STÖRRING, Gustav, Universität Bonn, Bonn, Preussen, Deutschland.

Geboren Voerde Kreis Schwelm, 24. August 1860.

Universitäten Bonn, Berlin, und Kiel. Dr. phil., und Dr. med.

Universität Leipzig, 1896, Privatdozent. Universität Zürich, 1902-1911, Professor. Universität Strassburg, 1911-1914, Professor. Universität Bonn, 1914—, Professor der Philosophie und Psychologie.

Vorlesungen über Psychopathologie in ihrer Bedeutung für die normale Psychologie (mit Einschluss der psychologischen Grundlagen der Erkenntnistheorie). Leipzig: Engelmann, 1900. S. 468.

Zur Frage der Erinnerungsüberzeugung. *Zsch. f. Phil. u. phil. Kritik,* 1901, **119**, 39-41.

Zur Lehre von den Allgemeinbegriffen. *Wundts phil. Stud.,* 1902, **20**, 323-335.

Moral philosophische Streitfragen. I. Teil die Entstehung des sittlichen Bewusstseins. Leipzig: Engelmann, 1903. S. vii+152.

Experimentelle Beiträge zur Lehre vom Gefuhl. *Arch. f. d. ges. Psychol.,* 1905, **6**, 316-356.

Experimentelle Untersuchungen über einfache Schlussprozesse. *Arch. f. d. ges. Psychol.,* 1908, **11**, 1-127.

Experimentelle und psychopathologische Untersuchungen über das Bewusstsein der Gültigkeit. *Arch. f. d. ges. Psychol.,* 1909, **14**, 1-42.

Die Hebel der sittlichen Entwicklung der Jugend. Leipzig: Engelmann, 1911. S. 157. (2. Aufl., 1919.)

Experimentelle Beiträge zur Lehre von den Bewegungs- und Kraftempfindungen. *Arch. f. d. ges. Psychol.,* 1912, **25**, 177-188.

Zur kritischen Würdigung der Freudschen Theorie. *Zsch. f. Pathopsychol.,* 1913, **2**, 144-149.

Nachruf für E. Meumann. *Arch. f. d. ges. Psychol.,* 1915, **34**, i-xiv.

Psychologie des menschlichen Gefühlslebens. (2. Aufl.) Bonn: Cohen, 1922.

Zur Psychologie der Erinnerungsgewissheit. *Arch. f. d. ges. Psychol.*, 1922, **43**, 24-31.

Psychologie. Leipzig: Engelmann, 1923. S. x+479.

[Hrg.] E. Meumann, Intelligenz und Wille. (4. Aufl.) Leipzig: Quelle u. Meyer, 1925. S. xii+360.

Allgemeine Bestimmungen über Denkprozesse und Behandlung einfacher experimentell gewonnener Schlussprozesse. *Arch. f. d. ges. Psychol.*, 1925, **52**, 1-60.

Psychologie der disjunktiven und hypothetischen Urteile und Schlüsse. *Arch. f. d. ges. Psychol.*, 1925, **54**, 23-81.

Psychologie der 2. und 3. Schlussfigur und allgemeine Gesetzmässigkeiten der Schlussprozesse. *Arch. f. d. ges. Psychol.*, 1926, **55**, 47-110.

Folgerungen aus der Psychologie der 2. Schlussfigur für die Logik. In *Synthesen in der Philosophie der Gegenwart* (Festgabe für Adolf Dyroff). Bonn: Schröder, 1926.

Das urteilende und schliessende Denken in causale Behandlung. Leipzig: Akad. Verlagsgesellsch., 1926.

Zur Frage der geisteswissenschaftlichen und verstehenden Psychologie. *Arch. f. d. ges. Psychol.*, 1927, **58**, 389-448; 1928, **61**, 273-354, 443-481.

Geibt es neben naturwissenschaftlich fundierten eine geisteswissenschaftliche und verstehende Psychologie? *Monatssch. f. Psychiat. u. Neur.*, 1927, **65**, 306-316.

Zur Frage der geisteswissenschaftlichen und verstehenden Psychologie. Eine Streitschrift. Leipzig: Akad. Verlagsgesellsch., 1928. S. ix+180.

Methoden der Psychologie des Gefühlslebens. *Abderhaldens Hdbh. d. biol. Arbeitsmeth.*, 1931, Abt. VI, T. B, H. 2, 1125-1646.

Zusammen mit Störring, G. E. Experimentelle Untersuchungen zur allgemeinen Gefühlslehre. *Arch. f. d. ges. Psychol.*, 1931, **78**, 273-379.

STUMPF, Carl, Potsdamerstrasse 15, Berlin-Lichterfelde West, Preussen, Deutschland.

Geboren Wiesentheid, 21. April 1848.

Universität Würzburg, 1865-1867. Universität Göttingen, 1867-1868, Dr. phil., 1868. Universitat Würzburg, 1868-1870.

Universität Göttingen, 1870-1873, Privatdozent. Universität Würzburg, 1873-1878, Ordentlicher Professor. Universität Prag, 1878-1884, Ordentlicher Professor. Universität Halle, 1884-1889, Ordentlicher Professor. Universität Munchen, 1889-1894, Ordentlicher Professor. Universität Berlin, 1895—, Ordentlicher Professor. *Beiträge zur Akustik und Musikwissenschaft*, 1898-1915, Herausgeber.

Akademie der Wissenschaften zu München, Berlin. Accademia Nazionale dei Lincei (Rom). National Academy of Sciences (Washington). Gesellschaft für experimentelle Psychologie. Staatsinstitut für Musikwissenschaft, Moskau.

Verhaltnis des platonischen Gottes zur Idee des Guten. (Dissertation.) *Zsch. f. Phil. u. phil. Kritik*, 1869. S. 110.

Ueber den psychologischen Ursprung der Raumvorstellung. Leipzig: Hirzel, 1873. S. 324.

Die empirische Psychologie der Gegenwart. *Im neuen Reich*, 1874.

Aus der vierten Dimension. (Ueber Zöllners 'Prinzipien der elektro-dynamischen Theorie der Materie.') *Phil. Monatsh.*, 1878, **14**, 13-20.

Tonpsychologie. (2 Bde.) Leipzig: Hirzel, 1883, 1890. S. xviii+427; xiv+582.

Sur la représentation des mélodies. *Rev. phil.*, 1885, **20**, 617-618.

Musikpsychologie in England. Betrachtungen über d. Herleitung d. Musik aus d. Sprache u. aus d. tierischen Entwicklungsprozess, uber Empirismus und Nativismus in die Musiktheorie. *Vjsch. f. Musikwiss.*, 1886, **2**. Auch: Leipzig, 1885. S. 89.

Lieder der Bellakula-Indianer. *Vjsch. f. Musikwiss.*, 1886, **2**. Auch in Bd. I, *Sammelbände für vergleichende Musikwissenschaft*, 1922.

Ueber die Vorstellung von Melodien. *Zsch. f. Phil. u. phil. Kritik*, 1886, **89**, 45-47.

Mongolische Gesange. *Vjsch. f. Musikwiss.*, 1887, **3**. Auch in Bd. I, *Sammelbände für vergleichende Musikwissenschaft*, 1922.

Ueber Vergleichung von Tondistanzen. *Zsch. f. Psychol.*, 1890, **1**, 419-462.

Psychologie und Erkenntnisstheorie. (*Abh. bayer. Akad. d. Wiss.*, 1891, I. Cl., **19**, 2. Abt., 467-516.) München: Franz, 1891. S. 52.

Wundt's Antikritik. *Zsch. f. Psychol.*, 1891, **2**, 266-293, 438-443.

Ueber die Anwendung des mathematischen Wahrscheinlichkeitsbegriffes auf Teile eines Kontinuums. *Sitzber. d. preuss. Akad. d. Wiss.*, 1892.

Ueber den Begriff der mathematischen Wahrscheinlichkeit. *Sitzber. d. preuss. Akad. d. Wiss.*, 1892.

Phonographierte Indianermelodien. *Vjsch. f. Musikwiss.*, 1892, 127-144. Auch in Bd. I, *Sammelbande fur vergleichende Musikwissenschaft*, 1922.

Zum Begriffe der Lokalzeichen. *Zsch. f. Psychol.*, 1892-1893, **4**, 70-73.

Bemerkungen über zwei akustische Apparate. *Zsch. f. Psychol.*, 1893-1894, **6**, 33-43.

H. v. Helmholtz und die neuere Psychologie. *Arch. f. Gesch. d. Phil.*, 1895, **8**, 303-314.

Englisch: *Psychol. Rev.*, 1895, **2**, 1-12.

Antrittsrede in der Berliner Akademie. *Sitz. d. preuss. Akad. d. Wiss.*, 1895.

Ueber die Ermittlung von Obertönen. *Ann. d. Physik u. Chem.*, 1896, **57**, 660-681; **58**, 208.

L'âme et le corps. *Rev. scient.*, 1896, **6**, 321-326.

Tafeln zur Geschichte der Philosophie. Berlin: Speyer u. Peters, 1896. (4. Aufl., mit Menzer, P., 1928. S. 31.)

Die pseudo-aristotelischen Probleme über Musik. (*Abh. d. preuss. Akad. d. Wiss.*, 1896.) Berlin: Reimer, 1897. S. 85.

Leib und Seele. Leipzig: Barth, 1896. S. 72. (3. Aufl., mit *Der Entwicklungsgedanke in der gegenwärtigen Philosophie*, 1909. S. 72.)

Geschichte des Konsonantbegriffes. (*Abh. d. bayer. Akad. d. Wiss.*, 1897, I. Cl., 21, 1. Abt.) München: Franz, 1897. S. ii+ 78.

Zusammen mit Meyer, M. Schwingungszahlbestimmungen bei sehr hohen Tönen. *Ann. d. Physik*, 1897, **61**, 760-779. Erwiderung. *Ann. d. Physik*, 1898, **65**, 641-644.

Eröffnungsrede. *Ber. d. III. int. Kong. f. Psychol.*, München, 1897, 3-16.

A propos d'un enfant prodige. *Rev. de l'hypnotisme*, 1897, **12**, 85-87.

Un enfant extraordinaire. *Rev. scient.*, 1897, **7**, 336-338.

Neueres über Tonverschmelzung. *Zsch. f. Psychol.*, 1897, **15**, 280-303, 354. Auch in *Beitr. z. Akustik u. Musikwiss.*, 1898, H. 2, 1-24.

Konsonanz und Dissonanz. *Beitr. z. Akustik u. Musikwiss.*, 1898, H. 1, 1-108.

Zum Einfluss der Klangfarbe auf der Analyse von Zusammenklängen. *Beitr. z. Akustik u. Musikwiss.*, 1898, H. 2, 168-170.

Zusammen mit Meyer, M. Massbestimmungen über die Reinheit consonanter Intervalle. *Zsch. f. Psychol.*, 1898, **18**, 321-404. Auch in *Beitr. z. Akustik u. Musikwiss.*, 1898, H. 2, 84-167.

Die Unmusikalischen und die Tonverschmelzung. *Zsch. f. Psychol.*, 1898, **17**, 422-435. Erwiderung. *Zsch. f. Psychol.*, 1898, **18**, 294-302.

Ueber die Bestimmung hoher Schwingungszahlen durch Differenztöne. *Ann. d. Physik*, 1899, **68**, 105-116.

Ueber den Begriff der Gemüthsbewegung. *Zsch. f. Psychol.*, 1899, **21**, 47-99.

Beobachtungen über subjektive Töne und über Doppelthören. *Zsch. f. Psychol.*, 1899, **21**, 100-121. Auch in *Beitr. z. Akustik u. Musikwiss.*, 1901, H. 3, 30-51.

Der Entwicklungsgedanke in der gegenwärtigen Philosophie. (Festrede in d. Kaiser Wilhelms-Akad. f. ärztl. Bildungswesen.) Leipzig: Barth, 1899. S. 32. (3. Aufl., zusammen mit *Leib und Seele*, 1909. S. 62.)

Sur la nature des émotions. *Arch. de neur.*, 1900, **9**, 451-452.

Die Berliner Aufführungen klassischer Musikwerke für den Arbeiterstand. *Preuss. Jahrb.*, 1900, **100**.

Ueber die allgemeinen Beziehungen zwischen Gehirn und Seelenleben. Leipzig: Barth, 1902. S. 66. (3. Aufl., 1912. S. 72.)

Ein einfacher Apparat zur Messung der Aufmerksamkeit. *Monatssch. f. Psychiat. u. Neur.*, 1903, **14**, 231-232.

Eine Hypothese über den sogenannten 'gefühlserzeugenden Prozess.' *Zsch. f. Psychol.*, 1903, **31**, 215-219.

Einige Bemerkungen zur Anwendung der Methode der richtigen und falschen Falle bei psychologischen Untersuchungen. *Monatssch. f. Psychiat. u. Neur.*, 1904, **15**, 64-66.

Die Entwickelungsstadien der Psychiatrie. *Berlin. klin. Woch.*, 1904, **41**, 777-780.

Ueber einige Lücken und Schwierigkeiten der Gruppierung der Geisteskranken. *Monatssch. f. Psychiat. u. Neur.*, 1904, **15**, 147-150.

Zur Lehre von den psychopathischen Konstitutionen. *Charité-Annalen*, 1905-1912, 29-36.

Die Geisteskrankheiten des Kindesalters. Mit besonderer Berücksichtigung des schulpflichtigen Alters. *Samml. v. Abh. a. d. Geb. d. päd. Psychol. u. Physiol.*, 1902, **5**, 1-79; 1904, **7**, 1-94; 1906, **8**, 1-130.

Ueber Hysterie. *Dtsch. Klin.*, 1906, 1319-1380.

Ein hypothetisches 'Parallel' Gesetz. *Ann. d. Naturphil.*, 1907, **5**, 439-445.

Beitrag zur Methodik der Statistik und der Klassifikation der Psychosen. *Monatssch. f. Phychiat. u. Neur.*, 1907, **22** (Erg.), 161-176.

Die Lehre von der Aufmerksamkeit. *Monatssch. f. Psychiat. u. Neur.*, 1908, **24**, 173-178.

Das Gedächtnis. Festrede. Berlin: Hirschwald, 1908. S. 50.

Die Prinzipien und Methoden der Intelligenzprüfung. Berlin: Karger, 1908. S. 61. (5. Aufl. unter dem Titel: Die Prinzipien und Methoden der Begabungs—, insbesondere der Intelligenzprüfung und der ethischen Gefühle, 1923. S. 90.)

Die Erkennung des Schwachsinns im Kindesalter. Berlin: Kargar, 1909. S. 32.

Zur Methodik der Sensibilitätsuntersuchung. *Med. Klin.*, 1910, **6**, 967-974.

Erbliche Anlage zu Geistesstörungen bei Kindern. *Zsch. f. päd. Psychol.*, 1909, **10**, 1-16.

Die Methoden zur Prüfung der kinaesthetischen Empfindungen. *Zsch. f. d. päd. Psychol.*, 1911, **12**, 216-225.

Beitrag zur Lehre vom absoluten Eindruck (nebst Beobachtungen über taktile Längentäuschungen). *Zsch. f. Psychol.*, 1913, **71**, 177-287.

Erkenntnistheorie auf psychophysiologischer und physikalischer Grundlage. Jena: Fischer, 1913. S. xi+572.

Kurze Bemerkung über Reaktionsversuche bei Lappen und Samajeden. *Zsch. f. Psychol.*, 1913, **68**, 120-123.

Experimentelle Untersuchungen über die räumlichen Eigenschaften einiger Empfindungsgruppen. *Fortschr. d. Psychol.*, 1913, **1**, 227-337.

Zum gegenwärtigen Stand der Erkenntnistheorie. Wiesbaden: Bergmann, 1914. S. 73.

Ueber die Behandlung psychopathischer Konstitutionen. *Wien. med. Woch.*, 1914, **64**, 362-368.

Kategorien und Differenzierungsfunktionen. *Vjsch. f. wiss. Phil.*, 1915, **39**, 133-177, 312-347.

Die Grundlagen der Psychologie. Leipzig: Teubner, 1915. S. vi+259; vi+304.

Ueber die Unsterblichkeit der Seele. *Dtsch. Rundschau*, 1915, **162**, 416-425.

Die Psychologie grosser Heerführer. Der Krieg und die Gedanken der Philosophen und Dichter vom ewigen Frieden. Leipzig: Barth, 1916. S. 94.

Die Geisteskrankheiten einschlicklich des Schwachsinns und die psychopathischen Konstitutionen im Kindesalter. Berlin: Reuther u. Reichard, 1917. S. 491. (2. Aufl., 1926. S. 554.)

Ueber die Abhängigkeit der scheinbaren Grösse taktiler Empfindungen von der Entfernung und von der optischen Einstellung. *Zsch. f. Sinnesphysiol.*, 1918, **50**, 79-116.

Ueber das Wesen der Beanlagung und ihre methodische Erforschung. Langensalza: Beyer, 1918. S. 32. (4. Aufl., 1929. S. 88.)

Einige Ergänzungen zu den Methoden der Intelligenzprüfung. *Arch. f. Psychiat. u. Nervenkr.*, 1918, **59**, 493-500.

Lehrbuch der Logik auf positivistischer Grundlage mit Berücksichtigung der Geschichte der Logik. Bonn: Marcus u. Weber, 1920. S. 866.

Die Beziehungen der Lebenserscheinungen zum Bewusstsein. Berlin: Bornträger, 1921. S. 66.

Zusammen mit Haecker, V. Zur Vererbung und Entwicklung der musikalischen Begabung. Leipzig: Barth, 1922. S. iii+186. *Zsch. f. Psychol.*, 1922, **88**, 265-307; 1922, **89**, 273-312; 1922, **90**, 204-306.

Grundlagen der Naturphilosophie. Leipzig: Quelle u. Meyer, 1922. S. 135.

Das Seelenleben der Jugendlichen. Langensalza: Beyer, 1923. S. 90. (4. Aufl., 1931. S. 176.)

Allgemeine Psychologie. In *Handbücher der Philosophie*. Berlin: Pan Verlag, 1923. S. 292.

Das Leib-Seele Problem. *Dtsch. med. Woch.*, 1924, **50**, 1267-1269.

Die Erziehbarkeit der Erwachsenen. *Jahrb. d. Gefängnisges. f. d. Prov. Sachsen*, 1924, **40**, 13-29.

Zusammen mit Haecker, V. Ueber die musikalische Vererbund in der Deszendenz von Rob. Schumann. *Zsch. f. indukt. Abstam.- u. Vererbungslehre*, 1925, **38**, 97-123.

Die Auffassung der psychischen Strukturen vom Standpunkt der Assoziationspsychologie. *Zsch. f. Psychol.*, 1925, **97**, 127-144.

Vorlesungen über Aesthetik. Halle: Niemeyer, Tl. I., 1923. S. 300; Tl. II., 1925. S. 420.

Medizin und Philosophie. *Dtsch. med. Woch.*, 1926, Nr. 44.

Einige Bemerkungen über das sogenannten Punktschwanken. *Zsch. f. Sinnesphysiol.*, 1927, **58**, 59-72.

Sechs Vortrage zur Willenspsychologie. Jena: Fischer, 1927. S. 80.

Charakterologische Studien an Verbrechern. *Jahrb. f. Charakterol.*, 1927, **4**, 196-209; 1928, **5**, 377-394.

Rhythmus in allgemein philosophischer Betrachtung. *Zsch. f. Aesth.*, 1927, **21**, 187-207.

Das Problem der Gesetze. Halle: Niemeyer, 1927. S. 30.

Psychologische Erfahrungen an unerziehbaren Verbrechern. *Jahrb. d. Gefängnisges. f. d. Prov. Sachsen*, 1927, **43**, 46-65.

Die Grundlagen der Religionsphilosophie. Leipzig: Meiner, 1928. S. 166.

Die Prüfung der Phantasietätigkeit bei Kranken und Gesunden. *J. f. Psychol. u. Neur.*, 1928, **37**, 422-427.

Erzieherische Behandlung erblicher Anlagen. Querfurt: Schneider, 1929. S. 14.

Sprechen und Denken vom Standpunkt der Sprachheilkunde. *Kong. d. Arbeitsgemeinschaft f. Sprachheilpäd. in Deutschland*, 1929, 149-162.

Die seelischen Beziehungen des Menschen zur Berufsarbeit. *Dtsch. Berufsschule*, 1930, **38**, 569-582.

Gestalten, Strukturen und Kausalgesetz. *Arch. f. d. ges. Psychol.*, 1930, **77**, 291-306.

Die Grundlagen der Charakterologie. Langensalza: Beyer, 1930. S. 372.

Goethes naturphilosophische Anschauungen. In *Goethe-Festschrift der Leopoldinische Akademie der Naturforschung*. Leipzig: Quelle u. Meyer, 1930. S. 35-57.

ZILLIG, Maria, Volksschule, Würzburg, Bayern, Deutschland.

Geboren Würzburg, 30. Mai 1896.

Universität Würzburg, 1918-1923, Dr. phil., 1922.

Volksschule Würzburg, 1922—, Lehrerin.

Ueber eidetische Anlage und Intelligenz. *Fortschr. d. Psychol. u. ihrer Anwend.*, 1922, **5**, 293-348.

Qualität und Tempo bei fortlaufender Arbeit. *Zsch. f. Psychol.*, 1924, **95**, 274-315.

Experimentelle Untersuchungen über Umstellbarkeit. *Zsch. f. Psychol.*, 1925, **97**, 1-31.

Die Uebung der Umstellbarkeit. *Zsch. f. Psychol.*, 1926, **100**, 18-49.

Ueber das Verständnis des Kindes für den Erwachsenen. *Arch. f. d. ges. Psychol.*, 1928, **62**, 135-178.

Einstellung und Aussage. *Zsch. f. Psychol.*, 1928, **106**, 58-106.

Typisches Verhalten kindlicher Zeugen bei wiederholter Aussage. *Zsch. f. Psychol.*, 1928, **107**, 366-410.

Zur Psychologie des dichterisch schaffenden Kindes. *Zsch. f. Psychol.*, 1929, **112**, 302-324.

Experimentelle Untersuchungen über die Kinderlüge. *Zsch. f. Psychol.*, 1929, **114**, 1-84.

Ueber die pädagogische Bedeutung der eidetischen Anlage. *Neue päd. Stud.*, 1930, **2**, 85-92.

GREAT BRITAIN

F. C. BARTLETT
and
JAMES DREVER

in cooperation with C. Spearman and the President of the British Psychological Society

ADAMS, John, University of California at Los Angeles, Department of Education, Los Angeles, California, U. S. A.

Born Glasgow, Scotland, July 2, 1857.

University of Glasgow, 1876-1884, A.M., First-class Honors, 1884, Sc.B., 1888.

University of Glasgow, 1900-1902, Lecturer in Education. University of London, 1902-1922, Professor of Education. University of California at Los Angeles, 1923—, Lecturer in Education.

British Psychological Society.

The Herbartian psychology applied to education. New York: Heath, 1897. Pp. 279.

Everyman's psychology. New York: Doubleday Doran, 1930. Pp. xix+418.

ADRIAN, Edgar Douglas, University of Cambridge, Trinity College, Cambridge, England.

Born London, Nov. 30, 1889.

University of Cambridge, Trinity College, 1909-1914, A.M., M.D., 1919. St. Barthelomew's Hosiptal, 1914-1915.

University of Cambridge, Trinity College, 1919—, Lecturer and Director of Medical Studies. University of Cambridge, 1922—, Lecturer in Physiology. Royal Society, 1930—, Foulerton Research Professor. *Proceedings of the Physiological Society,* Editor. *Journal of Physiology,* Associate Editor.

British Psychological Society. Fellow, Royal Society, 1923. Fellow, Royal College of Physicians, 1924. Physiological Society. Membre correspondant, Société de Biologie.

With Lucas, K. On the summation of disturbances in nerve and muscle. *J. Physiol.,* 1912, **44**, 68-125.

On the conduction of subnormal disturbances in normal nerve. *J. Physiol.,* 1912-13, **45**, 389-412.

Wedensky inhibition in relation to the "all-or-none" principle in nerve. *J. Physiol.,* 1913, **46**, 384-412.

The all-or-none principle in nerve. *J. Physiol.,* 1914, **47**, 460-474.

The relation between the size of the propagated disturbance and the rate of conduction in the nerve. *J. Physiol.,* 1914, **48**, 53-72.

The temperature coefficient of the refractory period in nerve. *J. Physiol.,* 1914, **48**, 453-464.

The recovery of conductivity and excitability in nerve. *J. Physiol.,* 1916, **50**, 345-363.

The electrical reactions of muscles before and after nerve injury. *Brain,* 1916, **39**, 1-33. Also in *J. Roy. Army Med. Corps,* 1917, **28**, 49, 65, 188.

