, and the term comprises the products of ages alone, whether they be raised from one acre or from a million; whether they are capable of subsisting an individual, or a nation. **1845** Bentham *Fragm. Reward* 237 All wealth is either the spontaneous production of the earth, or the result of labour, employed in the cultivation of the earth or upon the materials which it yields. **1852** Ht. Martineau *Life in Wilds* ii. 23 Whatever lives, or grows, or can be produced, that is necessary or useful, or agreeable to mankind, is wealth. **1848** Mill *Pol. Econ.* I. Prel. Rem. § Money, being the instrument of an important public and private purpose, is rightly regarded as wealth; but everything else which bears exchange value, and exists in such a nature does not afford gratuitously, is wealth also. *Ibid.* 9 To an individual, anything is wealth, which, though useless in itself, enables him to obtain others a part of their stock of things useful or pleasant. Take for instance, a mortgage of a thousand pounds on a landed estate. This is wealth to the person to whom it brings in a revenue... But it is not wealth to the country; if the engagement were annulled, the country would be neither poorer nor richer. *Ibid.* 10 Wealth, then, may be defined, all useful and agreeable things which possess exchangeable value; or in other words, all useful or agreeable things except those which can be obtained, in the quantity desired, without labour or sacrifice. **1856** Prout *Hist. Eng.* (1858) I. I. 87 An attempt...was made to bring the production and distribution of wealth under the mandate of right and duty. **1871** Jevons *Theory Pol. Econ.* i. ii. 71 The wealth of any individual is considered to include all useful things—whether material things, as food, clothes, houses, &c., or immaterial things as debts, patents, copyrights, &c.—capable of being sold in a certain price. This aggregate is suitably measured by its exchange value; the common standard of value, money, being taken for convenience' sake. **1891** Shadwell *Soc. Ideals & Cities* xv. 194 The Companies Acts have not, and will not, create wealth: it is not the function of law to create wealth... only to regulate its distribution. Wealth is created ...by labour. **1900** A. W. Kirkaldy *Wealth* 15 If this definition [Mill's] be accepted, the importance of abundance disappears. Wealth may be small as well as large in big thing. A single pin, has exchange value, it is useful, and is therefore wealth...No is a motor-car or a fine yacht or an Atlantic liner.

The affinities of the word are somewhat uncertain. Some scholars regard it as cognate with OHG. **wuganso** (see **wegeuse** in Gloss. *D. Wb.*), ON., Norw. **vangeir**, Gr. ἄβαξ (Hesychius) ploughshare, OPrussian **wagyr-s** axe, Lith. **vagìs** pin, plug, f. Indogermanic root ***wogh-**. (Teut. ***wag-**) cf. Skt. **váh-i** to pave.

The I.E. and Du. form with *f* for *c* (whence perh. the Sw. form and the Eng. **wig** *sb.*), a kind of cake) is not easy to account for. It may be due to a special sound-change in some local dialect; the hypothesis that it represents an ablaut-variant of Teut. ***wegjan-z** is inadmissible.

1. A piece of wood, metal, or other hard material, thick at one end and tapering to a thin edge at the other; chiefly used as a tool operated by percussion (or, less frequently, pressure) applied to the thick end, for splitting wood, stone, etc., forcing apart contiguous objects, dilating a fissure or cavity, tightening or securing some part of a structure, raising a heavy body, and other similar purposes. Hence, in *Mechanics*, the type of simple machine of which the wedge proper is an example, and which includes also knives, chisels, and cutting and piercing instruments in general; formerly reckoned separately among the 'mechanical powers', but now regarded as a variety of the inclined plane.

3. An ingot of gold, silver, etc. ? *Obs.*

Presumably so called from the ordinary form of an ingot was that of a wedge; cf. Heb. *lāšān*, lit. 'tongue', used in the same sense; but in the Eng. use of the word there appears to be no evidence of any reference to shape. The Heb. word is in translation of Matt. xiii. 45 used for 'piece of money' (rendering L. *stater*).

