GENERAL INFORMATION

The Royal Military College of Canada was founded in 1876 at Kingston, Ontario, for the purpose of training cadets in the moral, mental and physical requirements for entry into the commissioned ranks of the active and reserve sea, land and air forces. The moral training includes the development of the essential characteristics of discipline and leadership. Mental training includes

the fundamental military and scientific knowledge required in all branches of the Services and particularly of the Technical Corps, and to provide a balanced and liberal education in Arts and Sciences. In 1948 the Royal Military College and Royal Roads (established 1941), Victoria, B.C., were constituted as Canadian Services Colleges to provide a joint educational and training programme for the three armed forces of Canada. The course at the colleges is of four yrs.' duration, of which the first two yrs. may be taken at either the Royal Military College or Royal Roads. The third and fourth yrs. are taken at the Royal Military College only. Cadets who take the first two yrs. at Royal Roads proceed for the last two yrs. of the General or Engineering Course to the Royal Military College. The course is of two types: (a) General Arts; (b) Engineering. In the final year of the latter a cadet may specialize in one of Civil, Chemical, Mechanical or Electrical Engineering. Graduates may enter the Final Year of Engineering in any one of the four categories in certain Canadian universities. Specialization in Econ., Comm., Hist. and Engl. may be undertaken in the 3rd and 4th yrs. of the General Course.

The Arts, Science and Engineering faculties are fused in a single group through a joint faculty.

ADMISSION REQUIREMENTS. An applicant must be over 16 and under 20 years of age on the first day of Jan. of the year of admission; he must offer provincial Jr. Matricn. and provincial Sr. Matricn., or their acceptable equivalents, in English, Algebra, Geom., Trigonometry, Physics, Chem., and either Hist. or a foreign language; and he must pass qualifying examinations in Maths. and in either English or French. An applicant must be a Canadian citizen or other British subject normally resident in Canada.

MILITARY OBLIGATION. Each cadet must undertake to serve after graduation as a commissioned officer in one of the three armed services, in either the Active or Reserve Forces, whichever he may elect.

DIPLOMA. A cadet who successfully completes his four-yr. course is awarded a Diploma of Graduation. The first graduation under the new 1948 amalgamation will take place only in 1952.

FEES. Tuition, \$100 p.a.: first yr.—\$450 additional, covering uniforms, books, laundry, etc.; each subsequent yr. \$200; annual recreation, \$30; an annual contingency fund of \$75, of which the unexpended portion is refundable.

SUMMER TERM. All cadets are required to attend training centres of the Services of their choice in order to obtain the necessary Service qualifications.

LIBRARY. 30,000 vols., including the General Crerar German Military Library.

LABORATORIES. Chem., Phys., Civil, Electrical, Mech. and Chem. Engin.

RESIDENCE. All cadets are in uniform and live in residence. Three blocks, providing 400 single and double rooms.

SUMMER SERVICE SCHOOLS. R.M.C. facilities are used in the summer months for jr. officers' courses, C.O.T.C., R.U.S. (R.C.A.F.), and other qualifying courses.

PUBLICATIONS. *Admission Requirements* (annual); *The R.M.C. Review* (annual); *The Marker* (bi-weekly).

GENERAL INFORMATION

St. Dunstan's College, opened in 1855, was by Act of the Prince Edward Island Legislature granted a charter in 1917 as a University "with all and every the usual rights, powers, and privileges of such an institution." From 1892 to 1940, by virtue of affiliation with Laval University, the degrees of that institution were conferred on all those who completed the St. Dunstan's courses and successfully passed the examinations given by Laval Univ., but since 1940 the powers of its charter have been exercised in full and independent action. By virtue of its former privilege with Laval Univ., however, students from classical colleges in Quebec may attend St. Dunstan's for the last 2 yrs. of their baccalaureate course, write the Laval examn., and if successful, obtain the Laval degree. English is the official language used in the lectures at St. Dunstan's.

The college is the Diocesan College of the Roman Catholic Diocese of Charlottetown and is co-educational. There are three residences for the male students, each accommodating about eighty students.

The Canadian Officers' Training Corps has a contingent on the campus and offers to selected students an opportunity to qualify for commissions in the Canadian Army. The University Naval Training Division also has a branch of its programme on the campus through which eligible college students may qualify for commissions in the Royal Canadian Navy (Reserve).

The principal athletic activities on the campus are football, hockey, and basket-ball, and ample facilities are provided for these in football fields, an indoor skating rink and a large gymnasium.

The students' union co-ordinates all organized student activities on the campus, such as athletics, dramatics, debating, the publishing of the students' magazine, etc.

FACULTY AND DEAN. *Arts and Sciences*, Rev. J. A. Sullivan, M.A. C.U.A.

GENERAL INFORMATION

Sir George Williams College has developed from the formal educational work of the Montreal Young Men's Christian Association inaugurated in 1873. First classes at the University level were offered in 1929 in the evening division, and day courses in Arts, Science and Commerce were inaugurated in 1932. The members of the first class graduated in 1936 and by 1951 some 1332 degrees

had been presented. Throughout this period the College had been conducted under the terms of the charter of the Montreal Young Men's Christian Association (consolidation June 1888). In March 1948, however, the College was granted a specific charter by the Provincial Legislature, establishing it a body corporate and politic, for the purpose of conducting a College or University in the Province of Quebec. Its historic connexion with the Y.M.C.A. is preserved by by-law.

Similar courses are offered and the same standards are maintained in both day and evening divisions, although evening students are required to attend for a longer period to complete degree requirements.

FACULTIES. The facs. of Arts, Science and Commerce are closely integrated under the general supervision of the Dean of the Coll. To ensure a broad general basis to the educational programme of each faculty, the work of the College as a whole is further organized in four divisions, each supervised by a Sr. Prof. : Natural Science Division—Sr. Professor S. Madras ; Social Science Division—Sr. Professor J. W. Bridges ; Humanities Division—Sr. Professor C. W. Thompson ; Commerce Division—Supervisor, Assoc. Prof. P. T. R. Pugsley.

ENTRANCE REQUIREMENTS. Satisfactory completion of a recognized secondary school programme ; all students must have completed secondary school English, and prospective science students must have completed elementary algebra and plane geometry. Standing must be sufficiently better than mere "pass" to indicate ability for college work. Occasionally, mature students who have not completed secondary school are admitted conditionally, provided that various tests administered by the Coll. indicate that there is likelihood of their being able to follow college studies satisfactorily. *See also* Appendix I.

DEGREES AND DEGREE COURSES. 4 yrs., B.A., B.Sc., B.Com. (longer in the evening courses). No higher degrees are awarded. Attendance at lectures is required for all programmes.

DIPLOMAS. 2 yrs., Assoc. Arts, Assoc. Sc., Assoc. Com. (longer in the evening division). 4-yr. course for Dip. in Association Sc. for professional Y.M.C.A. Secretaryship.

FEES. Annually for tuition—Day Division : \$200 ; plus \$15 lab. fee for each course involving lab. work, \$15 student society fee. Evening Division : \$40 for each 8-month subject, \$20 for each 4-month subject, plus \$10 lab. fee for each course involving lab. work, and \$5 student society fee.

USUAL LANGUAGE OF INSTRUCTION. All courses, except language courses, are offered in the English language.

PARTIAL STUDENTS. Non-matriculated students are admitted to evening courses for partial programmes, provided that their background is such that they may follow the courses desired.

VACATION COURSE. A summer session is offered each year in the evening division only, from June 1 to the middle of Sept.

PLACEMENT SERVICE. Placement service for students and graduates offered by the Student Guidance Office in conjunction with National Employment Service.

LIBRARY. 24,578 vols. Open shelf system.

LABORATORIES. Biol., Chem., Electricity and Physics.

RESIDENCE. Men students may reside in the Y.M.C.A. dormitories which occupy space in one of the buildings used by the Coll.

MILITARY TRAINING. College Contingents prepare students for commissions in Canadian Army (Reserve), Canadian Navy (Reserve) and R.C.A.F. Radar and Communications (Reserve).

STUDENT ATHLETIC FACILITIES. Gymnasium and swimming pool.

PUBLICATIONS. *Calendar* (July); *The Georgian* (students' weekly newspaper); *The Yearbook* (graduating class annual); *The Post-Grad* (quarterly of Alumni Assoc.); *Georgian Faculty Review* (pub. quarterly by Faculty).

ROYAL COLLEGE OF DENTAL SURGEONS OF ONTARIO, 234 St. George St., Toronto. (Telephone : KI 0134.)

GENERAL INFORMATION

An appropriation of 500,000 acres of land for the support of 4 grammar schools and a Univ. in Upper Canada was made in 1798, and a Royal Charter was granted in 1827 for a "King's College" with the privileges of a Univ., but it was not until 1843 that the College was inaugurated. For early history, see *Yearbook*, 1929.

LIBRARY, 508,736 bound volumes and 158,986 pamphlets. The Library has recently acquired the library of the Royal Canadian Inst., and is consequently especially strong on the scientific side. It has also special collections of French-Canadian lit., of Italian and Spanish *belles-lettres*, and of 18th-century English lit. Among its MS. collections are the papers of Col. and Mrs. J. G. Simcoe, presented to the Library by Mr. R. S. McLaughlin ; and the papers of the Hon. E. Blake, who was Chancellor of the Univ. from 1881 to 1900. The papers of W. L. Mackenzie and Charles Lindsay, and those of Sir Edmund Walker, have been placed in the Library for safe keeping, and may be used by permission of the Librarian.

UNIVERSITY MATRICULATION BOARD. A Board created by the Univs. of Toronto, Queen's, McMaster, W. Ont. and Ottawa conducts and controls their annual Matricn. examns. The Dept. of Educn. of Ontario provides the machinery for holding these examns., and the Registrar of the Dept. is Secy. of the Board. A report signed by all members of the staff of the school concerned as to the standing of their candidates is considered in determining the results of the examn.

For admission to the University the requirements are: (a) the Secondary School Graduation Diploma in the General Course covering English, History and four optional subjects; and (b) Grade XIII certificate covering English and four optional subjects. The Secondary School Graduation Diploma is usually taken at the end of a 4-yr. Secondary School course and the Grade XIII certificate at the end of the fifth year of this course. The optional subjects of Grade XIII vary according to the course or Faculty which the student desires to enter. In certain cases foreign students may substitute their native language for a language other than English.

Students from the British Isles may apply for admission to Applied Sci.

on submitting the Oxford and Cambridge Joint Board School Certificate, or equivalent, indicating "Credit" or better standing in English Lang. and Lit., "Advanced" or "Additional" Maths., Physics, Chem. (not General Sci.), and a foreign lang.

Minimum age for admission to the Faculty of Arts, 16; Med., 17; Appl. Sci., 17; House. Sci., 16; Educn., 19; Forestry, 17; Architecture, 17; Dentistry, 17.

See also Appendix I.

DEGREE COURSES. 1 yr. after B.A.—B.L.S., B.S.W.; 2 yrs.—Phm.B.; 3 yrs.—Pass B.A., Pass B.H.Sc., Mus.Bac., LL.B., B.P.H.E.; 4 yrs.—Honour B.A., B.Com., B.A.Sc., B.Sc. (Med.), B.Sc. (Dent.), Honour B.H.Sc., B.Sc.F., B.Sc.Phm., B.S.A.; 5 yrs.—B.Arch., D.D.S., B.Sc.N. and D.V.M.; 6 yrs.—M.D.

The B.Sc. (Med.) may be conferred for special work or investigation as a graduate degree and in certain circumstances for an extra yr.'s work as an undergraduate. Similar regulations govern the B.Sc. (Dent.).

A student who has already graduated in the Faculty of Arts, Med. or Sci. of a Canadian or other recognized Univ. may complete the course in Dentistry in 4 yrs. instead of 5, provided he has covered certain prescribed subjects during his undergrad. course; and persons holding qualifications obtained in Great Britain or Ireland registrable by the Dental Board of the United Kingdom or the B.D.S. of approved Australian Univs. may be admitted to the Fac. of Dentistry without further examn., and to the final D.D.S. examns. on completing one full session in the Fac. of Dentistry.

Higher Degrees. M.A., obtainable by approved course of graduate study extending over 2 yrs. or in the case of a B.A. in an Honours course, 1 yr.; Ph.D., open to a graduate in Arts or Science of this or another recognized Univ. by pursuing in the Univ. of Toronto an advanced course of study for 3 yrs., exemption from 1 of which may be given in consideration of the candidate having already pursued such a course for 1 yr. A thesis embodying the result of an original investigation is required.

The M.Com., obtainable by approved course of graduate study extending over 1 to 2 yrs.

M.S. obtainable after 3-yr. course open only to graduates in Med. of a recognized Univ. The D.P.H. course (for Med. graduates) covers 11 mos.—1 winter and 1 summer session; the Diploma courses in Radiology and in Psychiatry (for Med. graduates) each cover 12 mos.

The M.A.Sc. may be obtained by a B.A.Sc. graduate of this Univ. or one who holds an equivalent degree from some other Univ. who pursues a course of advanced study in the Faculty for 1 yr., presents a satisfactory thesis and passes such examns. as may be prescribed.

The M.Arch. may be obtained by one who holds the degree of B.Arch. or B.A.Sc., or an equivalent degree, under the same conditions as the M.A.Sc. degree.

The professional degrees, C.E., M.E., Mech.E., E.E., Chem.E., Met.E., are open to candidates who, after obtaining the B.A.Sc. or diploma of the Faculty, spend 3 yrs. in the actual practice of one of these branches of engineering, present a satisfactory thesis and pass examns.

The M.Sc.F. is open to candidates who have obtained the B.Sc.F. or equivalent degree. The course normally requires 2 yrs. if by examn. and 1 yr. if by thesis.

The B.Pæd. is open to candidates holding an approved degree in Arts, Sci., Agric., Engin. or Comm., and a certif. as teacher valid in one of the Provinces

of Canada and issued after a regular course in an approved training school or the equivalent of such certifi. and course of training. They must attend the Ontario Coll. of Education during two regular Coll. sessions or three summer sessions, with certain exceptions.

The D.Pæd. is open to graduates in Arts, Science, Agric., Engin. or Comm., of any British Univ. who hold the B.Pæd. degree and a teacher's certifi. valid in one of the Provinces of Canada and pass prescribed examns. A thesis is also required, and the candidate must have attended one regular session or a summer course.

M.L.S., 1-yr. course open to holders of B.L.S.

M.S.W. (Master of Social Work) is open to grads. who have obtained the B.S.W. degree or its equivalent.

The M.S.A. is open to grads. who have obtained the B.S.A. degree or its equivalent.

The M.Sc. (Dent.) is open to grads. of the Fac. of Dentistry of Univ. of Toronto or those with equivalent standing. It involves at least 2 yrs.' work.

The M.V.Sc. or the D.V.Sc. is open to grads. who have obtained the B.V.Sc. or the D.V.M. degree or its equivalent.

The Mus.Doc. is open to a Mus.Bac. of this or another Univ. of 1 yr.'s standing.

The LL.M. may be obtained by an LL.B. graduate of the Univ. or an approved Univ., of at least 1 yr.'s standing, who passes the prescribed examns. and presents a satisfactory thesis. The D.Jur. is open to candidates who have obtained the LL.M. or its equivalent. It requires 1 yr.'s attendance, examn. and a thesis.

The Univ. publishes annually an announcement of *Graduate Courses*. All communications on the subject must be addressed to the School of Graduate Studies.

TRAINING OF TEACHERS. Courses are provided for Teachers' certificates of several grades, including the Household Science and the Physical Training Teachers'. The Educn. Dept. of Ontario grants certificates on the completion of the prescribed courses, entitling the holders to teach in the High Schools. All teachers for High Schools and Collegiate Institutes must spend at least 1 yr. in the College of Education.

FEES. Students proceeding to the B.A. and enrolled in one of the Colls. of the Univ. attend lectures of Univ. Profs. and Lectrs. in the Fac. of Arts without payment of fees except for library, lab. supplies, examns. and certain other incidentals. The Coll. NEW BUILDINGS. Governmental grants, a grant from the City of Toronto of \$2,000,000, gifts and pledges from corporate and individual donors, and accumulated funds earmarked for specific bldg. projects, total an amount in excess of \$16,000,000. This has provided, and will provide, the funds for the Univ.'s bldg. programme, inaugurated in 1947. The Wallberg Memorial Bldg. (Chem. Eng. and Chem.), the Burton Wing of the McLennan Physics Lab., the extension to the Mechanical Engin. Bldg. and the War Memorial to those who fell in World War II have now been completed under this programme. An addition to the Ont. Coll. of Educn. bldg. and the Archives and Sigmund Samuel Canadiana Bldg. have been completed. A new central steam plant is under construction.

GENERAL INFORMATION

Incorporated by an Act of the Provincial Legislature in 1878 as the "Western University of London, Ontario," in connexion with the Church of England, the Univ. has become, under the provisions of amending Acts of 1908 and

1923, absolutely undenominational in its government, which is under provincial and municipal control. It consists of 4 Instns., the Coll. of Arts and Sciences (University College), the Medical School, the School of Nursing and the School of Business Administration.

FACULTIES AND SCHOOLS. Arts and Science (Dean—Prof. H. R. Kingston), Medicine (Dean—J. B. Collip), Nursing (Dean—Prof. Edith M. McDowell), Business Administration (Dean—Lloyd W. Sipherd).

ADMISSION. See Appendix I.

DEGREE COURSES. 4 or 5 yrs. (from Jr. Matricn.), B.A. or B.Sc. ; 5 yrs., B.Sc. (in Nursing) ; 1 or 2 yrs. of graduate work, LL.B., M.A., M.Sc. ; 3 yrs. of graduate work, Ph.D. ; 6 yrs., M.D. Attendance on part of the classes (other than Med. and Sci.) may be dispensed with by the Senate, but all students must have attended lectures in the Univ. for at least 2 yrs. before they can graduate.

DIPLOMAS AND CERTIFICATES. Diploma in Business Administration ; Diploma in Public Administration ; Diploma of Public Health (D.P.H.) ; Diploma in Music (Pedagogy), 2-yr. course in Music Teachers' Coll. ; Diploma in Home Economics, 2-yr. course ; Certificate of Public Health Nurse (C.P.H.N.) ; Certificate of Instructor in Nursing (C.I.N.) ; courses each 1 yr., for graduates in respective fields.

FEES. Annual : Arts, \$280-\$320 ; Medicine, \$515 ; Nursing, \$320.

The **LIBRARIES** contain c. 200,000 vols. and several thousand pamphlets. The Barnett collection contains many rarities dealing *inter alia* with Canadian and American history. The Shakespeariana number c. 1500 vols. and several thousand pamphlets.

CORRESPONDENCE AND EXTENSION WORK in winter sessions in some General Course subjects, offered mainly for teachers and other adult students, either as credit courses towards degrees or as non-credit cultural courses. No degree can be earned entirely in the Extension and Correspondence Division.

The **SUMMER SCHOOL** has approx. 600 students taking courses for degrees, some in London on the main campus and some at the English-French Summer School at Trois-Pistoles, Quebec.

LABORATORY. The J. B. Collip Res. Lab. 8 **TEACHING HOSPITALS** in London.

STUDENT RESIDENCES. Spencer Hall (for women), Brescia Hall (Ursuline Coll. women), Huron Coll. (Huron Coll. and Univ. Coll. men), fraternity houses and sorority houses for men and women above the freshman level.

The **ALUMNI ASSOCIATION** assumes some responsibility for the placement of graduates. The Counsellor to men students, however, supervises a placement service for summer and for permanent employment.

The **DEPT. OF MILITARY STUDIES** offers training in the University Naval Training Division, or the R.C.A.F., University Reserve Squadron, or the Canadian Officers' Training Corps.

THE UNIVERSITIES OF AUSTRALIA

GENERAL DESCRIPTION

[Revised in 1931 and 1936 by Professor J. T. Wilson, M.A., LL.D., M.B., Ch.M., F.R.S., and further revised in 1939, 1947, 1949, 1950, 1951 and 1952 by the Australian Vice-Chancellors' Committee.]

EACH State of the Commonwealth of Australia possesses a University of the conventional type in its capital city. In addition, there are the Australian National University located at Canberra and the N.S.W. University of Technology in Sydney. There are also University Colleges at Armidale, N.S.W., Canberra, A.C.T., and Newcastle, N.S.W. The Colleges at Armidale and Newcastle are branches of the University of Sydney and the N.S.W. University of Technology respectively, while that at Canberra is associated with the University of Melbourne, which acts as the examining body. Generally speaking, the Australian Universities are widely separated, those at Brisbane and Perth, for example, being effectively not less than 3000 miles apart ; while visits to even the nearest sister University often involve a long journey.

Nevertheless these Universities, apart from the Australian National University and the New South Wales University of Technology, of which more will be said later, form a relatively homogeneous group owing to their general similarity of origin and constitution and to their relationship to the communities which they serve. All of them owe their establishment to Acts of the State Legislatures carried through in response to popular demands. They are not, however, "State Universities" in the American sense, but, like the British Universities generally, are, by statute and Royal Charter, self-governing academic corporations.

Underlying this general uniformity of type, there are not a few individual differences and variations. These may be attributed to several factors. Differences in dates of foundation (1850-1949) necessarily determine more or less the stage and degree of academic development actually reached ; also, the academic ideas current at different foundation periods have undoubtedly impressed themselves on the academic structure and development of both older and younger Universities. Further, another obviously important differentiating factor has been that of inequality of material resources available, both from private endowment and from State subsidy—the latter being naturally dependent in large measure on the extent of the population of the State concerned.

An Act passed in 1946 by the Parliament of the Commonwealth made provision for the establishment of the Australian National University at Canberra, particularly to provide facilities for research and postgraduate studies. The Act provides specifically for the establishment within the University of the John Curtin School of Medical

Research, a Research School of Physical Sciences, a Research School of Social Sciences and a Research School of Pacific Studies. Considerable progress has now been made in the development of this organization though some delay has been occasioned by present building difficulties. With the exception of the Departments of Experimental Pathology and Medical Chemistry, which are located in London, all the Departments of the University are at work in Canberra.

The year 1949 marked the inauguration of the N.S.W. University of Technology, which aims to provide for training and research in technological fields and to aid by research the application of science to industry.

RESIDENTIAL COLLEGES. The founders of the first Australian Universities would appear to have been influenced, to some considerable extent, by the conception of a University which is embodied in the ancient residential foundations of Oxford and Cambridge. Doubtless this was due in part to the fact that they were contemplating Universities which were to serve the large, and comparatively thinly populated, areas of the several Australian Colonies (long before the date of their federation as States of a Commonwealth). In these early Australian Universities, the general system of University education was on lines similar to those of the modern English Universities, and conformed to the official policy of secular education; but provision was made at the outset for residential colleges, which were—as in Oxford and Cambridge—conceived as religious foundations. The circumstances of time and place made it inevitable that such religious foundations should be entrusted to the Churches of the leading Christian denominations, namely: Church of England, Presbyterian, Methodist and Roman Catholic.

In the case of the first two Universities, those of Sydney (1850) and of Melbourne (1853), substantial areas were set apart, within the lands reserved for University purposes, and offered as sites to the four Churches named, for the founding of residential colleges. In due course the following colleges were so founded, with governing bodies appointed by the several Churches: Sydney—St. Paul's (1854), St. John's (1857), St. Andrew's (1867), Wesley (1910); Melbourne—Trinity (1872), Ormond (1879), Queen's (1888), Newman (1916). Not long after the founding of colleges for women at Oxford and Cambridge, provision for residence of women students was made as follows: Sydney—the Women's College (1892), not a Church foundation, Sancta Sophia (1929), originating (in 1925) as a hall of residence associated with St. John's College; Melbourne—University Women's College (1937), again not a Church foundation, preceded by halls of residence, namely, Janet Clarke Hall (1886) and St. Mary's Hall (1916), associated respectively with Trinity and Newman Colleges.

What a "College"—"within the University of Sydney" or "of and within the University of Melbourne" (to quote the official descriptions)—should connote, in the circumstances of these Universities and Colleges, was a new and very difficult problem. Because of a variety of exceptional factors, the furthest advance towards a solution of this

problem has been made in the Colleges of the University of Melbourne—with a well-established College tutorial system, a large membership of non-resident College students, a liberal system of resident scholarships and non-resident exhibitions, and a considerable measure of organic relationship to the Faculties, and to the governing body, of the University. In the University of Sydney, where circumstances were, at the earlier stages, not so favourable for such a development, the College system has a place of parallel importance—with certain characteristic differences.

In the Universities of all the other States, there are Colleges at different stages of development. In the University of Queensland (founded 1910), where provisions were laid down by statute for residence of all students (including recognition of the residence of a student in his own home), the following Colleges were founded: Emmanuel (1912), St. John's (1912), King's (1912), the Women's College (1914—not a Church foundation), St. Leo's (1917), Duchesne (1936). And, on the new site for this University, at St. Lucia, land is being set apart for these Colleges. In the University of Adelaide, St. Mark's College (1925) is an Anglican foundation; St. Ann's College, an undenominational college for women, was affiliated with the University in 1939, and opened for the residence of students in 1947; Aquinas College, a college for men, under the auspices of the Roman Catholic Church, was opened in 1950; and Lincoln College, a College for men, under the aegis of the Methodist Church, was opened in 1952. St. George's (1931) in the University of Western Australia, and Christ College (1933) in the University of Tasmania, are Anglican foundations. Jane Franklin Hall, a hall of residence for women, founded in 1950 by the Council of Churches, was affiliated to the University of Tasmania in 1952. Attached to the University of Western Australia is also a University hostel, the Women's section of which is known as the Women's College and will form the nucleus of a permanent institution. Approval has been given by the Senate for the establishment of Newman College, under the auspices of the Roman Catholic Church.

In order to understand the place which the College system occupies in the Australian Universities, it should be remembered that, while membership of a College implies membership of the University to which the College belongs, membership of the University does not necessarily imply membership of any of its Colleges. College tutorials are, therefore, supplementary to the teaching which the University provides for all its students (whether members of a College or not) and, in consequence, vary considerably from University to University. There is also considerable variation in the scale of College fees.

The Canberra University College provides a limited amount of accommodation for students at "Gungahlin," a hall of residence for men. Unlike the residential colleges familiar in Australian Universities, "Gungahlin" is not an affiliated institution, but an integral part of the College, governed by the Council. Tutorial assistance is not provided for residents.