Neuritic type of progressive muscular atrophy (Charcot-Marie-Tooth). *Proc. Roy. Soc. Med. London,* 1916-17, **10** (*Neur. Sec.*), 49.

Physiological basis of electrical tests in peripheral nerve injury. *Arch. Radiol. & Electrotherap.,* 1917, **21**, 379-392. Also in *J. Roy. Army Med. Corps,* 1917, **29**, 160-180.

The physiological basis of electrical tests in peripheral nerve injuries. *J. Roy. Army Med. Corps,* 1917, **29**, 160-180.

With Yealland, L. R. The treatment of some common war neuroses. *Lancet,* 1917, **192**, 867-872.

Conduction in peripheral nerve and in the central nervous system. *Brain,* 1918, **41**, 23-47.

The response of human sensory nerves to currents of short duration. *J. Physiol.,* 1919, **53**, 70-85.

A rotating contact breaker. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1920, **54**, xxvi-xxvii.

The recovery process of excitable tissues: I. *J. Physiol.,* 1920-21, **54**, 1-31.

Prof. Sherrington's work on the nervous system. *Nature,* 1920-21, **106**, 442.

The recovery process of excitable tissues: II. *J. Physiol.,* 1921-22, **55**, 193-225.

With Owen, D. R. The electrical response of denervated muscle. *J. Physiol.,* 1921-22, **55**, 326-331.

The relation between the stimulus and the electrical response in a single muscle fibre. *Arch. neérl. de physiol.,* 1922, **7**, 330-332.

With Forbes, A. The all-or-nothing response of sensory nerve fibres. *J. Physiol.,* 1922-23, **56**, 301-330.

With Olmsted, J. M. D. The refractory

phase in a reflex arc. *J. Physiol.*, 1922-23, **56**, 426-443.
Disorders of functions in the neurone. *Proc. Roy. Soc. Med. London*, 1922-23, **16** (*Neur. Sec.*), 55-60.
The time relations of the isometric twitch. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1923, **57**, xi-xii.
With Cooper, S. The frequency of discharge from the spinal cord in the frog. *J. Physiol.*, 1923-24, **58**, 209-229.
The conception of nervous and mental energy: I. *Brit. J. Psychol.*, 1923-24, **14**, 121-125.
Some recent work on inhibition. *Brain*, 1924, **47**, 399-416.
With Watts, C. F. A needle thermo-junction. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1924, **58**, xi-xii.
With Cooper, S. The maximum frequency of reflex response in the spinal cat. *J. Physiol.*, 1924-25, **59**, 61-81.
With Cooper, S. The electric response in reflex contractions of spinal and decerebrate preparations. *Proc. Roy. Soc. London*, 1924-25, **96B**, 243-258.
The chronaxie of frog's ventricular muscle. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1925, **59**, lxi-lxii.
Interpretation of the electromyogram. *Lancet*, 1925, **i**, 1229-1233, 1282-1286.
The spread of activity in the tenuissimus muscles of the cat and in other complex muscles. *J. Physiol.*, 1925-26, **60**, 301-315.
With Cooper, S. Action currents in sensory nerve fibres. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1925-26, **60**, xlii-xliii.
With Smith, G. E., *et al.* Discussion of the sympathetic innervation of striated muscle. *Proc. Roy. Soc. Med.*, 1925-26, **19** (*Neur. Sec.*), 15-27.
The impulses produced by sensory nerve endings: I. *J. Physiol.*, 1926, **61**, 49-72.
With Zotterman, Y. The impulse produced by sensory nerve endings: II. The response of a single end-organ. *J. Physiol.*, 1926, **61**, 151-171.
With Zotterman, Y. The impulse produced by sensory nerve endings: III. Impulses set up by touch and pressure. *J. Physiol.*, 1926, **61**, 465-483.
With Zotterman, Y. Impulses produced from a single sensory end-organ. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1926, **61**, viii.
The impulses produced by sensory nerve endings: IV. Impulses from pain receptors. *J. Physiol.*, 1926-27, **62**, 33-51.
With Eckhard, R. Impulses in the optic nerve. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1926-27, **62**, xxiii-xxv.
With Matthews, R. Action of light on eye: I. Discharge of impulses in the optic nerve and its relation to the electric changes in the retina. *J. Physiol.*, 1927, **63**, 378-414.
With Matthews, R. Action of light on eye: II. Processes involved in retinal excitation. *J. Physiol.*, 1927, **64**, 279-301.
Die Untersuchung der Sinnesorgane mit Hilfe elektrophysiologischer Methoden. *Erg. d. Physiol.*, 1928, **26**, 501-530.
With Bronk, D. W. Discharge of impulses in motor nerve fibres: I. Impulses in single fibres of the phrenic nerve. *J. Physiol.*, 1928, **66**, 81-100.
With Matthews, R. Action of light on the eye: III. Interaction of retinal neurones. *J. Physiol.*, 1928, **65**, 273-298.
With Bronk, D. W. Apparatus for demonstrating nerve and muscle action currents. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1928, **66**, xiii-xiv.
Le message sensoriel. *J. de psychol.*, 1928, **25**, 713-720.
The basis of sensation: the action of the sense organs. London: Christophers; New York: Norton, 1928. Pp. 122.
With Bronk, D. W. Discharge of impulses in motor nerve fibres: II. Frequency of discharge in reflex and voluntary contractions. *J. Physiol.*, 1929, **67**, 119-151.
With Umrath, K. Impulse discharge from Pacinian corpuscle. *J. Physiol.*, 1929, **68**, 139-154.
The mechanism of the nerves. *Nature*, 1929, **123**, 167-169.
Chronaxie. In Vol. 5 of *Encyclopaedia Britannica.* (14th ed.) London & New York: Encyclopaedia Britannica, 1929. P. 648.
Nerve. In Vol. 16 of *Encyclopaedia Britannica.* (14th ed.) London & New York: Encyclopaedia Britannica, 1929. P. 238.
Impulses in sympathetic fibres and in slow afferent fibres. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1930, **70**, xx-xxi.
Mechanism of sense organs. *Physiol. Rev.*, 1930, **10**, 336-347.
Effects of injury on mammalian nerve fibres. *Proc. Roy. Soc. London*, 1930, **106 B**, 596-618.
With Buytendijk, F. J. J. Potential changes in isolated brain stem of goldfish. *J. Physiol.*, 1931, **71**, 121-135.

ALEXANDER, Samuel, 24, Brunswick Road, Withington, Manchester, England.

Born Sydney, New South Wales, Jan. 6, 1859.

University of Melbourne, 1876-1877. University of Oxford, Balliol College, 1878-1881, A.B., 1881, A.M., 1885.

University of Manchester, 1893—, Professor, 1893-1924; Honorary Professor, 1924—.

British Psychological Society. Aristotelian Society. Mind Association. British Institute of Philosophical Studies. LL.D., University of St. Andrews, University of Birmingham. D.Litt., University of Durham, University of Oxford, University of Liverpool. British Academy, 1914—, Fellow.

The mind of a dog. *Cornhill Mag.*, 1906, No. 121, 28-43.
Mental ability and willing. *Proc. Arist. Soc.*, 1909, **9**, 1-49.
On sensations and images. *Proc. Arist. Soc.*, 1910, **10**, 1-35.
Foundations and sketch plan of a conational psychology. *Brit. J. Psychol.*, 1911, **4**, 239-267.
Self as subject and as person. *Proc. Arist. Soc.*, 1911, **11**, 1-28.
The method of metaphysics and the categories. *Mind*, 1912, **21**, 1-20.
On relations: and in particular the cognitive relation. *Mind*, 1912, **21**, 305-328.
Collective willing and truth. *Mind*, 1913, **22**, 14-47, 161-189.
Freedom. *Proc. Arist. Soc.*, 1914, **14**, 322-354.
Chapters on psychology in *Space, time and deity*. (*The Gifford lectures at Glasgow, 1906-1918.*). (2 vols.) London: Macmillan, 1920. Pp. xvi+347; xiii+437.
Natural piety. *Hibbert J.*, 1922, **20**, 609-621.
Sense-perception: a reply to Mr. Stout. *Mind*, 1923, **32**, 1-11.
Art and the material. Manchester: Univ. Manchester Press; New York: Longmans, Green, 1925. Pp. 32.
The creative process in the artist's mind. *Brit. J. Psychol.*, 1927, **17**, 304-321.
Art and instinct. New York & London: Oxford Univ. Press, 1927. Pp. 24.
Philosophy and art. *J. Phil. Stud.*, 1929, **4**, 157-161.
Beauty and greatness in art. *Proc. Arist. Soc.*, 1930, **30**, 229-242.

ARMSTRONG, Wallace Edwin, University of Cambridge, Sidney Sussex College, Cambridge, England.
Born London, Feb. 24, 1896.
University of Cambridge, Sidney Sussex College, A.B., 1919, A.M., 1922.
University of Cambridge, 1922—, Lecturer in Anthropology.
British Psychological Society. Royal Anthropological Institute. Royal Economics Society.
Rossel Island religion. *Anthropos*, 1923-24, **18-19**, 1-11.
Rossel Island money. *Econ. J.*, 1924, **34**, 423-429.
Social constructiveness: III. *Brit. J. Psychol.*, 1928, **18**, 396-399.
Rossel Island. London: Cambridge Univ. Press, 1928. Pp. xxviii+274.

AUSTIN, Frances May (Mrs.), University of Birmingham, Department of Education, Birmingham, England.
Born Banbridge County Down, Ireland, July 19, 1893.
Queen's University, Belfast, 1911-1916, Sc.B., 1915, Diploma in Education, 1916, Higher Diploma in Education, 1918. University of Birmingham, Sc.M., 1923.
Methodist College, Belfast, 1916-1918. Science Mistress. Ashburne Grammar School, 1918-1919, Senior Mistress and Science Mistress. University of Birmingham, 1919—, Lecturer in Psychology and Education.
British Psychological Society. National Institute of Industrial Psychology.
[Ritchie.] Some effects of prolonged, unvaried mental work: Part I. *Forum Educ.*, 1924, **2**, 48-61.
[Ritchie.] Some effects of prolonged, unvaried mental work: Part II. *Forum Educ.*, 1924, **2**, 83-98.
[Ritchie.] With Valentine, C. W. An enquiry as to reasons for the choice of occupations among secondary school pupils: I. *Forum Educ.*, 1927, **5**, 85-101; reprinted with some omissions in *J. Nat. Instit. Indus. Psychol.*, 1928, **4**, 211-223.
[Ritchie.] An enquiry as to reasons for the choice of occupations among secondary school pupils: II. Enquiry in a girls' school. *Forum Educ.*, 1930, **8**, 42-54, 81-90.
An analysis of the motives of adolescents for the choice of the teaching profession. *Brit. J. Educ. Psychol.*, 1931, **1**, 87-103.

AVELING, Francis, 8, Woodstock House, High Street, London, W.1, England.
Born St. Catherines, Ont., Can., Dec. 25, 1875.
University of Louvain, Ph.D., 1910, Agrégé, 1913.
University of London, University College, 1912-1922, Lecturer, 1912-1919; Assistant Professor, 1919-1922. University of London, King's College, 1922-1931, Reader and Director of the Psychological Laboratory. University of London, 1931—, Professor of Psychology. *Contemporary Library of Psychology*, General Editor.
British Psychological Society (President, 1926-1929). Aristotelian Society. National Institute of Industrial Psychology (Council and Advisory Board). British Institute of Philosophical Studies (Council). Child Guidance Council. International Congresses of Psychology (Council). D.Sc., 1912 (Carpenter Medallist), D. Lit., 1929, University of London.
The relation of thought-process and percept in perception. *Brit. J. Psychol.*, 1911, **4**, 211-227.
Modernism of St. Thomas Aquinas. *19th Cent.*, 1911, **69**, 72-81.
On the consciousness of the universal and the individual—a contribution to the phenomenology of the thought processes. London: Macmillan, 1912. Pp. x+225.
Confirmations expérimentales d'une théorie du processus cognitif. *Ann. de l'Instit. supér. de phil.*, 1913, **2**, 397-468.

Some theories of knowledge. *Proc. Arist. Soc.*, 1914, **15**, 304-331.

With Hargreaves, H. L. Suggestibility with and without prestige in children. *Brit. J. Psychol.*, 1921, **12**, 53-75.

The science of psychology. (Inaugural lecture.) *Church Quar. Rev.*, 1922, **94**, 48-66.

With Field, G. C., & Laird, J. Is the conception of the unconscious of value in psychology? *Mind*, 1922, **31**, 413-422.

Is the conception of the unconscious of value in psychology? *Mind*, 1922, **31**, 423-433.

The Thomistic outlook in philosophy. *Proc. Arist. Soc.*, 1924, **24**, 169-184.

BOYLE, A. Helen Anne, 9, The Drive, Hove, Brighton, Sussex; or 49, Harley Street, London, England.

Born Dublin, 1869.

London (Royal Free Hospital) School of Medicine for Women, 1889-1893, L.R.C.P., L.R.C.S. (University of Edinburgh), L.R.F.P.S. (University of Glasgow), 1893. University of Brussels, 1894, M.D. (Distinction), 1894.

London County Council Mental Hospital, Claybury, 1895, Assistant Medical Officer. The Lady Chichester Hospital, Hove, Brighton, 1905—, Honorary Senior Visiting Physician. Elementary School Teachers (Superannuation Act), 1909—, Medical Officer. Civil Service Commission, London, 1919—, Medical Referee. Hove Villa, Brighton (Seaside Home for Camberwell House Mental Hospital, London), 1921—, Senior Visiting Physician. Royal Sussex County Hospital, Brighton, Department for Early Nervous Disorders, 1930—, Honorary Visiting Physician.

British Psychological Society. Fellow, Royal Society of Medicine. British Medical Association (Ex-Chairman, Brighton Division; Member, Lunacy and Mental Disorders Committee). Royal Medico-psychological Association (Member of Council, Member of Parliamentary and Educational Committees). National Council for Mental Hygiene. Child Guidance Council. Central Association for Mental Welfare (Member of Council). People's League of Health (Member of Council). Medical Women's Federation

(Member of Standing Committee of Psychological Medicine).

Some points in the early treatment of mental and nervous cases (with special reference to the poor.) *J. Ment. Sci.*, 1905, **41**, 676-681. (Discussion: 688-710.)

Account of an attempt at the early treatment of mental and nervous cases (with speical reference to the poor). *J. Ment. Sci.*, 1909, **55**, 683-692.

Some observations on early nervous and mental cases, with suggestions as to possible improvement in our methods of dealing with them. *J. Ment. Sci.*, 1914, **60**, 381-398.

Early nervous and borderland conditions. *St. Mary's Hosp. Gaz.*, 1920, **26**, 39-43.

The ideal clinic for the treatment of nervous and borderland cases. *Proc. Roy. Soc. Med. London*, 1921-22, **15** (*Psychiat. Sec.*), 39-49.

The subnormal or unstable child. Chap. VIII in *Health and psychology of the child*, by S. Chesser. London: Heinemann, 1925. Pp. 134-149.

A note on the psychology of inebriate women. *Brit. J. Inebr.*, 1927, **24**, 182-185.

The early treatment of psychoses and psychoneuroses. *Brit. Med. J.*, 1928, **ii**, 923-926.

Provision of early treatment for nervous and borderland patients. Chap. XIV in *Contributions to psychiatry, neurology and sociology dedicated to the late Sir Frederick Mott*, ed. by J. R. Lord. London: Lewis, 1929. Pp. 167-176.

BRACKENBURY, Laura, Graystoke Place Training College, London County Council, London, England.

Born Liverpool, 1868.

University of Cambridge, Newnham College, 1890-1893, Moral Sciences Tripos, Class I, 1893. Trinity College, Dublin, A.M., 1906.

Cambridge Training College, Post-Graduate, 1902-1907, Lecturer in Educational Psychology. London County Council Training College, 1907—, Principal.

British Psychological Society.

A primer of psychology. London: Murray, 1907. Pp. 120. (2nd ed., enl., 1909.)

BRADFORD, Edouard Jules Gaston, University of Sheffield, Department of Education, Sheffield, England.

Born London, Feb. 4, 1888.

University of London, King's College, 1907-1912, Sc.B., 1910, Sc.M., 1920.

University of Sheffield, 1920—, Lecturer in Education.

British Psychological Society.

A note on the relation and aesthetic value of the perception types in color appreciation. *Amer. J. Psychol.*, 1913, **24**, 545-554.

Measures of variability. *Amer. J. Psychol.*, 1916, **27**, 234-245.

Reliability coefficients. *J. Exper. Psychol.*, 1920, **5**, 295-299.

Factors in mental tests. *Brit. J. Psychol.*, 1921, **12**, 279-281.

Selection by examination. *Forum Educ.*, 1923, **1**, 187-194.

Suggestion, reasoning and arithmetic. *Forum Educ.*, 1925, **3**, 3-12.

BRAITHWAITE, Richard Bevan, University of Cambridge, Cambridge, England.

Born Banbury, 1900.

University of Cambridge, 1919-1923, A.B., 1923. University of Cambridge, King's College, 1924—, A.M., 1926.

University of Cambridge, 1928—, Lecturer in Moral Scence.

British Psychological Society. Cambridge Philosophical Society. Aristotelian Society.

BRERETON, Cloudesley Shovell Henry, 9, Highbury Terrace, Highbury, London, N.5, England.

Born Norwich, Nov. 20, 1863.

University of Cambridge, St. John's College, 1883-1887, A.B., 1886, A.M., 1897. University of Paris, Bach. ès lettres (rhetorique, mention trés bien), 1896; Lic. ès lettres (philosophie, mention trés bien) 1897.

British Psychological Society (Chairman, Aesthetics Section, 1926). Corresponding Member, National Education Association of America. Modern Language Association (Vice-President). International Jury for Primary Education (Vice-President, Paris Exhibition, 1900). Chevalier de le Légion d'Honneur. Université de Lille, Docteur ès lettres (Honoris Causa), 1926.

National system of education. *Fortnightly Rev.*, 1901, **75**, 823-835.

Educational crisis in England. *Independent*, 1901, **53**, 1855-1888. Also in *Educ. Rev.*, 1901, **22**, 335-351.

Focal sepsis as a cause of neurasthenia and insanity. *Brit. Med. J.,* 1925.
The institutional treatment of the alcoholist. *Brit. J. Inebr.,* 1926-27, **24**, 43-57.
The psychology of the alcoholist. *Brit. J. Med. Psychol.,* 1931, **11**, 117-124.

CATTELL, Raymond Bernard, University of London, University College, London, England.

Born West Bromwich, Mar. 20, 1905.

University of London, 1921-1929, B.Sc. (First-Class Honours in Chemistry), 1924, Teaching Diploma, 1925, Ph.D., 1929.

University College, Exeter, 1927-1930, Assistant Lecturer in Educational Psychology.

British Psychological Society. Associate Member, National Institute of Industrial Psychology.

The significance of the actual resistance in psychogalvanic experiments. *Brit. J. Psychol.,* 1928, **19**, 34-44.
Experiments on the psychical correlate of the psychogalvanic reflex. *Brit. J. Psychol.,* 1929, **19**, 357-387.
The subjective character of cognition—and the pre-sensational development of perception. *Brit. J. Psychol., Monog. Suppl.,* 1930, **5**, No. 14. Pp. viii+166.
The effects of alcohol and caffeine on intelligent and associative performance. *Brit. J. Med. Psychol.,* 1930, **10**, 20-33.
The Cattell group intelligence tests (three scales). London: Harrap, 1930.
Intelligence levels in schools of the south-west. *Forum Educ.,* 1930, **8**, 201-204.
The assessment of teaching ability: a survey of professional opinion on the qualities of a good teacher. *Brit. J. Educ. Psychol.,* 1931, **1**, 48-72.
The psychology of men of genius. (Trans. of Kretschmer's *Geniale Menschen.*) London: Kegan Paul, 1931. Pp. xx+196.

CHADWICK, Mary Winifred, Institute of Psycho-Analysis, 36, Gloucester Place, London, W., England.

Born London, Apr. 17, 1885.

Royal East Sussex Hospital Training

School for Nurses, 1915-1918, S.R.N., 1928, Member, College of Nursing, 1918. Fellow, British College of Nurses.

British Psychological Society. Associate Member, International Psycho-analytical Society. Fellow, Zoological Society.

The value of psycho-analysis to education. *New Era,* 1923, **4**, 199-202.

Rudimentary forms of self-expression prior to speech. *Child Stud. J.,* 1924, **4**, 26-42.

The psychological problem of the foster child. *Child,* 1925, **15**, 254-256.

Education of the educationist. *Child Stud. J.,* 1925, **5**, 29-44.

Case of kleptomania in a girl of ten years. *Int. J. Psycho-Anal.,* 1925, **6**, 300-312.

The inter-relations of education and neurosis. *New Era,* 1924, **5**, 72-75.

Über die Würzel der Wissbegierde. *Int. Zsch. f. Psychoanal.,* 1925, **11**, 54-68.

Psychology for nurses. London: Heinemann, 1925. Pp. 249.

Mental investigation of children. *Child,* 1926, **16**, 227-230.

Trials of the little child: I. Long legs and short ones. *Maternity & Child Welf.,* 1926, **10**, 82-83.

Trials of the little child: II. The world around. *Maternity & Child Welf.,* 1926, **10**, 147-149.

Trials of the little child: III. Not giving him time. *Maternity & Child Welf.,* 1926, **10**, 186-187.

Trials of the little child: IV. Deficient elbow room. *Maternity & Child Welf.,* 1926, **10**, 214-215.

Trials of the little child: V. Conflicting example and precept. *Maternity & Child Welf.,* 1926, **10**, 247-249.

Trials of the little child: VI. Opposition between personal and external reality. *Maternity & Child Welf.,* 1926, **10**, 289-290.

Trials of the little child: VII. Refusing to let the child speak for himself. *Maternity & Child Welf.,* 1926, **10**, 362-363.

The psychological dangers of tight clothing in childhood. *Nat. Health,* 1926, **18**, 421-422.

Notes upon the acquisition of knowledge. *Psychoanal. Rev.,* 1926, **13**, 257-280.

Die Gott-Phantasien. *Imago,* 1927, **13**, 383-394.

Modern theories upon the psychogenesis of women's neuroses. *Trained Nurse & Hosp. Rev.,* 1927, **78**, 260.

Ein Experiment in einem Kindergarten. *Zsch. f. psychoanal. Päd.,* 1927, **1**, 350-354.

The child's discrimination between sound and speech. *Psyche,* 1928, No. 32, 58-72.

Six months' experiment in a nursery school. *Psychoanal. Rev.,* 1928, **15**, 27-36.

Difficulties in child development. London: Allen & Unwin, 1928. Pp. 411. New York: Day, 1928. Pp. 170.

Spanish: Las dificultades en el desenvolvimiento del mino. Madrid: Juan Ortiz. Pp. 215.

Notes upon the fear of death. *Int. J. Psycho-Anal.,* 1929, **10**, 321-334.

German: Die Furcht vor dem Tode. *Int. Zsch. f. Psychoanal.,* 1929, **15**, 271-284.

The kinaesthetic sense. *J. Chartered Soc. Massage,* 1929, **14**, 218-220, 245-248.

Psychological aspects of illness in young children: V. Convalescence. *Maternity & Child Welf.,* 1929, **13**, 290-292.

Child study, the modern hobby. *Psyche,* 1929, **9**, 69-72.

Die allgemeine Verschwörung zur Verleugung. *Zsch. f. psychoanal. päd.,* 1929, **3**, 128-132.

Im zoologischen Garten. *Zsch. f. psychoanal. Päd.,* 1929, **3**, 235-236.

Die Unterscheidung zwischen Ton und Sprache in der frühen Kindheit. *Zsch. f. psychoanal. Päd.,* 1929, **3**, 369-383.

Über Selbstmordphantasien. *Zsch. f. psychoanal. Päd.,* 1929, **3**, 409-422.

The neurotic child. *Rev. int. de l'enf.,* 1930, **10**, 240-266.

Menstruationsangst. *Zsch. f. psychoanal. Pad.,* 1931, **5**, 184-189.

Nursing psychological patients. London: Allen & Unwin, 1931. Pp. 256.

CHAMBERS, Eric Gordon, Industrial Health Research Board, London, England.

Born Stoke-on-Trent, June 28, 1900.

University of Cambridge, Clare College, 1919-1922, A.B., 1922, A.M., 1925.

Industrial Health Research Board, 1922—, Assistant Investigator.

British Psychological Society.

With Farmer, E., & Brooks, R. C. A comparison of different shift systems in the glass trade. (*Indus. Health Res. Board Rep.,* No. 24.) London: H. M. Stationery Office, 1923. Pp. 1-24.