[OE. *Wódnes dæg* = OFris. *wônes-*, *woenis-*, *wern(ĕ)s-*, *wernes-*, *wern-*, *wer(ren)dei*, *wônsdei* (mod. WFris. *woandei*, *woansdei*, *wonsdei*, *wernsdei*, NFris. *winjdei*, *walensdei*), MLG. *Wôdenesdach*, *Gudensdag*, MDu. *Woendach* (mod.Du. *-dag*), ON. *Óðinsdagr* (Sw., Da. *Onsdag*), 'the day of (the god) *Woden*', a translation of late L. *Mercurii dies*, whence the name of the day in the Rom. langs. (F. *Mercredi*, Sp. *Miercoles*, It. *Mercoledì*). In High German the day appears always to have been called 'midweek' (mod.G. *Mittwoch*), although for the other days (exc. Saturday) the translated Roman (planetary) names were adopted as in the other WGer. langs. and ON.

The name of Woden (OE. *Wôden*, OS. *Wôden*, OHG. *Wuotan*, ON. *Óðinn* <O Teut. **Wōdanoz*) is referred to the Teut. root **wōð-*, found in OE. **wōð-* mad, furious (see Wood *a.*), ON. *óð-r* (:—**wōdo-z*) poetic frenzy, inspiration; cognate with L. *vātēs*, Irish *fáith*, prophet. The identification of Woden, the highest god of the Teutonic pantheon, with Mercury, appears already in Tacitus ('Deorum maxime Mercurium colunt', *Germ.* IX); it was probably chiefly suggested by Woden's character as the god of eloquence; another feature common to the German and the Roman deity is their swiftness and wide range of travel.

As representing the OE. *Wôdnes dæg*, the *β* forms are anomalous. The same irregularity appears in some of the Frisian forms above quoted, and in the English placenames Wednesbury and Wednesfield, Staffordshire, and Wensley, Derbyshire (1086 Domesday *Wodnesleie*, *c* 1200 *Wednesleie*). Some scholars have proposed to account for the change of vowel by the assumption that an unrecorded form **Wōden* (<**Wōdno-z*, with suffix-ablaut) existed in OE. and OFris. beside the form without umlaut: but the supposition involves even greater difficulties.

The uncontracted pronunciation (we·dnēdi), though not recognized in the dictionaries (Webster 1911 gives it as 'in British use, esp. in the north'), is not unfrequently heard from speakers belonging to the northern and north midland counties. The contracted pronunciation now prevailing goes back to the 15th *c.*: the earlier metathetic form *wendesdei* (*c* 1275) is noteworthy.]

In the sb. the original sense of 'quantity', 'amount', is very slightly recorded, the word being mainly used (almost always with *little*) as a measure of time or space. In adjectival use, however, the idea of quantity or size has been retained; this use evidently originated in the Sc. idiom exemplified by Bit *sb.*2 9 (*a bit thing* = 'a bit of a thing', 'a little thing'); cf. *wee bit* in B c below. It is however remarkable that, although found as early as the 15th *c.*, the adj. is rare in Sc. writers before 1721, though our quots. from Shakspere and Heywood show that it had become known to Englishmen early in the 17th *c.* The word (both *sb.* and *adj.*) is current in the dialects of some English counties (see *Eng. Dial. Dict.*), but there is no evidence to show that it was commonly used in England before the 19th *c.*; see however Way-bit.]

**B.** *adj.* Extremely small, tiny. (In Sc. use with weaker sense, as a synonym of *little*.) Often more emphatically *wee wee*, *little wee*, *wee little*.

The Shaks. example is not found in the quarto of 1603; as this has 'a whay-coloured beard' in the corresponding sentence, it has been conjectured that the 'wee' in the Folio may be a mistake for *whey-face* (cf. *Mach.* v. iii. 27). However, the reading of the Folio may be taken as evidence that the adj. was known in the 17th *c.* as a variant of the adj. is hyphened to the following sb., and preceded by *little*.

¶ b. The refrain of Jean Elliot's song (quot. *c* 1760) has often been quoted in the form 'The flowers of the forest are a' wede away'. In allusion to this, Scottish writers have sometimes used *weede away* (app. without associating it with the verb *weed*) in the vague sense 'carried off by death'; sometimes it has been interpreted as 'withered, faded'. Similarly *to wede away* used intr. for 'to die off', trans. for 'to carry off by death'.

(The written *l* in many of the Sc. forms, *wolk*, *oulk*, etc., was never pronounced.)]