The New England University College also provides accommodation for most of its students, who are drawn chiefly from the northern part of N.S.W. Unless their homes are in Armidale, students attending

the College must take up residence. Owing to the high proportion of students in residence and to its location, New England University College has developed a strong corporate spirit.

University House at the Australian National University will provide accommodation facilities for graduate students and also up-to-date club facilities for members of the University. Residence in University House will be compulsory for all single students and for married students not accompanied by their wives.

The Colleges in all the Universities are open to all students of good standing, without distinction of religious belief.

THE NEW SOUTH WALES UNIVERSITY OF TECHNOLOGY. An Act to incorporate the N.S.W. University of Technology was passed by the New South Wales Parliament in April 1949. The objects of the University are to provide facilities for higher specialized training in the various branches of technology and science in their application to industry and commerce and to aid by research the development and application of science to industry. With these objects in view courses provide for extensive practical experience in industry under the supervision of the University. However, in order that graduates will not be handicapped by too narrow a specialization, there are in all faculties courses in language, literature, human relations and contemporary civilization.

CONSTITUTION OF UNIVERSITIES. A. Governing bodies. In their statutory constitution the governing bodies of all the Australian Universities (except the New South Wales University of Technology, *see* below) present a generally similar composite character, whilst differing in the proportions of the component elements. Their membership varies in number from 18 to 31. In every case there is a substantial proportion of representatives elected by the general body of graduates, varying from one-third to more than one-half of the total membership, but only in Adelaide does it form the preponderant element. In every University there is now a more or less direct representation of the State on the governing body, either by nomination by the Governor-in-Council or by election by the Houses of Parliament, and in two cases by *ex officio* representation of the State Department of Education. In the more recently founded Universities the representation of the State Government is strong; in one instance it is equal to the academic, and in another it is even slightly preponderant.

The academic representative element invariably includes representatives of the teaching staff. In Sydney, Melbourne, New South Wales University of Technology, Tasmania and Western Australia, they are represented by independent statutory right. Elsewhere they are elected as part of the general representation of the academic body by the graduates. Their number is usually limited to three.

The Melbourne University Act of 1923 introduced certain novel provisions, namely, that the Government nominees shall include representatives not only of Parliament but of manufacturing, commercial, agricultural and industrial interests, as well as a representative of the

technical schools; it also provided that two Heads of Colleges and two elected representatives of the undergraduate body shall have seats on the governing body.

In Sydney there is one elected representative of the undergraduate body who has a seat on the governing body.

In Western Australia the Senate has granted to the representative of the Guild of Undergraduates and to the Warden of Convocation the right to attend Senate meetings and to speak in the Senate, without, however, the right to vote as a member of that body.

The Australian National University Act, 1946, provides for the election as members of Council of three representatives of the teaching and professorial staff and for two representatives of the students.

The Tasmania University Act, 1951, provides that the Chairman of the Professorial Board shall be an *ex officio* member; two other members of the teaching staff are elected by that body. The Council may recommend two persons for appointment by the Governor.

The Council of the New South Wales University of Technology differs somewhat from the governing bodies of the other Universities as there is only one representative elected by graduates of the University. The Council is representative of Parliament, industry and commerce, trade unions, technical education, professional bodies, the University of Sydney, and of the University's teaching staff, graduates and undergraduates.

The governing body in the Australian Universities is designated either the "Senate" (Syd., Queens., W. Aust.) or "Council" (Melb., Adel., Tas., N.S.W. Univ. of Technol., Australian National Univ. and the Canberra Univ. Coll.).

B. Graduate academic body. As in the British Universities generally, there is in each of the Australian Universities, with the exception of the New South Wales University of Technology, another statutory academic body, consisting in the main, though not in all cases exclusively, of the general body of graduates (usually of at least three years' standing). In Queensland the Governor-in-Council may appoint as members of this body one representative of "any commercial, industrial, scientific, professional, or educational society, institution, or association within Queensland."

In those Universities in which the governing body is entitled "Senate" the graduate body is called either Convocation or Council. Where the governing body is styled "Council" the graduate body is usually called Senate, but in Melbourne (since 1923) and at the Australian National University it is known as Convocation.

Whilst the main effective function of this body is its electoral choice of its own representatives on the governing body, it has also, in several Universities, powers (often exercised through a Standing Committee) of deliberation, approval and confirmation in respect of matters submitted to it and in some instances of suggestion, but in no case of initiation of University legislation.

C. Other administrative bodies. The general routine of studies and discipline is usually controlled by a "Professorial Board," whilst the special curricula of studies are the immediate concern of the Faculties

and special Boards of Studies. Matters of discipline are in one or two instances dealt with by a special Proctorial Board or Board of Discipline.

ADMISSION. See Appendix I.

THE ACADEMIC YEAR. Undergraduate status is ordinarily defined in terms of academic years of study, *e.g.* "first year," "fifth year," etc.

The academic year begins in March and ends in Nov. or Dec. It is subdivided into Terms, usually three, which may, or may not, include special examination periods. The Universities of Melbourne and Tasmania and the Canberra University College have each four Terms, but the fourth Term in these cases is devoted to examinations.

The New South Wales University of Technology provides a number of courses which operate for two terms only each year—March to Sept. During the remaining five months of the year, students gain practical experience in industry under the supervision of the University.

Although the inclusive dates of the terminal periods show some discrepancy in the different Universities, arrangements have been made to secure the coincidence of a substantial part of the inter-term vacations.

PERIODS OF STUDY. The University requires not less than 3 yrs.' study for a B.A. or B.Sc.—in most cases, 4 yrs. if taken with Honours. The curriculum for the first degree in Medicine covers 6 yrs. The time needed to graduate in Law is usually 4 yrs., but some Universities allow graduates in Arts to shorten the prescribed period. Since regulations do not always require each successive "year" to be taken as a whole, but allow credit to be given for subjects taken separately, many students, especially those able to give only part-time to their studies, spread their courses over periods longer than the normal. For information regarding other degrees and periods of study therefor, *see under* the several Universities.

FEES AND COST OF LIVING. The cost of living varies a good deal in different parts of Australia. A student will probably not notice much difference between Sydney and Melbourne in this respect. But anywhere he will find that £450 a year gives him quite sufficient means, for the climate is benign and good food is plentiful. The style of living everywhere is unostentatious. Board and lodging should not cost more than £4 : 10s. a week. Meals at the cost of 3s. to 5s. can generally be obtained at the University by members of "Unions" and others. Sydney University Union has a Refectory seating 450, and one-half of it is open to all members of the University and their guests. Adelaide University has a Refectory seating 400, and Melbourne has a Union building containing dining-rooms seating upwards of 700. Western Australia has at present accommodation in its dining-rooms for about 200. A developed Union at an Australian University also provides all the comforts of a non-residential Club for a membership fee ranging from £1 to £3 : 13 : 6 a year. In Adelaide there is a compulsory fee of 5 gs. a year, which covers membership of the Union, Sports Association and the Health Service. The Union House at the University of Mel-

bourne has many social and cultural amenities, including a theatre, art gallery, and private entertainment rooms. Rowing, football, cricket and other games may be had in the Sports Clubs on correspondingly easy terms, and numerous Intervarsity contests are held in vacations under the auspices of the Australian Universities' Sports Union.

Residence at a College is optional, except at New England University College. College fees, which are entirely separate from University fees, are on an inclusive basis for residence and tutorial assistance, and range from £65 to £170 per annum. Thus Wesley College, Sydney, charges £56 a term for resident students; Ormond, Melbourne, from 135 to 145 gs. a year for residence during terms, according to the course being taken. St. John's, Queensland, has fees of £21 per term, and the rates at the other Queensland Colleges are practically the same. In Adelaide the fees at St. Mark's and Lincoln College are £180, while fees at Aquinas College are £145 and at St. Ann's College, £150. The University of Western Australia has, since the war, a hostel with accommodation for 140 at a weekly charge of £3 : 15s. At the New England University College full board and lodging is provided for £88 for the academic year (27 weeks). Special arrangements can always be made for residence during vacations, an additional charge then being made. Many men live in College on a total income of not much more than £350 a year. There are few rich students and no tradition of expensive living among College men, no charming but costly ancient customs. Many of the Colleges have liberal endowments for Scholarships and Bursaries.

For University fees, *see under* the several Universities below.

CURRICULA AND COURSES OF UNIVERSITY STUDIES. In general it may be said that the character and range of studies in the Australian Universities correspond fairly well with those of British Universities of comparable size and organization. There is, however, one notable exception: in accordance with the exclusively secular character of the Universities of Australia a Faculty of Theology is lacking in all of them, and until 1936 no degrees in Divinity were obtainable in any Australian University, although under special Acts of Parliament they may be given by other institutions, such as the Melbourne College of Divinity. In the case of the University of Sydney amending legislation passed in 1936 removed the exception of degrees in Divinity and Theology and the University has now courses leading to the degree of Bachelor of Divinity and may confer the degree of Doctor of Divinity. More or less associated with this situation is the paucity of courses of study in Semitic languages or literature, a Professorship for which, however, exists in Melbourne. There is a chair of Oriental Studies (at present vacant) at Sydney. At Sydney Hebrew is available in the regular curriculum and Russian is provided through the Extension Board. (A certain amount of teaching in Semitic languages is provided in Theological schools maintained by some of the religious denominations.) There is an Institute of Modern Languages at the Queensland University which provides courses up to Senior (School Leaving) Examination standard. The courses available in 1936 were Chinese, Dutch,

French, German, Hebrew and Italian. For the benefit of theological students Biblical Literature became an optional subject of the Faculty of Arts from the beginning of 1938. The University of Melbourne includes Dutch, Hebrew, Russian and Arabic in its regular curriculum. A School of Oriental Studies has been established at Canberra University College and a Professor of Oriental Studies is to be appointed to act as head of the School. At the outset Chinese and Japanese will be taught, and the teaching of Russian will be placed within the School.

Subdivision of University studies into groups, under Faculties and Boards of Studies, has been carried further than is usually the case in British Universities. There has thus been a considerable accession of new Faculties beyond those traditionally recognized. The general principle has been largely, though not consistently, adopted that any definite and distinct curriculum, leading up to the award of a distinctive degree or degrees, warrants the creation of a separate and distinct Faculty as a Board for the regulation of the studies and examinations in such a curriculum.

Concurrently with this development there has been a marked tendency to the specialization and multiplication of distinctive degrees, so that in some cases we find that even within the limits of a single Faculty several distinctive degrees are obtainable along more or less differentiated lines of study. A conspicuous instance of this is seen in the Faculty of Engineering in Melbourne, in which no fewer than eleven different degrees may be awarded as Bachelors and Masters of different branches of Engineering—Civil, Mechanical, Electrical, Mining and Metallurgical Master of Engineering Science—besides a Doctorate of Engineering. As many as thirteen different Faculties are found among the various Universities, with a maximum number in Melbourne of twelve. In Sydney there are ten Faculties and in Adelaide nine. The establishment of Faculties of Education and Architecture in 1949 brought the number in Queensland up to eleven.

Each University possesses Faculties of Arts, Science, Law and Engineering, except in the case of the New South Wales University of Technology, which at its present stage of development has Faculties of Engineering, Applied Science, and Architecture only, and the Australian National University, which is in a special position. All except Tasmania have Schools or Faculties of Agriculture. Sydney and Queensland have Schools of Veterinary Science organized as separate Faculties. The course in Veterinary Science is at present suspended in the University of Melbourne, and students desiring to qualify for a degree must proceed to Sydney after the completion of their first year. Western Australia teaches Veterinary Science as part of the Agricultural course, but students desiring to obtain a degree in Veterinary Science must proceed to Sydney after completing a special first year in the Faculty of Science. In N.S.W. the law requires such qualifications as practically involve the Univ. curriculum in Veterinary Science.

The subject of Economics is represented by separate Professorships in each University and at the Canberra University College. Sydney and Adelaide each have a separate Faculty of Economics, but, as neither University has a Faculty of Commerce, all the various branches

of both Economic and Commercial Studies are included in the Faculty of Economics. In Melbourne there is a Faculty of Economics and Commerce, and in Queensland and Tasmania there are Faculties of Commerce. In Melbourne and Queensland there is a degree of Bachelor of Commerce, while the specialized degree in Adelaide and Sydney is Bachelor of Economics. The Faculty of Commerce in Tasmania offers both degrees, Bachelor of Commerce and Bachelor of Economics. In all the Universities (including Western Australia), however, Economics is ordinarily included also as a subject which may be taken for an Arts degree.

In Sydney, Melbourne, Queensland and the N.S.W. University of Technology there are fully organized Faculties of Architecture, with Chairs in the subject. At Adelaide there is a special course in Architecture within the Faculty of Engineering leading to the degree of Bachelor of Engineering. In Melbourne and Queensland courses within the Faculty of Engineering lead to degrees in Surveying.

Melbourne and Adelaide have each a Faculty of Music with a full Professorship and a Conservatorium. In Sydney there is a Conservatorium entirely independent of the University which has, however, recently established a Chair of Music in the Faculty of Arts. In Tasmania music is not taught, but if studied privately credit may be given for one of the subjects of the Arts degree. In Queensland, Music may be taken as a subject of the first year of the B.A. course.

Melbourne and Queensland have Faculties of Education granting University degrees of Bachelor and Master of Education, previous qualification for another degree being a condition of entrance to the Education course. In each case, the Faculty contains several representatives of the State Department of Education. Tasmania has a Faculty of Education, having taken over the training of teachers from the State Education Department in 1948. A Diploma of Education (available to graduates only) and a Certificate for non-graduates are offered. Western Australia grants a first degree in Education, and recently established a Postgraduate Teachers' Certificate course open to graduates of Western Australia or other approved Universities. In the other Universities the subject of Education comes under the Faculty of Arts and enters into the composition of such alternative curricula for the Arts degrees as are specially adapted to the requirements of the professional training of teachers. Sydney now grants a degree of Master of Education which may be awarded to graduates in other faculties of not less than three years' standing who present a satisfactory thesis and pass an examination dealing with advanced work in education. The Professors of Education are usually, but not always, associated with the State Training Colleges. Special Diplomas in Education are obtainable in the Universities of Sydney, Adelaide and Queensland by University graduates.

Courses in Physical Education controlled by a Board of Studies and leading to a Diploma are now available in each of the larger Universities except Sydney. A course in Physical Education is now given in Western Australia as an optional part of the Bachelor of Education degree course.

Several of the Universities provide courses in Social Studies leading to a Diploma.

Canberra University College conducts courses in Commerce and Economics, Arts and Law ; students comply with entrance conditions of the University of Melbourne, take the examinations and obtain the Degrees of that University. The College has Chairs of Economic History, Economics, English, History, Oriental Languages and Political Science, and a number of other departments, each in charge of senior lecturers. In addition, a School of Diplomatic Studies is conducted, and the course in this School is intended for the training of persons who have been appointed as cadets in the Department of External Affairs. A graduate of an approved University, who is not a cadet, may be admitted to the course after consultation with the Department of External Affairs. Information regarding the School of Oriental Languages is given on page 892.

The New England University College conducts courses in the main Arts and Science Departments, in many cases to Honours standard. First-year courses for Sydney degrees in Medicine, Veterinary Science, Agriculture and Forestry are available, while students may do the first-year Pharmacy course. Graduate students may take the course for the Diploma in Education.

The Universities of Melbourne (1946), Sydney (1948), Western Australia (1948), Adelaide (1949) and Queensland (1950), have recently established the degree of Doctor of Philosophy, for which graduates of certain standing are eligible upon the successful completion of a full-time course, generally of two years' advanced study and research in the University. In the case of the University of Sydney, a candidate for the Ph.D. degree must complete a full-time course of three years if he holds an Honours Bachelor's Degree ; two years if he holds a Master's degree. The University of Tasmania now provides a course for the degree of Doctor of Philosophy to graduates in Science and Engineering only, and some other Universities have similar Faculty limitations. The question of providing for the degree of Doctor of Philosophy is also under consideration in some other Universities.

PROFESSIONAL SCHOOLS AND RESEARCH INSTITUTES. Each of the three older Universities, of Sydney, Melbourne and Adelaide, possesses well organized and equipped professional schools under their Faculties of Medicine and Dentistry. These schools have long been, and are now, mainly responsible for the training of the medical and dental professions in Australia, whilst not a few of their graduates may be found occupying responsible positions outside Australia. The teaching and research staffs of these schools are also now largely recruited from the ranks of their own more distinguished graduates, but they are continually being reinforced by other teachers of distinction from outside Australia. Faculties of Dentistry and Medicine were established in Queensland in 1935 and 1936 respectively, while in Western Australia a Faculty of Dental Science commenced in 1946 and the establishment of a medical school is under consideration.

The relationship of the Medical Schools to the great general hospitals

is intimate and effective. The Universities of Sydney and Melbourne appoint Clinical Supervisors to each of the Teaching Hospitals to co-ordinate the clinical training of students. There is thus secured an extensive and varied clinical field, not only for undergraduate training, but in increasing measure for more advanced and specialized post-graduate study and research in conjunction with the scientific laboratories of the Universities and other research institutions. Such post-graduate work in various departments of specialized study now finds manifold guidance, and receives full official recognition, in connexion with the Diplomas awarded after appropriate courses of study. Amongst these may be specified the Diplomas in Psychological Medicine, Dermatological Medicine, Clinical Pathology and Radiology at the University of Sydney and the Australian Diplomas in Public Health, Tropical Medicine and Hygiene and Tropical Hygiene from the School of Public Health and Tropical Medicine in the University of Sydney, and more or less corresponding courses in the University of Melbourne, both these Universities also granting Diplomas in Ophthalmology, Laryngology and Otology, in Gynæcology and Obstetrics, in Therapeutic and Diagnostic Radiology, in Psychological Medicine and in Anæsthesia.

A Biophysics Section was established in Queensland in 1937 to manufacture radon and to carry out other work in connexion with the treatment of cancer. In Adelaide, the Anti-Cancer Campaign Committee maintains a radium and deep X-ray clinic at the Royal Adelaide Hospital, and a plant at the University for the production and manipulation of radon. Under an arrangement with the University of Melbourne the Commonwealth Government maintains there an X-ray and Radium Research Laboratory. At the University of Sydney, a group of young members of the staffs of the medical and allied departments are continuing fundamental work on cancer research problems which is financed by the Cancer Research Committee set up by the Senate.

The University of Adelaide established in 1925 the Waite Agricultural Research Institute, an important centre for research in agricultural and allied subjects at Glen Osmond, four miles from the city.

The University of Western Australia established in 1938 an Institute of Agriculture, which serves as a centre for research in agricultural science, and has set aside a portion of the University grounds for investigational purposes, with accommodation for plant and animal experiments.

There are various University and associated Research Institutes in Adelaide, Melbourne and Sydney, where investigation is carried on into problems of Pathology, Bacteriology, Pharmacology, Radiotherapy, Cancer Research, Animal Nutrition, Entomology, etc.

A strong stimulus for research developments within the Universities has been provided by Commonwealth Grants for research, by State Government support and by the Universities' own endowments for the purpose. The Commonwealth Research Grants, which were initiated in 1936 to assist research and the training of research workers in various groups of sciences, including the physical, biological, social and medical

fields, were discontinued in 1950, but Universities may now allocate funds for research from the general block grants made by the Commonwealth Government. (*See* Commonwealth Government Financial Assistance, p. 898.)

DIPLOMAS. Numerous University Diplomas are now obtainable in various branches of study in the Universities of Australia. They may be classed under three categories : (a) those obtainable by graduates as supplementary qualifications in particular subjects after special courses of study. To this group belong the postgraduate Medical Diplomas already mentioned and also certain Diplomas in Education ; (b) Diplomas obtainable by non-graduates after shorter or less comprehensive courses of study than those required for a University degree covering the same subject. This group includes certain Diplomas in Commerce, Public Administration, Agriculture, Engineering, Music and Dramatic Art. (c) Diplomas in subjects, usually of limited range, for which no special University degree is available, *e.g.* Journalism, Pharmacy, Anthropology and Town and Regional Planning. The present tendency is to reduce the number of sub-graduate Diploma courses while extending the range of postgraduate Diplomas.

EVENING LECTURES. Full University courses of evening lectures in Arts, and in some cases in Science, Commerce and Law subjects, are provided by the Universities of Adelaide, Melbourne, Sydney, Queensland and Western Australia and by Canberra University College to enable a degree in those Faculties to be obtained by persons whose occupations preclude their attendance at the University during the day. In Tasmania and Canberra a number of lectures are given between 5 P.M. and 8 P.M. In Queensland the evening classes, generally of one-hour duration, are held between 8 P.M. and 9 P.M. At the New England University College the timetable between 4 P.M. and 6 P.M. is so arranged that teachers and others employed in Armidale or district may undertake courses leading to the B.A. degree. From the beginning of 1951 the N.S.W. University of Technology assumed responsibility for the provision of 20 Diploma courses in Engineering, Applied Science and Architecture, which were previously provided by the N.S.W. Department of Technical Education. Students attending these courses have matriculated in the University and the courses require five or six years' part-time attendance concurrently with employment in industry. Having qualified for the Diploma, the student may be admitted to the appropriate Degree course with advanced standing and so proceed to the Degree of Bachelor by further part-time attendance over at least two years.

EXTERNAL STUDENTS. Under the Regulations of the Universities of Melbourne and Queensland, attendance at lectures is not compulsory except in specified subjects. (These naturally include most scientific subjects which require laboratory facilities.) It is therefore possible, though not common, to obtain an Arts degree as a purely external student. In Western Australia correspondence classes for external students are carried on in most Arts subjects, and in most subjects for

the B.Ed. Degree, under the guidance of tutors and with the help of a circulating reference library. Melbourne also provides correspondence tuition in certain subjects, but only for students resident in the country districts of Victoria. Canberra University College does not accept external students.

The Universities which permit the enrolment of external students or provide for correspondence tuition in general limit such facilities to residents within the State in which the University is situated. Only in special circumstances is external tuition permitted outside a State. Queensland University does provide some external tuition for students in Australian territories outside the Australian continent and external correspondence tuition has been provided by different Universities to members of the British Commonwealth Occupation Forces in Japan.

In the Universities of Adelaide, Sydney and Tasmania exemption from some of the lectures of a course may be granted in special cases in which reasonable cause is shown.

In all the Universities there is provision for the recognition, for degree purposes, of various courses of instruction in affiliated institutions such as Technical Schools and Colleges.

UNIVERSITY EXTENSION LECTURES were instituted at Sydney Univ. in 1886 and at Melbourne in 1891. In 1913 Workers' Educational Associations were formed in all the States, except in Western Australia, to give effect to a movement for bringing the Univs. into closer relationship with the masses of the people. The movement was fostered by State grants and grew rapidly. Each Univ. (except Melbourne) co-operates with the W.E.A. in the formation of a joint committee, which appoints tutors and supervises the work with the help of a Univ. officer—the Director of Tutorial Classes. The total number of students throughout Australia is over 6000. In addition to these courses, a great many preparatory classes, study circles, and summer schools are organized by the Assocn., numerous courses of public lectures are delivered, educational conferences promoted and an extensive book service is carried on. In Victoria, adult education is the responsibility of a statutory Council of Adult Education working in liaison with an Extension Committee in the University. A correspondence study department has been inaugurated in connexion with the W.E.A. activities in Queensland. In Western Australia extension classes are conducted at the University, in the city and suburbs, with an Adult Education library, books from which are available to groups in country areas. Western Australia has no W.E.A. organization, and the work is under the control of an Adult Education Board representative of University and other interests acting under the University Senate. At the New England University College the Senior Staff Tutor in charge of Tutorial Studies organizes adult education classes and activities in centres widely scattered over the New England region.

OVERSEAS SCHOLARSHIPS. Scholarships or grants-in-aid for study overseas are awarded by individual Universities and by such bodies as the British Council, Carnegie Corporation, Nuffield Foundation, Gowrie Trust and the United States Educational Foundation in

Australia. These scholarships enable selected students to extend their studies in the postgraduate field and are a valuable link between the Universities of Australia and those of England and the U.S.A. *See also* Appendix II.

COMMONWEALTH GOVERNMENT FINANCIAL ASSISTANCE. Early in 1950 it became apparent that the Universities were in need of additional finance and the Commonwealth Government accordingly appointed a Committee to enquire into the needs of the Universities both immediate and for long-term development. As a result of the interim report submitted by the Committee the Commonwealth Government enacted the States Grants (Universities) Act, 1951. Under the Act the Commonwealth is providing grants to the States for University purposes of from £803,000 to £1,103,000 p.a.

INTER-UNIVERSITY ORGANIZATIONS

After a conference held at Sydney in 1920 the Australian Universities established a Standing Advisory Committee to deal with matters of common interest. The present headquarters of the Committee, now known as the Australian Vice-Chancellors' Committee, are in the Australian National University of Canberra. Professor S. H. Roberts, Vice-Chancellor of the University of Sydney, is the present Chairman of the Committee. The Committee meets at least twice a year, usually in March and Aug., or more frequently should occasion demand. The Secretary is Mr. A. J. T. Ford.

As the result of a conference held in 1942 between representatives of the Universities and of the Commonwealth Government, a Universities Commission was set up by the Government and has now become a permanent official organization. The Commission operates within the general function of the Commonwealth Office of Education and is responsible for the training at University level of ex-servicemen under the Commonwealth Reconstruction Training Scheme and for co-ordination of policy for the recently inaugurated Commonwealth Scholarship Scheme. The Director of the Commonwealth Office of Education is the Chairman of the Commission, which has regular conferences with the Vice-Chancellors' Committee. The Commission has its head office at Grace Building, York St., Sydney (*postal address*: Box 3879 G.P.O., Sydney), and branch offices in each State (except Tasmania).

STATISTICS of University teachers, students and finance are published annually in the official Year-Book by the Commonwealth Bureau of Census and Statistics, from which a more detailed bulletin in typescript form may be obtained.

GENERAL INFORMATION

The University was established by Act of the provincial legislature in 1874. It began with endowments of £20,000 each from Sir W. W. Hughes and Sir Thomas Elder, a land grant of 50,000 acres (subsequently repurchased by the govt. for £40,000), a site of 5 acres in the city, and an annual govt. subsidy of 5 per cent. on endowments. The original site was increased to 8 acres in

1920, to 14 acres in 1927, and in 1929 to 27 acres. The govt. subsidy on endowments is limited to £40,000. The Council consists of the Chancellor, the Vice-Chancellor, 20 members elected by the Senate and (since 1911) 5 elected by Parliament. State grants (apart from the subsidy on endowments) for annual running costs have been increased from time to time and amounted in 1951 to £228,558, excluding an amount of £45,000 for the Waite Agric. Res. Inst. The total value of the endowments is over £1½ million, and the income in 1951 was £519,836.