With Farmer, E. Concerning the use of the psycho-galvanic reflex in psychological experiments. *Brit. J. Psychol.,* 1925, **15**, 237-254.

With Farmer, E. A psychological study of individual differences in accident rates. (*Indus. Health Res. Board Rep.,* No. 38.) London: H. M. Stationery Office, 1926. Pp. 1-40.

With Farmer, E. A study of personal qualities in accident proneness and proficiency. (*Indus. Health Res. Board Rep.,* No. 55.) London: H. M. Stationery Office, 1929. Pp. 1-80.

Personal qualities in accident causation. *J. Indus. Hygiene,* 1930, **12**, 223-232.

CHAPMAN, Albert Ernest, University of Birmingham, Birmingham, England.

Born Bristol, 1885.

University of Cambridge, Trinity College, 1904-1907, A.B., A.M.

University College of North Wales, 1907-1920, Lecturer in Philosophy and Education. University of Birmingham, 1921—, Senior Lecturer in the Department of Education.

British Psychological Society. Training College Association.

The effects of school training and special coaching on intelligence tests. *Forum Educ.*, 1924, **2**, 172-183.

An analysis of errors in English composition. *Forum Educ.*, 1929, **7**, 1-13.

CLAREMONT, Claude Albert, Montessori Training College, Studio House, Rosslyn Hill, London, N. W. 3, England.

Born London, Aug. 21, 1890.

University of London, 1908-1911, 1914-1918, 1919, Sc.B., 1911.

Montessori Training College, London, 1924—, Resident Director.

British Psychological Society.

The problem of intelligence. *Psyche*, 1926, **6**, 63-86.

Instinct and intelligence. *Psyche*, 1926, **7**, 19-26.

The problem of intelligence: II. Some further considerations. *Psyche*, 1926, **7**, 59-72.

The creative theory of evolution. *Psyche*, 1928, **9**, 26-36.

Intelligence and mental growth. London: Kegan Paul; New York: Norton, 1928. Pp. 120.

The memory of memories. *Psyche*, 1929, **9**, 44-52.

The psychology of sea-sickness. *Psyche*, 1930, **11**, 86-90.

COLLINS, Mary, University of Edinburgh, George Combe Psychological Laboratory, Edinburgh, Scotland.

Born Edinburgh, Nov. 5, 1895.

University of Edinburgh, A.M., 1917, Ed.B., 1919, Ph.D., 1923.

University of Edinburgh, 1919—, Assistant, 1919-1923; Lecturer, 1923—. University Psychological Clinic for Children and Juveniles, 1931—, Psychologist. *Psychological Index*, 1927—, Collaborating Editor.

British Psychological Society (Secretary, Scottish Branch, 1926—). British Association for the Advancement of Science (Secretary, Psychology Section, 1927—).

Character and temperament tests. *Brit. J. Psychol.*, 1925, **16**, 89-99.

Colour blindness: with a comparison of different methods of testing colour blindness. London: Kegan Paul; New York: Harcourt Brace, 1925. Pp. xxi+237.

With Drever, J. An introduction to experimental psychology. London: Methuen, 1926. Pp. viii+315. (4th ed., 1930.)

With Drever, J. A first laboratory guide to psychology. London: Methuen, 1926; New York: Dutton, 1927. Pp. viii+108.

British norms for the Pressey cross-out test. *Brit. J. Psychol.*, 1927, **18**, 121-133.

An unusual case of colour-blindness. *Brit. J. Psychol.*, 1928, **18**, 356-358.

The effect of deafness on emotional development. *Teacher of the Deaf*, 1928, **16**, 78-83.

With Drever, J. Performance tests of intelligence. Edinburgh: Oliver & Boyd, 1928. Pp. 52.

The Rayleigh colour equation with rotating discs. *Brit. J. Psychol.*, 1929, **19**, 387-393.

A case of synaesthesia. *J. Gen. Psychol.*, 1929, **2**, 12-25.

Performance tests. *Scottish Educ. J.*, 1929, **12**, 226-228.

The University Psychological Clinic in Edinburgh. *Bull. Scottish Asso. Ment. Welf.*, 1930, **8**.

With Drever, J. Psychology and practical life. London: Univ. London Press. (In press.)

COLLIS, Edgar Leigh, University of Wales, Welsh National School of Medicine, Department of Preventive Medicine, Cardiff, Wales.

Born Oldswinford, Stourbridge, Nov. 25, 1870.

University of Oxford, 1889-1893, A.B., 1893, M.B., Ch.B., 1897, A.M., M.D., 1919. St. Thomas' Hospital, 1893-1897, M.R.C.S., L.R.C.P., 1896, M.R.C.P., 1920.

Home Office, 1908-1917, H. M. Medical Inspector of Factories. Royal College of Physicians, 1915, Milroy Lecturer. Ministry of Munitions, 1917-1919, Director of Welfare and Health. University of Wales, 1919—, Manuel Talbot Professor of Preventive Medicine. Royal Institute of Public Health, 1924, Harban Lecturer. Harvard University, 1927, Guest Professor. *Journal of Industrial Hygiene*, British Editor.

British Psychological Society. Fellow, Society of Medical Officers of Health. Fellow, Royal Sanitary Institute. Member, Correspondence Committee on Industrial Hygiene, International Labour Office, Geneva. Miners' Welfare Committee. Health Advisory Committee (Ministry of Mines). Medical Research Council (Member, Statistical Committee).

Diseases of occupation originating in the air passages. *St. Thomas's Hosp. Gaz.*, 1910, **20**, 80-88.

With Pembry, M. S. Observations upon the effects of warm, humid atmospheres on man. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1911, **22**, xl-xliii.

The effects of dust in producing diseases of the lungs. *Trans. Int. Cong. Med.*, London, 1913, Sec. 18, 1-34.

Industrial pneumonoconiosis with special reference to dust-phthisis. *Pub. Health*, 1914-15, **28**, 252-259.

Eye injuries caused by occupation, their pre-

vention and first-aid treatment. *Ophthalmoscope,* 1915, **13**, 491-499.

The occurrence of an unusual cough among weavers of cotton cloth. *Proc. Roy. Soc. Med. London,* 1915, **8** (*Epidemiol. & State Med. Sec.*), 108-112.

The protection of the health of munition workers, with special reference to the aims and work of the Health of Munition Workers Committee. *Chem. News,* 1917, **115**, 141. Also in *J. State Med.,* 1917, **25**, 203-213.

The effect of occupation upon the incidence of pulmonary tuberculosis. *Tubercle,* 1919-20, **1**, 49-56.

The aims of the Welsh National Medical School, with special reference to preventive medicine. "Finem respice." *Lancet,* 1920, **i**, 6-11.

Occupation and health. *Nelson Loose-Leaf Health,* 1920, **7**, 557-578.

The industrial clinic. London: Bale, 1920. Pp. 239.

Industrial efficiency and fatigue. *Med. Officer,* 1920, **24**, 151-153. Also in *J. Roy. San. Instit.,* 1920-21, **41**, 235-241.

The influence of dust inhalation upon the incidence of phthisis. *Pub. Health,* 1920-21, **34**, 97-104.

L'hygiène industrielle et son rôle dans un service d'hygiène publique. *Ann. d'hygiène,* 1921, **36**, 157-178.

With Goadby, Sir K., *et al.* Discussion on the importance of industrial medicine to the community. *Brit. Med. J.,* 1921, **ii**, 315-320.

Industrial health: its value in public health service. *Int. J. Pub. Health,* 1921, **2**, 123-239.

The necessity for greater attention in industry to the maintenance of efficiency and the prevention of ill-health. *J. State Med.,* 1921, **34**, 229-237.

With Goadby, Sir K. Importance of industrial medicine to the community. *Lancet,* 1921, **ii**, 487-491.

With Greenwood, M. The health of the industrial worker. (Intro. by G. Newman.) London: Churchill, 1921. Pp. 450. Philadelphia: Blakiston, 1921. Pp. 469.

The decline and fall (?) of tuberculosis. *Hosp. & Health Rev.,* 1921-22, **1**, 177, 258.

Tuberculosis, infection, immunisation, sensitisation. *Pub. Health,* 1921-22, **25**, 113-125.

Discussion on alcohol as a beverage and its relation to certain social problems, alcohol and industrial efficiency. *Brit. Med. J.,* 1922, **ii**, 244-248.

Health and welfare in the coal mining industry. *J. State Med.,* 1922, **30**, 15-27.

The use of alcohol by industrial workers. *Brit. J. Inebr.,* 1922-23, **20**, 1-13.

The influence of industrialism upon the age and incidence of phthisis. *Tubercle,* 1922-23, **4**, 241-255.

The prevalence of phthisis in different industries and means for its prevention. *Trans. Nat. Asso. Prev. Tuberc.,* 1923, **9**, 110-174.

An inquiry into the mortality of coal and metalliferous miners in England and Wales. *Proc. Roy. Soc. Med. London,* 1923-24, **95 B**, 181-200.

With Llewellyn, T. L. Report on the miner's "beat knee," "beat hand," and "beat elbow." London: H. M. Stationery Office, 1924. Pp. 49.

Phthisis and industrialism (national and occupational) with reference to other infectious diseases. *J. State Med.,* 1925, **33**, 101, 151.

The age distribution of infectious diseases, with special reference to scarlet fever. *J. State Med.,* 1925, **33**, 201-229.

With Vernon, H. M. The manufacture of tin plates; a comparison of old and new tinning processes. *J. Indus. Hygiene,* 1925-26, **7**, 171-183.

The coal miner; his health, diseases, and general welfare. *J. Indus. Hygiene,* 1925-26, **7**, 221-243.

The statistical characteristics of dust phthisis (pulmonary sclerosis). *J. Indus. Hygiene,* 1926, **8**, 457-465. Also in *J. State Med.,* 1926, **34**, 401-404.

Factory medical service; its future. *J. Roy. San. Instit.,* 1926-27, **47**, 435-443. Also in *Med. Press,* 1926, **122**, 146-149.

Industrial fatigue in connection with tuberculosis. *Tubercle,* 1926-27, **8**, 49-58.

Unification of local health services; factory medical service. *Brit. Med. J.,* 1927, **ii**, 926-927.

Tuberculosis in relation to housing and industrial conditions. *Med. Officer,* 1927, **38**, 59-61.

The British coal miner; personal factor in coal mining. (*Johns Hopkins University, School of Hygiene, De Lamar Lecture, 1926-27.*) Baltimore, Md.: Williams & Wilkins, 1928. Pp. 178-191.

With Gilchrist, J. C. Effects of dust upon coal trimmers. *J. Indus. Hygiene,* 1928, **10**, 101-110.

Health and activity; *de motu corporis.* In *Harvey Lectures, 1926-1927.* Baltimore, Md.: Williams & Wilkins, 1928. Pp. 114-124.

With Goadby, K. N. Dust inhalation and iron ore mining. *J. Indus. Hygiene,* 1930, **12**, 266-280.

Industry in relation to personal and public health. *J. State Med.,* 1930, **38**, 125-137.

Prevention of industrial diseases. *J. State Med.,* 1931, **39**, 249-256.

Recent views on pneumonoconioses. *Proc. Roy. Soc. Med. London,* 1931, **24** (*Epidemiol. & State Med. Sec.*), 13-24.

COX, John William, City of London Col-

lege, or National Institute of Industrial Psychology, London, England.

Born London, Jan. 17, 1893.

University of London, University College, 1915-1927, Sc.B., 1917, Sc.M., 1919, Sc.D., 1927.

City of London College, 1920—, Lecturer in Charge of Mathematics and Psychology. National Institute of Industrial Psychology, 1928—, Research Fellow.

British Psychological Society. Association of Scientific Workers (Hon. Secretary, London Branch, 1922—; Member, Research Committee, 1922—).

With Thomas, R. S. Some observations on mental development of feeble-minded children. *Brit. Med. J.*, 1930, **1**, 1123-1125.

The importance of psychological insight for the medical profession. *Edinburgh Med. J.*, 1930, **37**, 102-108.
The problem of social adjustment. *J. Neur. & Psychopath.*, 1931, **11**, 239-246.
With Berry, R. J. A. The mental defective: a problem in social inefficiency. London: Kegan Paul, 1931. Pp. 196. New York: McGraw-Hill, 1931. Pp. xi+225.

GREEN, George Henry, University College of Wales, Aberystwyth, Wales.
Born Isle of Wight, England, July 2, 1881.
University College of Southhampton, 1900-1903. University of Oxford, Exeter College, 1919-1920, B.Litt. University of London, Sc.B., 1919, Ph.D., 1925. B.Litt. (Oxon), 1920. University of Wales, A.M., 1926.
University College of Wales, 1922—, Lecturer in Education.
British Psychological Society. Incorporated Society of Authors. Royal Society of Teachers.
Psychoanalysis in the classroom. London: Univ. London Press, 1921. Pp. 292. New York: Putnam, 1921. Pp. xi+272. (3rd ed., 1926.)
Some notes on smoking. *Int. J. Psycho-Anal.*, 1923, **4**, 323-325.
The daydream: a study in development. London: Univ. London Press, 1923. Pp. 304.
The mind in action: a study of human interests. London: Univ. London Press, 1923. Pp. 166. New York: Putnam, 1924. Pp. xv+223.
The problem of the terror-dream. *Psyche*, 1924-25, **5**, 129-137.
Psychology and advertising. London: Vernon, 1925. Pp. 24.
The terror-dream. London: Kegan Paul, 1927; New York: Dutton, 1929. Pp. 126
A child's first attempt to interpret drawings. *J. Genet. Psychol.*, 1928, **35**, 473-474.
[Trans.] The child's religion, by P. Bovet. London: Dent; New York: Dutton, 1928. Pp. 202.
William Wilson: the "conscience" of Edgar Allan Poe. *Aberystwyth Stud.*, 1929, **11**, 1-22.
With Herbert, S. The racial prejudices of school children. *Kwartalnik psychol.*, 1930, **1**, 145-156.
The racial prejudices of children of school age. *Rev. int. de l'enfant*, 1930, **9**, 51.

GREIG, John Young Thomson, University of Witwatersrand, Johannesburg, Transvaal, South Africa.
Born Kuanchengtzu, North China, Apr. 9, 1891.
University of Glasgow, 1909-1914, A.M., 1913, Litt.D., 1924.
British Army, 1914-1919, Captain. War Office, Army Education Branch, 1919, Captain on the General Staff. University of Durham, Armstrong College, 1919—, Registrar and Sometime Lecturer in English and Philosophy. Vanderbilt University, Nashville, Tennessee, 1930, Carnegie Visiting Professor of English. University of Witwatersrand, 1932—, Professor of English.
British Psychological Society. Aristotelian Society. Mind Association.
With Gattie, W. H. Archbold's lunacy and mental deficiency. London: Butterworth & Co., and Shaw & Sons, 1915. Pp. 1058.
Freud's theory of wit. *Brit. J. Med. Psychol.*, 1923, **3**, 51-58.
The psychology of laughter and comedy. London: Allen & Unwin; New York: Dodd, Mead, 1923. Pp. 304.
[Trans.] The fighting instinct, by P. Bovet. London: Allen & Unwin, 1923. Pp. 252.
The life of David Hume. London: Jonathan Cape, 1931. Pp. 436.
The letters of David Hume. (2 vols.) Oxford: Clarendon Press. (In press.)

HADFIELD, James Arthur, 9, Harley Street, London, England.
Born Loyalty Islands, South Pacific, Nov. 11, 1882.
University of Oxford, 1900-1906, A.M., 1906. University of Edinburgh, 1912-1917, M.B., Ch.B., 1916.
University of London, King's College, 1920—, Lecturer. Birmingham University, 1921, Lecturer. Tavistock Clinic for the Treatment of Functional Nervous Disorders, 1922—, Lecturer.
British Psychological Society. Royal Society of Medicine.
The influence of hypnotic suggestion on inflammatory conditions. *Lancet*, 1917, **ii**, 678.
With Clutton-Brock A., & Emmet, C. W. Immortality: an essay in discovery coordinating scientific, psychical, and biblical research. London: Macmillan, 1917. Pp. 394.
The influence of hypnotic suggestion on body temperature. *Lancet*, 1920, **ii**, 68.
The making of a neurotic. *Brit. Med. J.*, 1922, **ii**, 546-549.
Psychology and morals. London: Methuen, 1923. Pp. 193.
The psychology of power. London & New York: Macmillan, 1923. Pp. vi+54.
The conception of sexuality. *Brit. J. Med. Psychol.*, 1925, **5**, 161-174.
The conception of sexuality (reply). *Brit. J. Med. Psychol.*, 1925, **5**, 208-211.
Selfconsciousness in the child. In *Health and psychology of the child*, ed. by E. S. Chesser. London: Heinemann, 1925. Pp. 82-112.
Spiritual healing. In *Psychology and the church*, by O. Hardman. London: Macmillan, 1925. Pp. 229-259.
Psychotherapy. In *The mind (a series of*

lectures delivered at King's College, London). London: Longmans, Green, 1927. Pp. 109-136.

The reliability of infantile memories. *Brit. J. Med. Psychol.*, 1928, **8**, 87-111. Also in *Lancet*, 1928, **214**, 1259-1262.

Anxiety states. *Brit. J. Med. Psychol.*, 1929, **9**, 33-37.

Factors affecting the psychological welfare of children under five. *Maternity & Child Welf.*, 1929, **13**, 265.

HAMMOND, Marjorie, University of Birmingham, Women's Division, Department of Education, Birmingham, England.

Born Billingshurst, May 25, 1884.

University of Cambridge, Girton College, 1903-1907, Mathematical Tripos, 1906, Moral Sciences Tripos, A.M. (Cantab.), 1907.

University of London, St. Mary's College, 1919-1920, Lecturer and Tutor of Students in Training. University of Birmingham, 1920—, Head of Women's Division, Department of Education; Lecturer in Psychology and Methods of Teaching.

British Psychological Society. Aristotelian Society.

HARDING, Denys Wyatt, National Institute of Industrial Psychology, Research Staff, London, England.

Born Lowestoft, July 13, 1906.

University of Cambridge, Emmanuel College, 1925-1928, A.B., 1928.

National Institute of Industrial Psychology, 1928—, Industrial Investigator, 1928-1930; Member of Research Staff, 1930—. London School of Economics, 1931—, Lecturer in Applied Psychology.

British Psychological Society.

With Manning, W. H. O. A study of fruit sorting. *J. Nat. Instit. Indus. Psychol.*, 1929, **4**, 423-432.

A note on the subdivision of assembly work. *J. Nat. Instit. Indus. Psychol.*, 1931, **5**, 261-264.

HARGREAVES, Hebert Lyde, Southwark Diocesan Schools Association, Church House, Westminster, London, England.

University of Cambridge, 1907-1910, A.M., Mus. Bac. University of London, 1919-1926.

Southwark Diocesan Schools Association, 1925—, Diocesan Inspector of Schools.

With Aveling, F. Suggestibility with and without prestige in children. *Brit. J. Psychol.*, 1921, **12**, 53-75.

The faculty of imagination. *Brit. J. Psychol., Monog. Suppl.*, 1927, **3**, No. 10. Pp. 74.

HART, Bernard, 94, Harley Street, London, W. 1, England.

Born London, 1879.

University of London, University College Hospital, 1895-1903, M.B., 1904, M.D., 1912.

University of London, University College Hospital, 1912—, Physician in Psychological Medicine. National Hospital, London, 1923—, Physician in Psychiatry. Maudsley Hospital, London, 1923—, Lecturer in Psychoneuroses.

British Psychological Society. Royal College of Physicians.

A philosophy of psychiatry. *J. Ment. Sci.*, 1908, **54**, 473-490.

The psychology of Freud and his school. *J. Ment. Sci.*, 1910, **56**, 431-452.

With Münsterberg, H., Ribot, T., Janet, P., Jastrow, J., & Prince, M. Subconscious phenomena. Boston: Badger, 1910. Pp. 141.

The conception of the subconscious. *J. Abn. Psychol.*, 1910, **4**, 351-371.

The psychological conception of insanity. *Arch. Psychiat.*, 1911.

Enzygotic twins. *Brit. Med. J.*, 1911, **ii**, 215.

Freud's conception of hysteria. *Brain*, 1911, **33**, 338-366.

With Spearman, C. General ability, its existence and nature. *Brit. J. Psychol.*, 1912, **5**, 51-84.

A case of double personality. *J. Ment. Sci.*, 1912, **58**, 236-243.

The psychology of insanity. London: Cambridge Univ. Press; New York: Putnam, 1912. Pp. x+176. (4th ed., 1931. Pp. 191.)

With Spearman, C. Ueber die allgemeine Geistige Leistungsfähigkeit. (*Ber. ü. d. V. Kong. f. exper. Psychol.*) Leipzig: Barth, 1912. Pp. 139-142.

With Spearman, C. Mental tests of dementia. *J. Abn. Psychol.*, 1914, **9**, 217-264.

The psychology of rumour. *Proc. Roy. Soc. Med. London*, 1916, **9** (*Psychiat. Sec.*), 1-26.

Psychology and the medical curriculum. *Edinburgh Med. J.*, 1918, **21**, 213-224.

The modern treatment of mental and nervous disorders. London: Longmans, Green, 1918. Pp. 128.

The methods of psychotherapy. *Proc. Roy. Soc. Med. London*, 1918-19, **12** (*Psychiat. Sec.*), 13-34.

With others. Discussion of dementia praecox and its relation to other disorders. *Brit. Med. J.*, 1920, **ii**, 471-476.

The relations of complex and sentiment. *Brit. J. Psychol.*, 1922, **13**, 141-145.

The development of psychopathology as a branch of science. In *Problems of personality: studies presented to Dr. Morton Prince, pioneer in American psychopathology*. London: Kegan Paul; New York: Harcourt, Brace, 1925. Pp. 229-241.

The conception of dissociation. *Brit. J. Med. Psychol.*, 1926, **6**, 241-263.

The development of psychopathology and its place in medicine. *Lancet*, 1926, **i**, 585-591, 700-707, 795-802.

Psychopathology, its development and its place in medicine. London: Cambridge Univ. Press; New York: Macmillan, 1927. Pp. vi+156. (2nd ed., rev., 1930. Pp. 178.)

Discussion on the etiology of alcoholism. *Proc. Roy. Soc. Med., London,* 1928, **21**, 1341-1360.

HARTRIDGE, Hamilton, University of London, St. Bartholomew's Hospital Medical College, London, England.

Born London, May 7, 1886.

University of Cambridge, 1905-1911, A.B., 1908, A.M., 1912, M.B., 1914, M.D., 1918, Sc.D., 1921. St. George's Hospital, 1911-1914. Royal Air Force, 1914-1918.

University of Cambridge, 1919-1927, Senior Demonstrator in Physiology, University Lecturer on Organs of Special Sense. University of London, St. Bartholomew's Hospital Medical College, 1927—, Professor of Physiology.

Fellow, Royal Society, 1926. Member, Royal College of Physicians, 1928. Member, Physiological Society. Exhibitioner of King's College, University of Cambridge, 1907. Fellow, King's College, University of Cambridge, 1912-1927. Supervisor, King's College, University of Cambridge, 1927-1928. Horton Smith Prize, 1918.

Factors affecting the measurement of absorption bands (haemoglobin). *Proc. Roy. Soc. London,* 1912, **86 B**, 128-140.

A spectroscopic method of estimating carbon monoxide. *J. Physiol.,* 1912-13, **44**, 1-21.

The action of various conditions on carbon monoxide haemoglobin. *J. Physiol.,* 1912-13, **44**, 22-33.

Experiments on the oxygen secretion in the lung of man by the carbon monoxide method. *J. Physiol.,* 1912-13, **45**, 170-181.

The sensation of yellow. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1912-13, **45**, xxix.

With Hill, A. V. The infra-red absorption bands of haemoglobin. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1914, **48**, li-liii.

An apparatus for projecting spectra. *J. Physiol.,* 1915, **49**, 406-409.

Transmission of infra-red rays by the structures of the eye and by Crookes glass. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1915, **49**, xxviii.

Interest as a factor in antagonism and simultaneous contrast. *J. Physiol.,* 1915, **50**, 47-64.

Physiological aspect of photographic safe light screens. *J. Physiol.,* 1915, **50**, 95-100.

An improved spectrophotometer. *J. Physiol.,* 1915, **50**, 111-113.

With Hill, A. V. The transmission of infra-red rays by the media of the eye and the transmission of radiant energy by Crookes and other glasses. *Proc. Roy. Soc. London,* 1915, **89 B**, 36-58.

Preparation of strong solution of haemoglobin and of colour filters of haemoglobin compounds. *J. Physiol.,* 1917, **51**, 252-258.

