## PREFACE

---

AT the suggestion of the leading Anthropologists in England and those in the continent of Europe, I was advised to prepare an elaborate index to the four volumes of the Mysore Tribes and Castes.

With the sanction of the University of Mysore, Subject-index with the Glossary of vernacular terms, Index of Endogamous Groups and Exogamous Clans as also the Bibliography were prepared. These may be found useful for ready reference. While attempts are made for the union of Endogamous groups, there is a tendency for their increase. Another peculiar fact is the disappearance of the totems in favour of gothras of puranic heroes. Very useful and interesting data may be gathered from this volume of the Appendix.

In this connection I beg to acknowledge my indebtedness to Prof. W. Southerland, M.A., who undertook the task of looking through the manuscripts and the pages. It was an omission through oversight in the first volume.

L. K. ANANTHAKRISHNA IYER.