LIBRARY. Approx. 171,000 vols.

LABORATORIES. At the Univ.—Anat., Bacteriol., Biochem., Bot., Chem., Engin. (Civil, Elect., Mech., Mining, Metall. and Chem. Engin.), Geol., Histol., Pathol., Phys., Physiol., Pharmacol. and Zool. At the Waite Inst.—*see below*.

The ELDER CONSERVATORIUM OF MUSIC, established in 1898, is part of the Univ., and provides tuition in a wide range of studies in the performance of music. Its students include not only those proceeding to the Univ. diploma but also many others who wish to study a principal subject (e.g. singing or pianoforte) or to undergo training in group work such as orchestral and operatic performances and who satisfy the Dir. of their fitness to be admitted.

The WAITE AGRICULTURAL RESEARCH INSTITUTE was established in 1924 as a result of a gift by the late Mr. Peter Waite of an estate of 299 acres, a mansion-house, and a trust fund of £58,450. Subsequent endowments and govt. grants have expanded the work of the Inst., the annual expenditure of which in 1951 was £95,117. The purpose of the Inst. is "to further the cause of research and education in agriculture and allied subjects"; its depts. comprise Agricultural Chem., Agronomy, Entomol., Genetics, Plant Pathol. and Plant Physiol.

GENERAL INFORMATION

The Australian National University was founded by an Act of the Parliament of the Commonwealth of Australia in 1946. The Act provided for the establishment at Canberra of a Univ. consisting of a Council and Convocation, and graduate and undergraduate members. The Council is the governing body of the Univ., but in the Univ.'s early years, until July 1951, its affairs were in the hands of an Interim Council. The permanent Council, which has now been constituted, consists of not more than thirty members, including the Vice-Chancellor, four members elected by Parliament, up to eight appointed by the Governor-General, up to nine elected by Convocation, three elected by the academic staff and two by students. Under the founding Act, the primary function of the Univ. is to encourage and provide facilities for postgraduate research, both generally and in relation to subjects of national importance to Australia. As was contemplated by the Act, the Univ.'s activities are in the first instance concentrated on the establishment of four Research Schools—the John Curtin School of Medical Research (named after Australia's wartime Prime Minister), and Research Schools of Physical Sciences, Social Sciences and Pacific Studies—the development of other Schools and the offering of undergraduate courses having been indefinitely deferred.

It is intended that each School should be led by a Director, but the responsibility for the organization of the work of particular Depts. within the Schools will rest with their professorial heads. In addition to the Directors and Professors, the staff comprises permanent Readers and Fellows, and short-term Sr. Research Fellows and Research Fellows. The Univ. is seeking to provide members of staff with the most favourable feasible conditions for the advanced prosecution of research. They will have their whole time available for research, their teaching and administrative duties being of a quite minor kind. They will have opportunity to move about among their colleagues in Australia. Professors will be at liberty to take a yr.'s study leave with full salary after each 3 yrs. of service, Readers after each 5 yrs. of service and a Fellow after each 6 yrs. of service.

All Depts. of Res. Schools, except those of Med. Chem. and Exper. Pathol., are now located in Canberra. The lab. block of the Res. Sch. of Phys. Scis. has now been completed, and the remaining Depts. are housed in temp. bldgs. pending the construction of permanent bldgs.

The Univ. receives a statutory grant and additional funds are voted annually by the Commonwealth Parliament for bldgs., etc.

Each Dept. of the Res. Schools accepts a very small number of graduate res. students of first-class calibre, the general minimum entrance qualification being a Master's degree or its equivalent in a University of sr. standing. (*See also* Appendix I.) Each student is assigned to a supervisor, and pursues a course of res. under supervision. Subject to certain conditions, the student may proceed to the Ph.D. degree (normally after three yrs.' work) or an M.A. or M.Sc. (usually after two yrs.' work). The Univ. will also confer the degrees of D.Litt., D.Sc. and I.L.D. for distinguished work in appropriate fields published by persons with a real connexion with the Univ.

ANNUAL FEE: £A52 : 10s. (covers all charges except board and residence).

Single students are normally required to live in University House (*see infra*), and married students within easy access of the Univ. precincts.

From 1948 to 1951 the Univ. awarded some 75 res. scholps. to relatively recent graduates of high promise, for study abroad. At present the Univ. offers 15 scholps. annually, but they are now intended mainly to support some specially able students working in the Univ. itself. In addition, two or three general scholps. are still offered to graduates to work abroad in fields not covered by the Res. Schools. The emoluments of the scholps. tenable in the Univ. vary according to the scholar's circumstances, but are of the order of £A575-£A750 p.a.

The Univ. from time to time issues invitations to distinguished sr. scholars to visit Australia, conducting discussions with interested people not only in Canberra but in the other Australian Univs.

The Library, which was assembled in Melbourne and brought to Canberra late in 1950, now comprises some 80,000 bound vols. and 25,000 periodicals.

The sr. academic body of the Univ. is the Board of Graduate Studies, which consists in general of the Dirs. and Profs. The Board assists the Council by tendering advice on all questions affecting education, learning and research in the Univ. There is also a Faculty (in the English sense) within each of the Res. Schools.

Convocation will eventually consist mainly of the Council and graduates of the Univ., but at the outset the opportunity was taken to add to it the Chancellor and Vice-Chancellor and five other representatives of each other Australian Univ. institution.

The Univ. site consists of 204 acres of well-situated land in the Canberra suburb of Acton. The first permanent bldg. to be erected is the lab. of the Res. Sch. of Physical Sciences. University House, which will provide collegiate accomm. for about 100 single staff members and graduate students, and form a social centre and fac. club for the Univ., is well advanced and is being brought into partial use. The labs. for the John Curtin School of Medical Res. are at an early stage of bldg., and bldgs. for the other two schools, the Library and ancillary services are being planned. Housing is a major problem in Canberra and in the present difficult situation the Univ. has undertaken some responsibility for finding living accomm. for the members of its staff. Flats and houses are being built.

The Univ. has not as yet published a *Calendar*; enquiries should be made of the Registrar. A news bulletin describing the Univ.'s development is issued gratis every few weeks, and will be supplied on request.

THE YEAR 1951

The res. Schools with the exception of the John Curtin Sch. of Med. Res. commenced work in Canberra. The permanent Council took over from the Interim Council in June. Res. Scholars working in Canberra instead of at overseas Univs. as formerly. Plans formulated and construction commenced of temporary bldgs. to house the John Curtin Sch. of Med. Res. pending construction of the permanent bldgs. Bldg. of University House and Res. Sch. of Phys. Scis. continued. First students admitted.

VISITING SCHOLARS. Prof. W. A. Mackintosh, Vice-Principal, Queen's Univ., Ont. (Jubilee Federalism Seminar); Prof. J. L. Montrose (Law), Univ. of Belfast (Jubilee Federalism Seminar); Sir Edward Mellanby, F.R.S., formerly Sec., British Med. Res. Council (Jubilee Science Seminar); Prof. N. Mansergh (British Commonwealth Relations), Royal Inst. of International Affairs ("British Commonwealth with special reference to security problems in the Atlantic Area and in the Pacific and Indian Oceans Areas"); Sir Richard Livingstone, formerly Vice-Chancellor, Univ. of Oxford ("English and American Education").

STUDENTS. Men, 3; Women, 1; Total, 4. All were full-time postgraduate research students.

GENERAL INFORMATION

The Univ. was founded in 1853 by Act of the Victorian Legislature. In 1951, expenditure amounted to £1,313,295 as against total receipts of £1,496,489, of which £136,000 Commonwealth Govt. Grant applied to earlier yrs., and grants and bequests of £88,000 were for capital purposes. The State Govt. has fixed an amount of £496,150 as its contribution to the Univ. during the present financial yr. The Council is composed of 32 members—elected by graduates (10) ; representatives of the teaching staff (5), of affiliated colleges (2), undergraduates (2) ; appointed by the Government (8) (3 being members of Parliament, the others representing business interests and technical schools) ; *ex officio* (3) ; and co-opted members (2). Convocation (the body of graduates) elects a Standing Committee with certain legislative and advisory functions.

There is a Professorial Board, and individual courses are controlled by Faculties and Boards of Studies. The grounds, 106 acres, include four 10-acre College sites surrounding a recreation ground of 16 acres. The temporary post-war branch of the University at Mildura, 350 miles north-west of Melbourne, where first-yr. students in some scientific faculties were housed, is now closed.

LIBRARY, 175,000 vols. **MUSEUMS**, Anat., Biol., Geol., Path. (15,000 specimens), Vet. **LABORATORIES**, Aerodynamics (with Wind Tunnel), Agric., Bact. (investigations undertaken for Govt. Hospitals and Med. practrs.), Bot., Biochem., Chem., Dent., Engineering, Geol., Metall. and Mining (with 3-head stamp battery), Path., Physics (with cyclotron), Physiol., Psychol., and several Commonwealth Govt. Labs. (including X-ray and Radium, and C.S.I.R.O. sections). **VET. RESEARCH INSTITUTE**, Parkville, **WALTER AND ELIZA HALL RESEARCH INSTITUTE** in connexion with Royal Melbourne Hosp., Parkville.

FACULTIES AND DEANS (1952). *Agriculture*, Prof. S. M. Wadham (Agric.); *Architecture*, Prof. B. B. Lewis (Archit.); *Arts*, Prof. J. T. Burke (Fine Arts); *Dental Science*, Prof. A. B. P. Amies (Dent. Sci.); *Economics and Commerce*, Prof. G. L. Wood (Comm.); *Education*, Prof. G. S. Browne (Educn.); *Engineering*, Prof. C. E. Moorhouse (Electr. Engin.); *Law*, Prof. Z. Free students ; 60 certificated teachers of the Education Dept. p.a. ; 5 other Govt. officers p.a. ; 83 other persons p.a. All other certificated teachers and students of the Teachers' Training College are admitted at half fees.

A Students' Loan Fund has assets exceeding £70,000.

RESIDENCE. The Residential Colls. accommodate over 600 resident students. Trinity College (165 gs.), 119 students ; Janet Clarke Hall (150 gs.), 67 students ; Ormond College (185 gs.), 140 students ; Queen's College (180 gs.), 100 students ; Newman College (135 gs.), 100 students ; University Women's College (140 gs.), 46 students.

PUBLIC EXAMINATIONS. The University through its Schools Board holds School Intermediate and School Leaving examns. throughout Victoria annually. Pupils of certain secondary schools (approved after inspection) may obtain credit on headmaster's certificate without sitting for external examn. The Matriculation Examn. (1 yr. after School Leaving) is held for pupils seeking to enter the Univ. Special provision exists for the matriculation of discharged members of the Services and persons over 21 years of age. *See also* Appendix I.

APPOINTMENTS BOARD. The Appointments Board provides an employment service for men and women with Univ. training. It has reciprocal agreements throughout Australia and the U.K. whereby Boards of other Univs. make their

services available to graduates and undergraduates of the Univ. of Melbourne. The Board also arranges vacation work.

GRADUATES' ASSOCIATION. In 1938, when the present Union House was created, a graduates' section of the Melbourne Univ. Union came into being. By the end of 1951, membership of the society had risen to over 2000. The Graduates' Section produces its own magazine: *The Melbourne Graduate*. Women graduates may belong to the Melbourne Women Graduates' Association, a branch of the Australian (and International) Federation of University Women.

TEACHING HOSPITALS. Royal Melbourne, Alfred, St. Vincent's, Women's, Children's, Eye and Ear, Queen Victoria Memorial, Fairfield and Mental Hospitals.

MILITARY AND AIR FORMATIONS. Melbourne University Regiment (military) and University Air Squadron.

STUDENT HEALTH SERVICE. The Students' Representative Council, in conjunction with Commonwealth X-ray and Radium Labs., conducts a free X-ray service. It also conducts a free eye-testing scheme in conjunction with the Australian Coll. of Optometry. The S.R.C. has also set up a Blood Bank.

ATHLETIC FACILITIES. Facilities for cricket, football, athletics, tennis, hockey, basket-ball, baseball, rowing, squash racquets.

PUBLICATIONS. *Calendar* (March), 5s. net (handbooks containing extracts and general information relevant to each Faculty published separately, 1s. each); *Annual Examination Papers*, in sets, 1s. 6d. each; *Handbook of Public Examns.*, 3s. 6d.; *Conservatorium Prospectus*; *Manual of Public Examinations in Music*; *Research Report*; *University Gazette* (containing academic news and official announcements) is published during term; *Melbourne Graduate* (magazine of Graduates' Section); *Circulars to Schools*, published about 10 times a year and forming a link between the University and the secondary schools. Students' journals: *Melb. Univ. Magazine*; *Farrago* (fortnightly); *Speculum* (Medical); *The Margin* (Commerce); *Res Judicatæ* (Law); *Science Review* (Science); *Cranks and Nuts* (Engineering); *Present Opinion* (Arts).

The MELBOURNE UNIVERSITY PRESS, founded in 1922, publishes works by members of the Univ. and other writers on learned subjects in Australia and New Zealand. It also sells text-books, and caters for students' requirements in stationery and apparatus.

GENERAL INFORMATION

Incorporated by Act of N.S.W. Parlt. in April 1949, the N.S.W. Univ. of
Technology was established to meet the urgent demand in Australia for
increasing numbers of technologists and applied scientists, and to provide
them with means of advanced training and res. Provision is made for the
govt. of the Univ. by a Council representative of Parlt., industry and commerce,
the trade unions, technical educn., professional bodies, the Univ. of Sydney,
and of the Univ.'s own teaching staff and its undergraduates and graduates.
The Council may provide courses in Applied Sci., Engin., Technol., Commerce,
Industrial Organization and such other related courses as it deems fit, and may,

after examn., confer the several degrees of Bachelor, Master and Doctor, and such other degrees and such certificates in the nature of degrees or otherwise as it thinks fit. Power to decentralize the University's activities, both in its co-operation with industry and in its teaching services, is given to the Council, which is authorized to establish and maintain branches, depts. or colls. at Newcastle, Wollongong, Broken Hill, or such other places in the State of New South Wales as it may approve. The first coll. of the Univ. was established at Newcastle in Dec. 1951, and is controlled by the Council. A cttee. of members of Council with experience of educational and industrial requirements at Newcastle will advise the Council on the development and management of the Coll.

INCOME for yr. 1950-51, £358,271 (84 per cent. from State Parliament grants, remainder from fees and contributions from industry and other sources). Pending the completion of its own bldgs. and the acquisition of equipment, the Univ. has at its disposal the resources of the Dept. of Technical Educn.

FACULTIES AND DEANS. *Applied Sci.*: Prof. J. P. Baxter (Chem. Engin.); *Archit.*: Prof. F. E. Towndrow; *Engin.*: Prof. D. W. Phillips (Min. Engin.).

LIBRARY. The Univ. library is at present incorporated in the Sydney Technical Coll. library. Vols., 41,846; accessions, 1951, 4612.

ENTRANCE REQUIREMENTS. See Appendix I.

ADULT MATRICULATION. Persons over the age of 25 yrs., not otherwise qualified, may be admitted as provisionally registered students, provided that the Professorial Board is satisfied they have reached a standard of educn. sufficient to enable them profitably to pursue the first yr. of the proposed course.

DEGREES. B.Sc. (Appl. Chem., Chem. Engin., Appl. Phys., Wool Technol.), B.E. (Civil, Electr., Mech., Mining), 4 yrs.; B.Arch., 6 yrs. Higher Degrees: M.Sc., M.E., at least 2 yrs.; Ph.D., at least 3 yrs.

COURSES. First degree courses instituted in Civil, Elect., Mech. and Min. Engin. in March 1948, this initial step being made possible by the work of the Developmental Council, apptd. in Aug. 1947. These courses were planned to give students lecture and lab. instrcn. in the Univ. for approx. half the yr., with practical experience of a planned nature in industry for remainder of yr. Degree courses in Appl. Chem. and Chem. Engin. began in March 1949, Archit. in 1950, Appl. Phys. and Wool Technol. in 1951.

From beginning of 1951 the Univ. assumed responsibility for provision of 20 dipl. courses in Engin., Appl. Sci. and Archit., previously provided by the N.S.W. Dept. of Technical Educn. Dipl. courses require attendance for 5 or 6 yrs., pt.-time concurrently with employment in related occupation. Students attending have matriculated and are registered students of the Univ. On the certif. of the Univ. that the course has been completed the Dept. of Technical Educn. issues the dipl. of the A.S.T.C.; the student may then be admitted to degree course with advanced standing, proceeding to Bachelor's degree by 2 yrs.' further pt.-time attendance in a Conversion Course.

Two features are emphasized in undergrad. courses. The first is incorporation in the syllabus of industrial experience to supplement lab. and lecture-room work at the Univ. (in the Fac. of Engin., 5 months p.a., supervised and organized to suit the stage and syllabus of each course). Secondly, the study of general subjects, such as English, Hist., Econ. and Psychol., is compulsory. These courses are designed to broaden the experience and interests of the student.

Facilities are available to students already in employment and enrolled in appropriate dipl. courses to transfer at certain stages to degree courses at the Univ. "Conversion Courses," which began in 1950, permit those who hold

such qualificns. from Technical Colls. and from other Univs. to resume their studies and proceed to degree or higher degree of the Univ.

FEES. Undergrad.: Matricn., nil; Graduation, nil; B.Sc. courses, £90-£120; B.E. courses, £120; B.Arch. course, £120. Masters' Degrees (M.Sc., M.E.): Registration, £2 : 2s.; Graduation, £15; Internal students, full-time, £30, pt.-time, £15 p.a.; External students, £10 p.a. Ph.D. Degrees: Registration, £2 : 2s.; Graduation, £21; Internal students, £30; External students, £10.

UNIVERSITY REGIMENT. Established in 1951.

POSTGRADUATE FELLOWSHIPS, ETC. I.C.I.A.N.Z. Res. Fellowship for British Commonwealth graduates, £600 p.a. for 2 yrs., for study in fields related to interests of I.C.I.A.N.Z.; Monsanto Res. Scholp. for graduates of Australian Univs., £600 p.a. for 1 yr. for res. in chem. engin.

PUBLICATIONS. *Calendar with Annual Report* (4s. 6d.); *Brochure*; *Orientation Handbook*; *Report* on research activities of Univ.

THE YEAR 1951

NEWCASTLE UNIVERSITY COLLEGE. In December the Newcastle University College was opened as a branch of the Univ.

BENEFACTIONS. Commonwealth Bank of Australia, £3500 for res. in soil qualities and relationship of rainfall to run off; Electricity Meter and Allied Industries Ltd., Sydney, £10,000 to equip lab. for res. into problems assoc. with industrial materials; I.C.I.A.N.Z., £400 towards cost of res. on production of vinyl chloride.

NEW BUILDINGS. Satisfactory progress made in construction of first permanent bldg. (floor space, 136,745 sq. ft.) on Univ. site at Kensington; construction of 7 light framed bldgs. for Schools of Chem. Engin. and Metall. proceeded; considerable progress in equipping Civil Engin. res. labs., and res. projects in other Schools of Univ.

NEW DEPARTMENTS AND POSTS. Chairs of Maths., Metall. and Wool Technol. occupied; provision made for Assoc. Professorships in Appl. Chem. (2), Archit. and Food Technol.

CHANGES IN REGULATIONS. Council revised Regulns. for award of Masters' degrees and approved regulns. for award of Ph.D.

VISITS OF MEMBERS OF STAFF TO OTHER UNIVERSITIES. 6 months' investigation in U.S.A., Gt. Britain and Europe, by the Director, of development of higher technological educn. (assisted by grant from Carnegie Corp. of N.Y.).

RESIGNATIONS. Prof. N. F. Astbury (Appl. Phys.), apptd. to Univ. Coll., Khartoum; Prof. H. J. Brown (Electr. Engin.), apptd. Controller, Research and Development Branch, Commonwealth Dept. of Supply.

STUDENTS.

CROMWELL (Congregational)—expected to open First Term, 1953.

GENERAL INFORMATION

The Univ. was established by an Act of the local legislature in 1909, and the entire management and control are in the hands of a Senate. Until Nov. 1943, the Senate consisted of 20 members—10 appointed by the State Government and 10 elected by the Univ. Council (consisting of all members and past members of the Senate; all graduates of the Univ. of 3 yrs.' standing; persons appointed by the Government as representative of commerce, industry and scientific assocns.; benefactors, etc.). Under the "University of Queensland Act Amendment Act of 1941," which came into operation on Nov. 8, 1943, the number of Government representatives on the Senate was increased to 15, making the total number of members 25 instead of 20. The Univ. is subsidized by the State Government. The amount of subsidy for the first teaching year (1910) was £5500. It has since been progressively increased and was £392,639 in 1951, of which £90,153 was repaid to the State Govt. by the Federal Govt.

Up to 1931 the grounds and buildings facing the Brisbane River and adjoining the Botanical Gardens included, in addition to the main building and recreation grounds, 6 floors of three blocks of the Central Technical Coll. buildings. The remainder of these blocks had to be taken over by the Univ. in 1932, in order to accommodate the increased number of students. Owing to the rapid growth of the Central Technical Coll., as well as the Univ., the Univ. is unable to obtain any more accommodation in the Coll. buildings.

The present site belongs to the Central Technical Coll. and is used only temporarily for Univ. purposes. The permanent site of the Univ., consisting of 223 acres, is situated on the Brisbane River in the suburb of St. Lucia. It has a river frontage on three sides, and was the gift of Dr. and Miss Mayne, Brisbane. The erection on the St. Lucia site, by the State Government, of buildings to house all departments except those concerned with the work of the later years in the Faculties of Medicine and Veterinary Science, which are situated at Herston and Yeerongpilly respectively, is well advanced. The Main Building at St. Lucia was first occupied at the end of 1948 and now accommodates the Facs. of Arts, Commerce, Law and Educn., the Depts. of External Studies, Physical Educn., and Surveying, the Main Library, and a skeleton admin. staff. The Chem. Bldg. at St. Lucia was occupied early in 1950 and the Geol. Bldg. early in 1951. A 90-ft. extension of the Main Bldg. to provide admin. accomm. is now under construction, and work on the Phys. Bldg. has been commenced.

COLLEGE OUTSIDE THE METROPOLITAN AREA

NEW ENGLAND UNIVERSITY COLLEGE, ARMIDALE, N.S.W. Established by the University of Sydney, 1938. See p. 968.

GENERAL INFORMATION

Founded in 1850, the University of Sydney is the oldest Univ. in Australasia. Its development has been largely due to private benefactions. The Act of Incorporation provided for the appt. of a Senate of 16 Fellows (later increased to 26) and a statutory grant of £5000. The first Provost and Vice-Provost (later entitled Chancellor and Vice-Chancellor) were elected the following yr., and the first 3 Profs. arrived in Sydney from the U.K. in 1852, the yr. of the Univ.'s inauguration in the Sydney Coll. bldgs. (now occupied by Sydney Grammar Sch.) in College Street. The first matriculation examn. was held in Oct. The Sydney Coll. bldgs. proved to be inadequate, and the State Govt. made a grant of 128 acres of land (later increased to 141½ acres) at Grose Farm on the w. boundaries of the city, with provision for sub-grants by the Senate for 4 Colls. and for subsidies towards the Coll. bldgs. and the salaries of their hds. The Univ. was transferred to this, its present site, in 1857. St. Paul's College (C. of E.) was estd. in 1854, St. John's (R.C.) in 1857, St. Andrew's (Presb.) in 1867, The Women's College (undenominational) in 1889, Wesley College (Methodist) in 1910 and Sancta Sophia College (R.C. Women) in 1929. All were built on Univ. land and subsidized on equal terms.

Most of the Univ. buildings have been provided from public funds. The Great Hall, a replica of Westminster Hall, London, was opened in 1859 and the main bldg. completed the following yr.

The Univ. was granted a Royal Charter in 1858. Women were not admitted to membership of the Univ. until 1881; they were given the same rights as men 3 yrs. later. Up to 1890 all students except graduates in Arts were required to attend one year in Arts before entering upon special studies.

CONSTITUTION. The body politic and corporate of the Univ. of Sydney consists of a Senate constituted of 4 fellows apptd. by the Governor, 1 elected by the Leg. Council, 1 by the Leg. Assembly, 10 by the grads., 3 by the fellows, 1 the Vice-Chancellor of the time, 5 rep. of the teaching staff, 1 (a grad.) rep. of the undergrads. The Chancellor and Deputy-Chancellor are elected by the Senate from its own members. The Chancellor or, in his absence, the Dep.-Chancellor, presides at all meetings of the Senate; if both are absent, a chairman is elected by the fellows. The entire management of the affairs, concerns and property of the Univ. is controlled by the Senate, which makes the by-laws and regulns. subject to approval of the Governor, who is the Visitor to the Univ. No religious test is administered to any person.

INCOME (1951), £1,218,915: State Govt. grants, 35 per cent.; Commonwealth Govt. grants, 23 per cent.; fees, 35 per cent.; endowments, 4 per cent.; other, 3 per cent.

The grounds, which include the sites of the Colleges grouped round an oval, cover 140 acres.

The LAW SCHOOL (Univ. dept.) is located at 167 Phillip St., Sydney (Telephone: BW8907, BW6059), and the DENTAL HOSPITAL OF SYDNEY (Univ. dept. of Dent.) at 2 Chalmers St., Sydney (Telephone: MA6964).

In the Univ. grounds is the TEACHERS' COLLEGE, a branch of the State Dept. of Educn. The courses leading to the Univ. postgrad. Dipl. in Educn. (Dip.Ed.) are arranged through co-operation between the staffs of the Univ. and the Coll. THE COUNCIL FOR SCIENTIFIC AND INDUSTRIAL RESEARCH ORGANIZATION: The National Standards Lab., situated in the Univ. grounds, was completed in 1940. Close collaboration in res. activities exists between many Univ. depts. and relevant divisions of the C.S.I.R.O. This applies particularly in Agric., Biochem., Bot., Geol., Zool., Vet. Physiol., Electr. Engin. and Chem. Engin. The McMaster Animal Health Lab., Div. of Animal Health and Production, C.S.I.R.O., which adjoins the Vet. Sch., was opened in 1931. Facilities are available for res. in Parasitol., Bacteriol. and Biochem. The McMaster Field Station attached to the same div. was opened in 1938. The station (800 acres) adjoins the Univ. McGarvie Smith Animal Husbandry Farm (v. *supra*). It is equipped primarily for investigations in Genetics and reproductive Physiol. in sheep and cattle under field conditions.