Chromatic aberration and resolving power of the eye. *J. Physiol.,* 1918, **52**, 176-246.

Microscopic illumination. *J. Quekett Micros. Club London,* 1919, **14** (2nd ser.), 73-88.

Eye-pieces with adjustable compensation. *J. Roy. Micros. Soc. London,* 1919, pt. 1, 15-19.

Colour blindness and Young's hypothesis. *Brit. J. Ophth.,* 1920, **4**, 318-322.

Colorimeter design. *Proc. Cambridge Phil. Soc.,* 1920, **19**, 271.

Physiological eye-strain. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1919-20, **53**, i.

The shape of the pupil in various animals. (*Proc. Physiol. Soc. London.*) *J. Physiol.* 1919-20, **53**, vi-viii.

Optics of crystalline lens. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1919-20, **53**, x.

The limit of peripheral vision. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1919-20, **53**, xvii.

Absorption of CO gas by haemoglobin-gelatin films. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1919-20, **53**, lxxv-lxxvii.

Spectroscopic methods of estimating CO in blood. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1919-20, **53**, lxxvii-lxix.

Microscopic illumination. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1919-20, **53**, lxxix-lxxx.

Metal cannula for perfusion. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1919-20, **53**, lxxx-lxxxi.

Shape of red blood corpuscles. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1919-20, **53**, lxxxi-lxxxii.

A water-soluble immersion fluid. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1919-20, **53**, lxxxii.

Acetone for freezing microtones. *Proc. Physiol. Soc. London.*) *J. Physiol.,* 1919-20, **53**, lxxxii.

CO in tobacco smoke. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1919-20, **53**, lxxxii-lxxxiii.

Fluid for determining specific gravity in blood. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1919-20, **53**, lxxxiii.

Method of making colour-filters. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1919-20, **53**, lxxxiv.

The vindication of the resonance hypothesis of audition: I. *Brit. J. Psychol.,* 1920-21, **11**, 277-288.

The avoidance of objects by bats in their flight. *J. Physiol.,* 1920-21, **54**, 54-57.

The ear as morphologically an instrument for measuring depth below sea-level. *J. Physiol.,* 1920-21, **54**, 244-247.

Nitrite methaemoglobin and related pigments. *J. Physiol.,* 1920-21, **54**, 253-259.

The inversion of retinal image. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1920-21, **54**, vi.

The inversion of the retinal image. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1920-21, **54**, vi-vii.

That the organ of Corti is dead beat. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1920-21, **54**, vii.

Economical dehydrating and clearing agents. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1920-21, **54**, viii.

An operating table for class purposes. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1920-21, **54**, viii.

Note on the sense of smell. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1920-21, **54**, xxxix-xli.

With Peters, R. A. Surface tensions of oil-water interfaces. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1920-24, **54**, xli.

The method of mixtures as applied to the calibration of instruments for measuring the CO in blood. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1920-21, **54**, xlii-xliv.

With Hankin, E. H. Stereoscopic effects produced by pictures of different sizes. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1920-21, **54**, lxvii-lxix.

Shift of absorption bands of OHb and COHb with temperature. (*Proc. Physiol. Soc. London.*) *J. Physiol.*, 1920-21, **54**, cxxviii-cxxx.

The vindication of the resonance hypothesis of audition: II. *Brit. J. Psychol.*, 1921-22, **12**, 142-146.

A criticism of Wrightson's theory of hearing. *Brit. J. Psychol.*, 1921-22, **12**, 248-252.

The vindication of the resonance hypothesis of audition: III. *Brit. J. Psychol.*, 1921-22, **12**, 362-382.

The resonance theory of hearing. *Nature*, 1921-22, **107**, 204-394.

A new acoustical phenomenon. *Nature*, 1921-22, **107**, 586.

Physical effects possibly produced by vision observed by Dr. Russ. *Nature*, 1921-22, **108**, 22.

With Owen, H. B. Test types. *Brit. Med. J.*, 1922, **6**, 543-549.

With Yamada, K. Accommodation and other optical properties of the eye of the cat. *Brit. J. Ophth.*, 1922, **6**, 481-492.

Calibration of the reversion spectroscope for estimation of CO in blood. *J. Physiol.*, 1922, **57**, 47-51.

Monochromatic illumination. *J. Roy. Micros. Soc. London*, 1922, Pt. 4, 406-408.

With Cosens, C. R. G., & Perrett, W. The resonance hypothesis of audition. *Nature*, 1922, **109**, 11, 76, 176.

The resonance theory of hearing. *Nature*, 1922, **110**, 9-11.

A method of testing microscopic objectives. *Proc. Cambridge Phil. Soc.*, 1922, **21**, 29-37.

With Cosens, C. R. G. A vindication of the resonance hypothesis of audition: IV. *Brit. J. Psychol.*, 1922-23, **13**, 48-51.

A vindication of the resonance hypothesis of audition: V. *Brit. J. Psychol.*, 1922-23, **13**, 185-194.

With Roughton, F. J. W. The velocity with which carbon monoxide displaces oxygen from combination with haemoglobin. *Proc. Roy. Soc. London*, 1922-23, **94 B**, 336-367.

The Ladd-Franklin hypothesis of colour vision. *Brit. J. Ophth.*, 1923, **7**, 139-142.

Physiological limits to the accuracy of visual observation and measurement. *Phil. Mag.*, 1923, **46**, 49-79.

The coincidence method for the wave-length measurement of absorption bands. *Proc. Roy. Soc. London*, 1923, **102 A**, 575-587.

The method of measuring the velocity of very rapid chemical reactions. *Proc. Roy. Soc. London*, 1923, **104 A**, 376-394.

With Roughton, F. J. W. The kinetics of haemoglobin: II. The velocity with which oxygen dissociates from its combination with haemoglobin. *Proc. Roy. Soc. London*, 1923, **104 B**, 394-430.

Calibration of the reversion spectroscope for the estimation of CO in blood. *J. Physiol.*, 1923-24, **57**, 47-51.

The ear as morphologically an apparatus for perceiving depth below sea-level; an explanation of the close anatomical association of cochlea and vestibule. *Proc. Roy. Soc. Med. London*, 1923-34, **17** (*Otol. Sec.*), 1-3.

The resonance theory of hearing. *Nature*, 1924, **113**, 713.

[Rev.] Receptor organs. In *Principles of general physiology*, by W. M. Bayliss. (4th ed. rev.) London & New York: Longmans, Green, 1924. Pp. 510-532.

Helmholtz's theory of accommodation. *Brit. J. Ophth.*, 1925, **9**, 521-523.

With Banister, H., & Lythgoe, R. J. The influence of illumination on visual acuity. *Proc. Opt. Conv.*, 1926, 551-562.

With Lythgoe, R. J., & Matthews, W. V. The effect on vision of replacing continuous by flickering illumination. *Brit. J. Psychol.*, 1926-27, **16**, 293-309.

With Lythgoe, R. J., & Banister, H. Effect of illumination and other factors on acuity of vision. *Brit. J. Ophth.*, 1927, **11**, 321-330.

With Roughton, F. J. W. Rate of distribution of dissolved gases between red blood corpuscles and its fluid environment; preliminary experiments on rate of uptake of oxygen and carbon monoxide by sheep's corpuscles. *J. Physiol.*, 1927, **62**, 232-242.

With Roughton, F. J. W. Photographic methods of estimating percentage saturation of haemoglobin with various gases: I. Ratio of oxyhaemoglobin to carboxyhaemoglobin. *J. Physiol.*, 1928, **64**, 405-414.

Carbon monoxide gas poisoning. *Lancet,* 1928, **i**, 1137-1140.
Light and sight. *Nature,* 1928, **121**, 617-618.

With Haynes, F. Histology for medical students. London: Oxford Univ. Press, 1930. Pp. 370.

HAZLITT, Victoria.
Born London, Jan. 25, 1887.
Died Apr. 19, 1932.
University of London, 1906-1911, A.B., A.M., 1927, Litt.D., 1926.
University of Colorado, 1912-1914, Lecturer. University of London, Bedford College, 1914-1932, Lecturer. University of London, King's College, 1916-1918, Part-time Lecturer.
British Psychological Society. British Association for the Advancement of Science. Mind Association. Aristotelian Society. National Institute of Industrial Psychology. Zoological Society.
The acquisition of motor habits in white rats. *Brit. J. Psychol.,* 1919, **9**, 299-320.
Ability: a psychological study. London: Methuen; New York: Macmillan, 1926. Pp. vi+147.
Professor McDougall and the Lamarckian hypothesis. *Brit. J. Psychol.,* 1927, **18**, 77-86.
Children's thinking. *Brit. J. Psychol.,* 1930, **20**, 354-361.
Modern trends in infant psychology. *Brit. J. Educ. Psychol.,* 1931, **1**, 119-129.

HEAD, Henry, Hartley Court, Reading, England.
Born London, Aug. 4, 1861.
University of Cambridge, 1880-1884, A.B., 1884, M.D., 1892.
Brain, 1904-1920, Editor.
British Psychological Society. Fellow, Royal Society. Fellow, Royal Society of Medicine. LL.D., University of Edinburgh. Honorary M.D., University of Strasbourg.
On disturbances of sensation with especial reference to the pain of visceral disease. *Brain,* 1893, **16**, 1-133.
On disturbances of sensation, with especial reference to the pain of visceral disease. *Brain,* 1894, **17**, 339-348.
On disturbances of sensation with especial reference to the pain of visceral disease. *Brain,* 1896, **19**, 153-276.
Mental states associated with visceral disease in the sane. [Abs.] *J. Ment. Sci.,* 1896, **42**, 31-35.
Die Sensibilitätsstörungen der Haut bei Visceralerkrankungen. (Trans. by W. Seiffer.) Berlin: Hirschwald, 1898. Pp. xi+350.
The pathology of Herpes Zoster and its bearing on sensory localization. *Brain,* 1900, **23**, 353-523.
Certain mental changes that accompany visceral disease. *Brain,* 1901, **24**, 345-429.
With Ham, C. S. The processes that take place in a completely isolated sensory nerve. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1903, **29**, vi.
With Rivers, W. H. R., & Sherren, J. The afferent nervous system from a new aspect. *Brain,* 1905, **28**, 99-115.
With Sherren, J. The consequences of injury to the peripheral nerves in man. *Brain,* 1905, **28**, 116-338.
Case of myoclonous. *Brain,* 1905, **28**, 362.
A case of Huntington's chorea. *Brain,* 1905, **28**, 362.
With Ham, C. E. The process of regeneration in an afferent nerve. (*Proc. Physiol. Soc. London.*) *J. Physiol.,* 1905, **32**, ix-xii.
With Thompson, T. The grouping of afferent impulses within the spinal cord. *Brain,* 1906, **29**, 537-541.
With Rivers, W. H. R. A human experiment in nerve division. *Brain,* 1908, **31**, 323-450.
Cerebral haemorrhage from luetic vessels. *Proc. Roy. Soc. Med. London,* 1909-10, **3** (*Neur. Sec.*), 30.
Thrombosis of cerebral arteries. *Proc. Roy. Soc. Med. London,* 1909-10, **3** (*Neur. Sec.*), 30.
Congenital lues causing optic atrophy and ultimately leading to dementia paralytica juvenilis. *Proc. Roy. Soc. Med. London,* 1909-10, **3** (*Neur. Sec.*), 33.
With Fearnsides, E. G. A case of functional hysterical trophoedema. *Brit. J. Dermat.,* 1911, **23**, 150-153.
Case of syringomyelia with symptoms precipitated by trauma. *Proc. Roy. Soc. Med.* London, 1911, **4** (*Neur. Sec.*), 34-40.
With Holmes, G. Sensory disturbances from cerebral lesions. *Brain,* 1911-12, **34**, 102-254.
With Holmes, G. A case of lesion of the optic thalamus with autopsy. *Brain,* 1911-12, **34**, 255-271.
Case showing an abnormal condition of the nails of the hands associated with secondary carcinomatosis. *Proc. Roy. Soc. Med. London,* 1911-12, **5** (*Dermat. Sec.*), 102-104.
With Sequeira, J. H. Case of double cervi-

cal ribs associated with vascular phenomena suggesting Raynaud's disease. *Proc. Roy. Soc. Med. London,* 1911-12, **5** (*Dermat. Sec.*), 110-113.

Three brothers, illustrating an unusual form of family paralysis (familial sclerosis) with amyotrophy. *Proc. Roy. Soc. Med. London,* 1911-12, **5** (*Neur. Sec.*), 144-148.

Double cervical ribs associated with vasomotor disturbance (Raynaud's phenomena) of left forearm and hand and of right hand, with slight wasting and weakness of muscles of left hand. *Brit. J. Dermat.,* 1912, **24**, 152-154. (Discussion, 155.)

Six clinical lectures on the diagnostic value of sensory changes in disease of the nervous system. *Clin. J.,* 1912, **40**, 337, 358, 375, 396, 408; 1913, **42**, 23.

With Holmes, G. Researches into sensory disturbances from cerebral lesions. *Lancet,* 1912, **182**, 1-4, 79-83, 144-153.

Nystagmoid movements of palate and lids, lateral and rotatory nystagmus, cerebellar incoördination. *Proc. Roy. Soc. Med. London,* 1912-13, **6** (*Neur. Sec.*), 53.

Athetosis of left hand with tremor of right hand. *Proc. Roy. Soc. Med. London,* 1912-13, **6** (*Neur. Sec.*), 81-84.

With McIntosh, J., Fildes, P., & Fearnsides, E. G. Parasyphilis of the nervous system. *Brain,* 1913, **36**, 1-30.

With Fearnsides, E. G. The clinical aspects of syphilis of the nervous system in the light of the Wassermann reaction and treatment with neosalvarsan. *Brain,* 1914, **37**, 1-140.

Hughlings Jackson on aphasia and kindred affections of speech; together with a complete bibliography of Dr. Jackson's publications on speech and a reprint of some of the most important parts. *Brain,* 1915, **38**, 1-190.

With Riddoch, G. Traitement des complications secondaires et tardives des blessures du cerveau par coups de feu. *Arch. de méd. et pharm. milit.,* 1918, **69**, 259-263.

With Riddoch, G. The automatic bladder, excessive sweating and some other reflex conditions, in gross injuries of the spinal cord. *Brain,* 1918, **40**, 188-263.

Sensation and the cerebral cortex. *Brain,* 1918, **41**, 57-253.

Some principles of neurology. *Brain,* 1918, **41**, 344-354.

Presidential address on some principles of neurology. *Lancet,* 1918, **195**, 656-660.

Cases of wounds of the nervous system. *Proc. Roy. Soc. Med. London,* 1918, **12** (*Neur. Sec.*), 27-29.

Some principles of neurology. *Proc. Roy. Soc. Med. London,* 1918-19, **12** (*Neur. Sec.*), 1-12.

With others. Demonstration of cases illustrating the late effects of injuries of the nervous system at the Neurological Section of the Royal Society of Medicine. *Brain,* 1919, **42**, 349-368.

Disease and diagnosis. *Brit. Med. J.,* 1919, **i**, 365-367.

Biography of E. G. Fearnsides, 1883-1919. *Brit. Med. J.,* 1919, **ii**, 61. Also in *Lancet,* 1919, **37**, 62.

The sense of stability and balance in the air. (*Rep. Air Med. Investigation Com.,* No. 28.) London: H. M. Stationery Office, 1919. Pp. 45.

Shell wound of head temporal region, sensory paresis of left hand and foot; mental and physical symptoms due to a hole in skull; effect of closure with osteoplastic graft. *Proc. Roy. Soc. Med. London,* 1919-20, **13** (*Neur. Sec.*), 29-31.

Aphasia and kindred disorders of speech. *Brain,* 1920, **43**, 87-165.

Observations on the elements of the psychoneuroses. *Brit. Med. J.,* 1920, **i**, 389-392.

With others. Early symptoms and signs of nervous disease and their interpretation. *Brit. Med. J.,* 1920, **ii**, 691-697.

With Riddoch, G. Sensory disturbance in the hand following injuries of the cerebral cortex. *Brit. Med. J.,* 1920, **ii**, 782.

With Rivers, W. H. R., Holmes, G., Sherren, J., Thompson, T., & Riddoch, G. Studies in neurology. (2 vols.) London: Frowde & Hodder, 1920. Pp. 338; 537.

New conceptions of psychology. *Nature,* 1920-21, **105**, 363.

Aphasia; an historical review. *Proc. Roy. Soc. Med. London,* 1920-21, **14** (*Neur. Sec.*), 1-22. Also in *Brain,* 1921, **43**, 390-411. (Discussion, 412-450.)

Disorders of symbolic thinking and expression. *Brit. J. Psychol.,* 1921, **11**, 179-193.

Release of function in the nervous system. *Proc. Roy. Soc. London,* 1921, **92 B**, 184-208.

Centain aspects of pain. *Brit. Med. J.,* 1922, **i**, 1-5.

The diagnosis of hysteria. *Brit. Med. J.,* 1922, **i**, 827-829.

Speech and cerebral localization. *Brain,* 1923, **46**, 355-528.

The conception of nervous and mental energy: II. *Brit. J. Psychol.,* 1923, **14**, 126-147.

La libération fonctionnelle dans le système nerveux. *J. de psychol.,* 1923, **20**, 501-532.

Aphasia and kindred disorders of speech. (2 vols.) London: Cambridge Univ. Press, 1926. Pp. xvi+550; xxxiv+430.

HEATH, Archie Edward, 2, Devon Terrace, Swansea, Wales.

Born Chesterfield, Aug. 6, 1887.

University of Cambridge, 1907-1913, A.M. Universty of Manchester, 1919-1920, Lecturer in Education. University of Liverpool, 1920-1925, Senior Lecturer in Education. University of Wales, University College of Swansea, 1925—, Professor of Phil-

osophy. *Monist,* English Editor. *Journal of Adult Education,* Joint Editor.

British Psychological Society. Mind Association. British Institute of Philosophical Studies. British Institute of Adult Education (Vice-Chairman). Aristotelian Society.

The scope of scientific method. *Proc. Arist. Soc.,* 1919, **19**, 179-207.

The relation between words and thought. *Cambridge Mag.,* 1920, **10**, 23-30.

Recent advances in education. *Sci. Prog.,* 1920, **14**, 583-587; **15**, 46-49; 1921, **16**, 42-44; 1922, **17**, 238-241; 1924, **18**, 401-406; 1925, **19**, 237-241.

Science and education. In *Science and civilization.* London: Oxford Univ. Press, 1923. Pp. 221-246.

The socializing influence of freedom. *New Ideals Quar.,* 1925, **1**, 19-26.

A philosophy of adult education. *Bull. World Asso. Adult Educ.,* 1926, **28**, 20-32.

Objectivity in science. *Proc. Arist. Soc.,* 1926, **26**, 211-224.

How we behave: an introduction to psychology. London: Longmans, Green, 1927. Pp. vi+90.

Materialism in the light of modern science. *Proc. Arist. Soc., Suppl.,* 1928, 130-142.

The notion of intelligibility in scientific thought. *Proc. 6th Int. Cong. Phil.,* 1928, 332-337.

The year's work in psychology. *Tutors' Bull.,* 1928, **23**, 16-17.

Books and adult education. *Amer. J. Adult Educ.,* 1929, **4**, 394-399.

A psychological approach to the problems of sexual hygiene. *Health & Empire,* 1929, **4**, 7-15; 1930, **4**, 328-335.

Thinking ahead: the place of reflection in civilization. *British Broadcasting Corp. Pamph.,* 1930, No. 63. Pp. 36.

Civilization as control. *Health & Empire,* 1930, **5**, 265-273.

Destruction versus construction in adult education. *J. Adult Educ.,* 1931, **5**, 143-149.

Some notes on methodology in the social sciences. *Proc. Arist. Soc.,* 1931, **31**, 263-284.

HICKS, George Dawes, 9, Cranmer Road, Cambridge, England.

Born Shrewsbury, Sept. 14, 1862.

University of Manchester, Owens College, 1885-1888, A.B., 1899, A.M., 1891, Litt.D., 1904. University of Oxford, Manchester College, 1888-1892. University of Leipzig, 1892-1896, Ph.D., 1896. University of Cambridge, Trinity College, 1904, A.M., 1910.

University of London, University College, 1905—, Professor of Philosophy. *Journal of Social Psychology,* 1930—, Associate Editor.

British Psychological Society. British Academy. Aristotelian Society (President, 1913-1914; Vice-President).

Psychotherapy. In Vol. 18 of *Encyclopaedia Britannica*. (14th ed.) London & New York: Encyclopaedia Britannica, 1929. Pp. 722-723.

REES, John Rawlings, Institute of Medical Psychology, London, England.
Born Leicester, 1890.
University of Cambridge, 1908-1911, M.D., 1920. London Hospital, M.R.C.S. (England), L.R.C.P. (London), 1914, Ch.B., 1915, A.M. (Natural Science Tripos), 1917, M.B., 1917, D.P.H., 1920.
Ministry of Pensions, 1919-1922, Neurological Specialist. Institute of Medical Psychology, 1920—, Physician and Deputy-Director. National Union of Teachers, 1926-1930, Consultant in Psychiatry.
British Psychological Society. British Medical Association. Fellow, Royal Society of Medicine. Medical Society for Individual Psychology.
The sex education of children. *Health & Empire*, 1927, **2**, 163-172; 1928, **3**, 120-126.
Some problems in family adjustment. In *The mind of the growing child: lectures*, ed. by Lady Erleigh. London: Faber & Gwyer, 1928. Pp. 9-108.
The health of the mind. London: Faber & Gwyer; Boston: Washburn & Thomas, 1929. Pp. 266.
The psychology of play. *Child Educ.*, 1930, **6**, 98-119.
Psychology and massage. *J. Chartered Soc. Massage & Med. Gymnastics*, 1930, **15**, 238-244.
Psychotherapeutic clinics. In *Recent advances in the study of the psychoneuroses*, ed. by M. Culpin. London: Churchill, 1930. Pp. 310-329.
The prophylactic treatment of mental disorders. *Practitioner*, 1931, **126**, 406-414.

RICHARDSON, Lewis Fry, Paisley Technical College, Paisley, Scotland.
Born Newcastle-on-Tyne, England, Oct. 11, 1881.

University of Cambridge, 1900-1903, A.B., 1903. University of London (External), Sc.B., 1929.

National Physical Laboratory, 1904, 1907-1909, Assistant in Chemistry and Micrography, 1904; Assistant in Meteorological Department, 1907-1909. Aberystwyth University College, 1905-1906, Demonstrator in Physics. Sunbeam Lamp Co., Gateshead, 1909-1912, Director of the Chemical and Physical Laboratory. Manchester College of Technology, 1912-1913, Instructor of Physics. Eskdalemuir Observatory (Meteorology, Magnetics, Seismology), 1913-1916, Superintendent. French Army, 1916-1919, Motor Ambulance Driver and Steward. Benson Observatory, 1919-1920, Research Worker. Westminster Training College, London, 1920-1929, Head of the Physics Department. International Commission for the Investigation of the Upper Air, 1921-1927, Member. Paisley Technical College and School of Art, 1929—, Lecturer on Mathematics, Physics, and Psychology.

British Psychological Society. Fellow, Royal Society, 1926. National Committee on Geodesy and Geophysics, 1923—. Fellow, Institute of Physics, 1923—. Fellow, Physical Society of London, 1923—. D.Sc., London, 1926.

Mathematical psychology of war. Oxford: Hunt, 1919. Pp. 50.

Thresholds when sensation is regarded as quantitative. *Brit. J. Psychol.*, 1928, **19**, 158-166.

Imagery, conation, and cerebral conductance. *J. Gen. Psychol.*, 1929, **2**, 324-352.

Quantitative mental estimates of light and color. *Brit. J. Psychol.*, 1929, **20**, 27-37.

With Ross, J. S. Loudness and telephone current. *J. Gen. Psychol.*, 1930, **3**, 288-306.

With Maxwell, R. S. The quantitative mental estimation of hue, brightness or saturation. *Brit. J. Psychol.*, 1930, **20**, 365-367.

The analogy between mental images and sparks. *Psychol. Rev.*, 1930, **37**, 214-227.

A note on "The analogy between mental images and sparks." *Psychol. Rev.*, 1930, **37**, 364.

With Maxwell, R. S. A new type of practical examination, designed to be a fair competition. *Proc. Phys. Soc. London*, 1930, **42**, 108-125.

RICKMAN, John, 11, Kent Terrace, London, N.W. 1, England.

Born Dorking, Apr. 10, 1891.

University of Cambridge, 1910-1916, A.M., M.D., Ch.B.