1. The cycle of seven days, recognized in the calendar of the Jews and thence adopted in the calendars of Christian, Mohammedan, and various other peoples; a single period of this cycle, i. e. a space of seven successive days beginning with the day traditionally fixed as the first day of the week.

The Jewish week began with the day after the sabbath, and this beginning was adopted by the Christian church. The days of the Jewish week, except the seventh (the Sabbath) were not named, but designated by numbers. In early Christian use the name Sabbath was retained for the seventh day, and the first was called the Lord's day (*i* *supper* *dæge*, *dies dominica*), the other days being numbered only. The English names, Sunday, Monday, etc., belong to an astrological week which, quite independently of the Jewish-Christian week, arose from the practice of assigning the successive hours to the seven planets in the order of their distance, and then naming each whole day (of 24 hours) from the planet supposed to rule its first hour. The planetary names, *Dies Solis*, *Dies Lunæ*, *Dies Martis*, etc., came into common use in the Roman empire, and were adopted in translated form by the English (before they came to Britain) and other Teut. peoples; the names Mars, Mercurius, etc., being apprehended as names of Roman gods, were rendered by the names of the Teutonic deities supposed to correspond to these: for details see the articles Tuesday, Wednesday, etc.

**4. a.** *Week of years*: used in Lev. XXV. 8 by Wyclif, Tindale, and in the Douay Bible (after the Vulgate) for 'a period of seven years' (Coverdale has 'yeare sabbathes', and the other versions 'sabbaths of yeard', following the Heb.). Also used by commentators in explanation of the 'weeks' mentioned in Dan. IX. 24–27, where periods of seven years are meant.

1382 WYCLIF *Levit.* XXV. 8 And thow shalt noumbre to thee seuen wekes [1388 woukis] of seeris. *a* 1591 H. **b.** *Week of days*: used by Bible commentators (following a mistranslation of Dan. x. 2) to denote a literal week as opposed to the 'week of years': see quots. in 4 *a*.

It is not easy to ascertain Scott's use for 'a whole week' is an echo of this, or whether it was a current phrase.

1560 BIBLE (Geneva) *Dan.* x. 2 At the same time, I Daniel was in heauines three whole weekes of dayes. 1611 [see 4 *a*]. 1615 weekes of daies were fulfilled. 1621 *Ibid.*, Three full weekes [*margin*, Heb. weeke of dayes]. 1818 SCOTT *Dr. Lamm.* x, They dared not keep me a week of days in durance.

**5. a.** In expressions serving to fix a date. *This day, tomorrow, Monday*, etc. *week*: seven days before or after the day specified. Similarly *this day*, etc. (so many) *weeks*. *Yesterday, Monday*, etc. *was a week* (dial.), seven days before the day mentioned. † Formerly also *four* (etc.) *weeks day*, exactly four weeks (cf. 2 *c*).

## Weeping Cross.

**1.** A place-name occurring in several English counties, presumably indicating the site of a stone cross (now destroyed) formerly known by this designation.

The present Ordnance Map shows places so named (1) about 2 miles S.E. of Stone (2) about 2 miles S.E. of Stafford: (3) about 2 miles S.E. of Banbury; (4) near Bury St. Edmunds (see quot. *a* 1500); (5) near Ludlow. See also quot. 1893. All the places are at cross-roads. It is said that the remains of the 'weeping cross' near Banbury were removed in 1803 (Beesley *Hist. Banbury*, 1841); with reference to that near Ludlow cf. quot. 1826. It is usually assumed that the name implies that acts of devotion at these crosses were enjoined upon penitents, but there appears to be no evidence of this. Pennant's explanation (quot. 1782) seems to be merely a conjecture; another conjecture (Beesley *Hist. Banbury*) is that the cross marked the place at which bodies carried to interment were set down for the bearers to rest.