ADMISSION. See Appendix I. It should be noted that admission at the present time is restricted to *bona fide* residents of N.S.W. because of shortages in staff and accomm., but the situation is reviewed at the end of each yr.

NON-MEMBERS OF THE UNIVERSITY. Any person may attend lectures without matricn. upon payment of such fees as the Senate may from time to time direct, provided that he has the approval of the Fac. concerned before commencing attendance at lectures.

SCHOOL OF PUBLIC HEALTH AND TROPICAL MEDICINE. The School acts as the teaching and examn. centre for the Univ.'s Dipls. of Public Health and of Trop. Med. and Hyg. In addition, a course in Preventive and Social Med. is given for undergrad. students. Courses are also given in Architectural Hyg., Soc. Hyg., Trop. Hyg. and Industrial Nursing. The School is financed by the Commonwealth Health Dept., but all teaching is directly controlled by the Univ. and the Fac. of Med., together with all matters concerning diplomas, syllabuses, fees, examns., etc. An Advisory Council, of representatives of the Univ. of Sydney and the Commonwealth Dept. of Health, deals with all matters of policy. The staff consists of a Director (also Prof. of Preventive Med.), a Professor of Tropical Medicine, 11 Med. Officers, and a number of visiting Lectrs.; 4 Entomologists and 11 technical officers. The D.P.H. entry requirements are those of the General Medical Council of Gt. Britain, the D.T.M. & H. courses correspond to similar courses at the London School of Hygiene and the Liverpool School of Trop. Medicine. The main divisions of the School are those of Pub. Health and Preventive Med., Tropical Med. and Hygiene, Indust.

Hygiene, Bacteriol. and Pathol., Parasitol. and Protozool., Med. Entomol., Vital Statistics and Child Welfare. Library, of about 15,000 vols., dealing espec. in Trop. Med. and Hyg., is available. Facilities are provided for research students.

GENERAL INFORMATION

The New England University College was established as a branch of the University of Sydney on Jan. 1, 1938, by the Senate of the Univ. of Sydney under powers given to it by the University and University Colleges (Amendment) Act of 1937. It was established in accordance with the expressed wish of the people of Northern New South Wales and for the purpose of providing educn. at Univ. level for country students particularly. New England thus

became the first experiment in Univ. decentralization in Australia, unique in this country in being almost wholly residential. The N.S.W. Govt. bore the cost of converting the property to its present use and of providing additional bldgs., and has more recently provided funds for the building of temp. hostel accomm. to house 75 students. The Commonwealth Govt. made funds available under the Commonwealth Reconstruction Training Scheme for the erection of another large bldg. to provide additional lecture-rooms, labs. and staff studies.

Of recent years, increasing demands have been made upon the Govt. of New South Wales for the granting of independence to the New England Univ. Coll., and it is now regarded as likely that it will become the autonomous, degree-granting University of New England in the near future.

FACULTIES AND CHAIRMEN OF FACULTY CTTEES. *Arts*, E. J. Tapp, M.A.; *Science*, F. B. Dudley, B.Sc.

LIBRARY. Dixon Library, approx. 21,000 vols., together with a large number of periodicals.

LABORATORIES, ETC. A FIELD STATION for research into properties of the ionosphere has been established. The Univ. Coll. has also been chosen as the site of the labs. connected with a large C.S.I.R.O. Field Res. Station of 4500 acres situated about 10 miles from Armidale. The UNIVERSITY FARM of 500 acres will provide facilities for field studies connected with the proposed Facs. of Animal Husbandry and Agricultural Economics.

ADMISSION. See Appendix I.

DEGREES AND DEGREE COURSES. Courses and examns. in all subjects are substantially the same as for those subjects in the Univ. of Sydney. Students graduating from the Fac. of Arts take the degree of B.A. (Pass and Hons. Schools) of that Univ. Courses of lectures are given in English, Latin, Economics, Hist., Economic Hist., French, German, Philos., Psychol., Educn., Geog. and Maths. Economics may be taken at New England as a major subject over 3 yrs. (Pass) or 4 yrs. (Hons.) for the B.A. Students who wish to proceed to the B.Ec. may attend at New England such courses as are common to the Sydney Facs. of Arts and Economics, afterwards transferring to Sydney to complete their courses. Students graduating from the Fac. of Science take the degree of B.Sc. (Pass and Hons. Schools) of the Univ. of Sydney. Courses are given in Maths., Phys., Chem. (Org. and Inorg.), Bot., Zool., Geol. and Geog. First-yr. courses for Sydney degrees in Med., Vet. Sci. and Agric. may be taken at New England, and students may also pursue the first-yr. For. and Pharmacy courses. Graduate students may take the courses leading to the Sydney Dipl. in Educn. Graduates in certain subjects may also proceed to the Master's degree of the Univ. of Sydney.

POSTGRADUATE STUDY AND RESEARCH. Facilities available, especially in Hist. and Economics, Chem., Phys., Bot., Zool., Geol. and Geog.

FEES. The Univ. of Sydney schedule of fees applies also at the New England Univ. Coll.

ADULT EDUCATION. A Dept. of Tutorial Classes under a Sr. Staff Tutor organizes adult educational activities in the New England region. Classes cover a wide variety of subjects ranging from Spoken and Written English and Current Affairs to Landscape Painting and Weaving.

The ARMIDALE TEACHERS' COLLEGE provides facilities for teacher trainees who are undertaking Univ. courses and for graduates who are pursuing the Dipl. in Educn. course.

STUDENT RESIDENCES. Accommodated at the Univ. Coll. itself for 78 students; 8 hostels in Armidale can accommodate a further 120 students. The weekly charge to students for full board and lodging is £3 : 5s. Except for those whose homes are in Armidale or who are married, all students are required to come into residence.

UNIVERSITY MILITARY FORMATION. "D" Co. of the Sydney Univ. Regiment is recruited at the Coll.

STUDENT HEALTH SERVICE. Each student is required to contribute £1 : 10s. yearly to a medical fund which entitles him, under certain conditions, to free medical treatment while in residence.

SPORT. An active Sports Union provides for all major sporting activities. The new Consett Davis Memorial Playing Fields provide for football, hockey, baseball and basket-ball. A cricket oval and six new tennis courts are expected to be ready shortly.

STUDENTS' UNION. At present the Students' Union has quarters in "Booloominbah" itself. Plans and specifications of "Forster House," the proposed Students' Union, have been completed.

PUBLICATIONS. *New England University College Handbook* (annually, Oct.), *Neucleus* (student newspaper, fortnightly, during term). *Magazines of the Arts and Science Soc.* (annually). *Monographs on New England Regional Research* (from time to time).

THE YEAR 1951

GENERAL INFORMATION

Established by Act of the State Legislature in 1911, the University opened its first session in 1913. Its present site of 165 acres is at Crawley-Nedlands on a bay of the Swan estuary about 4 miles from Perth. On the site are extensive playing fields and two open-air theatres. The main University buildings, including Winthrop Hall, the student block, the Arts lecture-rooms and the Library, were made possible by a bequest of £425,000 of Sir J. Winthrop Hackett, the first Chancellor of the Univ., and to-day are known as the Hackett Memorial Buildings. A further amount of £140,000 bequeathed for the purpose to the Church of England, led to the establishment of St. George's Coll.

A building and re-equipment programme of £250,000 has been carried out since the war, but large-scale bldg. developments, including the establishment of a Medical School, have had to be deferred because of bldg. difficulties.

The University at present receives a statutory annual grant from the State Government and additional annual appropriations for current revenue from the same source. The total State grant in 1951 was approx. £240,000 and a grant of approx. £100,000 was received from the Commonwealth Govt. Total expenditure on all activities, including Public Examns. and Adult Educn., is between £350,000 and £400,000.

The administration is vested in a Senate of 21 members, of whom six are nominated by the Government and seven are *ex officio* or co-opted members. A second body with mainly elective and revisionary functions is known as

Convocation. Convocation elects 6 members of the Senate and the teaching staff 2 members.

EXTERNAL TUITION. Exemption from attendance at classes is allowed to students who are resident in Western Australia but live outside the metropolitan area of Perth. Correspondence tuition is provided for such students and there is a circulating library of essential text and reference books. In a few special cases students who have been enrolled in the Univ. and have transferred to other States, are permitted to remain enrolled under the external tuition scheme. External enrolment is not permitted outside Australia and is allowed only in non-laboratory subjects. However, permission to enrol

externally (in W.A.) is granted to students, at affiliated institutions outside the Perth metropolitan area, who are taking laboratory subjects.

ADMISSION. See Appendix I.

ADULT MATRICULATION. Persons who have attained the age of 25 yrs. may be admitted as matriculated students in the Facs. of Sci., Agric., and Dental Sci., Engin., if the Fac. concerned is satisfied that they possess sufficient educational qualifications. For these Faculties also there is an examination for adult students alternative to the ordinary matriculation examination of the University; in the Facs. of Arts and Education there is a special examination open to persons who have attained the age of 23 yrs., or to persons who are 18 yrs. and over but have not been full-time day students in a secondary school since reaching the age of 16 yrs. This examination includes an intelligence test, a test in English composition and a test in a prepared subject.

ADULT EDUCATION. Adult Educn. work is controlled by the Univ. Adult Educn. Bd., which has its headquarters and library in Chancery Hse., Howard St., Perth. Its activities, which are State-wide and include extension lectures, orchestral concerts, drama, opera and ballet, are carried on in the metropolitan area of Perth as well as in country districts. Annual Summer School held in Jan. at the Univ.

STUDENT ORGANIZATION. The student organization is known as the Guild of Undergraduates and the student bldg. which forms part of the Hackett Memorial bldgs. is known as Hackett Hall. Annual subscription to the Guild is £4 : 18s., but in first yr. students pay an extra £1 : 1s. registration fee. Pt.-time students pay a proportionate fee.

ATHLETIC ACTIVITIES, ETC. The Univ. grounds contain 3 main sporting ovals as well as grass tennis courts, hockey and basket-ball grounds. There are 2 open-air theatres—the Somerville Auditorium seating 2000 and the Sunken Garden seating 400—for concerts and drama. The lawns are also used, during the annual Summer School, for folk-dancing. The Univ. is situated beside the Swan river and aquatic sports, including rowing, are popular.

GENERAL INFORMATION

In 1929 the Canberra University College was constituted by an Ordinance of the Australian Capital Territory, the Canberra University College Ordinance. The main function of the University College is to establish courses of lectures for degrees and diplomas in co-operation with one or more of the existing Universities in Australia. Co-operation was obtained with the University of Melbourne in 1930 and the University passed a temporary regulation which was extended from time to time, and which was amended in 1951 to read as follows:

"THE CANBERRA UNIVERSITY COLLEGE. (1) Any student taking any subject proper to the Faculties of Arts, Science, Law or Commerce and with the permission of the appropriate Faculty receiving the necessary instruction in such subject at the Canberra University College may upon payment of the following fees be admitted to examination at Canberra upon terms and conditions prescribed by the appropriate Faculty: For each subject, £1: 1s. (2) Subject to the provisions of Regulation LVI, and to such standing resolutions of the Professorial Board as may apply in the case of persons holding full-time University appointments the Canberra University College shall be recognized as a part of the University of Melbourne for the purpose of accepting any full-time member of the teaching staff of the College as a candidate for the Ph.D. degree. (3) For the purpose of this Regulation the appropriate Faculty shall enquire into the teaching and facilities for study in any subject proper to it and if considered necessary appoint inspectors to visit the College and report thereon. (4) All teaching appointments proposed by the Council of the College shall be submitted to the Council of the University for its concurrence before the appointments are made. (5) This Temporary Regulation shall remain in force until the 31st December 1953."

The University College is financed by an annual grant by the Commonwealth Government, and fees received from students. The grant for 1951-52 was £50,160.

The Ordinance incorporates a Council of the College, which consists of ten members, nine appointed by the Governor-General on the advice of the Minister for the Interior (of whom two are nominated by the University Association of Canberra), and one being a member of the teaching staff co-opted by the

Council. The Chairman of the Council is appointed by the Governor-General from among the members of the Council.

GENERAL INFORMATION

The University was founded, as a purely examining University, by an Act of the Colonial Govt. in 1870. It received its Royal Charter in 1876. Its constitution is defined in the N.Z. University Act, 1908, and subsequent amendments. The most important of these later amendments was that of 1926 by which the Univ. was re-established as a federal Univ. consisting of the four constituent University Colleges. Strictly speaking, the two Agricultural Colleges do not form part of the federal structure, but in effect they are constituent Colleges with representation and status similar to that of the four Univ. Colls.

* Member of the Association of Universities of the British Commonwealth.

The government of the Univ. is vested in the Senate, advised on academic matters by the Academic Board, which represents the Professorial Boards of the six Colleges, and on entrance matters and legal education by the Entrance Board and the Council of Legal Education. The Senate consists of a Chancellor, Pro-Chancellor and Vice-Chancellor, 4 members nominated by the Governor-General, 8 appointed by the governing bodies of the University Colleges, 1 by the School of Agriculture, 1 by the Senate, 5 by Convocation, 3 by the Academic Board, the Academic Heads of the constituent Colleges and the Director of Education.

In the early days when only undergraduate work was attempted, the function of the Univ. was mainly examining. Since the reconstitution of 1926, as the Colleges have grown in size and importance, responsibility for teaching and examining has been transferred to them under a general supervision exercised by Academic Board and Senate. The federal University is now largely concerned with wider problems of the promotion and co-ordination of University education and research and, within recent years, has established a University Press, a Research Fund (at present £15,000 p.a.) and a University Grants Committee. It supervises higher teaching appointments in the Colleges, and the governing bodies of the Colleges cannot make any appointment to a Chair without the prior approval of the Senate. A Professor so appointed becomes a "Professor of the University."

The University owns, in Wellington, University House, which contains its administrative offices and the Senate Room.

MATRICULATION. The principal examn. qualifying for matricn. is the Entrance Examn. held in Dec., when the candidate is required to pass in English and in 3 other subjects selected from appropriate groups of subjects. For certain of the professional courses candidates are recommended to include certain suitable subjects in their Entrance qualificn. The Entrance qualificn. may be granted alternatively on the basis of the Univ. Entrance Scholps. Examn., for which 5 subjects are required at a standard from 1 to 2 yrs. in advance of the Entrance Examn.

Thirdly, special provision is made for the admission to certain courses of students who have reached the age of 21 yrs. and who give evidence of some reasonable educational background though they have not passed the Entrance Examn. This admission is later confirmed on results gained.

Students from overseas are admitted at the discretion of a Cttee. of the Senate if they have passed an approved Entrance Examn. in a Univ. overseas, or if they have passed such an examn. at a standard which appears to the Cttee. to be the standard of Univ. Entrance in New Zealand.

Under present regulns. the Entrance Examn. is no longer in any way related with the School Certif. Examn. in New Zealand, that examn. normally being taken at least a yr. before the candidate takes the Entrance Examn.

EXTERNAL STUDENTS. Provision is made in certain faculties (notably Arts, Comm. and Law) for the admission to degree examns. of students exempted from attendance at a College. Exemption is available only to students domiciled in N.Z. and in N.Z. Island Territories.

ACADEMIC YEAR. Teaching extends from March to Oct. or Nov., in three terms, Autumn (March-May), Winter (June-Aug.) and Spring (Sept.-Oct. or Nov.).

DEGREE COURSES. 3 yrs.—B.A., B.Sc., B.Mus., B.For.Sc., B.D.; 4 yrs.—B.H.Sc., B.Agr.Sc. (including practical work on farm), B.Arch. (including 18 mos.' practical work), LL.B., B.E. (Mech., Elect., Civ., Mining, Metall.,

including from 9 to 18 mos. in shops, mines or surveying), B.Com.; 5 yrs.—B.D.S.; 6 yrs.—M.B., Ch.B., B.Med.Sc.

HIGHER DEGREES. For Masters' degrees, *i.e.* M.A., M.Sc., M.Com., LL.M., M.H.Sc., M.Agr.Sc., M.Med.Sc., 1 or 2 yrs. of study beyond the Bachelor's degree is required, with examns. and thesis; for Doctors' degrees (except M.D., Ch.M.), *i.e.* Litt.D., LL.D., D.Sc., Mus.D., D.D.S., 5 yrs.' standing as Master, and an approved thesis; for M.D., Ch.M., 3 yrs.' standing, with approved thesis and examns.; for Ph.D., 2 yrs.' standing, with approved thesis and examn.

DIPLOMAS, ETC. Public Health (2 yrs. after M.B.); Education (1 yr. after B.A.); Journalism, Banking, Fine Arts (each 3 yrs.).

PROFESSIONAL SCHOOLS. *Law* at all the Constituent Colleges; *Medicine* and *Dentistry* and *Home Science* at Otago; *Engineering* (Civil, Elect. and Mech.) at Canterbury and Auckland; *Mining* and *Metallurgical Engineering* at Otago; *Agric.* at Canterbury and Massey Agric. "AD EUNDEM" RECOGNITION. Courses completed, or partially completed, at any British or other approved Univ. may be accepted *ad eundem statum*.

SCHOLARSHIPS FOR GRADUATES. Senior Scholps. in various subjects of the B.A., B.Sc., LL.B., Mus.B., or B.Com. syllabus and in Med., Dent., Engin., Agric., Archit. and Home. Sci.—£90; Travelling Scholps. in Arts, Sci., Law, Comm.—£400 (2 yrs.); in Engin., Dent., Archit. and Med.—£300-£400 (2 yrs.); Macmillan Brown Res. Scholp. in Agric. (biennial)—£300 (2 yrs. possible). National Res. Scholps., £500 (2 yrs.), are offered annually by D.S.I.R. to Sci. grads. of N.Z. Univ. or other approved persons; also Shirtcliffe Fellowship for Res., £300 p.a. for 2 yrs.; Shirtcliffe Res. Scholp., £100 (1 yr.); Shirtcliffe Grad. Bursary, £75 (1 yr.). 2 Fellowships in Educn. Michael Hiatt Baker Scholp. (Univ. of Bristol). About 6 Res. fellowships (£340 p.a.) are awarded annually from the Research Fund, which from time to time may make awards of a higher value to sr. workers.

PUBLICATIONS. *Calendar* (Oct.), 3s. (incl. postage); *Minutes of Proceedings of Senate*, free; *Examn. Papers*, 1s. 6d. or 1s. a set; *Research in the Univ.*, 1946-49.

UNIVERSITY PRESS. Established 1947, by a grant from the Senate. Publishes text-books and works of scholarship.

GENERAL INFORMATION

Founded by Ordinance of the Otago Provincial Council in 1869, with power to grant degrees in Arts, Medicine and Law, the Univ. was opened in 1871. By an agreement effected in 1874 the Univ. agreed to hold in abeyance its power of granting degrees, and to become affiliated to the Univ. of New Zealand (*q.v.*), in which it ranks as one of the four Constituent Colls. The Law Fac. originated in 1873, the Medical Sch. in 1874, the Sch. of Mines in 1878, the Dental Sch. in 1907, Accountancy Lectures and the Sch. of Home Science in 1911, the Theology Fac. in 1945, and the Sch. of Physical Education in 1948.

The govt. of the Univ. is vested in the Council, on which are represented the Professorial Bd., teaching staff, Students' Assoc., graduates (Convocation), and a number of educational and other bodies ; the Governor-General-in-Council nominates two members. The Council is advised on academic matters by the Professorial Bd.

GENERAL INFORMATION

Created by Provincial Ordinance, 1873, and affiliated to the Univ. of N.Z., 1874. The first Prof. was apptd. in 1873 to fill the Chair of Chem. Value of lands, bldgs., equipment, etc., £687,500; annual Govt. subsidies and grants for 1952, £173,000.

Originally vested in a *Bd. of Governors* consisting of 23 members who were named and apptd. for life, the govt. of the Coll. is now in the control of the *College Council*, which consists of the Rector (*ex officio*), 18 members apptd. or elected, by the Governor-General (3), by Canterbury members of the 2 Houses of Parlt. (3), by Graduates of the Coll. (6), by Canterbury Sch. Teachers (3), and by members of the Canterbury Sch. Cttees. (3). In addition, there is one Council member apptd. by the Professorial Board, a member representing Lectrs. and a member representing the Students' Asscn. The term of each member is 3 yrs., with one-third of each group retiring in rotation each yr. A *Professorial Council*, set up in 1877 and reconstituted as the Professorial Bd. in 1896, originally included all full Lectrs. In 1925 membership was limited to Profs. and such Lectrs. as were apptd. by the Council. In 1948 the 1st appt. was made of a full-time Rector, who is the academic head of the Coll. and the permanent Chairman of the Professorial Bd.

There have been several special schools connected with the Coll. The Sch. of Art, opened in 1882, in 1950 became a Fac. of Coll. The chief special sch., that of Engin., has developed greatly since its establishment in 1890. A Sch. of Agric. was opened at Lincoln in 1880, administered by the Coll. until 1897 when it became sep. instn. as Canterbury Agric. Coll. Until 1948, 4 important secondary schools were also administered by the College.

First permanent bldg. opened in June 1877, and erection of bldgs. continued till 1923. In 1949 the Council decided to proceed with the transfer of the

Coll. to a larger site, and plans have been approved for the use of an area of about 130 acres for this purpose.

INCOME. Total income for yr. ended Dec. 31, 1951, from Govt. grants, endowments and fees : £233,693.

GENERAL INFORMATION

In 1872 the Provincial Council of Canterbury set aside certain lands for the endowment of higher education, including provision for a school of agriculture. Land suitable for the activities of such a school was bought at Lincoln in 1877 by the Canterbury College Board, which was administering the endowments, and Lincoln Agricultural College was opened in 1880. By the Canterbury Agricultural College Act, 1896, control of Lincoln Agricultural College was removed from the Canterbury College Board and vested in a separate Board of Governors, the College thenceforth being known as Canterbury Agricultural College. In 1913 a University Degree in Agriculture was instituted and the College was recognized as a School of Agriculture by the University of New Zealand. A series of amending Acts were passed between 1922 and 1927, and by legislation passed in the latter year the College became a College of the University.

FARMS of 2200 acres.

LABORATORIES. Biology, Chemistry, etc.

LIBRARY. 4000 publications.

RESEARCH. Investigations are proceeding on wheat and other cereal crops, grasses and pasture plants, soils and manures, animal nutrition and disease, farm economics, wool production, agricultural engineering, and plant diseases.

The CROP RESEARCH DIVISION of D.S.I.R. is located at the College.

GENERAL INFORMATION

The College was establd. under the New Zealand Agricultural College Act in
 Sept. 1926 as the result of an agreement between Victoria Univ. Coll., Well-
 ington, and Auckland Univ. Coll. to amalgamate their respective Schools of
 Agric. and to establish the new Coll. in the Palmerston North-Marton area. On
 July 29, 1927, an amending statute, the Massey Agricultural College Act, was
 passed, and the Coll. establd. under its present title. A further amending and
 consolidating Act, the Massey Agricultural College Act, 1952, was subsequently
 passed.

The College is financed mainly by Govt. grant. It is governed by a Council
 of 13, whose members are elected as follows: 4 by Governor-General, 2 by
 Council of Auckland Univ. Coll., 2 by Council of Victoria Univ. Coll., 1 by
 Palmerston North City Council, 1 by grads., 1 by holders of dipls., 1 by profs.
 and lectrs., and the Principal.

* Joint member of the staffs of the College and Dairy Research Institute.

LIBRARY. 14,000 vols.

LABORATORIES, FIELD STATIONS, ETC. Main sci. bldg. contains lecture rooms, teaching and res. labs., library, assembly hall, studies, common rooms, etc. Large homestead of some 10,000 sq. ft. adjacent to main bldg., known as "Wharcrata," recently purchased and fitted up as lecture rooms and studies for Econ., Hortic. and Sheep Husb. Depts. Other bldgs. for wool teaching, engin. and carpentry instruction, stock demonstration, machinery demonstration.

The COLLEGE FARMS comprise some 4100 acres, 1250 acres being situated at the Coll., 1050 acres 8 miles distant and 1800 acres 60 miles distant. Full facilities are available for teaching hortic., including 22 acres of representative collections of herbaceous plants, trees, and shrubs, a range of glasshouses, a nursery and propagating house, orchard and small fruits, vegetable and cut flower areas.

ADMISSION. For degree courses, any person who has passed the Matricn. Examn., or has completed part of an undergraduate course, or been admitted to a degree at any Univ. other than the Univ. of N.Z. may be admitted *ad eundem statum* in the Univ. of N.Z., but the course taken and standard attained at such other Univ. must be substantially equivalent to the course and standard required from an undergraduate or graduate of the Univ. of N.Z. of the status to which such person applies to be admitted. Overseas students desiring to enter any of the degree courses at Massey Agric. Coll. should supply with their applicn. full details of the undergraduate course or graduate course already taken, in order that their probable position as regards admission *ad eundem statum* might be made known to them. Subsequently, formal applicn. must be made to the Registrar of the Univ. of N.Z., and for this purpose students should bring with them evidence of their academic standing and of any degree obtained at their former Univ., including the syllabus of the course taken. The first yr. (Interm.) of degree courses cannot be taken at Massey but may be taken either at one of the four main Univ. Colls. in the Dominion or at an overseas Univ. For other than degree courses no examn. qualification is required but certain pre-course practical experience is called for. The minimum age of entry is 18 yrs. See also p. 990.

DEGREES AND DEGREE COURSES. B.Agr.Sc. and B.Agr.Sc. (Hort.)—1 yr. (Interm.) taken elsewhere, plus a 3-yr. Professional course here. B.Agr.Sc. (Dairy Tech.)—1 yr. (Interm.) taken elsewhere, plus a 4-yr. Professional course taken here. M.Agr.Sc., M.Agr.Sc. (Hort.), and M.Agr.Sc. (D. Tech.)—Normally, 1 yr. following the Bachelor course but in some cases, especially overseas students, 2 yrs. are required. Ph.D.—A 2-yr. full-time course open to candidates who have been admitted to a Master's degree of Univ. of N.Z. (either by examn. or by admission *ad eundem statum*) at the standard of 1st or 2nd Class Hons. **CERTIF. OF PROFICIENCY**—Any matriculated person may undergo a course in any one or more subjects of the degree courses for Univ. of N.Z. Certif. of Proficiency in that subject or subjects.