St. Thomas's Hospital, London, 1925-1928, Chief Assistant in the Mental Out-Patients Department. Institute of Psycho-Analysis, 1925-1930, Director and Hon. Secretary. London Clinic of Psycho-Analysis, 1926-1930, Physician and Hon. Secretary. *British Journal of Medical Psychology*, 1926—, Assistant Editor.

British Psychological Society (Hon. Secretary of the Medical Section, 1923-1929). Royal Society of Medicine. Royal Anthropological Institute. Royal Medico-psychological Association. British Medical Association. British Psycho-analytical Society. Society for the Study of Inebriety. Society for Physical Research.

An unanalysed case. Anal erotism, occupation and illness. *Int. J. Psycho-Anal.*, 1921, **2**, 424-426.

Alcoholism and psycho-analysis. *Brit. J. Inebr.*, 1925, **23**, 66-74.

Ein psychologischer Faktor in der Aetiologie von Descensus Uteri, Dammbruch und Vaginismus. *Int. Zsch. f. Psychoanal.*, 1926, **12**, 511-516.

English: A psychological factor in the aetiology of descensus uteri, laceration of the perineum and vaginismus. *Int. J. Psycho-Anal.*, 1926, **7**, 363-365.

A survey: the development of the psychoanalytical theory of the psychoses, 1894-1926. *Brit. J. Med. Psychol.*, 1926, **6**, 270-294; 1927, **7**, 94-124, 321-374.

Index psycho-analyticus, 1893-1926. London: Hogarth, 1928. Pp. 276.

On some of the standpoints of Freud and Jung. *Brit. J. Med. Psychol.*, 1928, **8**, 44-48.

On quotations. *Int. J. Psycho-Anal.*, 1929, **10**, 242-248.

RITCHIE, Frances May. See Austin, Frances May.

RIVIERE, Joan (Mrs.), 3, Stanhope Terrace, London, W.2, England.

Born Brighton, June 28, 1883.

Studied with Sigmund Freud in Vienna, 1922.

London, Psycho-Analyst, under the guarantee of the British Psychological Society and Training Committee.

British Psychological Society. British Psycho-analytical Society (Member, Council and Training Committee). Director, Institute of Psycho-Analysis.

Three notes. *Int. J. Psycho-Anal.*, 1920, **1**, 200-202.

[Trans.] Introductory lectures to psychoanalysis, by S. Freud. New York: Moffat, Yard, 1920; London: Allen & Unwin, 1922. Pp. 395.

SCHILLER, Ferdinand Canning Scott, University of Oxford, Corpus Christi College, Oxford, England; or University of Southern California, Los Angeles, California. Born Altona, Aug. 16, 1864.

University of Oxford, 1882—, A.B., 1886, A.M., 1891, Sc.D., 1906.

University of Oxford, Corpus Christi College, 1897—, Fellow, 1897—; Assistant Tutor, 1897-1903; Tutor, 1903-1926. University of Southern California, 1929—, Professor of Philosophy.

British Psychological Society. Mind Association (Hon. Treasurer, 1900—). Society for Psychical Research (President, 1914; Vice-President and Member of the Council). Aristotelian Society (President, 1921-1922). Fellow, British Academy. LL.D., University of Southern California, 1930.

The metaphysics of the time process. *Mind*, 1895, **4**, 36-46.

Non-Euclidean geometry and the Kantian *A Priori*. *Phil Rev.*, 1896, **5**, 173-180.

On the conception of *'ENÉPTEIA' ΔKNHΣΙΑΣ.'* Mind, 1900, 9, 457-468.

On some philosophical assumptions in the investigation of the problem of a future life. *Proc. Soc. Psych. Res.*, 1900, **15**, 53-64.

Do men desire immortality? *Fortnightly Rev.*, 1901, **70**, 430-444.

Questionnaire on human sentiments with regard to a future life. *Mind*, 1901, **10**, 433.

"Useless" knowledge. *Mind*, 1902, **11**, 196-215.

The ethical basis of metaphysics. *Int. J. Ethics*, 1903, **13**, 431-444.

On preserving appearances. *Mind*, 1903, **12**, 341-354.

Humanism: philosophical essays. London: Macmillan, 1903. Pp. xxxii+297.

In defense of humanism. *Mind*, 1904, **13**, 525-542.

The answers to the American Branch's questionnaire regarding human sentiments as to a future life. *Proc. Soc. Psych. Res.*, 1904, **18**, 416-453.

The progress of psychical research. *Fortnightly Rev.*, 1905, **77**, 61-73.

Dreams and idealism. *Hibbert J.*, 1905, **3**, 83-102.

Empiricism and the absolute. *Mind*, 1905, **14**, 348-370.

The definition of "pragmatism" and "humanism." *Mind*, 1905, **14**, 235-240.

Psychology and psychical research: a reply to Professor Münsterberg. *Proc. Soc. Psych. Res.*, 1905, **14**, 348-365.

Faith, reason, and religion. *Hibbert J.*, 1906, **4**, 329-389.

Is absolute idealism solipsistic? *J. Phil., Psychol., etc.*, 1906, **3**, 85-89.

Thought and immediacy. *J. Phil., Psychol., etc.*, 1906, **3**, 234-237.

Idealism and the dissociation of personality. *J. Phil., Psychol., etc.*, 1906, **3**, 477-482.

The ambiguity of truth. *Mind*, 1906, **15**, 161-176.

Pragmatism and pseudo-pragmatism. *Mind*, 1906, **15**, 375-390.

With Bosanquet, B., & Rashdall, H. Can logic abstract from the psychological conditions of thinking? *Proc. Arist. Soc.*, 1906, **6**, 224-270.

Humism and humanism. *Proc. Arist. Soc.*, 1906-07, **7**, 93-111.

The madness of the absolute. *J. Phil., Psychol., etc.*, 1907, **4**, 18-21.

A pragmatic babe in the wood. *J. Phil., Psychol., etc.*, 1907, **4**, 42-44.

The pragmatic cure of doubt. *J. Phil., Psychol., etc.*, 1907, **4**, 235-238.

Pragmatism versus skepticism. *J. Phil., Psychol., etc.*, 1907, **4**, 482-487.

Ultima ratio. *J. Phil., Psychol., etc.*, 1907, **4**, 490-497.

Psychology and knowledge. *Mind*, 1907, **16**, 244-248.

Mr. Bradley's theory of truth. *Mind*, 1907, **16**, 401-409.

Studies in humanism. London & New York: Macmillan, 1907. Pp. xv+492.

Infallibility and toleration. *Hibbert J.*, 1908, **7**, 76-89.

Is Mr. Bradley a pragmatist? *Mind*, 1908, **17**, 370-383.

Plato or Protagoras? Oxford: Blackwell; London: Simpkin, Marshall, 1908. Pp. 31. Also in *Mind*, 1908, **17**, 518-526.

Solipsism. *Mind*, 1909, **18**, 164-183.

Logic or psychology. *Mind*, 1909, **18**, 400-406.

The present phase of 'idealist' philosophy. *Mind*, 1910, **19**, 30-45.

Absolutism in extremis? *Mind*, 1910, **19**, 533-540.

With Nunn, T. P. Are secondary qualities independent of perception? *Proc. Arist. Soc.*, 1910, **10**, 191-231.

Riddles of the Sphinx: a study in the philosophy of humanism. (New ed., rev.) London: Sonnenschein; New York: Macmillan, 1910. Pp. xxvii+478.

L'errore. *Riv. di fil.*, 1911, **3**, 293-306.

Philosophy, science, and phychical research. *Proc. Soc. Psych. Res.*, 1914, **27**, 191-220.

The logic of science. (Comment upon Presidential Address, Brit. Asso. Adv. Sci., 1913.) *Sci. Prog.*, 1914, **8**, 398-407.

Are all judgments "practical"? *J. Phil., Psychol., etc.*, 1915, **25**, 682-687.

Realism, pragmatism, and William James. *Mind*, 1915, **24**, 516-524.

The argument *a fortiori*. *Mind*, 1916, **25**, 513-517.

Mr. Bradley, Bain, and pragmatism. *J. Phil., Psychol., etc.*, 1917, **14**, 449-457.

Aristotle and the practical syllogism. *J. Phil., Psychol., etc.*, 1917, **14**, 645-653.

Truth and survival value. *J. Phil., Psychol., etc.*, 1918, **15**, 505-515.

Formalism and the *a fortiori*. *Mind*, 1918, **27**, 198-202.

What formal logic is about. *Mind*, 1918, **27**, 422-431.

Methodological teleology. *J. Phil., Psychol., etc.*, 1919, **16**, 548-553.

With Russell, B., & Joachim, H. H. Meaning of meaning. (Symposium.) *Mind*, 1920, **29**, 385-414.

Dr. L. T. Troland's "A technique for the experimental study of telepathy and other alleged clairvoyant processes." *Proc. Soc. Psych. Res.*, 1920, **31**, 218-223.

Scientific method in psychical research. *Psych. Res. Quar.*, 1920, **1**, July.

The meaning of "meaning." *Mind*, 1921, **20**, 444-447.

On arguing in a circle. *Proc. Arist. Soc.*, 1921, **21**, 211-234.

Eugenics vs. civilization. *Eug. Rev.*, 1922, **13**, 548-549.

The meaning of "self." *Mind*, 1922, **31**, 185-188.

With Collingwood, R. G., & Taylor, A. E. Are history and science different kinds of knowledge? *Mind*, 1922, **31**, 443-466.

Analysis and self-analysis. *J. Phil.*, 1923, **20**, 234-242.

Problems of belief. London: Hodder & Stoughton, 1924. Pp. vii+194.

Psychology and logic. In *Psychology and the sciences*, ed. by W. Brown. London: Black, 1924. Pp. 53-70.

The truth about psychical research. *19th Cent.*, 1927, **102**, 54-66.

Some logical aspects of psychical research. In *The case for and against psychical belief*. Worcester, Mass.: Clark Univ. Press, 1927. Pp. 215-226.

Eugenical reform of the House of Lords. *Eug. Rev.*, 1929, **20**, 237-244.

Meaning. *Proc. & Papers 9th Int. Cong. Psychol.*, 1929, 381.

Eugenics as a moral idea. *Eug. Rev.*, 1930, **22**, 103-109.

Psychology and psychical research. *Monist*, 1930, **40**, 439-452.

Creation, emergence, novelty. *Proc. Arist. Soc.*, 1930, **31**, 25-36.

Logic for use: an introduction to the voluntarist theory of knowledge. London: Bell; New York: Harcourt, Brace, 1930. Pp. 477.

SELIGMAN, Charles Gabriel, Court Leys, Toot Baldon, Oxford, England.

Born London, Dec. 24, 1873.

University of London, M.B., 1901, M.D., 1906. F.R.C.P.

University of London, 1910—, Professor of Ethnology.

British Psychological Society. Royal Geographical Society. Folklore Society. Royal Anthropological Institute (Past President and Rivers Medallist). Corresponding Member, Anthropological Societies of Rome and Vienna. Corresponding Member, Polynesian Society. Fellow, Royal Society, 1919.

With Rivers, W. H. R. Vision. In Vol. 2, Pt. 1, of *Reports of the Cambridge Anthropological Expedition to the Torres Straits*. London: Cambridge Univ. Press, 1901. Pp. vi+140.

Sexual inversion among primitive races. *Alienist & Neurologist*, 1902, **23**, 11-15.

A classification of the natives of British New Guinea. *J. Anthrop. Instit.*, 1911, **39**, 246-275, 314-333.

With Parsons, F. G. The Cheddar man a skeleton of late Palaeolithic date. *J. Anthrop. Instit.*, 1914, **44**, 241-264.

Note on a wooden horn or trumpet from British New Guinea. *Man*, 1915, **15**, 22-23.

Note on an Obsidian axe or Adze blade from Papua. *Man*, 1915, **15**, 161-162.

The physical characters of the Arabs. *J. Roy. Anthrop. Instit.*, 1917, **47**, 214-237.

Canoe prow ornaments from Netherlands, New Guinea. *Man*, 1917, **17**, 41-42.

A Bongo funerary figure. *Man*, 1917, **17**, 97-98.

Bird-chariots and socketed celts in Europe and China. *J. Roy. Anthrop. Instit.*, 1920, **50**, 153-158.

Notes on dreams. *Man*, 1923, **23**, 186-188.

Anthropology and psychology: a study of some points of contact. (Presidential Address.) *J. Roy. Anthrop. Instit.*, 1924, **54**, 13-46.

Rest and work periods of the Sinangolo (Rigo District, New Guinea). *Man*, 1927, **27**, 41-43.

Art and anthropology. In *The mind*. London: Longmans, Green, 1927. Pp. 245-281.

With Rattray, R. S., Bennett, G. T., Blake, V., Buxton, H. D., & Marett, R. R. Religion and art in Ashanti. Oxford: Clarendon Press, 1927. Pp. xviii+414.

The unconscious in relation to anthropology. *Brit. J. Psychol.*, 1928, **18**, 373-387.
Further notes on bird-chariots in Europe and China. *J. Roy. Anthrop. Instit.*, 1928, **58**, 247-254.
With Seligman, B. Z. The Bari. *J. Roy. Anthrop. Instit.*, 1928, **58**, 409-480.
Temperament, conflict and psychosis in a stone-age population. *Brit. J. Med. Psychol.*, 1929, **9**, 187-202.

SETH, George, University of Edinburgh, Psychological Laboratory, Edinburgh, Scotland.
Born Edinburgh, Apr. 23, 1905.
University of Edinburgh, 1923-1930, A.M. (Honours), 1928, Ed.B., 1930.
University of Edinburgh, 1930—, Assistant, Department of Psychology.
British Psychological Society. British Association for the Advancement of Science.

SHAND, Alexander Faulkner, 1, Edwardes Place, Kensington, London, W.8, England.
Born London, 1858.
University of Cambridge, 4 years, A.M.
British Psychological Society. Fellow, British Academy. LL.D., University of St. Andrews.
An analysis of attention. *Mind,* 1894, **3**, 449-473.
Attention and will: a study in involuntary action. *Mind,* 1895, **4**, 450-471.
Character and the emotions. *Mind,* 1896, **5**, 203-226.
With Bosanquet, B., Jones, E. E. C., & Gildea, W. L. Are character and circumstances coördinate factors in human life? *Proc. Arist. Soc.*, 1896, **3**, 112-123.
Types of will. *Mind,* 1897, **6**, 289-325.
Feeling and thought. *Mind,* 1898, **7**, 477-505.
M. Ribot's theory of the passions. *Mind,* 1907, **16**, 477-505.
The foundations of character, being a study of the tendencies of the emotions and sentiments. London: Macmillan, 1914. Pp. xxxi+532. (3rd ed., 1927. Pp. 614.)
With McDougall, W., & Stout, G. F. Instinct and emotion. *Proc. Arist. Soc.*, 1915, **15**, 22-99.
Emotion and value. *Proc. Arist. Soc.*, 1919, **19**, 208-235.
On impulse, emotion and instinct. *Proc. Arist. Soc.*, 1920, **20**, 79-88.
The relations of complex and sentiment. *Brit. J. Psychol.*, 1922, **13**, 123-129.
Suspicion. *Brit. J. Psychol.*, 1922, **13**, 195-214.
The conception of sexuality. *Brit. J. Med. Psychol.*, 1925, **5**, 189-195.

SIMMINS, Constance Amy, University of London, University College, Department of Psychology, London, England.
Born West Norwood, June 28, 1886.
University of Cambridge, Newnham College, 1908-1911, Tripos, 1911, A.M., 1927. University of Marburg, 1911-1913. University of Berlin, 1913-1914. University of London, 1925-1929.
University of Cambridge, Newnham College, 1914-1918, Assistant Lecturer in Modern Languages. University of Cambridge, Girton College, 1916-1918, Visiting Lecturer. University College of Wales, 1919-1922, Warden of Carpenter Hall. Sheffield Training College for Teachers, 1922-1925, Vice-Principal. University of London, University College, 1929—, Research Assistant in Psychology. Tavistock Clinic for Functional and Nervous Disorders, Honorary Psychologist.
British Psychological Society.
The psychology of foreign language teaching. *Modern Lang.*, 1927, **9**, No. 2, 35-40.
The mental processes involved in learning a foreign language. *Modern Lang.*, 1930, **12**, No. 2, 37-40.

SLOCOMBE, Charles Spencer. See America.

SMITH, Frank, University of Durham, Armstrong College, Department of Education, Newcastle-upon-Tyne, England.
Born Macclesfield, Sept. 28, 1882.
University of Manchester, 1903-1907, Sc.B., 1905, A.B., 1907. University of Cambridge, 1910-1912, A.B., 1912, A.M., 1916. University of Wales, 1920-1923, Ph.D., 1923.
University of Manchester, 1908-1910, Demonstrator in Education. University of Wales, 1914-1925, Lecturer in Education. University of Durham, Armstrong College, 1925—, Professor of Education.
British Psychological Society. National Institute of Industrial Psychology.
An experimental investigation of perception. *Brit. J. Psychol.*, 1914, **6**, 321-362.
The Montessori method and colour discrimination. *Child-Stud.*, 1913, **6**, 8-14.
Suggestion, and its powers on children in different types of schools. *Child-Stud.*, 1913, **6**, 51-53.
Bilingualism and mental development. *Brit. J. Psychol.*, 1923, **13**, 271-282.
With Saer, D. J., & Hughes, J. The bilingual problem. Wrexham: Hughes, 1924. Pp. 112.

SMITH, Phyllis Woodham, Maria Grey Training College, London, England.
Born London, 1887.
University of Cambridge, Newnham College, 1910-1913, Historical Tripos, 1912, 1913, Titular A.M., 1924. University of London, Kings College, 1919-1921, A.M., 1921.
Maria Grey Training College, 1918—, Lecturer in History, Methods of Teaching History, and History of Education. Uni-

versity of London, 1920—, Recognized Teacher in Pedagogy, 1920—; Examiner in Pedagogy, 1928—.

British Psychological Society.

SMITH, Walter Whately, "Rackenford Lodge," Weybridge, England.

Born London, Aug. 3, 1892.

University of Cambridge, 1911-1914, 1920-1921, A.B., 1914, A.M., 1919, Sc.M., 1924.

Air Defense Experimental Establishment, 1921-1928, Research Officer.

British Psychological Society. Society for Physical Research (Council).

The reality of psychic phenomena. *Proc. Soc. Psych. Res.* (England), 1919, **30**, 306-333.

The foundations of spiritualism. London: Kegan Paul, 1920. Pp. 134.

A theory of the mechanism of survial. The fourth dimension and its aspects. London: Kegan Paul, 1920. Pp. 196.

Experiments on memory and affective tone. *Brit. J. Psychol.*, 1921, **11**, 236-250.

A note on the use of the psychogalvanic reflex. *Brit. J. Psychol.*, 1921, **12**, 282-288.

Some properties of complex indicators. *Brit. J. Med. Psychol.*, 1921, **1**, 281-296.

The relation between complex indicators and the form of the association. *Brit. J. Med. Psychol.*, 1921, **1**, 297-315.

A suggested new method of research. *Proc. Soc. Psych. Res.* (England), 1921, **31**, 401-416.

Experiments on the association test as a criterion of individuality. *Brit. J. Med. Psychol.*, 1922, **2**, 121-130.

The measurement of emotion. London: Kegan Paul; New York: Harcourt, Brace, 1922. Pp. 183.

Entia praeter necessitatem. *Psyche*, 1923, **3**, 195-204.

Consciousness and survival. *Proc. Soc. Psych. Res.* (America), 1923, **17**, 256-260.

SPEARMAN, Charles Edward, University of London, London, England.

Born London, Sept. 10, 1863.

University of Leipzig, 1900-1901, 1902-1905, Ph.D., 1904. Universities of Würzburg and Göttingen, 1905-1906.

University of London, University College, 1906—, Reader, 1906-1911; Professor, 1911—. *Journal of General Psychology*, 1928—, Associate Editor. *British Journal of Psychology*, Associate Editor. *British Journal of Educational Psychology*, 1931—, Associate Editor. *Psychological Register*, 1932—, Collaborating Editor.

British Psychological Society (President, 1923-1926). British Physiological Society. Royal Society. Société française de Psychologie. LL.D., Wittenberg College, 1927.

Proof and measurement of association between two things. *Amer. J. Psychol.*, 1904, **15**, 72-101.

'General intelligence' objectively determined and measured. *Amer. J. Psychol.*, 1904, **15**, 201-293.

Die Wechselbeziehungen zwischen der Unterscheidungskraft der Sinne und der allgemeinen Intelligenz, samt einer Studie über correlationale Methoden. *Päd.-psychol. Stud.*, 1904, **5**, 9-10, 19-23, 28-31.

Proof and disproof of correlation. *Amer. J. Psychol.*, 1905, **16**, 228-231.

Analysis of 'localisation,' illustrated by a Brown-Séquard case. *Brit. J. Psychol.*, 1905, **1**, 286-314.

Fortschritte auf dem Gebiete der Psychophysik der räumlichen Vorstellungen. I. Teil: Tastsinn. *Arch. f. d. ges. Psychol.*, 1906, **8** (Lit.), 1-51.

'Footrule' for measuring correlation. *Brit. J. Psychol.*, 1906, **2**, 89-108.

German Congress of Experimental Psychology. *Nature*, 1906, **74**, 45-46.

Die Normaltäuschungen in der Lagewahrnehmung. *Phil. Stud.*, 1906, **1**, 388-393.

Einfluss der Bewegungsrichtung auf den Localisationsfehler. *Phil. Stud.*, 1906, **2**, 119-121.

The method of comparison in experiments with musical intervals and the effect of practice on the appreciation of discords. *Brit. J. Psychol.,* 1914, **7**, 118-135.

An introduction to experimental psychology in relation to education. London: Clive; Baltimore: Warwick & York, 1914. Pp. x+194. (2nd ed., 1926. Pp. x+253.)

Classics, history and the training of reasoning. *J. Exper. Ped.,* 1918, **4**, 280-289.

Volitional attention and its training. *Mind,* 1918, **27**, 40-54.

Mind and medium in art: V. *Brit. J. Psychol.,* 1920, **11**, 47-54.

Dreams and the unconscious: an introduction to the study of psycho-analysis. London: Christophers, 1921; New York: Macmillan, 1922. Pp. 144. (Rev. ed., 1929, under title *The new psychology of the unconscious.* Pp. 162.)

The function of images in the appreciation of poetry. *Brit. J. Psychol.,* 1923, **14**, 164-191.

Some experiments on the speed of reading and its improvement. *Forum Educ.,* 1923, **1**, 222-231.

Reflexes in early childhood: their development, variability, evanescence, inhibition and relation to instincts. *Brit. J. Med. Psychol.,* 1927, **7**, 1-35.

An enquiry as to the reasons for the choice of occupations among secondary school pupils. *Forum Educ.,* 1927, **5**, 85-101.

With Ritchie, F. M. An enquiry as to reasons for the choice of occupation among secondary school pupils. *J. Nat. Instit. Indus. Psychol.,* 1928, **4**, 211-223.

The relative reliability of men and women in intuitive judgments of character. *Brit. J. Psychol.,* 1929, **19**, 213-238.

Growing up. London: Kegan Paul, 1929. Pp. 240.

The psychology of imitation with special reference to early childhood. *Brit. J. Psychol.,* 1930, **21**, 105-132.

The innate bases of fear. *J. Genet. Psychol.,* 1930, **37**, 394-420.

The foundations of child psychology and their bearing on some problems of general psychology. *School & Soc.,* 1930, **32**, 507-513, 548-552. Also in *Rep. Brit. Asso. Adv. Sci.,* 1930, 176-190.

Education of children under seven. London: Kegan Paul, 1932. Pp. 270.

VERNON, Horace Middleton, 5, Park Town, Oxford, England.

Born London, Oct. 3, 1870.

University of Oxford, Merton College, 1888-1893, A.M., M.D. Zoological Station, Naples, Italy, Scholar, 1894-1895. St. George's Hospital, London, 1895-1896.

University of Oxford: Magdalen College, 1898-1920 Fellow; Exeter and Queen's Colleges, 1900-1918; Lecturer in Physiology, 1900-1918; University Lecturer in Chemical Physiology, 1915-1918. Industrial Health Research Board, 1919—, Investigator. *Journal of Industrial Hygiene,* Associate Editor British Psychological Society.

Investigation of the factors concerned in the causation of industrial accidents. *Rep. Health of Munition Workers Comm.,* London, 1918, No. 21. Pp. 46.

Fatigue and efficiency in the iron and steel industry. *Rep. Indus. Fatigue Res. Board,* 1920, No. 5. Pp. 99.

Industrial fatigue and efficiency. London: Routledge; New York: Dutton, 1921. Pp. 264.

With Bedford, T. Two contributions to the study of rest-pauses in industry. *Rep. Indus. Fatigue Res. Board,* 1924, No. 25. Pp. 20.