*a* 1500 in *Fasti Anglian* (1857-8) II. 226 (Bury St. Edmunds) Fidula incipit justa riperam apud Winothes, et pronedit ita ultetius ascendendo versus Austrum usque ad Crucem Lacrymantem [Camden, *Britannia* (1698) 709 At 24 come to Weeping-Cross a noted Place, where 4 Ways meet)...and at 27 enter Banbury. **1782** PENNANT *Tours, from Chester* II. 276 (leaving the town [Stafford] *crossed* the Wolverhampton Navigation at Radford Bridge...A little further is Weeping Cross; so stiled from the vicinity to the antient place of execution. **1826** T. The name of the 'Weeping Cross', yet retained by this land mark serves to preserve the traditionary record of a Cross. **1893** *Dublin Rev.* July 587 There is a road outside Salisbury called 'King John's Lane', leading from Clarendon to Old Sarum; it is crossed by another road, and at this point there is a clump of elm-trees. These trees are known as the weeping cross trees.

**2.** Used allusively, esp. in the proverbial phrase *To come home by Weeping Cross*, to suffer grievous disappointment or failure.

Cf. the occasional variants 'to come home by broken cross' (1662 Howell *Parly of Beasts Prov.* 48) and 'to make our prayers at whining cross' (1602: see WHINING *vbl. sb. b*).

From the middle of the 16th c., if not earlier, the form *weet* seems to be obsolete in ordinary speech, but down to the second decade of the 17th c. it was frequent as a literary archaism (chiefly *poet.*), as attributed in the drama to rustic speakers, and as a variant of *wit* in the phrases *to do or gyve* (a person) *to wit*, (*that*, *to wit*). The archaistic use in the 16th and early 17th c. was confined to the inf., the plural present, and the present participle; but the poets of the 18th c. and later, who have used the word in imitation of Spenser, have often treated it as a regular verb, with 3 sing. pres. *I weet*, and inflexions *weets*, *weeted*.

[A Com. Teut. strong verb: OE. *wegan* (*wæg*, *wægon*, *wegen*) corresponds to OFris. *wega*, *wein* to move, weigh, OSax. *wegan* to weigh, (M.)Du. *wegen* (o) weigh, OHG. *wegan* to move, shake, weigh (MHG. *wegen*; mod.G. has *bewegen* to move, while the simple verb is represented by the two verbs *wägen* trans., to weigh, *wiegen* intr., to weigh, be of a certain weight), ON. *vega* to lift, weigh (Sw. *väga*, Da. *veie*, to weigh), Goth. *ga-wigan* (only Luke vi. 38 in pa. pple. fem. *gawigana* shaken). The Teut. root **weg-*, **wag-*, **wig-* (for words representing the several grades see WAY *sb.*; WAG *v.*, WAGON, WAIN, WAW *sb.*1 and *v.*1; WEIGH *sb.*1, WEY) is:—Indogermanic **wegh-*, **wogh-*, **wigh-*, found in Skr. *vah*, L. *vehere* to carry, Gr. *ὀχος*, *ὄχεσθαι* vehicle.

The remarkably early appearance of the weak conjugation was prob. due to confusion with Weigh *sb.*1; the two OE. verbs *wegan* and *wecgan* coincided in the form *wegeð* of the 3rd sing. pres. (though the former verb had also the more normal *to* infin.). The strong inflexion of the pa. t. died out in the 14th century, and that of the pa. pple. in the 15th.]

[Originally an attrib. use of prec. in *weird sisters* (see sense 1), the later currency and adjectival use being derived from the occurrence of this in the story of Macbeth.

The evolution of the forms found in Shakspere's *Macbeth* was as follows: "*Weyrd sisters*" (reversed in Acts III and IV in the First Folio) and *weyward* (used in Acts I and II); the latter was no doubt due to association with *weyward*, a word used many times by Shakespeare. (The later folios retain the *weyward* spelling, and alter the other to this or to *wizard*.) In several passages the prosody clearly requires the word to be pronounced as two syllables; hence Theobald's use of the diæresis in his emendation *weird* (see quot. 1713 below), giving rise to the scansion of quot. 1755 in sense 1, and quot. 1800 in sense 4.)

**1.** Having the power to control the fate or destiny of men, etc.; later, claiming the supernatural power of dealing with fate or destiny.

A rare OE. *wolcne* wk. fem., is also represented in early ME.

The phonology of the ME. forms with *eo, e*, and *a* in the stem is irregular. It has been suggested that the *eo* and *a* are due to assimilation, but there is no obvious reason for the changes, and the explanation still leaves the forms with *a* unaccounted for. In a number of the early ME. instances it is difficult to decide whether the forms are to be taken as singular or plural.