DIPLOMAS, CERTIFICATES. Dipl. in Agric. (Dairy Farming and Sheep Farming options), Dairying (Buttermaking, Cheesemaking or Market Milk options), Hortic., Wool and Wool Classing. Dipl. courses, except Dairying, cover 2 yrs. Dairying—3 winter terms. Certif. in Poultry farming—1 yr. Various short courses also available.

Facilities available for postgrad. study or res. in most branches of agric.

FEES. Ph.D. and Master's Degrees, £12 : 10s. ; Professional course for B.Agr.Sc., B.Agr.Sc. (Hort.), B.Agr.Sc. (D. Tech.), £67 : 10s. spread over

period of course ; Dipl. in Agric. (Sheep Farming) and Dipl. in Hortic., £45 ; Dipl. in Agric. (Dairy Farming), £30 ; Dipl. in Wool Classing, £25 ; Dipl. in Dairying, £30.

POSTGRADUATE SCHOLARSHIPS. Coll. Scholps.—Farmers' Union Scholp., Catherine Baxter Scholp., Shell Scholp., John Alexander Hurley Scholp. Univ. of N.Z. Scholps.—Macmillan Brown Agric. Res. Scholp., Res. Scholps., Shirlcliffe Scholps. Sir James Gunson Scholp. (of Auckland Univ. Coll.). National Res. Scholps. Of the above scholps., one National Res. Scholp. is available to U.K. graduates in sci. for res. in N.Z.

The DAIRY RESEARCH INSTITUTE AND THE GRASSLANDS DIVISION (D.S.I.R.), which are the centres for N.Z. for dairy and grasslands res. respectively, are located at the Coll. Both institutions co-operate with the Coll. in the provision of material for teaching and for postgraduate res.

STUDENT RESIDENCES. 2 men's hostels accommodating 270. One women's hostel accommodating 25. Fees, per week, Men—£3 : 7 : 6 ; Women—£3 : 5s.

UNIVERSITIES OF THE UNION OF SOUTH AFRICA

HISTORICAL SUMMARY (originally contributed by Professor Ritchie of Cape Town, revised by Sir Carruthers Beattie, formerly Vice-Chancellor of the University of Cape Town, and subsequently revised annually by the Vice-Chancellors' Committee). The history of higher education in S. Africa covers but a comparatively short period of time. It may be said to have had its beginnings when, in 1829, the S. African College (now incorporated in the Univ. of Cape Town) was founded, as a proprietary institution, by a number of progressive citizens of Cape Town, assisted by subscribers from various parts of the country. This institution was, at its inception and for a long time afterwards, not much more than a higher-class school, but it had within it the possibilities of growth and started with very high aims. It had a very chequered history for some time, and was on more than one occasion in danger of extinction, but it gradually acquired a stronger position on ceasing to be a proprietary institution and receiving support from the public funds. For 20 years it remained the only educational establishment in S. Africa which aspired to anything beyond the range of elementary education, but in 1849 a rival College (the Diocesan) was started under the ægis of the Episcopalian Church at Rondebosch, a suburb of Cape Town. A few years later, in 1855, a somewhat similar College, St. Andrew's, was founded in Grahamstown, in the eastern part of the Cape Colony. Under the Governorship of Sir George Grey there was founded, in 1855, the Grey College at Bloemfontein in the Orange Free State, the first attempt at higher education beyond the borders of the then Cape Colony. None of these Colleges was well equipped, and most of the work done by them was school work rather than Univ. work, but they gradually acquired a growing influence and formed centres at which development was only a question of time. A very strong impetus in the direction of higher education was given in 1858 by the establishment of a Board of Examiners in Literature and Science. This Board had in view in the first instance the testing by means of examination of the competency of candidates for the Civil Service and public offices, but it soon extended its scope and started examinations on more distinctively Univ. lines, corresponding roughly to Matricn., B.A. and M.A. The competition between the existing Colleges caused by these examns. had undoubtedly a strong influence on the growth of these Colleges and the greater attention paid to subjects beyond the mere school range. This Board continued to exist until 1873, when a successful attempt was made to institute a Univ. for S. Africa. The Univ. of the Cape of Good Hope, which was then founded, continued to exist until the beginning of 1918, when it was transformed into the Univ. of S. Africa, with its administrative seat at Pretoria. This Univ. was modelled

on the lines of London Univ., as then existing, as a purely examining body. It was governed by a Council, half of whose members were nominated by the Government, half elected by the members of Convocation. It had no constitutional connexion with the Colleges which prepared students for its examns., but the members of the Council who were elected by Convocation tended gradually to be almost entirely members of the teaching staffs of the various Colleges. In this indirect fashion the Colleges had a considerable influence on the development of the Univ. and the extension of the range and scope of its examns. Almost at the same time as the founding of the Univ. of the Cape of Good Hope there was passed by the Cape Parliament a Higher Education Act, which gave definite salary grants to the professors at recognized Colleges. This Act, together with the new impulse given to higher education by the new Univ., had a very marked influence on the development of the Colleges, which now began to increase in staff and numbers of students. The new College of Stellenbosch (afterwards the Victoria College and now the Univ. of Stellenbosch) was founded in 1874, and grew very rapidly, until it was a formidable rival of the older College at Cape Town. Other Colleges were founded also at Somerset East (Gill College) and Port Elizabeth (Grey Institute), but these had only a very short term of life. At a considerably later period, as S. Africa grew in population and wealth, other Colleges sprang into existence. A College for women (the Huguenot College) was founded at Wellington in 1898 and continued until the end of 1950, when it ceased to exist. In 1904 St. Andrew's College at Grahamstown separated its College department from its school, and the former became incorporated as the Rhodes College. In the same year a School of Mines which had been founded in 1896 at Kimberley was transferred to Johannesburg, and afterwards developed into a College for higher education generally, which is now the University of the Witwatersrand. In 1908 a Univ. College was founded at Pretoria,* and in 1909 a similar College was instituted at Pietermaritzburg, Natal.†

In 1904 there began a movement for the institution of a teaching, in place of the examining, Univ., and the controversy regarding the rival claims of a federal and a single-college Univ. continued for a number of years. An Inter-Colonial Conference on Univ. Education in 1908 reported in favour of a federal scheme, but nothing came of its decision. A new factor in favour of a teaching Univ. was introduced by the munificent gifts for this purpose of Mr. Alfred Beit, his brother, Mr. (later Sir) Otto Beit, and Sir Julius Wernher. In consequence of these gifts, various attempts were made by the Government to solve the knotty question of reconciling claims of the existing Colleges with the institution of one or more teaching Univs. A parliamentary committee deliberated on the subject in 1913, and a Commission was appointed in the same year and, after taking evidence, issued its report in 1914. This Commission proposed two Univs., one consisting of a federation of the S. African College and the Victoria College, the other of a federation of the remaining Colleges (Rhodes College being allowed

* Now the University of Pretoria.

† Now the University of Natal.

the choice of joining whichever federation it pleased), but the proposal led to no practical result, chiefly owing to the objection on the part of the two oldest and strongest Colleges, at Cape Town and Stellenbosch, to the loss of their independence. The problem was at length solved in 1916 by giving charters to both the S. African College and the Victoria College, and by the reincorporation of the old Univ. of the Cape of Good Hope as a federal Univ. embracing all the other Colleges under the name of the Univ. of S. Africa.

The three Acts passed by the Union of S. Africa in 1916 were to the following effect :

I. The Univ. of the Cape of Good Hope became the Univ. of South Africa, with its administrative seat at Pretoria.

II. The South African College became the Univ. of Cape Town, with which is incorporated the S. African College. Its seat is upon the Groote Schuur estate on the eastern slopes of Table Mountain.

III. The Victoria College, Stellenbosch, became the Univ. of Stellenbosch, with its seat in the division of Stellenbosch in the Province of the Cape of Good Hope.

These Acts also made provision for the establishment of a Joint Matriculation Board (*see* Appendix I) and a Joint Committee for Professional Examinations (*see* p. 1031).

The three new Universities of Cape Town, South Africa and Stellenbosch came into being in 1918. The University of South Africa began with six constituent colleges, viz. : Huguenot (Wellington) ; Johannesburg ; Natal (Pietermaritzburg) ; Orange Free State (Bloemfontein) ; Rhodes (Grahamstown) ; and Transvaal (Pretoria).

In 1921 the teaching institution at Potchefstroom was admitted as a constituent college. It was not long, however, before a movement began for the incorporation of the constituent colleges as independent teaching Universities, except Huguenot which ended its career in 1951. The first constituent college to come into being as a University was that of Johannesburg (University of the Witwatersrand, Johannesburg, 1922) ; followed by Pretoria (University of Pretoria, 1930), Natal (University of Natal, 1949), Orange Free State (University of the Orange Free State, 1950), Rhodes (Rhodes University, 1951) and Potchefstroom (Potchefstroom University for Christian Higher Education, 1951).

With the disappearance of all its constituent colleges the University of South Africa was re-incorporated under the same name in 1951 as an examining body for external students. It has a Division of External Studies.

In 1923 the South African Native College at Fort Hare, established primarily for the benefit of the native races in South Africa, was incorporated under the Higher Education Act of that year and prepared students as external candidates for examinations conducted by the University of South Africa until its affiliation with Rhodes University in 1952.

Each of the nine Univs. is governed by Council and Senate.

The Senate of the Univ. of South Africa as reconstituted in 1951 consists of two members appointed by the Council, Director and Professor of the Division of External Studies and lectrs. of the Division

who are heads of depts. recognized by the Council for representation on the Senate, two representatives of the Senate of each of the other Univs. in South Africa, and not fewer than eight other persons who are Professors or lectrs. at the other Univs. in South Africa. The Senates of the other Univs. consist in each case of the Principal or Rector, the Vice-Chancellor, two additional members of the Council appointed for a prescribed period, and the Professors and, in addition, at Pretoria and the Orange Free State, Heads of Depts., and at Natal, Directors or Heads of such research institutes as fall under the control of the Council, and the Librarian of the University. At the Univs. of Cape Town and the Witwatersrand two Assessor members are elected annually by the Lecturers.

All the Universities offer degrees in the ordinary Arts and Sciences and one or more of them provide training for the following professions, e.g. *Agriculture*: Natal, Pretoria, Stellenbosch; *Architecture*: Cape Town, Natal, Pretoria, Witwatersrand; *Dentistry*: Pretoria, Witwatersrand; *Engineering*: Cape Town, Natal, Stellenbosch, Witwatersrand; *Fine Art*: Cape Town, Natal, Witwatersrand; *Forestry*: Stellenbosch; *Medicine*: Cape Town, Natal, Pretoria, Witwatersrand; *Music*: Cape Town, Orange Free State, Rhodes, Stellenbosch, Witwatersrand; *Theology*: Potchefstroom, Pretoria, Rhodes, Stellenbosch; *Veterinary Science*: Pretoria; *Commercial and Legal Training*: all the teaching Universities. Schools of African Life and Languages have been established at four of the Universities.

The training of secondary teachers has been left to the Universities, and all the institutions endeavour to carry out this training. The training of primary teachers is, to a much smaller extent, provided for in the Universities, the main work in this instance being carried on in training colleges under the provincial Departments of Education.

SCHOLARSHIPS. Open to graduates of all South African Universities: 1851 Exhibition Scholarships, £275 p.a. for 2 yrs. (in exceptional cases, 3 yrs.), tenable at any institution approved by Commissioners; Beit Fellowships, £240 p.a. for 2 yrs., tenable at Imperial College, London; H. B. Webb, maximum £300 p.a. for 2 yrs.; Union, £300 for 2 yrs. Open to graduates of the Universities of Cape Town and Stellenbosch: Croll Memorial, Porter, George Grey, Queen Victoria, Donald Currie, Ebdon, all £300 for 2 yrs.; W. Hiddings, £266 p.a. for 3 yrs.; Maynard, £90 p.a. for 2 yrs. The Ebdon scholarship is tenable only at Cambridge.

Elsie Ballot Scholarships, £400 p.a. for 2-3 yrs., tenable at Cambridge; basis of selection as for Rhodes Scholarships. Further information from the Joint Trustees (The Secretary, Ballot Scholarships, University Registry, Cambridge, and Barclay's Bank, D.C.O. (Trustee Department), Box 434, Pretoria).

For Rhodes Scholarships, see p. 437.

See also under the separate Universities.

TERMS. The academic year is usually divided into 4 terms, beginning in Feb. or March and ending Nov. or Dec. At Cape Town, Stellenbosch, Pretoria and the Witwatersrand there are two semesters or terms, beginning end of Feb. and end of July.

VICE-CHANCELLORS' COMMITTEE. The Vice-Chancellors of the Univs. acting as a Joint Committee (known as *The Vice-Chancellors' Committee*) have, in the exercise of powers conferred by the above-mentioned Acts, made joint statutes and regulations relating to the Joint Matricn. Board, the Joint Committee for Professional Examns., the administration of the Joint Scholarship Funds of the Univs., the admission of registered students of any one of the Univs. to any of the others, and a minimum period of attendance and minimum fees for the degree of Bachelor. They have power to formulate regulations dealing with any matters of common interest, such as the rotation between the Univs. of postgraduate scholarships administered by the Committee and the conditions of award, etc.; the conditions and award of essay prizes, etc. The Committee has also acted as the selecting body for Commonwealth and British Council Scholarships and Imperial Relations Trust Fellowships. The address of the Secretary (who is also Registrar, Univ. of Cape Town) is P.O. Box 594, Cape Town.

COMMITTEE OF PRINCIPALS. A Committee of Principals was constituted and accorded recognition by the Minister of Education and the Councils of University institutions. The Committee consists of the Principals of the Universities, University Colleges and the Director of External Studies of the University of South Africa. The Committee was established for the purpose of considering matters of common interest and acting on behalf of the institutions on matters not specifically assigned to the Vice-Chancellors' Committee.

S.A. UNIVERSITIES' BUREAU. A central bureau, called the South African Universities' Bureau, was established in 1950. The primary functions of the Bureau are to undertake the secretarial duties of the Committee of Principals and to act as liaison office of the Committee of Principals with the Association of Universities of the British Commonwealth. The address of the Secretary of the Bureau (who is also Registrar of the University of Cape Town) is P.O. Box 594, Cape Town.

ADMISSION. See Appendix I.

The **JOINT COMMITTEE FOR PROFESSIONAL EXAMNS.** (address—P.O. Box 392, Pretoria), consisting of 2 representatives of each of the Univs. (one for Law and one for Survey) and 5 persons appointed by the Govr.-General (of whom at least 2 must be for Law and 2 for Survey), controls and conducts: (1) Attorneys' Admission Examn., (2) Civil Service (Lower and Higher) Law Examns., (3) Examns. in Theory of Land Surveying, and (4) Examn. for Patent Agents. It also conducts, in certain cases, on behalf of the Supreme Court, the Advocates' Admission Examn. in Roman-Dutch Law and the Statute Law of the Union, and the Supplementary Attorneys' Admission Examination.

GENERAL INFORMATION

The University of Cape Town, with which is incorporated the South African
 College, created by Act 14 of 1916, came into legal existence on April 2, 1918,

when the Council took over a bequest by Sir Julius Wernher of £250,000 and a donation of equal amount from Sir Otto Beit, who added £50,000 to a lapsed bequest by Mr. Alfred Beit. For early history, see *Yearbook* for 1930 and Introductory Chapter, above.

A site for the Univ. was provided by Govt. at Groote Schuur, Rondebosch. An appeal for funds in commemoration of the centenary of the S.A. College in 1929 realized over £70,000.

The usual language of instruction is English but certain first-yr. courses in Sci. subjects are duplicated in Afrikaans.

LIBRARY. 240,000 vols., 30,000 pamphlets. Includes, *inter alia*, Medical Library—30,000 vols.; Music Library—books (3000), scores (10,000) and records (3500); Van Zyl Law Library (early Roman-Dutch Law) and Bolus Botanical Library. The Bolus Herbarium includes the Guthrie Collection of Cape flora.

FACULTIES. Arts, Commerce, Education, Engineering, Fine Art, Law, Medicine, Music, Science and Social Science.

DEGREE COURSES. 3 yrs.—B.A., B.Soc.Sci., B.Sc. (Pure Sc.), B.Com.; 4 yrs.—B.A. (Fine Art), B.Mus., B.Sc. (Applied Sc., Engin. or Land Surveying); 5 yrs.—B.Arch., B.Sc. (Quantity Surveying), LL.B.; 6 yrs.—M.B., Ch.B. Higher degrees: M.A., M.Arch., M.A. (Fine Art), M.Soc.Sci., 1 yr.; B.Sc. (Hons.), M.Sc., 1 yr.; M.Com., 1 yr.; B.Ed., 2 yrs., after approved Bachelor's degree; M.Ed., 2 yrs., after approved Master's or equivalent degree. The M.A., M.Sc., and M.Com. courses are open to graduates of any approved Univ.; so also are courses for the Ph.D. (open to Bachelors of at least 3 yrs.' standing), and D.Litt., D.Sc. (open to Bachelors of at least 5 yrs.' standing), for which attendance for 2 yrs. may be required. The M.Com. is open to B.Com. of 3 yrs.' standing. The LL.M. is open to LL.B. of 2 yrs.' standing; the LL.D. is open to LL.B. or LL.M. The M.Sc. in Engineering is restricted to graduates in Engin. of the Univ. (2 yrs.' standing).

DIPLOMA COURSES. 1 yr.—Analytical Chemistry, Librarianship, Native Administration (lower diploma), Native Education, Nursing, Public Health (postgraduate); 2 yrs.—Native Administration (higher diploma), Social Sciences; 3 yrs.—Commerce, Fine Art, Music, Speech Training and Elocution; 5 yrs.—Architecture.

CERTIFICATE COURSES. 1 yr. postgraduate—Secondary Teacher's; 3 yrs.—Ceramics, Commercial Art, Fine Art, Higher Primary Teacher's, Music, Speech Training.

OTHER COURSES. Classes for students in Agric. and Theol. proposing to graduate in those subjects elsewhere.

RECOGNITION OF AND BY OTHER INSTITUTIONS. Attendance at the Univs. of Stellenbosch, Witwatersrand and Pretoria is accepted, under certain conditions, as part of the attendance qualifying for degrees. Attendance on classes in Physics, Chem., Bot. and Zool. is accepted by Aberd., Brist., Durh., Edin., Glas., Liv., Manc., Dub., R.C.P. Lond., R.C.S. Eng.; so also are examns. in the Fac. of Arts on the sp. courses in these subjects (except by Dub.). Attendance on courses in Anat. and Physiol. is accepted by Aberd., Durh., Edin. and Glas., R.C.P. Lond. and R.C.S. Eng.; examns. in the Fac. of Arts in these subjects are accepted by Aberd. The Dent. course is recognized by the R.C.S. Eng., R.C.P.S.Ed. and Edin. Dental School; the Hyg. course by the Conjoint Boards of Eng., Eire, Edin. and Glas.

FEES. The annual academic fee is fixed so as to cover all charges for a student's registration, classes and laboratories, ordinary Univ. examns., gradua-

tion, library, athletics, Students' Socs. and, in the case of medical students, hospital fees for clin. instructn. The annual fee varies according to the course which is being taken, but is uniform throughout the normal duration of the course. B.A. and B.Soc.Sc., £53; B.A. Fine Art, £56; B.Sc., £64; B.Arch., £73 for 4 yrs. and £33 for 1 yr.; B.Ed., £53; LL.B., £55; M.B., Ch.B., £80; B.Mus., £66-£80; Master's degree—Arts, £44; Sci., £53; Educn., £44; Fine Art and Archit., £33; Engin. and Law, £22; Med., £28; Doctor's degree, £20.

A Jagger Scholarship of the annual value of £200, tenable for 3 (or possibly 4) years subject to satisfactory conduct and progress, offered to a student from Gt. Britain proposing to take his degree at the Univ. of Cape Town.

Open postgraduate scholarships in Agriculture (£200 p.a. for 2-3 yrs.).

TRAVELLING CONCESSIONS. On production of a certificate signed by the Registrar, all full-time students may travel by rail, under certain conditions, at *reduced fares*—viz. the concession is only allowed on return tickets via the most convenient direct all-rail route from home to the Univ. and back; it does not apply to married persons, or to students attending classes for the law certifi. and civil service law examns. Students who have obtained a degree are not eligible for season tickets at concession rates for daily travel.

The Union-Castle Steamship Co. gives concessions to students travelling coastwise between ports from Cape Town to Mombasa, inclusive (applicable only to whole-time scholars and students who have not graduated and who are not married): (a) Students travelling from home to school or Univ. or *vice versa*: *Single tickets* at single fare, according to age, less 10 per cent. *Return tickets* at the single adult fare, plus 10 per cent. The period of availability may be extended to 12 months on application. (b) All other students: *Return tickets* will be granted at excursion rates, available for period of vacation.

Certificates must include age, home address and, when on vacation, the period of such vacation.

The Union-Castle Co. and other Steamship Cos. grant a 10 per cent. reduction on the ordinary fare to students proceeding overseas on vacation or for further study.

RESIDENCE. Hostels for 300 men and 200 women. Board, laundry and residence, £120 p.a. Fuller Hall; Warden: Mrs. D. G. Emmett, B.A. Liv. Smuts Hall; Warden: J. B. GENERAL INFORMATION

Established by an Act of 1909, Natal University College was opened in 1910 in the Town Hall and moved in 1912 to its own buildings (which, with equipment, cost £60,000) in the suburb of Scottsville, Pietermaritzburg. A new Science block and a women's hall of residence were added in 1921 and a residence for men in 1928. A new wing was added in 1934 and a Library and Fine Arts School in 1936. In 1926, a site of 50 acres at Stellawood, Durban, was presented by the Corporation of the City of Durban, for the erection of an Engineering College. An amount of £50,000 was donated by Mr. T. B. Davis in 1924 for this purpose. Howard College, as it is called to-day, was opened in Durban in 1931. A new Commerce Building, situated on a central site in the city of Durban, was added in 1936. By virtue of Act No. 4 of 1948, the Natal University College was incorporated as the University of Natal. It came into legal existence as an independent University on March 15, 1949, and, in addition to fulfilling its previous functions, is now entitled to examine its own students and grant degrees and diplomas.

The University consists of the Chancellor, Vice-Chancellor, Principal, Council, Senate and Convocation of the University; the professors, lecturers, and other teachers; the directors or heads of research institutes controlled by the Council; and the students of the University. The Chancellor, elected by the Council, is the head of the University, and as such is empowered, in the name of the University, to confer all degrees. The chief academic and administrative officer of the University is the Principal, who is *ex officio* a member of the Council and the chairman of the Senate. The Council, which elects its own chairman, is the governing body of the University and administers its affairs and property.

FACULTIES AND DEANS. *Agriculture*, Prof. E. R. Orchard; *Arts*, Prof. G. H. Durrant; *Commerce and Public Admin.*, Prof. T. H. Kelly; *Education*, Prof. A. Lloyd; *Engineering*, Prof. J. R. Daymond; *Law*, Prof. G. M. J. Sweeney; *Medicine*, Dr. G. W. Gale; *Science*, Prof. S. F. Bush; *Social Science*, Prof. L. Kuper.

The Facs. of Arts (and Dept. of Fine Arts), Sci., Law, Educn. and Agric. function in Pietermaritzburg. In Durban, the Facs. of Arts, Med., and Sci. (with limited choice of subjects), Law, Engin., Commerce and Public Admin., Social Sci. and Dept. of Archit. function.

LOCATION. The Univ. is the only Univ. inst. in S. Africa which functions in two large cities, viz. Pietermaritzburg and Durban. These cities are 56 miles apart. One Council and one Senate control the Univ. as a whole, and meetings are held in alternate centres. A certain amount of duplication of work in both centres is inevitable.

LIBRARIES, ETC. Pietermaritzburg: approx. 25,000 vols. Durban, at Howard College and at City Bldg.: approx. 14,000 vols.; Non-European section (Sastri College grounds): approx. 3000 vols. **TEACHING HOSPITAL** (non-European medical students): King Edward VIII Hosp. **BENNETT CHILDREN'S CENTRE.** **NATAL AGRICULTURAL RESEARCH INSTITUTE** (of which the Fac. of Agric. is a part).

ADMISSION. See Appendix I. Students who are not qualified, or who do not desire, to take a regular course may be admitted to individual classes, provided the prof. or lectr. concerned is satisfied that they are competent to profit by the instruction given. Students who have S.A. Jt. Matricn. Bd. School Leaving Certifs. may, in certain cases, obtain conditional exemption from the Matricn. Examn. which would entitle them to enrol for degree courses.

LANGUAGE OF INSTRUCTION. English.

NON-EUROPEAN SECTION. This is a separate section (temporarily housed in Sastri College belonging to the Natal Provincial Admin.) of the Univ. which has been established in Durban. The students, who are drawn mostly from the teaching profession, are pt.-time and take degrees in Arts, Commerce and Admin., and Social Science. Most of the classes are held at week-ends. The

full-time staff of the Univ. organize and conduct the work. For some subjects pt.-time staff are engaged annually. The newly established Fac. of Medicine for Non-European students has commenced its activities at Wentworth College, where medical students will receive their period of pre-medical training extending over 2 yrs.

GRADUATES' ASSOCIATION. Prior to 1949 the chief assocn. of graduates was known as the Natal University College Union, founded in 1922. With the attainment by the College of Univ. status, some of the functions of the Union have devolved upon Convocation, and a cttee. has been appointed to consider the relationship of the Union to Convocation.

In subsequent yrs. of study other than the first yr. for all facs. except med., a reduction of from £2 : 10s. to £10 p.a. is granted. *Residence Fees*, £100 p.a.

STUDENT ORGANIZATIONS. The Athletic Union, which functions in both seats of the Univ., is the chief student organization, whose function it is to exercise control over the activities and finances of the various sporting clubs in each centre. There is also a Jt. Athletic Union organization which concerns itself mainly with sporting tours undertaken by Univ. clubs. Information concerning the various Student Socs., Clubs and Cttees. is issued by the Students' Representative Council in each centre. The S.R.C. is the body elected to deal with all student affairs and is the students' official avenue of approach to the authorities of the Univ.

RESIDENCE. (For Wardens see "Administrative and other Staff," *supra*.) GENERAL INFORMATION

Founded 1869, the present University was admitted in 1929 as a constituent Coll. of the University of South Africa under the name of the "Potchefstroom University College." An amendment to the Potchefstroom University College Private Act was passed by Parliament in 1933, whereby the original name, Potchefstroom University College for Christian Higher Education, was again

adopted. In 1950 Parliament passed a private Act whereby the Coll. became the Potchefstroom University for Christian Higher Education. This status was assumed as from March 17, 1951.