On the extent and effects of variety in repetitive work. *Rep. Indus. Fatigue Res. Board,* 1924, No. 26. Pp. 12.

Can laboratory experiments on output throw light on problems of industrial fatigue? *Brit. J. Psychol.,* 1925, **15**, 393-404.

Methods of investigating ventilation and its effects. *Med. Res. Coun. Rep.,* 1926, No. 100. Pp. 71.

With Bedford, T. A physiological study of the ventilation and heating in certain fac-

tories. *Rep. Indus. Fatigue Res. Board,* 1926, No. 35.

With Vernon, M. D. A physiological investigation of the radiant heating in various buildings. *Rep. Indus. Fatigue Res. Board,* 1928, No. 46. Pp. 56.

With Vernon, M. D. Five-hour spells for women with reference to rest pauses. *Rep. Indus. Fatigue Res. Board,* 1928, No. 47. Pp. 16.

With Bedford, T. A study of absenteeism in a group of ten collieries. *Rep. Indus. Fatigue Res. Board,* 1928, No. 51. Pp. 62.

The alcohol problem. London: Baillière, 1928. Pp. 252.

With Bedford, T. A study of heating and ventilation in schools. *Rep. Indus. Health Res. Board,* 1930, No. 58. Pp. 62.

VERNON, Magdalen Dorothea, University of Cambridge, Psychological Laboratory, Cambridge, England.

Born Oxford, June 25, 1901.

University of Cambridge, Newnham College, 1919-1923, A.B., 1922, A.M., 1927.

Industrial Fatigue Research Board, 1922-1927, Assistant Investigator. Medical Research Council, 1927-1931, Personal Grant for Research.

British Psychological Society.

On certain effects of long spells of repetitive work. *Brit. J. Psychol.,* 1926, **16,** 222-236.

The movements of the eyes in reading. *Brit. J. Ophth.,* 1928, **12,** 113-129, 130-139.

A method for observing the position and direction of movement of the eye. *J. Gen. Psychol.,* 1929, **2,** 147-149.

The relationship of subjective experience to the performance of eye movements. *Brit. J. Psychol.,* 1929, **20,** 161-172.

Studies in the psychology of reading: A. The errors made in reading. (*Med. Res. Coun. Spec. Rep. Ser.,* No. 130.) London: H. M. Stationery Office, 1929. Pp. 40.

An apparatus for the photographic recording of eye movements. *Brit. J. Psychol.,* 1930, **21,** 64-67.

The movements of the eyes in reading. (*Med. Res. Coun. Spec. Rep. Ser.,* No. 148.) London: H. M. Stationery Office, 1930. Pp. 45.

Characteristics of proof reading. *Brit. J. Psychol.,* 1931, **21,** 368-381.

WALLAS, Graham, 38, St. Leonard's Terrace, London, S. W. 3, England.

Born Sunderland, Durham, May 31, 1858.

University of Oxford, Corpus Christi College, 1877-1881, B.A., 1881, M.A., 1883.

University of London, London School of Economics and Political Science, 1890—, Extension Lecturer, 1890-1895; Lecturer, 1895-1915; Professor, 1915-1923; Professor Emeritus of Political Science, 1923—.

British Psychological Society. D.Litt., Manchester University.

Human nature in politics. London: Constable; New York: Knopf, 1908. Pp. 302. German: Politik und menschlicher Natur. (Ed. by E. Bernstein.) Jena: Diederichs, 1911. Pp. viii+189.

Pp. 32. (2nd ed., in press.) ABC of the 3 G's (grammar). Pp. 60. London: Auto-Education Institute, 1923—.

Nursery play. London: St. Christopher Press, 1930. Pp. 31.

WILSON, John Harry, Technical College, Brighton, Sussex, England.

Born Leeds, Yorkshire, Jan. 24, 1889.

University of Leeds, 1908-1912, Sc.B., 1911, Sc.M., 1912, Ed.M., 1923. University of London, 1924-1929, Ph.D., 1929.

Grammar School, Steaford, Lincolnshire, 1912-1916, Senior Mathematical Master. The Army, 1917-1919, Lieutenant, Royal Engineers. The Grammar School, Batley, Yorkshire, 1919-1920, Senior Mathematical Master. The Technical College, Brighton, Sussex, 1920—, Lecturer in Physics.

British Psychological Society.

Comparison of certain intelligence tests. *Brit. J. Psychol.*, 1924, **15**, 44-64.

The nature of intelligence. *J. Educ. Psychol.*, 1931, **22**, 20-34.

WIMMS, Joseph Henry, University of London, Goldsmiths' College, London, England.

Born May 16, 1876.

University College of North Wales, 1895-1899, A.M., 1906. University of London, King's College, 1904-1906, Sc.B., 1906.

Leyton County High School, 1899-1904, Senior Mathematical Master. University of London, King's College, 1904-1906, Demonstrator in Psychology. University of London, Goldsmiths' College, 1906—, Lecturer in Education.

British Psychological Society. English Training College Association.

The relative effects of fatigue and practice

produced by different kinds of mental work. *Brit. J. Psychol.*, 1907, **2**, 153-195.

WINCH, William Henry, County Hall, London, England.

Born London, June 15, 1864.

University of Cambridge, St. Johns College, 1895-1898, A.B., 1898, A.M., 1901.

School Board and London County Council, 1898-1905, 1913—, District Inspector of Schools. London County Council, Lecturer.

British Psychological Society (formerly Hon. Treasurer). Education Guild of Great Britain and Ireland (Chairman of the Council).

Problems in education: VI. London: Sonnenschein (later Allen), 1900. Pp. 187.

Notes on German schools. London & New York: Longmans, Green, 1904. Pp. 264.

Immediate memory in school children: I. *Brit. J. Psychol.*, 1904, **1**, 127-134.

Immediate memory in school children: II. Auditory. *Brit. J. Psychol.*, 1906, **2**, 52-57.

Psychology and philosophy of play: I and II. *Mind*, 1906, **15**, 32-52, 177-190.

The vertical-horizontal illusion in school children. *Brit. J. Psychol.*, 1907, **2**, 221-225.

The transfer of improvement in memory of school children: I. *Brit. J. Psychol.*, 1908, **2**, 284-293.

The function of images. *J. Phil., Psychol., etc.*, 1908, **5**, 337-351.

Colour preferences of school children. *Brit. J. Psychol.*, 1909, **3**, 42-65.

Conation and mental activity. *J. Phil., Psychol., etc.*, 1909, **6**, 477-485, 505-514.

A modern basis for educational theory. *Mind*, 1909, **18**, 92-104.

Colour-names of English school children. *Amer. J. Psychol.*, 1910, **21**, 453-482.

The transfer of improvement in memory in school children: II. *Brit. J. Psychol.*, 1910, **3**, 386-405.

Some measurements of mental fatigue in adolescent pupils in evening schools: I and II. *J. Educ. Psychol.*, 1910, **1**, 13-23, 83-100.

Accuracy in school children. Does improvement in numerical accuracy transfer? *J. Educ. Psychol.*, 1910, **1**, 557-589.

'Physiological' or 'psychological.' *Mind*, 1910, **19**, 200-217.

Some moral ideas of school children. *Teach. Guild Quar.*, 1910. Also in *Mind*, 1911.

Some relations between substance memory and productive imagination in school children. *Brit. J. Psychol.*, 1911, **4**, 95-125.

Mental fatigue in day school children as measured by arithmetical reasoning. *Brit. J. Psychol.*, 1911, **4**, 315-341.

Social class and mental proficiency in elementary school children: I and II. *J. Exper. Ped.*, 1911, **1**, 9-18, 118-128.

The faculty doctrine, correlation and education theory: I and II. *J. Phil., Psychol., etc.*, 1911, **8**, 337-348, 372-384.

When should a child begin school? (*Educ. Psychol. Monog.*) Baltimore, Md.: Warwick & York, 1911. Pp. 98.

How a teacher can test the value of his own methods. *Child-Stud.*, 1912, **5**, 60-66.

A motor factor in perception and memory. *J. Exper. Ped.*, 1912, **1**, 261-273.

Modern psychology and the new constructive movement in education. *Child-Stud.*, 1913, **6**, 64-68.

Mental adaptation during the school day as measured by arithmetical reasoning. *J. Educ. Psychol.*, 1913, **4**, 17-29, 71-84.

Experimental researches in learning to spell. *J. Educ. Psychol.*, 1913, **4**, 525-537, 579-592.

Should young children be taught arithmetical proportion? *J. Exper. Ped.*, 1913-14, **2**, 79-88, 319-330, 406-431; 1915, **3**, 89-95.

Additional reasoning tests suitable for the mental diagnosis of school children. *Rep. Brit. Asso. Adv. Sci.*, 1913, **83**, 685-687.

Inductive versus deductive methods of teaching: an experimental research. (*Educ. Psychol. Monog.*) Baltimore, Md.: Warwick & York, 1913. Pp. 142.

Some new reasoning tests suitable for the mental examination of school children. *Brit. J. Psychol.*, 1914, **7**, 190-225.

Binet's mental tests. What they are and what we can do with them. *Child-Stud.*, 1914, **7**, 1-4, 19-20, 39-45, 55-62, 87-90, 98-104, 116-122, 138-144; 1915, **8**, 1-8, 21-27, 50-56, 86-92.

Further experimental researches in learning to spell. *J. Educ. Psychol.*, 1914, **5**, 449-469.

The factors of mental development considered from an educational standpoint. *Ped. Sem.*, 1914, **21**, 440-444.

Children's perceptions: X. (*Educ. Psychol. Monog.*, No. 12.) Baltimore, Md.: Warwick & York, 1914. Pp. 240.

Additional researches in learning to spell: the questions of 'transfer' and 'direct' versus 'indirect' methods. *J. Educ. Psychol.*, 1916, **7**, 93-111.

'Equal additions' versus 'decomposition' in teaching subtraction: an experimental research. *J. Exper. Ped.*, 1920, **5**, 261-270, 297-320.

Children's reasonings: experimental studies in school children. *J. Exper. Ped.*, 1921, **6**, 121-141, 199-212, 275-287. Also in *Forum Educ.*, 1923, **1**, 152-157.

The transfer of improvement in reasoning in school children. *Brit. J. Psychol.*, 1923, **13**, 370-381.

Should poems be learnt by school children as 'wholes' or in 'parts'? *Brit. J. Psychol.*, 1924, **15**, 64-80.

Teaching beginners to read in England: methods, results and psychological bases. (*J. Educ. Res. Monog.*) Bloomington, Ill.: Pub. School Publ. Co., 1925. Pp. 185.

Print-script and cursive-script in schools:

an investigation in nervo-muscular readjustment: I and II. *Forum Educ.*, 1926, **4**.
The necessity of experimental pedagogy. *Forum Educ.*, 1927, **5**, 3-9.
Can observation be trained in school children? *J. Educ. Res.*, 1927, **15**, 229-238, 314-326.
Christian and Jewish children in East-End elementary schools. *Brit. J. Psychol.*, 1930, **20**, 261-273.
Dates versus centuries in teaching chronology to school children. *Forum Educ.*, 1930, **8**, 32-41, 120-129.

WISDOM, Arthur John, St. Andrew's University, St. Andrew's, Fife, Scotland.
Born London, Sept. 12, 1904.
University of Cambridge, 1921-1926, A.B., 1924; First-Class Honours, Part I, Moral Sciences Tripos, 1924; Second-Class Honours, Part II, Moral Sciences Tripos, 1925.
National Institute of Industrial Psychology, 1928-1929, Research Worker. St. Andrew's University, 1929—, Lecturer in Philosophy and Psychology.
British Psychological Society. Mind Association.
MacTaggart's determining correspondence of substance. *Mind*, 1928, **37**, 414-438.
Bentham on definition and division. *Psyche*, 1929, **9**, 10-19; 1931, **11**, 79-83.
Interpretation and analysis. *Psyche*, 1930, **11**, 11-31.
Time, fact and substance. *Proc. Arist. Soc.*, 1930, **24**, 67-94.
Logical constructions: I. *Mind*, 1931, **40**, 188-216.
Logical constructions: II. *Mind*, 1931, **40**, 460-475.
Interpretation and analysis, in relation to Bentham's theory of definition. London: Kegan Paul, 1931. Pp. 136.
Logical constructions: III. *Mind*, 1932, **41** (in press).

WOHLGEMUTH, Gustav Adolf, Rutland Lodge, Shortlands, Kent, England.
Born Berlin, Germany, Nov. 1, 1868.
University of London, University College and King's College, 1895-1918, Sc.B., 1905, Sc.D., 1911.
British Psychological Society. Deutsche Gesellschaft für Psychologie.
On the after-effect of seen movement. London: Cambridge Univ. Press, 1911. Pp. i+117.
On memory and the direction of associations. *Brit. J. Psychol.*, 1913, **5**, 447-465.
Zwei neue Apparate zur Untersuchung des Temperatursinnes der Haut. *Zsch. f. Sinnesphysiol.*, 1913, **47**, 412-419.
Simultaneous and successive association. *Brit. J. Psychol.*, 1915, **7**, 434-452.
On the feelings and their neural correlate, with an examination of the nature of pain. *Brit. J. Psychol.*, 1917, **8**, 423-476.
Pleasure-unpleasure. An experimental investigation on the feeling-elements. London: Cambridge Univ. Press, 1919. Pp. ii+252.
The influence of feeling on memory. *Brit. J. Psychol.*, 1923, **13**, 405-416.
A critical examination of psycho-analysis. London: Allen & Unwin, 1923. Pp. 250.
On paramnesia. *Mind*, 1924, **33**, 304-310.
The refutation of psychoanalysis. *J. Ment. Sci.*, 1924, **70**, 495-503.

Ueber die Wirkung des Stovains auf die Organe des Geschmacks, der Hautempfindungen, des Geruchs und des Gehörs nebst einigen weiteren Beobachtungen über die Wirkung des Kokains, des Alipins und der Karbolsäure im Gebiete der Empfindungen. *Arch. f. d. ges. Psychol.*, 1909, **14**, 385-436.

[Trad.] Psicologia criminale e psicopatologia penale sulla base delle scienze naturali. Torino: Unione Tipografica Editrice Torinese, 1909. Pp. 311. (Traduzione dal tedesco—R. Sommer, Kriminalpsychologie und Strafrechtliche Psychopathologie auf Naturwissenschaftlicher Grundlage. 1904.)

Studio della localizzazione delle sensazioni cutanee di dolore. *Mem. d. r. Accad. sci. di Torino*, 1909, Serie II, **61**, 15-54.

Intorno ad alcune illusioni nel campo delle sensazioni tattili, sull'illusione di Aristotele e fenomeni analoghi. *Arch. f. d. ges. Psychol.*, 1910, **56**, 307-351.

Zusammen mit Kiesow, F. Beobachtungen über die Reaktionszeiten der Temperaturempfindungen. *Arch. f. d. ges. Psychol.*, 1910, **61**, 376-396.

Ueber eine einfache Vorrichtung, um Photographien und Zeichnungen plastisch zu sehen. *Zsch. f. biol. Techn. u. Method.*, 1910, **2**, 19-20.

Su un nuovo compasso per la misura delle percezioni spaziali nel campo delle sensazioni cutanee. *Giorn. d. r. Accad. med. di Torino*, 1910, **16**, 319-323.

Recherches sur la localisation des sensations tactiles et des sensations dolorifiques. *Arch. ital. de biol.*, 1911, **55**, 1-14.

Sur quelques illusions dans le champ des sensations tactiles, sur l'illusion d'Aristotell et phénomènes analogues. *Arch. ital. de biol.*, 1911, **55**, 20-34.

Zusammen mit Kiesow, F. Observations sur les temps de réaction pour les sensations thermiques. *Arch. ital. de biol.*, 1911, **56**, 216-224.

Un appareil pour la vision plastique de photographies. *Arch. ital. de biol.*, 1911, **56**, 125-126.

Sur un nouveau compas pour mesurer les perceptions d'espace dans le champ des sensations cutanées. *Arch. ital. de biol.*, 1911, **56**, 139-144.

Ueber einem neuen Zirkel für die Bestimmung der simultanen Raumschwellen der Körperhaut. *Arch. f. d. ges. Psychol.*, 1911, **22**, 390-394.

Di una nuova illusione dipendente dallo incrociamento delle dita. *Giorn. d. r. Accad. med. di Torino*, 1911, **17**, 173-174.

Di un apparecchio per la determinazione facile e precisa della grandezza e della direzione degli errori di localizzazione nel campo delle sensazioni cutanee (Dermolocalimetro). *Giorn. d. Accad. med. di Torino*, 1911, **17**, 175-177.

Sur une nouvelle illusion dépendant du croisement des doigts. *Arch. ital. de biol.*, 1911, **56**, 127-128.

Sur un appareil pour la détermination facile e précise de la grandeur et de la direction des erreurs de localisation dans le champ des sensations cutanées (Dermolocalimètre). *Arch. ital. de biol.*, 1911, **5**, 148-150.

Ueber einen Apparat zur Bestimmung der beim Lokalisieren von Hautempfindungen gegangenen Fehler und deren Richtungen (Dermolokalimeter). *Arch. f. d. ges. Psychol.*, 1911, **22**, 105-107.

Di alcune osservazioni psicologiche fatte durante rappresentazioni cinematografiche. *Atti d. r. Accad. sci. di Torino*, 1911, **46**, 943-948.

Quelques observations psychologiques faites durant des représentations cinématographiques. *Arch. ital. de biol.*, 1911, **56**, 81-86.

Osservazioni intorno alla direzione degli errori di localizzazione negli spazi intercostali. *Atti. d. r. Accad. sci. di Torino*, 1911, **46**, 934-942.

Observations sur la direction des erreurs de localisation dans les espaces intercostaux. *Arch. ital. de biol.*, 1911, **56**, 193-201.

Ueber eine Vorrichtung, um Lichtreize für gewisse Reaktionsversuche als Signale zu verwenden. *Zsch. f. biol. Techn. u. Method.*, 1911, **2**, 188-191.

Ein thermischer Reizapparat für Reaktionsversuche nebst zugehörigem Kontrollapparat. *Zsch. f. biol. Techn. u. Method.*, 1911, **2**, 192-195.

Neue Apparate für die Demonstration von Täuschungen im Gebiete der Hautempfindungen. *Zsch. f. biol. Techn. u. Method.*, 1911, **2**, 196-202.

Note dimostrative intorno a due apparecchi per ricerche sulle sensazioni cutanee. *Riv. di psicol.*, 1912, **8**, 129-132.

Ricerche e considerazioni intorno all'influenza dell'esercizio sulli rappresentazioni spaziali cutanee. *Riv. di psicol.*, 1912, **8**, 390-407.

Recherches et considérations touchant l'influence de l'exercice sur les représentations d'espace cutanées. *Arch. ital. de biol.*, 1912, **57**, 231-244.

Il decorso nel tempo delle rappresentazioni spaziali cutanee. *Atti d. r. Accad. sci. di Torino*, 1912, **47**, 1056-1067.

Le cours, dans le temps, des représentations d'espace cutanées. *Arch. ital. de biol.*, 1912, **58**, 245-251.

Deviazione dall'orizzontale nei disegni di serie di linee rette oblique. *Riv. di psicol.*, 1912, **8**, 200-206.

Déviation de la ligne horizontale dans les dessins de séries de lignes droites obliques. *Arch. ital. de biol.*, 1912, **58**, 321-326.

Rapporti fra alcune illusioni visive di contrasto angolare e l'apprezzamento di grandezza degli astri all'orizzonte. *Riv. di psicol.*, 1912, **8**, 304-306.

Rapports entre quelques illusions visuelles de contraste angulaire et l'appréciation de grandeur des astres à l'horizon. *Arch. ital. de biol.*, 1912, **58**, 327-328.

Dell'influenza esercitata da complessi associativi abituali su alcune rappresentazioni di movimento. *Riv. di fil. neo-scolas.*, 1913, **5**, 376-386.

De l'influence exercée par des associations habituelles sur quelques représentations de mouvement. *Arch. ital. de biol.*, 1913, **60**, 209-217.

Studio della localizzazione delle sensazioni termiche di caldo e di freddo. *Riv. di psicol.*, 1913, **9**, 393-415.

Etude de la localisation des sensations thermiques de chaud et de froid. *Arch. ital. de biol.*, 1913, **60**, 218-231.

Dei rapporti fra i dati anatomici, fisiologici e psicologici nei processi gustativi (osservazioni esperienze, note storiche e critiche). *Riv. di psicol.*, 1913, **9**, 513-539.

Rapports entre les données anatomiques, physiologiques et psychologiques dans les processus gustatifs. *Arch. ital. de biol.*, 1914, **61**, 355-368.

Sui processi di riconoscimento e di denominazione di oggetti e di figure in adulti e in allievi delle scuole elementari (ricerche sperimentali e osservazioni). *Riv. di psicol.*, 1914, **10**, 15-37; 113-135.

Il valore didattico del cinematografo. *Riv. di psicol.*, 1914, **10**, 47-52.

Il metodo di Binet e Simon nelle sue applicazioni allo studio dell'intelligenza nei normali e nei deficienti. *Riv. di psicol.*, 1914, **10**, 136-150; 199-238.

Il metodo pneumografico nella analisi psicologica dei processi di riconoscimento e di denominazione e di quelli associativi. Savigliano: Galimberti, 1914. Pp. 14.

Caratteristiche individuali e famigliari delle curve pneumografiche nelle reazioni fonetiche. (Studi italiani di Fonetica sperimentale comunicati al 1a Congresso internazionale di Fonetica Sperimentale, Amburgo, Aprile 1914). *Arch. ital. di otol.*, 1914, **25**, 424-434.

Con Hahn, R. Ricerche preliminari intorno all'influenza di ritmi oggettivi sull'emissione ritmica di fonemi. (Studi italiani di Fonetica sperimentale comunicati al 1a Congresso Internazonale di Fonetica Sperimentale, Amburgo, Aprile 1914.) *Arch. ital. di otol.*, 1914, **25**, 453-438.

Caractéristiques individuelles et familiales des courbes pneumographiques dans les réactions phonetiques. *Arch. ital. de biol.*, 1915, **64**, 229-238.

Emozioni e disturbi della parola. *Inf. anorm.*, 1915, **8**, 33-42.

Nuovi dispositivi per la registrazione grafica del respiro. *Arch. ital. di otol.*, 1915, **26**, 302-305.

Modificazioni del respiro durante la lettura mentale e loro significato. *Arch. ital. di otol.*, 1915, **26**, 306-310.

Nouveau dispositif pour l'enregistrement graphique de la respiration avec un exemple de son application à l'étude des modifications de la respiration durant la lecture mentale. *Arch. ital. di biol.*, 1916, **66**, 306-312.

Analogie fra le illusioni determinate dal punto cieco retinico e quelle dipendenti dalla zona linguale ageusica. (Volume giubilare in onore di G. Sergi.) *Riv. di antrop.*, 1915-1916, **20**, 1-4.

Cinematografo e deliquenza minorile. *Inf. anorm.*, 1919, **12**, 88-96.

Perchè gli smobilitati non hanno voglia di lavorare. *Vita e pensiero*, 1919, **9**, 601-608.

Una strana illusione nella concezione di un romanzo di Fogazzaro. *Vita e pensiero*, 1920, **10**, 156-167.

La misura del decorso di processi psichici eseguita per mezzo delle grafiche del respiro-processi di riconoscimento e denominazione. *Arch. ital. di psicol.*, 1921, **1**, 214-238.

Un nuovo pericolo sociale. L'etere e la cocaina. *Vita e pensiero*, 1921, **12**, 176-183.

Di un nuovo metodo psicofisiologico per svelare la simulazione della sordità. *Arch. ital. di otol.*, 1921, **32**, 1-11.

Anosmie e iperosmie sperimentali. *Atti. d. XVIII. Cong. d. Soc. ital. di laringol., ecc.*, Milano, 1921, 252-253.

La distribuzione dei calici gustativi in rapporto al gusto nasale. *Atti d. XVIII. Cong. d. Soc. ital. di laringol., ecc.*, Milano, 1921, 253-255.

Le modalità degli atti dell'annasare come criterio direttivo per scoprire la simulazione e la dissimulazione delle anosmie. *Arch. ital. di otol.*, 1922, **33**, 340-349.

I segni dei processi di inibizione negli atti di volere. *Arch. ital. di psicol.*, 1922, **2**, 1-27.

Di un metodo pratico per saggiare l'abilitià nei movimenti volontari e per mettere in evidenza i fattori dell'emotività e della fatica. *Arch. ital. di psicol.*, 1923, **2**, 161-169.