GENERAL INFORMATION

Founded 1908, when Univ. classes in Arts, Sci. and Law were established at Pretoria by the Transvaal Govt. and placed under the control of the Council of the Transvaal Univ. Coll., Johannesburg, the constitution of that body being altered so as to give Pretoria equal representation. A separation took place in 1910, the Johannesburg section being re-incorporated as the S.A. Sch. of Mines and Technol., whilst the Pretoria section retained the name of the Transvaal Univ. Coll. By Act No. 13 of 1930 the Coll. was incorporated as the Univ. of

Pretoria, the higher status being assumed on Oct. 10, 1930. In 1917 a Fac. of Agric. was instituted, financial provision for which (an endowment of £100,000) had been made by the last Parliament of the Transvaal in 1910. The following Facs. have since been established: 1918, Theol.; 1919, Comm. and Pub. Admin.; 1920, Vet. Sci.; 1923, Music; 1937, Educn.; 1943, Med.; 1950, Dent.

The Univ. consists of the Chancellor, the Vice-Chancellor, the Rector, the Council, the Senate and Convocation, together with the Profs., other teachers and students of the Univ. The Rector is *ex officio* Chairman of the Senate.

FACULTIES AND DEANS (1952). *Agriculture*, Prof. J. J. Theron; *Arts*, Prof. G. Cronjé; *Commerce and Public Administration*, Prof. E. M. Hamman; *Dentistry*, Prof. P. B. M. Joubert; *Education*, Prof. B. F. Nel; *Law*, Prof. L. I. Coertze; *Medicine*, Prof. L. J. te Groen; *Science*, Prof. H. L. de Waal; *Theology*, Prof. S. P. Engelbrecht and Prof. E. P. Groenewald; *Veterinary Science*, Prof. P. J. J. Fourie.

The Fac. of Agric. is one of 3 in S.A. It specializes along different lines from that at Stellenbosch, particular attention being paid to study of farming in summer rainfall area of S.A. There is an Experimental Farm (*Telephone*: 4-4517) one mile east of main Univ. site. The Fac. has two functions: (a) *Educational*: serving as teaching instn. for training of agriculturists and agric. engineers. Courses for Bachelors' degrees cover 4 yrs. and candidates may specialize in any branch of agric. Postgrad. work may be taken, and about 20 per cent. of students enrolled follow postgrad. courses. (b) *Research*: The Fac. is also a res. inst. whose work falls under direct control of Dept. of Agric. of the Union Govt. In this respect it functions as a division of the Dept.

The Fac. of Vet. Sci. (*Telephone*: 5-2411) was grafted on to the Vet. Res. Lab. at Onderstepoort, one of the largest vet. res. insts. in the Commonwealth. The most important subjects of res. comprise protozool., virus and bacterial diseases, helminthol., entomol., poisonous plants, mineral metabolism and other nutritional problems, sterility in cattle and sheep and other obstet. and physiol. problems.

The Clin. Bldgs. of the Fac. of Med. are in the grounds of Pretoria General Hospl. (*Telephone*: 2-9741). The Inst. of Pathol. is in Beatrix St., Pretoria (*Telephone*: 3-0811).

AFFILIATED INSTITUTION

THE UNIVERSITY COLLEGE OF FORT HARE (formerly the S.A. Native College), P.O. Fort Hare, C.P. (Telephone: Alice 20.) Founded 1916. Principal—C. P. Dent, M.Sc. S.A.

GENERAL INFORMATION

The beginnings of Rhodes University date from 1855, when St. Andrew's College was founded at Grahamstown. For many years, this School prepared students for degree examns., as well as for the usual school examns. In 1878, the School established a separate College dept. for the purpose of preparing students for the examns. of the Univ. of the Cape of Good Hope. In 1904, generous financial support from the Rhodes Trustees, the citizens of Grahamstown and the public bodies of the Eastern Cape, made it possible to separate this Coll. dept. from the Sch. and it was incorporated by Act of Parliament as Rhodes University College. The Coll. continued to prepare students for the degrees of the Univ. of the Cape of Good Hope until 1916, when it became a Constituent Coll. of the Univ. of S. Africa. In 1949, Parliament passed an Act

incorporating the Coll. as Rhodes University, which came into being on March 10, 1951. From the same date, the S. African Native Coll. was affiliated to the new Univ.

The Univ. now owns an impressive array of buildings erected progressively since 1914 on an excellent site, the nucleus of which was donated to the Coll. by the Govt. All the bldgs., which comprise administrative, academic and residential blocks, are situated within easy reach of one another, and of the Univ. sports fields.

The Leather Industries Research Inst. originated as a Tanning Res. section of the Chem. Dept. and gradually developed, until in 1942 it was able to move into a separate bldg. and became an independent Dept. In 1946, it was formally constituted as a Research Inst. under the control of the C.S.I.R., but it still remained closely associated with the Coll.

CONSTITUTION. The Univ. consists of the Chancellor, the Principal, who is *ex officio* the Vice-Chancellor, the Vice-Principal, who is *ex officio* the Pro-Vice-Chancellor, the Council, the Senate and the Convocation, together with the profs., lectrs., other teachers and the students.

GENERAL INFORMATION

The Victoria College developed from the Stellenbosch Gymnasium, founded in 1866, in connexion with which the Facs. of Lit. and Philos., Maths., and Phys.—the so-called "Arts Dept."—were established in 1874. In 1881 the Arts Dept. was granted a charter and accorded its status and constitution as the "Stellenbosch College" by private Act of Parlt. In 1887 (the year of the Golden Jubilee) Her Majesty consented to the College's being named "The Victoria College of Stellenbosch." By the Univ. of Stellenbosch Act, No. 13 of 1916, the Coll. on April 2, 1918, was incorporated as the University of Stellenbosch, and in addition to fulfilling its previous functions is entitled to examine its own students and grant degrees.

The Fac. of Agric. aims at the promotion of agric. sci. and development of agric. in the Union. Particular attention is given to the training of future farmers. By Act No. 45 of 1926, the Elsenburg Sch. of Agric. and the Fac. of Agric. of the Univ. were amalgamated to constitute "The Stellenbosch-Elsenburg College of Agriculture of the University of Stellenbosch." In accordance with this Act, the Fac. of Agric. and For. "shall be for all purposes the Fac. of Agric. of the Univ. and shall have all such rights and privileges and be subject to all such duties as are laid down by the Univ. of Stellenbosch Act, No. 13 of 1916." By this amalgamation the Fac. of Agric. and For. is brought

into more intimate touch with practical farming and matters relating thereto, so that its activities are more extensive than those of the original fac. In close connexion with the Univ. is the Western Province Fruit Res. Stn. of the Union Dept. of Agric., where there are facilities for postgrad. res. in all branches of fruit production and fruit and vegetable processing. Several of staff members of the Res. Stn. are members of teaching staff of the Univ. The Dept. of For. is attached to the Fac. of Agric.

Res. work forms an important part of the activities of this Univ. In Depts. of Educational Psychol., Psychol., Sociol., Geog., Hist., Agric., Bantu Langs., Ethnol., Afrikaans-Nederlands, Geol., Biol., Law and Econ., special attention is devoted to South African problems. Since 1923, the results of res. work have been published regularly in the *Annals* of the Univ. The Univ. Council also awards a special grant for carrying on scientific investigational work.

GENERAL INFORMATION

For early history, see *Yearbook* for 1929, p. 518. In 1921 University College, Johannesburg, was reincorporated as the University of the Witwatersrand, Johannesburg, with effect from March 1, 1922. This development was made possible partly by support from the public, including contributions by the Chamber of Mines (£50,000), Standard Bank of S.A., Nat. Bank of S.A., Central Mining and Investment Corporation, and De Beers Consolidated Mines, Ltd. (£10,000 each), Sir Otto Beit (£8000), and many others, amounting in all, up to the end of 1922, to over £220,000. The Municipality provided a fine site (100 acres) at Milner Park, a mile from the centre of the town. Expenditure on buildings and lay-out up to Dec. 31, 1950, amounted to £1,545,000. **LIBRARIES** : Central, and several departmental. **MUSEUMS** : Several departmental.

ASSOCIATED INSTITUTIONS. There are several hospitals as well as the South African Institute for Medical Research in which students of Med. carry out a part of their curriculum.

FACULTIES AND DEANS. *Architecture*, Prof. J. Fassler ; *Arts*, Prof. J. M. Hyslop ; *Commerce*, Prof. C. S. Richards ; *Dentistry*, Prof. J. C. M. Shaw ;

THE UNIVERSITIES OF INDIA

[Specially contributed for this edition by Samuel Mathai, M.A. Oxon., Secretary of the Inter-University Board of India.]

THE Universities of India are not descended from ancient seats of learning like Nalanda and Taxila, but are a result of the "British connection." The unsettled conditions of the country in the 18th century had brought education to a low ebb; and when the East India Company became rulers of the country they were confronted with the task not only of restoring political order but also of setting up an educational system suited to the needs of the day. When the problem of education was taken up by the Company there were two schools of thought: one held that the education of India must consist in the main of Oriental classics and Eastern learning; the other argued that the best thing for Indians was to learn the English language and acquire a knowledge of Western literature and science. The "Anglicists" triumphed over the "Orientalists": the Company decided to set apart money for "English" education in India. Meanwhile English schools and colleges had already been established in the "Presidency towns" of Calcutta, Bombay and Madras at the beginning of the 19th century by British missionaries and others, and leading Indians had expressed themselves in favour of English education.

The first proposal for founding a University in India was made by the Council of Education in Bengal in 1845, but was not accepted by the Board of Directors of the East India Company, who thought it somewhat premature. But during the parliamentary enquiry into the condition of India which preceded the renewal of the Company's charter in 1853 the need to create a properly articulated system of education from the Primary School to the University stage was recognized. As a result of this, the foundations of University education were laid in the country by the establishment of the Universities of Calcutta, Bombay and Madras in 1857. The model for these Universities was London University which was then a new institution. London at that time was a purely examining body, admitting to its tests only students trained in affiliated institutions. As the Calcutta University Commission of 1917-19 pointed out, this system of affiliation of collegiate institutions by a University which confined itself to examining the candidates sent up by these institutions "had the advantage of costing very little. It enabled all the existing collegiate institutions, whether Government or missionary, to be worked into the same scheme, and promised to provide a quite impartial mode of testing the qualifications of students for Government service. Above all, it gave freedom to the non-Government Colleges—all, at that date, mission colleges—to carry on their work in their own way, and offered them help from public funds for the secular side of their work."

For twenty-five years the three Universities of Calcutta, Bombay

and Madras were found adequate to the tasks entrusted to them. But during this time, with the establishment of new colleges in various towns, the territorial jurisdiction of these Universities increased greatly. The jurisdiction of the University of Calcutta extended at one stage from the Panjab to Burma, covering the whole of North India. The creation of the Universities of the Panjab (now in Pakistan) and of Allahabad in 1882 and 1887 relieved Calcutta University of some of its responsibilities.

For nearly thirty years more no addition was made to the number of Universities in India. But important reforms in the constitution and functions of the existing Universities were recommended by the Act of 1904, which was based on the report of a Universities Commission appointed by Lord Curzon, then Governor-General of India. This Act empowered the Universities to appoint professors and lecturers of their own, to set up museums, libraries, and laboratories, and to undertake teaching. As a result of this Act some of the Universities set up University colleges and made arrangements for postgraduate teaching at the University—although the bulk of the teaching continued to be carried on by the affiliated colleges.

In 1913 the Government of India issued a Resolution drawing attention both to the need for more Universities and for a better type of University education. "At present," the Resolution observed, "there are only five Indian Universities for 185 arts and professional colleges in British India besides several institutions in Native States. The day is probably far distant when India will be able to dispense altogether with the affiliating Universities. But it is necessary to restrict the area over which affiliating Universities have control, by securing, in the first instance, a separate University for each of the leading provinces in India, and, secondly, to create new local teaching and residential Universities within each of the provinces in harmony with the best modern opinion as to the right road to educational efficiency."

This Resolution led to the birth of a number of new Universities in the first quarter of the 20th century. Yet another influence on University educational policy in India was the Calcutta University Commission under the chairmanship of Sir Michael Sadler, which deliberated from 1917 to 1919. In addition to supporting the move towards unitary residential, teaching Universities, the Commission recommended that Universities should be relieved of their Intermediate * work so that they might concentrate on real undergraduate and postgraduate work. Although Calcutta University itself did not put into effect most of the recommendations of the Sadler Commission, those recommendations greatly influenced the growth of University education in other parts of India. Not only have a number of unitary Universities been established, but new affiliating Universities have been created to relieve older Universities of part of their territorial jurisdiction or to enable them to become unitary Universities.

In 1948, the Government of India appointed a University Education Commission "to report on Indian University Education and suggest improvements and extensions that may be desirable to suit present and

* See COURSES, p. IIII.

future requirements of the country." The Commission's report was published in 1949.

There are to-day 29 Universities in India. They are, in the order of their foundation : Calcutta, 1857 ; Bombay, 1857 ; Madras, 1857 ; Allahabad, 1887 ; Banaras Hindu, 1916 ; Mysore, 1916 ; Patna, 1917 ; Osmania, 1919 ; Aligarh Muslim, 1920 ; Lucknow, 1921 ; Delhi, 1922 ; Nagpur, 1923 ; Andhra, 1926 ; Agra, 1927 ; Annamalai, 1929 ; Travancore, 1937 ; Utkal, 1943 ; Saugar, 1946 ; Rajputana, 1947 ; Panjab, 1947 ; Gauhati, 1948 ; Roorkee, 1949 ; Poona, 1948 ; Jammu and Kashmir, 1948 ; Maharaja Sayajirao University of Baroda, 1949 ; Karnatak, 1950 ; Gujarat, 1950 ; Visva-Bharati, 1951 ; Bihar, 1952.

Of these, Allahabad, Banaras, Aligarh, Lucknow, Annamalai, Roorkee, and Visva-Bharati are unitary Universities. The creation of Bihar University with its headquarters at Patna has relieved Patna University of its affiliating functions ; Patna University is now confined to the city of Patna, but it is not strictly a unitary University as the teaching is carried on in a number of autonomous colleges in the city. Similarly the University of Delhi was until recently a semi-unitary University, made up of constituent colleges, but the latest amendment of the Delhi University Act has given it certain affiliating functions. Both Patna and Delhi are, however, in the technical sense, "teaching Universities."

Of the others, all except Agra University have important teaching functions, although they are in the main affiliating Universities. Agra has some fifty colleges scattered over the States of Uttar Pradesh and Madhya Bharat under its jurisdiction. It was created to enable Allahabad to become a unitary University. The Universities of Jammu and Kashmir and Panjab (India) are the result of the partition of the Indian sub-continent into India and Pakistan. The colleges in these two territories were formerly affiliated to the University of the Panjab (Lahore), and it became necessary after the partition to create new Universities to which they could be attached.

Roorkee and Visva-Bharati are unique institutions in India. Roorkee is an Engineering University. It grew out of the Thomson Engineering College and at present has only a Faculty of Engineering. Visva-Bharati, which was given a charter by the Government of India in 1951, was founded as an international cultural centre by the poet Rabindranath Tagore in 1921. It has certain distinctive characteristics of its own and is an attempt "to develop a basis on which the cultures of the East and West may meet in common fellowship."

In addition to the Universities mentioned above, mention must also be made of two other institutions which have University standing. Serampore College (near Calcutta), founded in 1818 by European missionaries, received in 1827 a Royal Charter from King Frederick VI of Denmark (to which Serampore then belonged) and this was confirmed by the British Government in 1845. But this Charter was not utilized till 1915 when degrees in Divinity were granted by the University for the first time. The position now is that in the Faculties of Arts and Science Serampore College is affiliated to Calcutta University, but in the Faculty of Theology the College functions as an independent University.

The Shreemati Nathibai Damodher Thackersey Indian Women's University (usually known as "Women's University") at Bombay was founded in 1916 to provide an education "specially suited to the needs and requirements of women." The University has now received a Charter from the Government of Bombay and awards its own degrees.

Although the growth in the number of Universities is, to a very great extent, the result of splitting up the older Universities, it does imply an increase in the number of persons receiving a University education.* The growth of the University population in India has raised several problems. While on the one hand this growth is an expression of a commendable desire to participate in higher learning, it is also, to some extent, the result of the absence of sufficient vacancies in industry and business for boys and girls leaving school. The presence in the Universities of a number of students who cannot benefit by a University education tends to affect academic standards. Also the somewhat rapid spread of University education raises problems of staff, library, and laboratory equipment, suitable buildings for teaching and for residence. The problem of the medium of instruction is an added difficulty to the situation. Experiments in using an Indian language as the medium of instruction at the University stage are being tried by two or three Universities. Elsewhere English is still the medium. But the standard of English has been affected adversely in recent years by several factors, not the least of which is a psychological one.

University authorities, however, are conscious of these problems and difficulties, and efforts are being made to deal with them. It may be hoped that after the initial period of unsettlement caused by political, economic and psychological factors, the Universities will be able to settle down to teaching and research of the highest order consistent with the scholarly traditions of India.

CONSTITUTION. There are variations in the constitutional framework of the different Universities, the functions of the various "authorities" being somewhat different in each case. But the general pattern is the same. The authorities of Universities are the Executive Council (called the Syndicate in some Universities), the Court or Senate, the Academic Council and the Faculties. The Executive Council (or Syndicate) and the Court (or Senate) have the responsibility of framing Statutes and Regulations and dealing with all matters connected with the organization and administration of the affairs of the University. They are composed of persons representing various interests in the life of the University and the community in which the University exists. Most of the members of these bodies are elected by different constituencies, but a few are nominated by the Chancellor.

The Academic Council deals with academic questions generally, and is chiefly concerned with courses of study and the organization of teaching and examinations. It co-ordinates the work of the various Faculties of the University. The usual Faculties are those of Arts, Science, Medicine, Law, etc. The head of a Faculty is called the Dean

* The total number of students in the Universities and Colleges of India is approx. 360,000 (including about 40,000 in Intermediate Colleges).

and is usually a Professor of the University. It is the Dean's business to attend to the framing and working of the various courses of study in his Faculty. A Faculty usually has several Boards of Study to help it to frame syllabuses in different subjects, to appoint examiners, etc. Faculties which are concerned exclusively with subjects of post-graduate study, such as education and law, tend to become somewhat like autonomous colleges ; but Faculties of Arts, Science, etc., have to co-ordinate the work of undergraduate and postgraduate classes, and, in the case of the affiliating Universities, have to deal with a large number of institutions. These Faculties consist of a number of Departments (*e.g.* English, Sanskrit, History, etc.) and each Department has its own Head or Chairman or Director who is responsible to the Dean.

AFFILIATION OF COLLEGES. Applications for affiliation are generally submitted to the Syndicate, which must be satisfied as to the managing agency, teaching staff, provision for residence of students, equipment, financial resources, suitability of fees, etc. If granted, the course or courses in respect of which the College is affiliated are specified. Affiliated Colleges must comply with requests by the Syndicate for information, submit themselves to inspection under the Syndicate's orders, and take such action as may be ordered consequent upon such inspections. In Calcutta University affiliation questions are dealt with by the Senate. The powers of affiliation by the University can, in some Universities, only be exercised subject to the approval of Government.

TERMS. University examinations are, with few exceptions, held between March and June. Admissions are made as a rule in June or July, though in some cases regular work does not commence till Sept. or Oct. Some Universities have two terms in the year and the others have three.

ADMISSION TO THE UNIVERSITIES. The examination qualifying for admission to a University in India is the School Leaving or Matriculation Examination taken at the end of the high school course. In some parts of the country the Matriculation Examination is conducted by the University. Elsewhere it is conducted by the Government or by a High School Board. Overseas certificates like the London Matriculation Certificate, the Univ. of Cambridge Local Examinations Syndicate's Higher School Certificate, the Oxford Local Examinations Delegacy's Higher School Certificate, and General Certificates of Education awarded by the same bodies, are also accepted as entrance qualifications. In Uttar Pradesh, there is a Board of Intermediate Studies which provides a 2-year course after the School Leaving Examination and holds the Intermediate Examination which is the entrance qualification to the Universities of Allahabad, Lucknow and Agra. In Delhi there is a Higher Secondary course which is a year longer in duration than the typical High School course in the rest of India, and the passing of the Higher Secondary Examination (conducted by a Board of Higher Secondary Education) entitles a student to admission to the 3-year course of the Delhi University. Students who have passed the Matriculation or School Leaving Examination have to put in a year's Preparatory work at the University and to pass a Qualifying Examination which

is equivalent to the Higher Secondary Examination.

COURSES. The ordinary University course (other than certain professional courses) is of 4 years' duration after Matriculation. At the end of the first 2 years there is the Intermediate Examination. Students may choose one of a number of groups of subjects and the Intermediate Examination may be one in, for example, Arts or Science or Agriculture or Commerce. The successful candidate then commences the B.A., B.Com., B.Sc. or other Bachelor degree course. The degree course is usually of 2 years' duration. At the end of the 2 years a student appears for the degree examination (B.A., B.Com., B.Sc., etc.). The successful candidate obtains a Pass or Honours degree according to courses taken or marks obtained. In some Universities, however, there are, in addition to the 2-year Pass courses, separate Honours courses which are of 3 years' duration after the Intermediate.

After the Bachelor's degree, there is the Master's degree, which is awarded after a further period of 1 or 2 years of study and passing a further examination. In the Universities of Annamalai, Andhra, Madras and Travancore, however, Honours graduates in Arts and Science are awarded the Master's degree without further examination after the lapse of a certain period of time. Therefore, in these Universities the M.A. or M.Sc. degree examination is identical with the B.A. or B.Sc. Honours examination.

Most of the Universities have, in addition to courses in Arts and Science, also professional and technical courses in Agriculture, Commerce, Education, Engineering and Technology, Law, Medicine (including Nursing, Pharmacy, Veterinary Science, etc.), Indian Music, Oriental Languages, etc. The usual degrees are Bachelor of Science in Agriculture (B.Sc.Ag. or B.Ag.), Bachelor of Commerce, Master of Commerce (B.Com. and M.Com.), Bachelor of Teaching (B.T.) and Master of Education (M.Ed.), Bachelor of Engineering or Bachelor of Science in Engineering (B.E. or B.Sc.Engg.), Bachelor of Science in Technology (B.Sc.Tech.), Master of Science in Technology (M.Sc.Tech.), Bachelor of Laws and Master of Laws (B.L. or LL.B. and M.L. or LL.M.), Bachelor of Medicine and Surgery (M.B., B.S.), Master of Surgery (M.S.), Doctor of Medicine (M.D.), Bachelor of Science in Nursing (B.Sc. Nursing), Bachelor of Pharmacy (B.Pharm.), Bachelor of Veterinary Science (B.V.Sc.), Bachelor of Oriental Languages, Master of Oriental Languages (B.O.L., M.O.L.). There are, in addition, several "Titles" in Oriental Languages given by different Universities. These titles, which are usually Sanskrit or Arabic or Persian, signify various degrees of achievement in the Oriental Language studied. The literal meaning of some of the titles would be "the proficient one," "the learned one," "the skilled one," "the expert," "the great teacher," etc. The standard of scholarship for the titles is usually quite high, but nomenclatures are used in different Universities with different significances. The names of degrees at Visva-Bharati are different from those at the other Universities.

Agriculture. B.Sc.(Ag.) is a 2-year course after the Intermediate at Agra, Allahabad, Baroda, Calcutta, Gauhati, Gujarat, Karnatak, Nagpur, Osmania, Patna, Poona; and the Universities of Andhra,

Banaras, Bombay, Delhi, Madras, and Mysore have a 3-year course after the Intermediate. At the Panjab and Rajputana Universities the degree is called B.Ag. and is of 2 years' duration after the Intermediate.

Commerce. With the exception of Annamalai, Jammu and Kashmir, Roorkee, Travancore, and Visva-Bharati, all the other Universities have a Commerce degree course which is usually of 2 years' duration after the Intermediate. At Agra, Delhi and Panjab Universities it is a 3-year course. At Rajputana it is a 2-year course for those who pass the Intermediate Commerce Examination and 3-year course for others. Madras has a B.Com. Honours course which is of 3 years' duration. The M.Com. course is of 2 years' duration after the B.Com.

Education. Except Andhra, Roorkee and Utkal, all the Universities have courses in Education. The B.T. or B.Ed. is a postgraduate course of 2 years' duration. There are also in several Universities diploma courses in Education which are of 1 year's duration.

Engineering. The B.Sc.Engg. or B.E. course is a post-Intermediate course. At the Universities of Aligarh, Andhra, Annamalai, Calcutta, Madras, Osmania, Panjab, Rajputana, Saugar, and Travancore, it is a 4-year course. At Agra, Banaras, Mysore, Patna, it is a 5-year course. At Roorkee it is a 3-year course and at Baroda, Bombay, Gujarat and Poona it is a 3½-year course.

Law. With the exception of Andhra, Jammu and Kashmir, Roorkee and Visva-Bharati, all the Universities have courses in Law. The B.L. or LL.B. is a postgraduate course of 2 years' duration at all the Universities except at Bombay, where it is a 2-year course after the Intermediate. At Andhra a post-Intermediate course of 3 years is available in addition to a postgraduate course of 2 years. The LL.M. or M.L. degree can be taken 2 years after the B.L. or LL.B. degree.

Medicine. The M.B., B.S. course is of 5 years' duration after the Intermediate at the Universities of Agra, Bombay, Delhi, Gujarat, Nagpur, Osmania, Panjab, Rajputana, Travancore and Utkal. At Andhra, Calcutta, Gauhati and Mysore, it is of 5½ or 6 years' duration. At Lucknow and Madras it is a 4-year course after the Intermediate. Aligarh has courses in Unani Tib * (B.U.T.) which is of 5 years' duration. Banaras has a course in the Ayurvedic system of Medicine, which is of 6 years' duration. The degree given is *Ayurvedacharya*.

Degrees in Veterinary Science, which are usually of 4 years' duration after the Intermediate, are given by the Universities of Agra, Bihar, Bombay, Madras and Saugar. Degrees in Nursing are given by the Universities of Calcutta, Delhi and Madras. It is a 2-year course after the Intermediate at Calcutta, a 4-year course after the Qualifying Examination at Delhi and a 3-year course at Madras. Degrees in Pharmacy are given after a 3-year course after the Intermediate by the Universities of Agra, Banaras, Bombay, Madras and Rajputana.

Oriental Languages. Titles and degrees in Oriental Languages are given by the Universities of Allahabad, Andhra, Annamalai, Banaras,

* Traditional system of Medicine usually practised by Muslim physicians ; distinct from *Ayurveda*, the traditional Hindu system of Medicine.

Jammu and Kashmir, Lucknow, Madras, Nagpur, Osmania, Patna, Rajputana, Travancore, Utkal, and Visva-Bharati. The duration of the course varies greatly. Some are post-school, and some postgraduate. The "titles" correspond to degrees and diplomas.

Theology. Degrees in (Hindu) Theology are awarded by the University of Banaras after various courses. Aligarh awards degrees of Bachelor, Master and Doctor in (Islamic) Theology. Osmania also has Bachelor's, Master's and Doctor's degrees in (Islamic) Theology. Serampore College awards the B.D. and M.Th. degrees and L.Th. diploma in (Christian) Theology.

The Master's degree course requires specialization in one subject. The Master's degree course is not usually a research course, but in some Universities there is provision for a dissertation to be presented by a candidate in lieu of a part or the whole of the M.A. or M.Sc. examination. There is also provision in some Universities for part of the course to be completed in the first year (called M.A. or M.Sc. Previous examination), so that for the final examination candidates have to prepare only the rest of the course.

Research degrees are usually of the same pattern as in British or American Universities. Students select a field of research and under the guidance of a teacher appointed for the purpose work for at least 2 years after a postgraduate degree and present a thesis. Except where M.A. or M.Sc. is a research degree, the first research degree is Doctor of Philosophy (Ph.D. or D.Phil.). There are higher degrees like D.Litt. and D.Sc. In the Faculty of Law there is the degree of Doctor of Laws (LL.D.) for which one may supplicate with a thesis. The higher doctorates may also be conferred on distinguished persons *honoris causa*. Some Universities have a junior research degree called Master of Literature (M.Litt.).

COST OF LIVING. The cost of living varies in different Universities. In colleges in the smaller towns it may be about Rs. 70 p.m.* inclusive of tuition fees, and in the larger cities it may be twice as much or more. Conditions of life vary greatly from place to place and hostel to hostel, and no simplified general statement of the cost of living can be given which would be of much practical value. A large number of Indian University students are, however, "day scholars" who have only to pay tuition fees to their College or University and whose cost of living depends on the standard of living in their homes.

INTER-UNIVERSITY BOARD. In 1920 a Committee was formed for drafting an outline of the functions and constitution of an Association of Indian Universities. The project was further advanced at the Congress of Universities of the British Empire at Oxford in 1921 and at a Conference of Indian Universities held at Simla in 1924.

In accordance with a resolution passed by the Simla Conference, the Inter-University Board was established to co-ordinate the work of the Universities and to provide a forum for the exchange of information and opinion among the Universities. The Universities of Ceylon and Rangoon (Burma) are members of the Inter-University Board of India.

Sundaram, M.A. Madr., B.A. Oxon.

Indian students who propose to proceed abroad for further study or research are strongly advised to consult their University's Foreign Universities' Information Bureau or the Advisory Committee of their Province. They should also consult the *Handbook for Indian Students—A Guide to the Facilities for University and Professional Studies and Training in the United Kingdom*, which is published by the Education Dept. in London; the 8th edition was published late in 1938 and reprinted in 1946. A new edition is in course of preparation. An annual Report on the work of the Dept. is also published. Copies of both these publications may be obtained from the Office of the High Commissioner for India; or in India, through the Agents for the sale of Government publications.

The number of Indian students at present pursuing courses in the U.K. is approx. 2750 and the Officers of the Education Dept. keep in touch with them by regular visits to the various Univs., Colls. and other institutions and by personal contact in London.

GENERAL INFORMATION

Act VIII of 1926 of the United Provinces Legislature, which received the assent of the Governor-General on Oct. 20, 1926, provides for the establishment of a University "for the purpose of affiliating the colleges associated with the University of Allahabad..." so as to set the latter free to function as a unitary, teaching and residential institution. It empowers the Agra University to affiliate colleges in the Uttar Pradesh, Madhya Bharat, Vindhya Bharat, Ajmer and Bhopal, except within the limits of the Universities of Allahabad and Lucknow. To supplement the work in affiliated colleges the University may institute teaching posts at selected centres.

Five categories of persons are to be eligible, subject to prescribed conditions, for degrees and other academic distinctions : (a) candidates who pass the University's examinations after pursuing an approved course at an affiliated college ; (b) teachers who pass the University's examinations ; (c) inspecting officers in the Department of Education who pass the University's examinations ; (d) research workers ; (e) women who have carried on private study. Lectures and instruction may be provided by the University for, and diplomas may be granted to, persons other than students of an affiliated college.

The supreme governing body of the University is the Senate, the other principal authorities being the Executive Council, Academic Board, Board of Inspection, and Faculties of Arts, Science, Law, Commerce, Agriculture, Engineering, Medicine and Veterinary Science. The Vice-Chancellor, an honorary officer elected by the Senate, is the principal executive and academic officer.

Students are not eligible for admission to a degree course unless they have passed the Intermediate Examination of the Board of High School and Intermediate Education of the Uttar Pradesh, or of an Indian University incorporated by law, or an equivalent examination.

The Act came into force on July 1, 1927, and all the constituent bodies of the Univ. have been formed. The Univ. held its first examns. in 1928.

The usual languages of instruction are English and Hindi.

GENERAL INFORMATION

The Mohammedan Anglo-Oriental College, founded in 1875, became, under the Aligarh Muslim University Act of 1920, a unitary residential University, with Univ. School and Intermediate College attached as separate institutions. The Intermediate Coll. was abolished in 1932, the Intermediate classes being absorbed in the University proper. The Muslim University School is a feeder to the Univ. and a practising school for the Training College. The Univ. also maintains the Muslim University City High School run on less expensive lines, a Tibbiya College and an Institute of Technology to impart instruction in

GENERAL INFORMATION

Founded in 1887, the Univ. concerned itself mainly with examinations, having no teaching staff (except that of its School of Law) until 1914. Thereafter it established Chairs and Readerships, etc., for research work in Economics and Modern History for graduate students. In Jan. 1922 was passed an Act (which came into operation in July 1922) for the reorganization of the Univ. as a unitary, teaching, and residential institution, with control, however, over the quality and character of the teaching in "Associated" colleges. The Muir Central College became the nucleus of a teaching University, the jurisdiction of which was limited to a territorial area of ten miles' radius from the Convocation Hall of the Univ. Within this area there are six institutions which supplement instruction given in the Univ. The Women's Dept., which undertakes full instruction for the degree course, has now been transferred from the Crosthwaite Girls' College to the Univ. area. From the commencement of the session July 1922, the Agricultural Institute, Naini (Allahabad), was recognized as a Coll. for the B.Sc. degree in Agriculture. From commencement of session July 1950, the C.M.P. Degree Coll. and the Ewing Christian Coll. were recognized as colls. for B.Sc. classes.

LIBRARY, 140,767 vols. Darbhanga Reading Hall. There are also departmental libraries for the use of teachers. A **LABORATORY** is attached to each of the Depts. of Physics, Chem., Bot., Zool. **MUSEUMS** in connexion with Econ. and Com. Depts. **ART COLLECTION**: A beginning has been made with a project for an Art Gallery. D. N. Bonarjee of Gola Gokarnnath and others have presented valuable paintings.

English is the usual language of instruction. From July 1951, however, as an optional and experimental measure, Hindi has been introduced in some of the undergrad. classes.

FACULTIES AND DEANS. *Arts*, Prof. A. C. Mukerji; *Commerce*, Prof. J. K. Mehta; *Law*, Prof. K. K. Bhattacharya; *Science*, Prof. S. Ranjan.

GENERAL INFORMATION

The Act of the Madras Legislative Council constituting the Andhra Univ. "in and for the Telugu districts of the Presidency of Madras" received the assent of the Governor-General on Jan. 13, 1926, and came into force on April 26, 1926. By a later Act, the area has been narrowed down by the exclusion of certain districts, leaving the following within the affiliating jurisdiction of the Univ. : Srikakulam, Visaktapatnam, East Godavari, West Godavari, Kistna, Guntur and Nellore. The Act establishes five categories of colleges : " University Colleges," providing for pass and hons. or postgraduate courses for higher degrees ; " First Grade Colleges," providing courses for the ordinary degrees in Arts or Science ; " Second Grade Colleges," preparing for the Inter. Examn.; " Professional Colleges," providing courses in Agric., Engin. and for medical degrees, and " Oriental Colleges (Recognized)," providing courses for Oriental titles.

Among the powers of the University specified in the Act are : to promote

the development of the study of Telugu, Kanarese, Urdu, and Oriya, and their use as media of instruction and examination ; to institute professorships and other teaching posts ; to maintain colleges and hostels ; to erect, equip, and maintain laboratories and libraries ; to institute and provide funds for the maintenance of a publication bureau, an employment bureau, students' unions, and University Extension boards. Every student of the University must reside in a hostel or under prescribed conditions.

The supreme governing body is the Senate, by which the Vice-Chancellor, a whole-time salaried officer and principal executive, is elected (for 3 years). The other principal authorities of the University are : an executive body called the Syndicate (comprising 16 members, including the Vice-Chancellor, Financial Secretary to the Local Government, and Director of Public Instruction, Madras) ; the Academic Council ; the Faculties and the Boards of Studies.

GENERAL INFORMATION

As the result of an offer by Rajah Sir S. R. M. Annamalai Chettiar of Chettinad to transfer to a residential teaching University, if one were founded, the Sri Minakshi College for higher instruction in English, the Sri Minakshi Tamil College, and the Sri Minakshi Sanskrit College which he had established and maintained, together with an endowment of 20 lakhs of rupees, the Government of Madras passed an Act in 1928 accepting the offer and providing for the establishment of the Annamalai University. Government also provided 27 lakhs of rupees towards the endowment fund, a recurring grant of one and a half lakhs a year, and, subject to conditions agreed between Government and the University, a sum of seven and a half lakhs for building and equipment.

The authorities of the University under the Act are : (1) the Senate, (2) the Academic Council, (3) the Faculties, (4) the Boards of Studies, (5) the Syndicate, (6) the Finance Committee, and (7) the Board of Selection. The Chancellor, the Pro-Chancellor, the Vice-Chancellor, the Senate, the Academic Council, and the Syndicate constitute the body corporate of the University. The Vice-Chancellor is the principal executive officer, who holds office for 3 yrs. and is appointed by the Chancellor on the nomination of the Founder.

Under the Act, residence in a hostel or lodgings maintained by the Univ. is compulsory for all students. The warden of the hostel regulates attendance and exercises disciplinary control and supervision over the students. An important feature of the working of the hostel is the close association of students in the management of the affairs of each section.

English is the usual language of instruction.

Physical Training is compulsory for all students, and weekly lectures on Physiology, Health and Hygiene are delivered for their benefit.

GENERAL INFORMATION

Bombay University was established in 1857, but until the passing of the Indian Universities Act of 1904, the function of this University, in common with the others, was limited to examining candidates and arranging for the courses of study which led up to its degrees. Under the Act of 1904, it acquired the right of organizing teaching, arranging for Univ. extension lectures, and of publishing such works as were necessary for the direct educational work it was to carry on. By the Act of 1928, the constitution of the Univ. was considerably altered. By reducing the proportion of the nominated to the elected members in the Senate, and by throwing open the Senate to the representatives of a larger variety of interests, the Act of 1928 ensured the independence of the Univ. for all practical purposes, and made the Univ. a more popular and representative institution than it had been. Under the new Act, the executive functions of the Univ. are carried on by the Syndicate, and most of the academic work is looked after by the Academic Council.

One of the main ideas underlying the Univ. Act of 1928 is that the Univ. should directly conduct postgraduate teaching and res. in all branches of

learning. The Univ. has accordingly arranged for postgraduate instruction and research through its own depts. as well as through the teachers in affiliated colls. and recognized postgraduate institutions, recognized as Postgraduate Teachers of the Univ. The Univ. School of Economics and Sociology was started in 1919 with Prof. Patrick Geddes as the first Prof. The Univ. Dept. of Chemical Technology was established in 1934 with the help of donations from generous philanthropists. The Univ. Depts. of Statistics, and of Civics and Politics, started functioning during the year 1948-49. The Dept. of Civics and Politics formed part of the Sch. of Econ. and Sociol.

As far as undergraduate education is concerned, the Univ. is an affiliating Univ. Before the establishment of the Univ. of Sind and of regional Univs. in Bombay State, the jurisdiction of this Univ. extended over the whole of the former Province of Bombay and Sind. The Univ.'s jurisdiction is now confined to the limits of Greater Bombay, and the Univ. is to be reconstituted in the near future in view of the establishment of regional Univs. in Bombay State.

CONSTITUTION. The Senate is the supreme Governing Body of the Univ. The executive govt. is vested in the Syndicate. The other authorities of the Univ. are the Facs., the Bd. of Postgraduate Studies, and the Bds. of Studies in the various Facs. The Bd. of Postgraduate Studies controls the whole of instruction and res. in the Univ., including what is done in this direction in the Colls. affiliated to the Univ. and in other Postgraduate Institutions.

The Univ. Dept. of Chem. Technol. is located in its new bldgs. at Matunga, Bombay 19 (*Telephone* : 61308). The Sch. of Econ. and Sociol. (including the Dept. of Civics and Politics) and the Dept. of Statistics are housed in the S. Wing of the main Univ. bldgs.

INCOME (July 1, 1950, to June 30, 1951). Bombay Govt. Grant, Rs. 6,40,247 (20·35 per cent.); Central Govt. Grant, Rs. 1,30,865 (4·16 per cent.); Examn. Fees, Other Fees, etc., Rs. 16,13,623 (51·28 per cent.); Subscription and other sources, Rs. 4,47,776 (14·23 per cent.); Interest from Endowments, Rs. 3,14,217 (9·98 per cent.); total, Rs. 31,46,728.

GENERAL INFORMATION

In July 1854 the Court of Directors of the East India Company sent a despatch to the Governor-General of India in Council directing the organization of the Universities of Calcutta, Madras and Bombay. In pursuance of that despatch the University of Calcutta was incorporated on Jan. 24, 1857, for the purpose of "ascertaining, by means of examination, the persons who have acquired proficiency in different branches of Literature, Science and Art and rewarding them by Academical Degrees as evidence of their respective attainments and marks of honour proportioned thereunto." Modelled on the University of London, then a purely examining body, the functions of the University were limited to the conduct of examinations and the award of degrees. The jurisdiction of the University extended at first throughout practically the whole of northern India. But with the establishment of other Universities and partition of Bengal on account of recent political changes in India the territorial jurisdiction has now been limited to the State of West Bengal only, and further limited by the establishment of Visva-Bharati Univ. The West Bengal Secondary Educn. Bd. has taken over the Univ.'s control of management and examn. of about 1100 High Engl. Schools in W. Bengal.

In 1864 an Act was passed by which the Universities of Calcutta, Madras and Bombay were empowered to confer the honorary Degree of Doctor in the Faculty of Law.

In 1902 a Commission was appointed by Lord Curzon to examine the working of the Universities in India, and on their recommendation the Indian Universities Act of 1904 was passed, which came into force on Sept. 1, 1904. Under section 3 of Act VIII of 1904, the University became empowered, among other things, to make provision for the instruction of students, to appoint University Professors and Lecturers, to hold and manage educational endowments, to erect, equip and maintain University libraries, laboratories and museums, and to make regulations relating to residence and conduct of students. Though most of the teaching continued to be imparted in the affiliated colleges, teaching in some of the higher branches began to be organized under University management. Assisted by grants from the Imperial Government and by private benefactions, it was possible for the University to arrange for Postgraduate teaching and research from 1909. The organization of higher teaching and research was made by the Senate mainly on the initiative of the late Sir Asutosh Mookerjee, Vice-Chancellor from 1906 to 1914 and again from 1921 to 1923.

In 1917 a new scheme for Postgraduate teaching and research was brought into operation, providing for the centralization of Postgraduate teaching in Calcutta within, and under the control of, the University. The departments of Postgraduate teaching in Arts and Science were placed under two Councils, with two Executive Committees, responsible directly to the Senate. The

University now provides for Postgraduate teaching in: (1) English; (2) Sanskrit; (3) Pali; (4) Arabic; (5) Persian; (6) Hebrew; (7) Syriac; (8) Greek; (9) Latin; (10) French; (11) German; (12) Modern Indian Languages, Bengali, Hindi, Urdu, Assamese, Oriya; (13) Comparative Philol.; (14) Mental and Moral Philos.; (15) History (including Ancient Indian History and Culture and Islamic History and Culture); (16) Economics; (17) Political Science; (18) Commerce; (19) Maths. (Pure and Applied); (20) Physics (Pure and Applied); (21) Chemistry (Pure and Applied); (22) Physiol.; (23) Botany; (24) Geol.; (25) Zool. and Comparative Anat.; (26) Psychol.; (27) Anthropol.; (28) Statistics; (29) Geography; (30) Applied Psychology; (31) Radio-Physics and Electronics; (32) Education.

Provisions for B.Sc. (Technol.) Courses in Jute, Textile and Leather Technol. have been made and arrangements for teaching are being made in some Colls. which have sought affiliation. M.Sc. (Tech.) courses in Appl. Chem., Appl. Phys. and Radiophys. have been provided in Postgrad. Sc. Dept.

The Department of Postgraduate Teaching and Research in Arts is located in the Asutosh Building. Postgraduate Teaching and Research in the different branches of Scientific studies are carried on in the University College of Science at 92 Upper Circular Road and 35 Ballygunge Circular Road, where opportunities for research have been provided by the establishment of extensive Laboratories and an up-to-date Workshop. This has been possible mainly through the generosity of the late Sir Taraknath Palit, D.L., the late Sir Rashbehary Ghose, C.S.I., M.A., D.L., Ph.D., and the late Raja of Khairā. The University maintains a staff of whole-time and part-time teachers. The Institute of Nuclear Physics and the Institute of Radio-Physics and Electronics have been established at 92 Upper Circular Road.

The Univ. buildings include a Senate House, the Durbhanga LIBRARY with Law College, Hostel, and Univ. offices, the Univ. Press, the Asutosh Building for postgraduate classes in Arts, postgraduate offices and the Univ. library, three buildings for the teaching of Postgraduate Science courses at 92 Upper Circular Road and 35 Ballyganj Circular Road. LABORATORIES (in Univ. Coll. of Science): Phys. and Chem. (Pure and Applied), Applied Maths., Psych., Applied Psychol., Biol., etc. Inst. of Nuclear Physics. MUSEUMS: Asutosh Museum of Indian Art (including Art collections of the late Mr. Puranchand Nahar) and Museums attached to the Anthropological and Commercial sections of the Univ. The University Press is accommodated in a separate building at 48 Hazra Road, Calcutta.

The usual Language of Instruction is English.

CONSTITUTION. The Syndicate consisting of 17 members is the executive authority of the Univ. The Vice-Chancellor is the Chairman and the admin. is carried out by the Vice-Chancellor and Syndicate. The Senate, consisting of 100 elected or nominated members, 9 *ex-officio* members and the Chancellor, besides one honorary Fellow, is the supreme law-making body, having power of making appts. and creating posts and depts.

The newly passed Calcutta Univ. Act envisages many radical changes. Regulations in accordance with its provisions are being framed. It provides for Senate, Syndicate, Academic Council with larger representation of elected elements, besides normal Faculties, Bds., etc.; and for decentralization of postgrad. teaching.

RESIDENCE. There are four classes of lodgings for students : (a) Collegiate Hostels ; (b) Non-collegiate Hostels under external management ; (c) Messes, attached or unattached ; (d) Private Lodgings. Licences to Hostels under class (a) are granted by the Syndicate, while licences to the remaining three classes of lodgings are granted by the Students' Residence Committee—a subordinate body under the Syndicate, consisting of six members appointed annually from among the Members of the Senate. Seat rents vary from Rs. 7 to Rs. 12 p.m. Messing charges from Rs. 55 to Rs. 75 p.m. 41 such Hostels exist with total accomm. for 2359 students. Of these 7 are for women only, having 266 places. All these are located in Calcutta.

STUDENTS' WELFARE. Principals of Colls. and specialists in physical educn. deal with all matters relating to the health of students. Students' Infirmary.

SPORTS BOARD. Organizes inter-college physical activities and sports.

STUDENTS' ADVISORY BOARD (OVERSEAS). The University has established a Board for the purpose : (a) of supplying students wishing to pursue their education abroad with all the information, advice and assistance which they may require ; (b) of supplying the foreign Univ. authorities with information regarding the students which will enable them to make their selections from the applications forwarded.

APPOINTMENTS AND INFORMATION BOARD. Scheme prepared by a former Vice-Chancellor, Dr. Syamaprasad Mookerjee, for finding careers in business and industry for Univ. graduates and undergraduates, with co-operation of business houses and different industrial concerns, adopted by Senate on Jan. 23, 1937. Its object is to provide these young men with opportunities and facilities for practical training and ultimately for starting independent careers of their own, in the different branches of Trade, Industry and Commerce. Rs. 36,000 were originally sanctioned by the Univ. for the purpose and an Appointments and Information Board has been established, which has now become a permanent department of the University, with a salaried Secretary who is in touch with the various industrial and commercial firms and maintains a Register of candidates, with details of their qualifications and careers, seeking benefit under the scheme.

INSTITUTE OF JUTE TECHNOLOGY. Established under auspices of this Univ. by the Indian Jute Mills Asscn., through the efforts of the Asscn. and the Univ. Appts. Board, the Inst. has been located within the compound of the Univ. Coll. of Science at 35 Ballygunge Circular Road, Calcutta, 19. (*Telephone*: PK. 1985.) The maintenance of the Inst., under the management of a Governing body of which the Vice-Chancellor is the Chairman and the President of the Asscn. is an *ex-officio* member, will be financed by the Asscn. The Institute will train annually 50 Science grads. or undergrads. It has sought affiliation to the Univ. for B.Sc. (Tech.) classes in Jute Technol.

DEPARTMENT OF SOCIAL WORK. The Appointments Board, in collaboration with industries and Government of India, started the Diploma Course in Social Work for giving training to their Labour Welfare Officers. This Dept. every yr. trains 60 Labour Welfare Officers who come from different parts of India and Pakistan. The Univ. of Calcutta is the only training centre for the Government, both Central and States. The Scheme for starting an All India Institute of Social Welfare, where facilities for training both in general as well as industrial welfare will be provided, is now being finalized.

SPECIAL UNIVERSITY PROFESSORSHIPS, READERSHIPS AND LECTURESHIPS. Tagore Professorship in Law, Rs. 9000 ; Lady Brahmachari Readership

in Medicine, Rs. 2000; Tarinicharan Sur Readership in Nuclear Physics, Rs. 6000; S. N. Ghosh Lectureship in Comp. Religion, Rs. 9000; Kamala Lectureship in Indian Life and Thought, Rs. 2000 and a gold medal; also other lectureships.

SPECIAL LECTURES. With a view to promoting a desire for original investigation and research, eminent scholars from India and abroad are, from time to time, invited by the Univ. to deliver courses of lectures on subjects in which they have specialized. These lectures, after delivery, are printed and published by the Univ.

LIBRARIES. The University Library is under the management of the Library Executive Committee, subject to the general control of the Syndicate. It is for the use of Resident Fellows, Registered Graduates, Research Scholars, Readers, Professors, Lecturers, and students of Postgraduate classes, and Teachers of the Undergraduate classes of this University. It contains over 174,033 vols., excluding pamphlets and periodicals, and a fairly large collection of Bengali and Tibetan MSS. and Rotograph copies of Persian and Arabic MSS., 593 books of the Sung Dynasty Tripitaka were presented by the Consul-General for China. The Reading Hall accommodates over 300 readers at a time and remains open for 14 hours on all working days and 7 hours on Sundays.

Besides this Library, there are other Libraries attached to the Univ., viz. Law College Library and Libraries of the Departments of Science.

STUDENTS' UNIONS. There are Students' Unions in Colls. and various extra-academic activities are normally organized by them.

GENERAL INFORMATION

The University was established by the Delhi University Act (Act VIII of 1922). The three existing men's Colleges in Delhi—St. Stephen's Coll., Hindu Coll., and Ramjas Coll.—were recognized as Colls. of the Univ. and their teachers as Univ. teachers. The Univ. began to function with the Facs. of Arts and Science ; the Fac. of Law was instituted in 1924.

The original idea of the Govt. and Legislature was the establishment and incorporation of a unitary teaching and residential Univ. on the model recommended, in the case of Dacca, by the Calcutta Univ. Commission, and it was expected that such a Univ. would be developed gradually within five yrs. But this could not be achieved. The Univ. continued to recognize several colls. in which instruction was provided under prescribed conditions and in which provision was made for residence of students. Although the Univ. had been freed from the defects of a purely affiliating institution, it had given its constituent colls. ample scope to develop their resources in co-operation with each other and with the Univ. From 1933, when the Univ. was given a permanent home in the Old Viceregal Lodge, and plots of land in the Estate earmarked for the constituent colls., the idea of a federal Univ. gradually took shape. Both the Govt. of India and the Univ. authorities intended that the Univ. should be transformed into one of the federal type, in which each constituent coll. should be prepared to forgo some measure of its autonomy in order to share in, and contribute to, the life and govt. of the Univ. as a whole.

The last decade has witnessed rapid growth and development of the Univ.

When Sir Maurice Gwyer became Vice-Chancellor he submitted a five-yr. programme of development to the Govt. of India, which they accepted. The Govt. promised a grant of Rs. 37½ lakhs during 1943-48. With the aid of these grants, the Univ. instituted Professorships in Econs., Hist., Maths., Phys., Chem. and Bot., and the number of Readers and Lectrs. was also increased. The Univ. was also able to construct a number of new bldgs.

Postgraduate courses, limited to M.A. in the earlier years, were extended to other subjects. Owing to the large influx of population after 1947, the number of students has increased considerably and new Colls. have been started. The Delhi Sch. of Econ. and the Sch. of Social Work have become recognized institutions preparing students for the M.A. Degrees in Econ. and Social Work respectively.

The Univ. also accepted the extension of the degree course from 2 yrs. to 3 yrs. as part of the reconstruction scheme for Higher Sec. educn. in Delhi. The scheme includes *inter alia* : the abolition of the Inter. Examn., the extension of the High School Course by one yr. (i.e. extension from 10 to 11 yrs.), and the institution of a 3-yr. degree Course in the Univ.