Interpretazione e valorizzazione di segni respiratori rivelatori nel metodo delle assodi psicologia colletiva). *Arch. ital. di psicol.*, 1923, **2**, 133-160.

Contributo alla psicologia della testimonian-

za (la prova della bandiera). *Arch. ital. di. psicol.*, 1923, **2**, 230-244.

Fenomeni di fusione e di gara fra rappresentazioni spaziali cutanee. *Arch. ital. di psicol.*, 1923, **3**, 33-36.

La raffigurazione di delinquenti nella immaginazione popolare (contributo agli studi di Psicologia collettiva). *Arch. ital. di psicol.*, 1923, **3**, 19-27.

Rapporti fra respiro e preparazione della parola. *Quad. di psichiat.*, 1924, **11**, 161-165.

Fenomeni di suggestibilità respiratoria. *Arch. ital. di psicol.*, 1924, **3**, 199-215.

Illusioni nei nostri giudizi sul numero. *Atti d. V. Cong. int. di fil.*, Napoli, 1924, 719-720.

Sui riflessi oto-oculari di localizzazione dei suoni nei ciechi. *Arch. ital. di psicol.*, 1924, **3**, 216-220.

Il respiro dopo la parola. *Arch. ital. di psicol.*, 1924, **3**, 221-226.

Significato di modificazioni respiratorie durante lo svolgersi dell'attività del pensiero. *Atti. d. V. Cong. int. di fil.*, Napoli, 1924, 718-719.

Sulla localizzazione delle sensazioni tattili e dolorifiche. *Arch. ital. di psicol.*, 1925, **4**, 88-100.

Sulle illusioni nelle rappresentazioni di posizione e di movimento nel dominio delle sensazioni cutanee. *Arch. ital. di psicol.*, 1925, **4**, 101-109.

Ripercussioni respiratorie di stati d'animo provocate da rappresentazioni olfattive. *Arch. ital. di psicol.*, 1925, **4**, 110-114.

Con Tirelli, V. A proposito di alcoolismo. *Scuol. e vita*, 1925-1926, **6**, N. 4, 11-12; N. 5, 3-4.

Gli spostamenti dello sguardo come sintomo psicodiagnostico. *Arch. ital. di psicol.*, 1926, **5**, 46-56.

Significato ed importanza dei movimenti automatici e riflessi negli avvenimenti gustativo e olfattivo. *Arch. ital. di psicol.*, 1926, **5**, 19-30.

Signification et importance des mouvements automatiques et reflexes dans les fonctions gustatives et olfactives. *Arch. ital. de biol.*, 1926, **76**, 93-103.

Der Ausdruck des Willensfaktors in der Atmungskurve. *Ber. d. VIII. int. Kong. f. Psychol.*, Groningen, 1926, 368-371.

Il fattore volitivo nelle sue manifestazioni respiratorie. *Arch. ital. di psicol.*, 1927, **5**, 188-198.

A proposito delle applicazioni medico-legali del mio metodo delle reazioni respiratorie nei casi di simulazione di sordità. *Valsalva*, 1927, **3**, 123-126.

Con Rivano, T. La realizzazione nell'azione di un decorso rappresentativo onirico. *Arch. ital. di anthrop. crim.*, 1927, **48**, 185-201.

Significato e finalità di manifestazioni motorie in stati di attività psichica. *Arch. ital. di psicol.*, 1927, **6**, 1-39.

Sull'urgenza di una pronta segnalazione dei disturbi mentali nei conduttori di mezzi di trasporto a trazione meccanica. *C. r. IV. Conf. int. de psychotechn.*, Paris, 1927, 587-590.

Sulle valutazioni di pressione, di sforzo e di mutamento di temperatura in psicotecnica. *Atti d. VI. Convegno d. Soc. ital. di psicol.*, Bologna, 1927, 88-89.

Impressioni sull'VIII° Congresso internazionale di Psicologia, Groniga, 6-11, settembre 1926. *Arch. ital. di psicol.*, 1927, **5**, 199-206.

In difesa del patrimonio delle attitudini del nostro operaio. *Nuova antologia*, 1927, **62**, fasc. 1334, 494-501.

Variazioni individuali e interindividuali negli apprezzamenti di velocità dall'automoble in corsa. *Arch. ital. di psicol.*, 1927, **6**, 115-124.

Nota illustrativa di particolari dispositivi e apprecchi usati in ricerche condotte nell'-Istituto di Psicologia di Torino. *Arch. ital. di psicol.*, 1928, **6**, 230-258.

Urteilstäuschungen über Mengen. *Arch. f. d. ges. Psychol.*, 1928, **65**, 129-162.

Illusioni negli apprezzamenti di collectività. *Arch. ital. di psicol.*, 1928, **7**, 1-37.

Alla ricerca delle attitudini nei giovani. Guida di psicotecnica applicata all'orientamento professionale. Torina: G. B. Paravia, 1929. Pp. 8+263.

Alla ricerca delle attitudini nei giovani. *Realtà*, 1929, fasc. 1 maggio, 449-459.

Pericolosità sul lavoro e profilassi sociale. *Arch. di antrop. crim.*, 1929, **49**, 1-15.

Guyotpreis der Universitat Groningen, 1915. Nobelpreis in Physiologie und Medicin, 1915. Jubileumspreis der Schwedischen Gesellschaft der Aerzte in Stockholm, 1925.

Zur Kauistik der metastischen Karzinome des Gehirns nebst Bemerkungen zu dem Symptom der Perseveration. *Wien. klin. Woch.,* 1902, H. 42.

Demonstration von Patienten mit Gleichgewichtsstörungen. (Sitzber. d. Oesterr. otol. Gesellsch. v. 29. Dez. 1904.) *Monatsschr. f. Ohrenhk.,* 1904, **38**, 231.

Zusammen mit Alexander, G. Psycho-physiologische Untersuchungen über die Bedeutung des Statolithenapparates für die Orientierung im Raum an Normalen und Taubstummen. *Arch. f. Ohrenhk.,* 1905, **65**, 187-192.

Vortrag: Ueber den vom Ohre auslörbasen Nystagmus. (Sitzber. d. LXX. Vers. dtsch. Naturforsch. u. Aerzte, Meran, 1905.) *Monatsschr. f. Ohrenhk.,* 1905, **41**.

Vortrag: Die Gegenrollung der Augen bei Normalen, Taubstummen und Ohrenkranken. (Sitzber. 2d. Oesterr. otol. Gesellsch. v. 27. Feb. 1905.) *Monatsschr. f. Ohrenhk.,* 1905, **41**, 473.

Vortrag: Ueber kalorischen Nystagmus. (Sitzber. d. Oesterr. otol. Gesellsch. v. 29. Mai 1905.) *Monatsschr. f. Ohrenhk.,* 1905, **41**, 476.

Zusammen mit Kraft, F. Die Symptomatologie der Billrothmischungsnarkose. *Zsch. f. Heilk.,* 1905, **26**, 1-71.

Zusammen mit Kraft, F. La symtomatologie de la narcose par le mélange de Billroth. *Zsch. f. Heilk.,* 1905, **26**.

Zusammen mit Alexander, G. Psychophysiologische Untersuchungen uber die Bedeutung des Statolithenapparates fur die Orientierung im Raume an Normalen und Taubstummen nebst Beitragen zur Orientierung mittels taktiler und optischer Empfindungen. *Zsch. f. Psychol. u. Physiol. d. Sinnesorg.,* 1905, **37**, 321-362, 415-457. Auch in *Eós* 1905, **1**, 252-257. Auch in *Arch. f. Ohrenhk.,* 1905, **56**, 187-192.

Experimenteller Beitrag zur Psychologie des Urteils. *Zsch. f. Psychol. u. Physiol. d. Sinnesorg.,* 1905, **38**, 34-50.

Untersuchungen uber die vom Ohrlabyrinth ausgelöste Gegenrollung der Augen bei Normalhörenden, Ohrenkranken und Taubstummen. *Arch. f. Ohrenhk.,* 1906, **68**, 1-30.

Vortrag: Beitrag zur Lehre von der Funktion der Bogengänge. (Sitzber. d. Oesterr. otol. Gesellsch. v. 26. Juni 1905.) *Monatsschr. f. Ohrenhk.,* 1906, **40**, 180.

Vortrag: Weitere Untersuchungen über den vom Ohre auslörbaren Nystagmus. (Sitzber. d. Oesterr. otol. Gesellsch. v. 26. Juni 1905.) *Monatsschr. f. Ohrenhk.,* 1906, **40**, 180.

Untersuchungen über den vom vestibularapparat des Ohres reflektorisch ausgelösten rhytmischen Nystagmus und seine Begleiterscheinungen. *Monatsschr. f. Ohrenhk.,* 1906, **40**, 193-297. Auch Berlin: Coblenz, 1906. S. 107.

Vestibularerkrankung und Neurose. *Wien. klin. Woch.,* 1906, H. 11.

Diagnose eines Falles von Akustikustumor mithilfe des Fehlens der calorischen Reaction. *Wien. klin. Woch.,* 1906, H. 16, 489.

Augenbewegungen durch Thoraxbewegungen ausgelöst. *Zentbl. f. Physiol.,* 1906, **20**, 298-302.

Beitrag zur Lehre von den Funktionen der Bogengänge. *Zsch. f. Sinnesphysiol.,* 1906, **41**, 37-44.

Physiologie und Pathologie (Funktionsprüfung) des Bogengangapparates beim Menschen, (nebst) Fragebogen, betreffend den

Zusammenhang Vestibularapparat und Seekrankheit. Wien: Deuticke, 1907. S. 76.

Vortrag: Untersuchung der reflektorischen, vestibulären und optischen Augenbewegungen und ihre Bedeutung für die topische Diagnostik der Augenmuskellahmungen. (Sitzber d. Oesterr. otol. Gesellsch. v. 18. Dez. 1906.) *Monatsschr. f. Ohrenhk.*, 1907, **41**, 336.

Weitere Untersuchungen über den vom Vestibularapparat des Ohres reflektorisch ausgelösten, rhytmischen Nystagmus und seine Begleiterscheinungen. *Monatsschr. f. Ohrenhk.*, 1907, **41**, 477-526.

Mitteilung von zwei neuen Nystagmussymptomen. (Sitzber. d. Oesterr. otol. Gesellsch. v. 27. Mai 1907.) *Monatsschr. f. Ohrenhk.*, 1907, **41**, 685.

Die Untersuchung der reflektorischen, vestibulären und optischen Augenbewegungen und ihre Bedeutung fur die topische Diagnostik der Augenmuskellahmungen. *München. med. Woch.*, 1907, **54**, 1072-1075, 1132-1135.

Zur Theorie des Nystagmus. *Verh. d. dtsch. otol. Gesellsch.*, 1907, 211-214.

Untersuchungen uber das Verhalten des Vestibularapparates bei Kopftraumen und ihre praktische Bedeutung. *Verh. d. dtsch. otol. Gesellsch.*, 1907, 252.

[Hrg.] Berichte über Sitzungen der oesterreichischen otologischen Gesellschaft. *Zsch. f. Ohrenhk.*, 1907, **57**, 304; 1908, **58**, 188, 351; 1909, **59**, 259. Auch in *Int. Zentbl. f. Ohrenhk.*, 1909, **7**, 308-318, 339-353, 467-477, 507-513; 1910, **8**, 138-148.

Allgemeine Symptomatologie des Drehschwindels (historische Entwicklung). *Int. Zentbl. f. Ohrenhk.*, 1908, **6**, 447-472.

[Fall von einseitiger Blicklähmung.] *Mitt. d Gesellsch. f. inn. Med. u. Kinderh.*, 1908, **7**, 36.

Die Untersuchung der optischen und vestibulären reflektorischen Augenbewegungen in einem Falle von einseitiger Blicklähmung. *Monatsschr. f. Ohrenhk.*, 1908, **42**, 109-113.

Lärmapparat zum Nachweis der einseitigen Taubheit. *Verh. d. dtsch. otol. Gesellsch.*, 1908, 84-86.

Die modernen Untersuchungsmethoden des Vestibularapparates und ihre praktische Bedeutung. *Wien. med. klin.*, 1908, **4**, 1903-1905.

Labyrinthfistel mit Umkehr des Fistelsymptoms und Erlöschen der kalorischen Reaktion während der Beobachtung. *Wien. med. Presse*, 1908.

Demonstration und Vortrag: Diagnose der Labyrinthfistel mit Demonstration. (Sitzber d. Oesterr. otol. Gesellsch. v. 22. Juni 1908.) *Zsch. f. Ohrenhk.*, 1908.

Demonstration: Neue Methode zum Nachweis einseitiger Taubheit. (Sitzber. d. Oesterr. otol. Gesellsch. v. 27. Jan. 1908.) *Zsch. f. Ohrenhk.*, 1908, **55**, 413.

Verhandlungen der Oesterreichischen otologischen Gesellschaft. *Zsch. f. Ohrenhk.*, 1908, **58**, 60-82, 398-404.

Funktionelle Diagnostik der eiterigen Erkrankungen des Bogengangsapparates. *Int. Zentbl. f. Ohrenhk.*, 1909, **7**, 1-26.

Ueber die Knorpelleitung. Vortrag auf dem intern. *Otologenkong.*, 1909.

Ueber ein neues vestibulares Symptom bei den Erkrankungen des Kleinhirns. *Otologenkong.*, 1909.

Lähmung vestibularer Hemmungsfasern in einen Falle von Blicklahmung. *Med. Blätter*, 1909, **32**, 503.

Neue Stimmgabelversuche und Methoden der Funktionsprüfung. *Verh. d. dtsch. otol. Gesellsch.*, 1909.

Vestibularapparat und Gleichgewicht. *Verh. d. dtsch. otol. Gesellsch.*, 1909.

Neue Methoden der Stimmgabelprüfung und ihre praktische Bedeutung. *Wien. klin. Woch.*, 1909, **22**, 1401-1403.

Demonstration von Patienten mit eigentümlichen Verhalten der Knorpelleitung. *Wien. med. Presse*, 1909.

Demonstration einer einfachen Anordnung zur exakten Prüfung des geselleschen Versuches. *Wien. med. Presse*, 1909.

Die nervösen Störungen des Cochlear- und Vestibularapparates. In Bd. I, *Handbuch der Neurologie*, hrg. von M. Lewandowsky. Berlin: 1910. S. 919-958.

Nouvelles méthodes d'examen des relations entre l'appareil vestibulaire, le cervelet, le cerveau, et la moelle épinière. *Ann. d. mal. de l'oreille, du larynx*, 1910, **26**, Pt. 2, 197-204.

The vestibular apparatus and the cerebellum. *Brit. Med. J.*, 1910, **2**, 1245-1247.
Swedish: Vestibularapparat og cerebellum. *Ugesk. f. läger. kjøhenk.*, 1911, **73**, 791-800.

With Scott, S., *et al.* Diagnosis of infective labyrinthitis. *Brit. Med. J.*, 1910, **2**, 1675-1685.

Tabellen für die Funktionsprüfung des Bogengangapparates in normalen und krankem Zustande sowie die Indikationsstellung der Labyrinthoperation bei den eiterigen Erkrankungen des Labyrinths. *Int. Zentbl. f. Ohrenhk.*, 1910, **8**, 201-213.

Fall von Tumor des Wurms, auf Grund vestibularer Prüfung der Fallbewegungen diagnostiziert. *Jahrb. f. Psychiat.*, 1910.

Beitrag zur Lehre von der Knorpelleitung. *Monatsschr. f. Ohrenhk.*, 1910, 223.

Versuch zur Erklärung der Seekrankheit. *Monatsschr. f. Ohrenhk.*, 1910, 723.

Der Vestibularapparat und seine Beziehungen zum Rückenmark, Kleinhirn und Grosshirn. *Neur. Centbl.*, 1910, **29**, 748-754.

Vestibularapparat und Kleinhirn. *Verh. d. dtsch. otol. Gesellsch.*, 1910.

Worttabellen zur Hörprüfung. *Verh. d. dtsch. otol. Gesellsch.*, 1910.

Versuche uber die Wirkung des künstlichen Trommelfells und ihre Erklärung. *Verh. d. dtsch. otol. Gesellsch.*, 1910.

[New vestibular symptom in diseases of the cerebellum.] *Vestnik ushn. Gorlov. i. Nosov. Boliezn.*, 1910, **2**, 179-181.
English: *Larnygoscope*, 1910, **20**, 560.

Ueber einen Fall mit isolierter Erkrankung im Bereiche des Deiters'schen Kerns. (Demonstration.) *Wien. klin. Woch.*, 1910.

Versuche zur exakten Demonstration und Erklärung der Wirkung des künstlichen Trommelfells. *Wien. klin. Woch.*, 1910, H. 20.

Diagnose eines Kleinhirnabszesses auf Grund des Zeigeversuches. *Wien. klin. Woch.*, 1910, 1822.

Ueber die durch rasche Kopfbewegungen auslösbaren Schwindelanfälle und ihre praktische Bedeutung. *Wien. med. Woch.*, 1910.

Neue Untersuchungsmethoden, die Beziehungen zwischen Vestibularapparat, Kleinhirn und Ruckenmark betreffend. *Wien. med. Woch.*, 1910, **60**, 2033-2037.

Apparat zur Messung der Rollbewegungen des Auges nach Privat-dozent Dr. B. *Zsch. f. Sinnesphysiol.*, 1910, **45**.

Zur Theorie des Bogengangsapparates. *Zsch. f. Sinnesphysiol.*, 1910, **45**, 63-68.

Die Seekrankheit. In Bd. III, *Handbuch der Neurologie*, hrg. von M. Lewandowsky. Berlin, 1911.

Spezielle Pathologie des Cochlear- und Vestibularapparates. In Bd. III, *Handbuch der Neurologie*, hrg. von M. Lewandowsky. Berlin, 1911.

The inter-relationship of the vestibular apparatus and the cerebrum. *J. Laryngol.*, 1911, **26**, 393-397.

Vestibularapparat und Zentralnervensystem. (1. Neues Rindenzentrum im Kleinhirn. 2. Bárány's Symptomenkomplex. 3. Kleinhirnsymptome bei Schädeltrauma.) *Med. Klin.*, 1911, **7**, 1818-1821. Auch in *Dtsch. Zsch. f. Nervenk.*, 1911-1912, **43**, 356-358.
Englisch: The vestibular apparatus and the central nervous system. *Laryngoscope*, 1912, **22**, 81-89.

Ein operativ geheilter Fall von otitischem Kleinhirnabszess der rechten Hemisphäre. *Mitt. d. Gesellsch. f. inn. Med. u. Kinderh.*, 1911, **10**, 17-19. Auch in *Wien. med. Woch.*, 1911, **61**, 523.

Ein Fall von Auslösung cerebellarer Erscheinungen durch Fernwirkung eines Tumors der inneren Kapsel. *Mitt. d. Gesellsch. f. inn. Med. u. Kinderh.*, 1911, **10**, 19. Auch in *Wien. med. Woch.*, 1911, **61**, 524.

Ein Fall von Cysticercus des IV. Ventrikels mit Verschluss des Foramen Mageudi und Hydrocephalus internus. *Mitt. d. Gesellsch. f. inn. Med. u. Kinderh.*, 1911, **10**, 20-23. Auch in *Wien. med. Woch.*, 1911, **61**, 525.

Neue Methode zur Prufung der spontanen Zeigebewegungen des Kopfes und der Reaktionsbewegungen des Kopfes. *Monatsschr. f. Ohrenhk.*, 1911.

Labyrinthfistel mit vertikalem Nystagmus bei Kompression und Aspiration und theoretische Begründung dieses Verhaltens. *Monatsschr. f. Ohrenhk.*, 1911, **45**, 225.

Lasion der linken Kleinhirnhemisphare durch ein Schädeltrauma. *Monatschr. f. Orhenhk.*, 1911, **45**, 227.

Herabsetzung der Erregbarkeit des Kleinhirns bei ausgeheiltem Cerebellarabszess. *Monatsschr. f. Ohrenhk.*, 1911, **45**, 227.

Direkte, reizlose, temporäre Ausschaltung der Kleinhirnrinde nach der Methode von Trendelenburg, durch den Zeigeversuch nachweisbar. Lokalisation in der Kleinhirnrinde. *Monatsschr. f. Ohrenhk.*, 1911, **45**, 294-296.

Versuche zum Nachweis einer bisher unbekannten Funktion der Otolithenapparate. *Monatsschr. f. Ohrenhk.*, 1911, **45**, 458.

Beziehungen zwischen Vestibularapparat und Cerebellum. (Vortrag gehalten in Stockholm auf Einladung der schwedischen otologischen Gesellschaft 27. 11. 1911.) *Monatsschr. f. Ohrenhk.*, 1911, **45**, 505-513.

Experimentelle Alkoholintoxikation. *Monatsschr. f. Ohrenhk.*, 1911, **45**, 959.

Zusammen mit Wittmaack, K. Funktionelle Prufung des Vestibularapparates. *Verh. d. dtsch. otol. Gesellsch.*, 1911, **20**, 37-184.

Demonstration eines Falles von Hemiathetose und Spasmus mobilis. *Wien. klin. Woch.*, 1911, 187.

Fall von Tumor der Vermis cerebelli. (Demonstration.) *Wien. klin. Woch.*, 1911, H. 3, 114.

Fall von Fraktur der Pyramide mit eigentumlichen Nystagmus. *Wien. klin. Woch.*, 1911, H. 32.

Fall von Meningitis cystica serosa (?) im Kleinhirnbrückenwinkel mit neuem Symptomenkomplex. *Wien. klin. Woch.*, 1911, H. 32.

Fall von Stirnhirntumor mit cerebellaren Erscheinungen. *Wien. klin. Woch.*, 1911, H. 32.

Ueber Lokalisation in der Kleinhirnrinde. *Wien. med. Woch.*, 1911, **61**, 2129-2135.

Functional testing of the vestibular apparatus. *Ann. Otol., Rhinol., & Laryngol.*, 1912, **21**, 71-127.

Meine Methode der konservativen Radikaloperation bei chronischer Mittelohreiterung. *Med. Klin.*, 1912, **8**, 726-732.

Ein neuer Drehstuhl. *Monatsschr. f. Ohrenhk.*, 1912.

Zusammen mit Reich, Z., u. Rothfeld, J. Experimentelle Untersuchungen über die vestibularen Reaktionsbewegungen an Tieren, insbesondere im Zustande der decerebrate rigidity. (Vorläufige Mitteilung.) *Neur. Centbl.*, 1912, **31**, 1139-1146.

Differential diagnosis between labyrinth-suppuration, serous labyrinthitis, cerebellar abscess and serous meningitis of the posterior fossa. *Trans. 9th Int. Otol. Cong.*, 1912, **9**, 179-182, 275-277.

The relationship between semicircular canals and the eyemuscles. The central mechanism in vestibular nystagmus. *Trans. 9th Int. Otol. Cong.*, 1912, **9**, 249-254, 592-595.

Der Bárányesche Symptomencomplex, seine Diagnose und Therapie, Aetiologie und Prognose. *Verh. d. dtsch. otol. Gesellsch.*, 1912, **21**, 108-132.

Fall von operierter Kleinhirncyste mit operativer Laesion des rückwärtigen Kleinhirnpols beiderseits, spontanen Vorbeizeigen nach oben und Verlust der Zeigereaktion nach unten. *Wien. klin. Woch.*, 1912.

Beziehungen zwischen Bau und Funktion des Kleinhirns nach Untersuchungen am Menschen. *Wien. klin. Woch.*, 1912, **25**, 1737-1739.

Lokalisation in der Rinde der Kleinhirnhemispharen des Menschen. *Wien. klin.* Woch., 1912, **25**, 2033-2038.

Weitere Untersuchungen und Erfahrungen uber die Beziehungen Vestibularapparat und Zentralnervensystem. Nachbarschafts- und Fernwirkungen auf Kleinhirn und Vestibularapparat bei Hirntumoren. *Wien. med. Woch.*, 1912, **62**, 3209-3213, 3282-3287. Auch in *Dtsch. Zsch. f. Nervenh.*, 1912, **45**, 353-356, 358.

Historischer Rückblick auf die Entwicklung der Lehre vom peripheren und zentralen Bogengangsapparat. *Verh. d. Gesellsch. f. dtsch. Naturforsch. u. Aerzte* (85. Vers.), Wien, 1913. (T. I. Die allgemeinen Sitzungen, s. 241.)

Sur un cas de rétablissement complet de l'audition après surdité totale ayant duré un an avec le syndrome décrit par Bárány. *Arch. int. de laryngol. d'otol. et de rhinol.*, 1913, **35**, 384-389.

Lokalisation in der Rinde der Kleinhirnhemisphären. (Funktionsprüfung und Theorie.) (Diskussionsbemerkungen.) *Dtsch. med. Woch.*, 1913, **39**, 637-642, 675-676.

Klinik des peripherischen und zentralen Bogengangsapparates. *Dtsch. med. Woch.*, 1913, **39**, 2065.

Om lokalisation i lillhjärnshemisfärernas bark hos människan. *Hygiea*, 1913, **75**, 1.

Abduktionsbefund des vorigen Falles. *Monatsschr. f. Ohrenhk.*, 1913.

Fall von intramedullärer Erkrankung fälschlich wegen Akustikustumor operiert. *Monatsschr. f. Ohrenhk.*, 1913.

Studien über den Niesreflex. *Monatsschr. f. Ohrenhk.*, 1913, **47**, 129-135.

Dauernde Veränderung des spontanen Nystagmus bei Veränderung des Kopflage. *Monatsschr. f. Ohrenhk.*, 1913, **47**, 481-483.

Der Schwindel und seine Beziehungen zum Bogengangapparat des inneren Ohres. Bogengangapparat und Kleinhirn. (Historische Darstellung. Eigene Untersuchungen.) *Naturwiss.*, 1913, **1**, 396, 425.

Nouvelles recherches et observations concernant les relations existant entre l'appareil vestibulaire et le système nerveux central; symptômes cérébelleux et vestibulaires à distance provoqués par des tumeurs cérébrales. *Rev. neur.*, 1913, **21**, 1-5.

Bidrag till kännedomen om amygdalinets förekomst och blåsyrejäsning. (Beitrag zur Kenntnis des Vorkommens von Amygdalin und Blausäuregärung.) *Upsala läkaref. förhandl.,* 1871-1872, **7**, 412-423. Deutsch: *Neues Jahrb. f. Pharm.,* 1872, **38**.

Études sur le genre Peperomia comprenant les espèces de Caldas, Brésil. *Nova Acta Reg. Soc. Sci. Upsala.,* 1873, **8**, fasc. 2. Pp. 53.

Med Waldenström, J. A. Bidrag till kännedomen om några medels inverkan på Balantidium coli och ett nytt sätt att redan i tarmkanalen sakert döda detsamma. (Beitrag zur Kenntnis der Wirkung einiger Mittel auf Balantidium coli und eine neue Methode dasselbe schon im Darmkanale zu töten.) *Upsala lakaref. forhandl.,* 1873-1874, **9**, 579-606.

Fem nya fall af Balantidium coli behandlade med stora vattenlavemanger, hållande attiksyra och garfsyra. (Fünf neue Falle von Balantidium coli, mit grossen Essigsäure-Tannin-Klystieren behandelt.) *Upsala lakaref. forhandl.,* 1874-1875, **10**, 120-137.

Fall af lakning efter fullständigt genomskärande af luft- och matstrupe. (Fall von Heilung nach vollstandiger Durchtrennung der Luftrohre und des Oesophagus.) *Upsala lakaref. forhandl.,* 1874-1875, **10**, 152-155.

Fall af aneurysma arteriae basilaris. (Fall von Aneurysma arteriae basilaris.) *Hygiea,* 1877, **39**, 292-294.

Rapport öfver de vid K. Serafimerlasarettets medicinska afdelning vardade sjuke och sjukdomar år 1877. (Bericht über die in der inneren Abteilung des königlichen Seraphimerlazarettes gepflegten Kranken und Krankheiten im Jahre 1877.) *Svenska lakaresallsk. nya handl.,* 1879, Ser. 2, **6**, 3.

Om indigosvafvelsyradt natrons afsöndring i njurarne. Experimentel undersökning öfver urinsekretionens mekanism under fysiologiska och patologiska förhållanden. Med fyra taflor. (Ueber die Ausscheidung des indigoschwefelsauren Natrons in den Nieren. Experimentelle Untersuchung über den Mechanismus der Harnsekretion unter physiologischen und pathologischen Verhältnissen.) *Svenska läkaresällsk. nya handl.,* 1879, Ser. 2, **7**, 8. S. 166.

Tvänne mikrotomer. (Zwei Mikrotome.) *Upsala läkaref. forhandl.,* 1880-1881, **16**, 311-321.

Ronneby helsobrunnar och bad år 1880. Årsberättelse. (Trinkquellen und Bäder des Kurorts Ronneby 1880. Jahresbericht.) *Upsala lakaref. forhandl.,* 1880-1881, **16**, 339-417.

Studier öfver hufvudets nevralgier. (Studien über die Neuralgien des Kopfes.) Upsala, 1881. S. 100.

Primär villös kankroid i blåsan. (Primäres villoses Kankroid der Harnblase.) *Upsala lakaref. förhandl.,* 1881-1882, **17**, 75-97.

Fall af cystosarcoma mammae intracanalicu-

lare papillare. (Fall von Cystosarcoma mammae intracanaliculare papillare.) *Upsala läkaref. förhandl.*, 1881-1882, **17**, 146.

Ronneby helsobrunnar och bad år 1881. Årsredogörelse. (Trinkquellen und Bäder des Kurorts Ronneby 1881. Jahresbericht.) *Upsala läkaref. förhandl.*, 1881-1882, **17**, 293-324.

Subseröst uterus-fibromyom. Mikroskopisk undersökning. (Subseröses Uterus-fibromyom. Mikroskopische Untersuchung.) *Upsala läkaref. förhandl.*, 1882-1883, **18**, 124-125.

Fickinhalator för flygtiga ämnen. Med ett träsnitt. (Tascheninhalator für flüchtige Stoffe. Mit einem Holzschnitt.) *Upsala läkaref. forhandl.*, 1882-1883, **18**, 213-214.

Elektricitetsapparater för galvanisk ström. (Elektrizitätsapparate für galvanische Strom.) *Upsala läkaref. förhandl.*, 1882-1883, **18**, 214-215.

Om primar blåskräfta. (Ueber primären Blasenkrebs.) *Upsala läkaref. förhandl.*, 1882-1883, **18**, 403-420.

Om Kinolinet som antipyreticum. (Ueber das Chinolin als Antipyreticum.) *Upsala läkaref. förhandl.*, 1882-1883, **18**, 466-515.

Hemiatrophia progressiva. Med 2 träsnitt. *Nord. med. arkiv*, 1883, **15**, No. 4. S. 16.

Ronneby helsobrunnar och bad år 1882. Årsberattelse. (Trinkquellen und Bäder des Kurorts Ronneby 1882. Jahresbericht.) *Upsala läkaref. förhandl.*, 1883-1884, **19**, 43-69.

Ett fall af symmetrisk pemphigus hos en fullväxt qvinna. (Ein Fall von symmetrischem Pemphigus bei einem erwachsenen Weibe.) *Upsala läkaref. förhandl.*, 1883-1884, **19**, 144-149.

Två fall af Ménières sjukdom jemte återblick på denna sjukdom. (Zwei Fälle von Ménière'scher Krankheit nebst einem Rückblick auf diese Krankheit.) *Upsala läkaref. förhandl.*, 1883-1884, **19**, 281-300.

Ett kliniskt laboratorium. (Ein klinisches Laboratorium.) *Upsala läkaref. förhandl.*, 1883-1884, **19**, 372-380.

Ronneby helsobrunnar och bad 1883. Årsberattelse. (Trinkquellen und Bader des Kurorts Ronneby 1883. Jahresbericht.) Upsala, 1884. S. 19. (2. dra uppl., 1886.)

Årsberättelse (No. 1) från akademiska sjukhuset i Upsala för 1883. (Jahresbericht des akademischen Krankenhauses in Upsala für 1883.) Upsala, 1884.

Borde ej svenska läkare hålla årliga möten? (Die Bedeutung von jährlichen Konferenzen schwedischer Aerzte.) *Eira Årg.* 8. Göteborg, 1884. S. 795-801.

Om allmänna svenska läkaremöten. (Ueber allgemeine schwedische Aerzteversammlungen.) *Eira Årg*, 9. Göteborg, 1885. 131-136, 261-268.

Några ord om sjukgymnastiken såsom undervisningsämne för läkare och dess förhållande till kliniken (Ueber die Krankengymnastik im ärztlichen Unterricht und über ihre Stellung an den Kliniken.) *Upsala läkaref. förhandl.*, 1884-1885, **20**, 134-145.

Primär cystös lefvercancer hos en 14 års flicka. (Primäres cystöses Leberkarzinom bei einem 14 jährigen Mädchen.) *Upsala läkaref. förhandl.*, 1884-1885, **20**, 240-248.

Ronneby helsobrunnar och bad 1884. Årsberattelse. (Trinkquellen und Bäder des Kurorts Ronneby 1884. Jahresbericht.) Upsala, 1885. S. 19.

Årsberattelse (No. 2) från akademiska sjukhuset i Upsala for år 1884. (Jahresbericht des akademischen Krankenhauses in Upsala für 1884.) Upsala, 1885.

Ileus genom böjning af coecum; laparoenterotomi. (Ileus durch Knickung des Coecum. Laparoenterotomie.) *Upsala läkaref. förhandl.*, 1885-1886, **21**, 130-139.
Deutsch: (Referat.) 1886.

Hemiatrofi af tungan af bulbärt ursprung. (Hemiatrophie der Zunge bulbären Ursprungs.) *Upsala lakaref. förhandl.*, 1885-1886, **21**, 347-359.

Till frågan om benets motoriska barkcentrum. (Zur Frage des motorischen Rindenzentrums des Beines.) *Upsala läkaref. forhandl.*, 1885-1886, **21**, 359-374.

Laryngitis hypoglottica hypertrophica. *Upsala lakaref. forhandl.*, 1885-1886, **21**, 375-380.

Till läran om afasi. (Zur Lehre von der Aphasie.) *Upsala lakaref. forhandl.*, 1885-1886, **21**, 390-393.

Årsberattelse (No. 3) från akademiska sjukhuset i Upsala för år 1885. (Jahresbericht des akademischen Krankenhauses in Upsala für 1885.) Upsala, 1886.

Med Graeve, H. Fall af lefverkrafta med dilatation och hydrops i gallvaggarna. (Fall von Leberkrebs mit Dilatation und Hydrops der Gallenwege.) *Upsala läkaref. forhandl.*, 1886-1887, **22**, 493-496.

Rörande klinisk hemoglobinbestamninge och Hénocques hématoscope. Tillagg till A. Sjölings uppsats i samma ämne. (Ueber klinische Haemoglobinbestimmung und Hénocques Hématoscope.) *Upsala läkaref. förhandl.*, 1886-1887, **22**, 497-502.

Årsberättelse (No. 4.) från akademiska sjukhuset i Upsala för år 1886. (Jahresbericht des akademischen Krankenhauses in Upsala für 1886.) Upsala, 1887.

Kort öfversight af laran om lokalisationen i hjernbarken. (Kurze Uebersicht der Lehre von der Lokalisation in der Gehirnrinde.) *Forhandl. v. allm. svenska läkarem. i Norrköp.*, 1887, 72-96. Auch in *Upsala läkaref. förhandl.*, 1887-1888, **23**, 507-525, 601-612.

Skrifvarekrampens patogenes, belyst genom några sjukdomsfall. (Die Pathogenese

des Schrieberkrampfes.) *Upsala läkaref. förhandl.*, 1887-1888, **23**, 125-132.

Reumatisk tic convulsif med förtjockning af nervi facialis stam. (Rheumatischer Tic convulsif mit Verdickung des Stammes des Nervus facialis.) *Upsala läkaref. forhandl.*, 1887-1888, **23**, 219-223.

Om bestämning af lufthaltiga hålors utsträckning medelst perkussorisk transsonans. (Ueber die Bestimmung der Grösse lufthaltiger Höhlen durch die perkussorische Transonanz.) *Upsala läkaref. forhandl.*, 1887-1888, **23**, 420-424.

Till differentialdiagnosen mellan partiel pneumothorax och kaverna. (Zur Differentialdiagnose zwischen partiellem Pneumothorax und Kaverne.) *Upsala läkaref. förhandl.*, 1887-1888, **23**, 424-427.

Årsberattelse (No. 5) från akademiska sjukhuset i Upsala för år 1887. (Jahresbericht des akademischen Krankenhauses in Upsala für 1887.) Upsala, 1888.

Tuberkulos-Komitéens verksamhet. (Bericht uber die Tatigkeit der Tuberkulose-Kommission.) *Forhandl. v. allm. svenska lakarem. i Helsingborg*, 1888, 21.

Meddelande från komitéen for undersokning om tuberkulos. 1. Nyare åsigter om tuberkulos jemte några ord om komitéens program. (Mitteilungen der Tuberkulose-Kommission. 1. Neuere Ansichten uber die Tuberkulose nebst einer kurzen Erwahnung des Programmes der Kommission.) *Hygica*, 1888, **50**, 51-68. Auch in *Aftry. i tidskr. f. veterinarmed. o. husdjurs. Arg.*, 1888, **7**, 48-57, 90-95.

Om s. k. kontrar verkan af febermedel. (Ueber s. g. kontrare Wirkung der Fiebermittel.) *Upsala lakaref. forhandl.*, 1888-1889, **24**, 263-276.

Med Lennander, K. G. Fall af bronchoaxillar fistel. (Fall von broncho-axillarer Fistel.) *Upsala lakaref. forhandl.*, 1889-1890, **25**, 299-305.

Klinische und anatomische Beiträge zur Pathologie des Gehirns. Teil I. Upsala, 1890. S. 215.

Årsberattelser (No. 6 och 7) från akademiska sjukhuset i Upsala för åren 1888 und 1889. (Jahresberichte des akademischen Krankenhauses in Upsala 1888-1889.) Upsala, 1890.

Med Rosén, L. Kochs medel mot tuberkulos. (Koch's Mittel gegen Tuberkulose.) *Upsala lakaref. förhandl.*, 1890-1891, **26**, 465-486.

Årsberättelse (Na. 8) från akademiska sjukhuset i Upsala för år 1890. (Jahresbericht des akademischen Krankenhauses in Upsala für 1890.) Upsala, 1891.

Klinische und anatomische Beiträge zur Pathologie des Gehirns. Teil II. Upsala, 1892. S. 448.

Årsberättelse (No. 9) från akademiska sjukhuset i Upsala för år 1891. (Jahresbericht des akademischen Krankenhauses in Upsala für 1891.) Upsala, 1892.

On the visual path and center. *Int. Cong. Exper. Psychol.*, London, 1892. Also in *Brain*, 1893, 170-180.

Om hjernforskningens metoder. Föredrag på Upsala läkareförenings högtidsdag den 17. Sept. 1892. (Ueber die Methoden der Gehirnforschung. Festvortrag.) *Upsala läkaref. forhandl.*, 1892-1893, **28**, 1-20.

Huru skola vi rusta oss mot koloran? (Wie sollen wir uns gegen die Cholera rüsten?) *Upsala läkaref. forhandl.*, 1892-1893, **28**, 279-302. Auch in *Nya dagl. alleh.*, 1893, 57-58.

Årsberättelse (No. 10) från akademiska sjukhuset i Upsala för år 1892. (Jahresbericht des akademischen Krankenhauses in Upsala fur 1892.) Upsala, 1893.

Om lungsot och tuberkulos. (Ueber Lungenschwindsucht und Tuberkulose.) *Foreningen heimdals folkskr.*, 1893, No. 3. S. 33.

On arsenical paralysis. *Nova Acta Reg. Soc. Sci. Upsala*, 1893, Ser. 3, **15**, No. 2, 19.

Om synbanans anatomi ur diagnostik synpunkt. Inbjudningsskrift till medicine doktorspromotionen vid Jubelfesten i Upsala 5.-7. Sept. 1893. (Ueber die Anatomie der Sehbahn von diagnostichem Gesichtspunkte. Programm zur M. D. Promotion bei der Jubelfeier in Upsala 5.-7. Sept. 1893.) *Upsala lakaref. förhandl.*, 1893-1894, **29**, 83-126.

Med Hildebrand, A. Ett fall af arsenikforlamning med hematomyeli och polyneurit. (Ein Fall von Arsenlähmung mit Haematomyelie und Polyneuritis.) *Upsala lakaref. forhandl.*, 1893-1894, **29**, 129-148.

Klinische und anatomische Beiträge zur Pathologie des Gehirns. Teil III, Hälfte 1. Upsala, 1894. S. 115.

Koleran, skildrad för lärd och olärd. (Die Cholera, fur gelehrte und ungelehrte dargestellt.) Stockholm, 1894. S. 103.

Sur le centre optique cérébral. *Atti d. XI. Cong. med. int.*, Roma, 1894, **4**, 93.

De la réaction pupillaire hémianopique. *Rev. gén. d'ophtal.*, 1894, **13**, 219-220.
Allemand: Ueber die hemianopische Pupillenreaktion. *Ber. ü. d. XI. int. Kong.*, Rom, 1894.

Sur les centres optiques cérébraux. *Rev. gén. d'ophtal.*, 1894, **13**, 337-352.

Om den tekniska undersökningen af hjernan. (Ueber die technische Untersuchung des Gehirns.) I *Festskrift, tillegnad Dr. F. W. Warfwinge*. 1894. S. 180-188. Auch in *Upsala lakaref. förhandl.*, 1894-1895, **30**, 192-200.

Om njurarnes funktion. (Ueber die Funktion der Nieren.) *Upsala läkaref. förhandl.*, 1894-1895, **30**, 375-388.

Årsberättelser (No. 11 och 12) från akademiska sjukhuset i Upsala för åren 1893

och 1894. (Jahresberichte des akademischen Krankenhauses in Upsala für die Jahre 1893-1894.) Upsala, 1894-1895.

Sätra Brunn och kallvattenkur. (Die Trinkquellen und Badbehandlung des Kurorts Satra.) Upsala, 1895. S. 19.

Sätra Brunn, förr och nu. (Die Trinkquellen des Kurorts Sätra in Vergangenheit und Gengenwart.) Köping, 1895. S. 15.

Klinische und anatomische Beiträge zur Pathologie des Gehirns. Teil III, Halfte 2. Upsala; Leipzig: Koehler, 1896. S. 245.

Behandlung der Erkrankungen des Gehirns und seiner Häute. In Bd. 5, *Handbuch der speziellen Therapie innerer Krankheiten,* von F. Penzolde und R. Stintzing. Jena, 1896. S. 785-976. (Aufl. 3, 1903.) Spanische: Tratamiento de las enfermedades del cerebro. Madrid: 1898.

Akut disseminerad ryggmärkssklerос med nevrit efter difteri hos ett barn. (Akute disseminierte Ruckenmarkssklerose mit Neuritis nach Diphtherie bei einem Kinde.) *Nord. med. arkiv,* 1896, Ny följd **6**, No. 22. S. 24. Auch in *Fortschr. d. Med.,* 1896, No. 14, 529-550.

Fliegenlarven im Darm als Ursache einer chronischen Enteritis membranacea. *Wien. klin. Rundschau,* 1896.

Zur Lumbalpunktion. *Wien. med. Blätter,* 1896, No. 12, 13, 14.

Årsberättelser (No. 13 och 14) från akademiska sjukhuset i Upsala för åren 1895 och 1896. (Jahresberichte des akademischen Krankenhauses in Upsala für die Jahre 1895-1896.) Upsala, 1896-1897.

I Norbergska målet. (Ueber den Norbergschen Kriminalprozess.) *Stockholm Dagblad,* 1897.

Om undervisning i de epidemiska sjukdomarne. (Ueber Unterricht in den epidemischen Krankheiten.) *Förhandl. v. åtto. allm. svenska läkarem. i Stockholm,* 1897, 34-37.

III. Methodika i resultaty experimentalnogo issledovanija. (Teil III. Methodik und Resultate der experimentellen Untersuchungen.) *Psikhologiya,* 1930, **3**, 488-549.

BELSKY (BELSKI), Paul Gregor, Bechterews Reflexologisches Staatsinstitut für Gehirnforschung, Leningrad, U. d. S. S. R.

Geboren Moskau, 1879.

Universitat Moskau, 1900-1904, Dip. I. Ranges.

Rukawischnikows Erziehungsanstalt (für unmündige Verbrecher), Moskau, 1904, 1911-1917, Erzieher-Praktikant, 1904; Direktor, 1911-1917. Kinderabteilung des Stadtarbeitshauses, Moskau, 1904-1911, Vorsteher. Gefängniss-Hauptverwaltung des Justizministeriums, Petrograd, 1917, Inspektor der Besserungsanstalten. Komissariat der Socialfürsorge, Abteilung der Anstalten für defektive Kinder, Petrograd, 1918-1919, Verwalter. Staatliches Institut der Vorschulpflichtigen Bildung, Petrograd, 1918-1922, Professor. Staatliches Pädagogisches Institut für Defektologie, Moskau, 1919-1924, Professor. Staatliche Pädagogisches Institut der Sozialen Erziehung des Normalen und Defektiven Kindes, 1922-1925, Professor. Staatliches Padagogisches Herzens Institut, Leningrad, 1925—, Professor. Bechterews Reflexologisches Staatsinstitut für Gehirnforschung, Leningrad, 1928—, Wissenschaftlicher Mitglied. Heil-Erziehungs Institut fur Schwererziehbare Kinder, Leningrad, 1929—, Leiter des Padologischen Kabinets. *Voprosy Izucheniya i Vospitaniya Lichnosti,* 1926—, Mitglied der Redaktions Kommission.

Staatliches Pädagogisches Institut, Moskau (Mitglied-Korrespondent). Verein der Padologie und der Defektologie.

Prestupnost i deti. (Das Verbrechen und die Kinder.) *Psikhologiya i diet,* 1917, Nr. 1, 41-51; Nr. 2, 38-56.

Tipologia eticzeski-defektiwnik nesowersehennoletnih. (Tipologie der etischdefektiven Unmündigen.) *Voprosy prosveschcheniya,* 1924, 82-175.

Zusammen mit Nikolsky, W. N. Issledowanie emozionalnoi sferj otklonäüschihsä w svoem powedenii ot normj nesowerschennoletnich. (Die Erforschung über die Emotionalspäre der in ihren Verhalten von der Norm abweichenden Unmündigen. Prufungsmethode.) Moskau: Verlag von Justizkommissariat, 1924. S. 90.

Huliganstwo w detskom i ünoscheskomwoszaste. (Hooliganism im kindlichen und jugendlichen Alter.) In *Hooliganism und Verbrechen.* Leningrad: Verlag von Arbeiter-Gerichts, 1927. S. 91-119.

BERITOFF (BERITOW, BERITOV, BERITASCHWILI), Johan S., Georgische Staatsuniversität, Tiflis, Kaukasus, U. d. S. S. R.

Geboren Dorf Wedschini neben Tiflis, 30. Dezember 1884.

Biologische Abteilung der Universität Petersburg, 1906-1910, Kand. biol. Wiss. Bellassung bei der Universität mit Stipendium für Vorbereitung zur d. wissenschaftlichen und professorischen Tätigkeit in der Physiologie, 1910-1915, Mag. d. Zool., vergl. Anat., u. Physiol.

Hohe Frauenschule von Lesgaft zu Petersburg, 1911-1912, Assistent der Physiologie. Psychonevrologisches Institut Petersburg, 1913-1915, Assistent der Physiologie. Universität Odessa, 1916-1919, Assistent und Dozent der Physiologie; Staatsuniversität Tiflis, 1919—, Professor der Physiologie. Staatsuniversität Tiflis, 1925—, Professor der Reflexologie. Pedagogisches Staatsinstitut, Tiflis, 1929—, Professor der Physiologie und Wissenschaft über der Verhalten. Georgisches Institut vom Marxismus und Leninism, Tiflis, 1931—, Vorstand der biologischen Sektion.

[Ueber die reziproke Innervation den Skelettmuskeln bei der lokalen Strychninvergiftung des Rückenmarks. *Trav. Soc. imper. des natur de St. Petersbourg,* 1911, Lief 2, 245-302; 1913, **42**, 267-327]

Ueber die Innervation einiger Muskeln des Oberschenkels im Abwischreflex des Rückenmarksfrosches. *Arch. f. Anat. u. Physiol.,* 1912, 296-316.

[Ueber die gegenseitige Einwirkung der koordinierenden Reflexapparate des Rückenmarks. *Bull. Lab. biol. de Petersbourg,* 1912, **12**, 1-17.]

Ueber die reflektorische Nachwirkung der Skelettmuskeln des Rückenmarksfrosches. *Arch. f. Anat. u. Physiol.,* 1913, 1-22.

Zur Kenntnis der spinalen Koordination der rhythmischenreflexe vom Ortsbewegungstypus. *Arch. f. d. ges. Physiol.,* 1913, **151**, 171-225.

Die Strychninwirkung als Methode zur Erforschung der koordinierenden Tätigkeit des Ruckenmarks. *Folia neuro-biol.,* 1913, **7**, 181-201.