To implement this idea an Act (Act No. XXIV of 1943) to amend Act VIII of 1922 was passed by the Central Legislature. The amending Act *inter alia* provides for the appointment of a whole-time paid Vice-Chancellor and has revised the Constitution of the Cttee. of Selection concerned with appt. and recognition of teachers. Teachers employed by the Colls. are "recognized" by the Univ. Such teachers can impart instruction only in approved subjects. All recognized teaching in connexion with courses of study is under Univ. control.

The Delhi University Amendment Act, 1952, has made important changes, based on recommendations of Univ. Educn. Commission, 1950. Apptmt. to membership of authorities will be by rotation by seniority instead of by election. The Univ. now becomes a teaching and affiliating Univ. The affiliated Colls. would, however, be permitted to impart instruction only up to Bachelor's degree. The jurisdiction of the Univ. has been extended over the whole of Delhi State, instead of being limited to a radius of 10 miles from Convocation Hall. The President of India, who was also the Chancellor, has now become the Visitor of the Univ. and the Chancellor will be an Officer elected by the Court. Provision has also been made for the apptmt. of a Pro-Vice-Chancellor, if need be, to assist the Vice-Chancellor.

CONSTITUTION. The Vice-Chancellor is the principal executive and academic officer of the Univ. The following are the principal Univ. authorities : the COURT, consisting of about 100 members ; the EXECUTIVE COUNCIL, which is the executive body of the Univ. It consists of about 17 members and controls and administers Univ. property and funds ; the ACADEMIC COUNCIL is responsible for the maintenance of standards of instruction, education and examn. within the Univ. It advises the Executive Council on all academic matters. Each FACULTY, subject to the control of the Academic Council, has charge of the teaching, courses of study and research work in such subjects as may be assigned to it by the Ordinances.

GENERAL INFORMATION

The University of Mysore was the first University to be founded in the Indian States. The two State Colleges which had long been affiliated to Madras Univ. formed the nucleus of the new University of Mysore. The establishment of the Univ. received the sanction of His Highness the Maharaja of Mysore in 1916. A regulation amending and consolidating the provisions of the Mysore University Regulation V. of 1916, as amended from time to time, received the assent of His Highness the Maharaja in 1933, and came into force on July 1, 1933.

The University aims at the unitary type, but there are two Univ. centres,

Mysore and Bangalore, one with two and the other with three constituent Colleges, including a Medical College and an Engineering College.

The University is empowered to affiliate Colleges under conditions prescribed in the Statutes and Ordinances.

There are 8 Intermediate Colleges for Men at Bangalore, Shimoga, Hassan, Davangere, Chitaldrug, Chikmagalur, Kolar, and Mandya and a Medical School at Bangalore. There are two First Grade Colleges, one at Mysore and another at Tumkur, and one Commerce College at Bangalore. There are 12 affiliated institutions—9 at Bangalore and 4 at Mysore. A separate Teachers' College has been established in Mysore.

The principal Univ. authorities are the Senate, the Council, the Academic Council and the Faculties.

The usual LANGUAGE OF INSTRUCTION is English.

GENERAL INFORMATION

The University was established in 1918, and its charter was revised in 1947 and 1950. It comprises 10 Facs., namely Arts, Sci., Religion and Culture, Comm., Med., Engin., Agric., Vet. Sci., Educn. and Law. There are 6 Univ. Colls., 2 Constituent Degree Colls. (including Women's Coll.), 7 Constituent Inter. Colls., 5 affiliated Degree Colls. (including Med. Coll.), 1 Law Coll., and 2 Evening Colls. (one Degree and one Inter.) for those in employment.

In all Degree and Inter. Colls. Engl. is main medium of instruction, but in a few Colls. parallel classes are conducted in Hindustani. In all professional courses Engl. is only medium of instruction. Compulsory Theol. and Ethics have been abolished and replaced by a regional or allied classical language, and General Sci. for Arts students and History of Civilization for Sci. students. The place of the Fac. of Theol. has been taken by Fac. of Religion and Culture, which also includes a study of Comparative Religion.

GENERAL INFORMATION

Following the partition of the Panjab, the University was established in Oct. 1947, under Ordinance No. VII, promulgated by H.E. the Governor of

the Panjab. This Ordinance was subsequently replaced by the Panjab University Act No. VII of 1947, with effect from Dec. 1, 1947. At present its jurisdiction extends over the Panjab, Patiala and East Panjab States Union and Himachal Pradesh.

The Univ. is a teaching, affiliating and examining body and is open to all irrespective of colour, creed, class or sex.

CONSTITUTION. The Univ. consists of the Chancellor, the Vice-Chancellor, the Senate, the Syndicate. The Governor of the Panjab is the *ex-officio* Chancellor of the Univ. The Vice-Chancellor is one of the Fellows of the University, nominated by the Chancellor. The Vice-Chancellor holds his office for a period of two yrs. but is eligible for reappointment. The Senate have the entire management of, and superintendence over, the affairs and property of the Univ. in accordance with the Statutes, Rules and Regulations. The Executive Government of the Univ. is vested in the Syndicate, which consists of : (a) the Vice-Chancellor as Chairman ; (b) the Director of Public Instruction, Panjab ; (c) fifteen *ex-officio* or ordinary Fellows elected by the Facs. The Registrar is the Chief Executive Officer of the Senate and the Syndicate.

The LANGUAGE OF INSTRUCTION is English, except in Classical and Modern Indian Language classes, where the medium of instruction is the lang. concerned, or an allied lang. As part of the policy of replacing English by Hindi and Panjabi, M.A. examns. in Sansk., Persian, Hindi and Panjabi are conducted also in those langs. respectively or in an allied lang.

THE YEAR 1950-51

The existence of Panjab University Camp Coll., New Delhi (founded to help refugee students) extended to 1955.

The Univ. is still without a central home. Efforts are being made to establish it in the capital of the state. For the present, postgrad. teaching has been centralized at Hoshiarpur in the Panjab Univ. Coll., previously known as Govt. Coll.

NATIONAL CADET CORPS. A no. of N.C.C. battalions have been allotted to 29 colls. for men. This Corps has taken the place of the Univ. O.T.C. Members of the N.C.C. may offer Military Sci. as additional optional paper (in place of additional optional vernacular) for the inter. and degree examns. The 3rd Panj. Girls' Troop of the N.C.C. has been raised in the Govt. Coll. for Women, Ludhiana.

CHANGES IN REGULATIONS. Any graduate of Panjab (Lahore) Univ. before 1948 on complying with conditions prescribed by the Univ. may be registered as a grad. of Panjab. (India) Univ., provided that he graduated not less than 5 yrs. before registration. Displaced students from Sindh who have settled within Univ.'s jurisdiction or in Delhi may appear in I.A. and I.Sc., B.A., B.Sc. and M.A. examns. as private candidates up to 1955, instead of 1952. Age limit for girl candidates appearing in Matricn. examn. removed. System of biennial examn. extended to O.T., M.I.L., M.A. and 1st Examn. in Agric. From 1953, examns. in Oriental Fac. and in Panjabi (Persian Script) are to be revived. Following new examns. have been instituted : Ph.D. in Med. Fac. ; M.Pharm. in Pharmacog. ; M.V.Sc. ; B.Sc. Text.

EXTENSION LECTURES. The Univ. has invited specialists to address the students in various colls. at central places. The lectures are of a general academic nature.

GENERAL INFORMATION

More than thirty years ago the idea of having a University in Maharashtra was conceived. It was felt that it would be difficult for the Univ. of Bombay, whose jurisdiction extended over four distinct linguistic regions, to provide adequate facilities to meet the demand for higher education throughout the entire province. Applications for admission to Colleges were increasing and even the holding of examinations was taxing the resources and organization of that Univ. In 1924, the Setalvad Committee on University Reforms, which recommended the establishment of regional Univs. in the Province of Bombay, pointed out the suitability of Poona as such a University centre. This project was taken up by leading educationists, literary associations and cultural organizations in Maharashtra, but it was not until 1942 that the Provincial Government appointed a committee to report on the form, constitution, jurisdiction and financial implications of a Univ. for Maharashtra. Although the committee, presided over by the Rt. Hon. M. R. Jayakar, submitted its report in the following year, difficulties created by the second World War prevented its implementation. It was not until 1948 that the Univ. of Poona was established; it occupied the old Government House, at Kirkee, which was provided by the Bombay Govt. The new Univ. is closely associated with the life and thought of the people of the region, which has a long and distinguished intellectual tradition. Though situated in Poona, the Univ.'s activities are spread over the whole area inhabited by the Marathi-speaking people. It is intended, as the Report of the Committee which framed its scheme observed, that the "Univ. will keep in view the special needs, interests and traditions of Maharashtra and its people without losing sight of its essential character as a University, *i.e.* a seat of universal learning which recognizes no frontiers except those of the human mind itself."

The Univ. of Poona, as envisaged by the Jayakar Committee and constituted by the Legislature, is neither a purely affiliating nor a purely unitary and teaching Univ. It combines the features of both these types. It aims at creating for the Poona area a central teaching organization beyond the intermediate stage of instruction, and the whole of the postgraduate teaching and research work in the entire University area will be conducted under its direct control. But up to the intermediate stage in the Poona area and the graduate stage in outside places, instruction will continue to be given by the Constituent and Affiliated Colleges subject only to the general supervision of the Univ. It is not contemplated that all the staff, equipment and bldgs. of such post-intermediate colleges in Poona will belong to the Univ. which will, however, be able to draw freely on these resources. The Univ.'s library,

laboratories and full-time teaching staff will be mainly used for postgraduate teaching and research in selected subjects. For the present, the Univ. has decided to appoint seven Profs. and four Readers as its own teachers in the different subjects.

Among the distinctive features of the constitution of the Univ. is its provision for the widest representation of the various elements in the life of the region in the composition of the Court, the general legislative and deliberative University body. Linking academic and non-academic sides is the Executive Council, which possesses complete control over the finances and routine working of the Univ. Apart from its general direction of policy, the Court has no control over the day-to-day business of the Univ.

No discrimination is made toward students on the ground of sex, race, creed, class or religious or political belief.

The usual LANGUAGE OF INSTRUCTION is English, except in Mod. Indian Lang. classes, where the lang. concerned is used.

FACULTIES AND DEANS. See p. 1275.

LIBRARIES. Univ. library : approx. 14,000 vols. Libraries of Affiliated Colls. and institutions : total of approx. 440,000 vols.

EXTERNAL DEGREES. There are two External Degrees : B.A. (External) and M.A. (External). Gainfully employed persons, and married women, residing within the Univ. area, are eligible to appear for these examns. externally, *i.e.* without keeping terms at any of the Affiliated Colls. The duration of the Degree Course is 6 yrs. from the Entrance Examn. as compared with the normal duration of 4 yrs. for regular internal students. A candidate must appear for and pass the Inter. Arts Examn. after 3 yrs. and is then due to appear for the B.A. (External) Examn. at the end of another 3 yrs. He qualifies for the Master's Degree after a further period of 3 yrs. For any of these 3 examns., students have to register by paying Rs. 10 as the Registration Fee in the yr. previous to yr. of examn.

RESIDENCE. The Univ. maintains a hostel which has accomm. for 30 postgrad. students. The Affiliated Colls. have their own hostels, accommodating a total of 3700 men and women students.

ADMISSION. The Univ. admits students who have passed the Matricn. or Entrance Examn. of any other statutory Univ. in the State of Bombay. The Univ. does not hold an Entrance Examn. of its own.

POSTGRADUATE RESEARCH. While the Univ. Depts. (*v. supra*) are mainly meant for postgrad. study and res., the four Constituent Recognized Institutions (*v. supra*) also do postgrad. res. through their staff as well as through postgrad. students registered with the Univ. and working in those institutions. The subjects of res. at the institutions are as follows : Bhandarkar Oriental Res. Inst.—Anc. Sanskrit and Prakrit Lit., Mahabharat Epic, and Anc. Indian Culture. Gokhale Inst. of Politics—Econ., Pol. and Stat. Deccan Coll. Postgraduate and Res. Inst.—Sansk., Compilation of Sansk. Dictionary, Sociol., Anthropol., Arabic, Maratha Hist., Anc. Indian Hist. and Culture. Maharashtra Asscn. for Cultivation of Sci.—Bot., Zool., Microbiol. and Biochem.

FEES. Fees charged up to first graduation are about Rs. 100 per term per student (extra lab. fees for Sci. students). Postgraduate students : Rs. 125 per term for Arts students and Rs. 150 per term for Sci. students. Besides

these tuition fees, students have to pay about Rs. 25 to Rs. 30 per yr. to the coll. authorities for gymkhana, library and other facilities.

EXTRA-MURAL WORK. The Bd. of Extra-Mural Studies was set up in 1950. Lectures on topics of general interest are frequently arranged under the Bd.'s auspices, and Profs. of the Constituent and Affiliated Colls. and other experts are invited to deliver lectures which are open to the general public.

SUMMER SCHOOL. In 1951 a Summer School was organized in the Univ. Chem. Dept. in which teachers in the Constituent and Affiliated Colls. and Postgraduate students participated.

LIBRARIES, ETC. Univ. Library, 25,000 vols. In addition, there are libraries at each of the Constituent and Affiliated Colls. and Recognized Institutions. The principal Meteorological Station and Observatory of India is located at Poona, and the India Met. Inst. attached thereto is a recognized place of Postgraduate res. of the Univ.

UNIVERSITY PRESS. The Univ. maintains a small Press.

GENERAL INFORMATION

The idea of a University at Jaipur—whether only for Jaipur State, or for the whole of Rajputana and Central India—can be traced to the twenties of this century. It was, however, on Jan. 8, 1947, that the Act for a federal University for Rajputana was promulgated by the States that had decided upon this joint action. In July of that year the Univ. began to function.

The jurisdiction of the Univ. extends over the ring-shaped region comprising the whole of Rajputana minus the centrally administered "island" of Ajmer-Merwara at the centre. The area consists of the former seven political units : (1) Bikaner, (2) Jaipur, (3) Jaisalmer, (4) Jodhpur, (5) Matsya Union (consisting of the former 4 states of Alwar, Bharatpur, Dholpur and Karauli), (6) Rajasthan Union (consisting of the former ten states of Banswara, Bundi, Dungarpur, Jhalawar, Kishangarh, Kotah, Pratapgarh, Shahpura, Tonk and Udaipur) and (7) Sirohi. The seven units were later integrated into a single political unit of Rajasthan (March 30, 1949) and the University Act was, in consequence, amended.

The Univ. controls the High School Examn. as well as Univ. education, and the Bd. of High School Education is one of the "Authorities" of the Univ. With the Senate at the base and the Syndicate as the apex, there are two bodies between them—the Academic Council to deal with collegiate questions and the Bd. of High School Educn. to look after the schools. This system of four "Authorities" forms a strong, stable structure for the Univ. The usual languages of instruction are English and Hindi.

INCOME (Jan. to Dec. 1950). Rs. 10,67,504, of which Rs. 3,82,749 was received from examn. fees. Expenditure during the yr. was Rs. 7,61,674.

FACULTIES AND DEANS. *Arts*, Dr. P. T. Raju ; *Commerce*, S. S. Saxena ; *Education*, Dr. K. L. Shrimali ; *Engineering*, V. Lakshminarayanan ; *Law*, K. S. Hajela ; *Medicine*, Dr. S. K. Menon ; *Science*, Dr. S. D. Arora.

TEACHING AND RESEARCH. There are now 3 teaching Depts. in the Univ.—Economics, Philosophy and Geology. The Dept. of Econ. is located at Jaipur and the Depts. of Philos. and Geol. are located at Jodhpur and Udaipur respectively. Both res. work and postgraduate teaching (M.A. or M.Sc.) are carried on in these depts.

GENERAL INFORMATION

The University was founded by Sir Hari Singh Gour, who gifted Rs. 20 lacs and appealed to both Central and Provincial Govts. to make suitable donations. The Govt. of Madhya Pradesh donated Rs. 10 lacs towards the Univ. Endowment Fund and made a further grant of Rs. 15 lacs towards bldgs. and equipment. They are also making a grant of Rs. 6 lacs a yr. towards the maintenance of the Univ. The Govt. of Madhya Pradesh have transferred to the Univ. 2050 acres of land, free of cost, at a site selected by the Univ. for the founding of the Univ. town. The permanent bldgs. of the Univ. are being constructed on the new site, which is on a plateau commanding extensive and

beautiful views and more than 2000 ft. above sea level. At least Rs. 1 crore will be necessary for the completion of the bldg. programme.

The Founder of the Univ. intended that it should be particularly concerned with Polytechnics. Accordingly, a scientific and technological faculty has grown up requiring expensive equipment and labs. and laying special emphasis on Sci., Phys., Technol., Engin. and Agric., along with a study of Arts and Social Sciences.

The Univ. is a teaching and residential as well as an affiliating Univ. and has on its register about 7000 students, of whom over 1000 are in residence in the Teaching Depts. at Sagar. Most of the members of the Teaching Staff live in the Univ. bldgs., and thus participate in the wider life of the Univ. A Course in General Knowledge is compulsory for all undergraduate students.

GENERAL INFORMATION

After the separation of Orissa from Bihar and the creation of a new Province of Orissa in April 1936, a strong desire was expressed among the leaders of the Province to establish a separate University in Orissa. In 1942 a Committee was formed under the presidentship of Pandit Godavarish Misra, M.A., B.T., the then Minister of Education, Orissa, to frame and draft the University Bill, which, after being passed in the Orissa Legislative Assembly, received the assent of the Governor of Orissa on Nov. 23, 1943, and from that date Utkal University came into being under the Utkal University Act, 1943 (Orissa Act XIII of 1943).

Utkal University is at present a Univ. with which there are affiliated 16 colls., of which 11 are First Grade Colleges, 3 Second Grade Colleges, 1 Medical College and 1 Training College. The one Law College, which prepares for the LL.B., is a University College. 190 High Schools recognized by the Director of Public Instruction, Orissa, are permitted to present candidates for the Matric. examn. of the Univ. The Univ. has also a Teaching Dept. of Mod. European Langs. (French and German) which prepares students for a Dipl. course in French and German. Lectr.-in-charge: P. Sinha Ray, M.A.

The Univ. has no bldg. of its own as yet. It is now housed in the Burdwan House, Chauliaganj, Cuttack, which has been leased to the Univ. by the Maharajahadhiraja of Burdwan, free of rent. The Govt. of Orissa has arranged to place the present Govt. House at the disposal of the Univ. for use as its office building when the Govt. move to the new capital of Orissa at Bhubaneswar.

The Univ. authorities are: the *Senate*, the supreme governing body of the

GENERAL INFORMATION

The aims and objects of the Univ. are to study the mind of Man in its realization of different aspects of truth from diverse points of view ; to bring into closer relationship with one another, through study and research, the different cultures of the East on the basis of their underlying unity ; to approach the West from the standpoint of such a unity of the life and thought of Asia ; to seek to realize in a common fellowship of study the meeting of the East and the West, and thus ultimately to strengthen the fundamental conditions of world peace through the establishment of free communication of ideas between the two hemispheres ; and with such ideals in view, to provide at Santiniketan a cultural centre where research into and study of the religion, lit., hist., sci. and art of Hindu, Buddhist, Jain, Islamic, Sikh, Christian and other civilizations may be pursued along with the culture of the West, with that simplicity in externals which is necessary for true spiritual realization, in amity, good fellowship and co-operation between the thinkers and scholars of both Eastern and Western countries, free from all antagonisms of race, nationality, creed or caste.

HISTORY. Visva-Bharati grew out of Santiniketan Asrama founded in 1863 by Maharshi Devendranath. The Asrama was meant to be a retreat where seekers after Truth might come and meditate in peace and seclusion. In 1901 an experimental school was started at Santiniketan by Rabindranath Tagore with the object of providing for a limited number of children an education which would not be divorced from Nature, where the pupils could feel themselves to be members of a large community. Since 1921 Santiniketan has been the seat of Visva-Bharati which was incorporated as a Univ. by Act XXIX (1951) of the Indian Parliament. Visva-Bharati is an all-India institution with students and teachers drawn from all over India, with a proportion of teachers, students and visitors from abroad. Students live a communal life.

Besides a Central General Library (containing about 100,000 vols.), there are sectional libraries attached to various depts. The Univ. has its own Hospl. with a Medical Officer and his assts. Sick-rooms at the women's hostel. Men have sep. hostels attached to various depts., while women students have a common hostel called Sri-Sadana.

Besides the academic institutions mentioned below, the Univ. conducts 2 Depts. : one for Rural Reconstruction and the other for publication of books of educational and cultural interest. The Palli-Samgathana Vibhaga (Rural Reconstruction Institute) at Sriniketan is concerned mainly with a comprehensive study of the problems of rural life in its social, cultural, economic and other aspects and extension work in the villages on the basis of such a study. The Institute maintains a model primary school for rural children, a teachers' training school for serving primary education in rural areas, as well as an agency for propagation of folk education and social education. There is a section for rural industries where training is provided to apprentices in a variety of crafts.

COLLEGES AND INSTITUTIONS. Visva-Bharati maintains the following Colls. and Institutions, which are all co-educational and residential :

Patha-Bhavana (School Section) provides instructn. for Matriculn. Examn. Medium of instructn. : Bengali.

Siksha-Bhavana (Coll. Section) provides instructn. for I.A. and I.Sc. examns. and B.A. Pass and Hons. Hons. subjects : Engl., Econ., Hist., Philos., Sanskrit, Bengali and Hindi. Tutorial help, emphasis on social, cultural, literary and other extra-curricular activities are some of the distinguishing features of the Coll. The medium of instructn., as also in the following sr. sections, is English.

Vidya-Bhavana (Coll. of Postgrad. Studies and Res.) is mainly concerned with Indological Studies in Vedic, Puranic, Buddhist, Jain, Zoroastrian and Islamic cultures and in major langs. and lits. of India. GENERAL INFORMATION

The University was founded in 1942 by the incorporation of the Ceylon University College, established in 1921, and the Ceylon Medical College, established in 1870. It occupies temporarily the premises of the two Colleges in Colombo, but new buildings are being erected in Peradeniya, four miles from Kandy, on the banks of the Mahaweli-ganga below the Royal Botanic Gardens. When the whole University is moved there it will become entirely residential. The site covers 2200 acres; much of it is too steep for buildings and has been acquired for protective purposes. More land will be required for the Faculty of Medicine and new Faculties. The main buildings are being erected to a plan formulated by Sir Patrick Abercrombie and Mr. Clifford Holliday.

The LANGUAGE OF INSTRUCTION in all Facs. is English, but courses in Sinhalese and in Tamil are given in those languages.

LIBRARIES. The main Library contains 80,000 vols., but there are sectional libraries attached to the laboratories. The University makes a grant to the Ceylon Medical Library, which is used as the Library of the Faculty of Medicine. **LABORATORIES.** Science Labs. in Thurstan Road (moving to Peradeniya in 1956 ; Medical Labs. in Kynsey Road ; Dental Labs. in Ward Place. **HOSPITALS.** The Colombo General Hospital, the De Soysa Maternity Hospital and the Dental Institute are teaching hospitals. Medical students also use the Medical Research Institute and the Kalutara Public Health Centre.

FACULTIES AND DEANS. *Arts*, Prof. J. L. C. Rodrigo ; *Engin.*, Prof. E. O. E. Pereira ; *Med.*, Prof. N. Attygalle ; *Oriental Studies*, Prof. G. P. Malalasekera ; *Sci.*, Prof. A. W. Mailvaganam.

UNIVERSITIES OF PAKISTAN

[Specially contributed for this edition by Professor M. Timur, Vice-Chancellor of the University of Peshawar and Chairman of the Inter-University Board of Pakistan.]

PAKISTAN came into existence on Aug. 15, 1947. The new State of Pakistan contains five provinces of the old undivided India: East Bengal, West Panjab, Sind, North-West Frontier Province and Baluchistan. There were three Universities in this territory at the time of the Partition. The oldest among these was the University of the Panjab which was established in 1882 with powers to hold examinations and grant degrees to students of affiliated Colleges. It provided instruction only in Law and Oriental Languages. Since 1919 it has organized teaching departments for postgraduate instruction in Physical and Social Sciences, Commerce, European Languages, Dentistry and Islamic Theology. The Medical, Engineering, Veterinary, Agricultural and Training Colleges are administered by different departments of the Provincial Government but are under the control of the University in academic matters.

The University of Dacca was established in 1921 as a teaching and residential University. After the formation of the State of Pakistan in 1947 it was empowered to affiliate all educational institutions in East Bengal which prepare students for examinations higher than the Matriculation and High Madrassa standard. It has teaching departments in Physical and Social Sciences, Medicine, Engineering, Agriculture, Law, Education, Oriental Languages and Islamic Culture.

The University of Sind was established in 1947. The Colleges of the Sind province are affiliated to it. Most of the teaching work is done by the affiliated Colleges, but a scheme for taking over postgraduate teaching under the direct control of the University is under consideration. It has started teaching departments in Sindhology, Education and Religion.

The Universities of Karachi and Peshawar were founded in 1950. The existing Colleges in the Karachi Federal area which were affiliated to the University of Sind before its establishment are now affiliated to the University of Karachi. The new University has under consideration plans for starting postgraduate teaching departments. The Colleges in the North-West Frontier Province are affiliated to the University of Peshawar. Instruction up to the B.A. and B.Sc. degree standard is given by the Colleges. The University has its teaching departments for postgraduate study in English, Economics, Mathematics, Arabic, Education and Law. The Engineering department of the University prepares students for the B.Sc. degree. It has plans for opening teaching departments for postgraduate study in Physical and Social Sciences, European Languages and Islamic Theology.

MEDIUM OF INSTRUCTION. The Pakistani Universities conduct their teaching and examinations on the same lines as English Universities. The medium of instruction at the degree stage is English except in the

Urdu College at Karachi. The courses of study are similar to those in English Universities. Since 1947 there has been a movement to attach increasing importance to the study of the Urdu language and Islamic Theology. Departments for the study of these subjects have been established in almost all Universities. Urdu has been introduced in the Intermediate Colleges as an alternative medium of instruction to English.

ADMINISTRATION AND CONTROL. The Universities of Pakistan are statutory bodies based on the acts of provincial legislatures, in the case of Karachi on the act of the Central legislature. The legislative authority is vested in the Senate and the executive authority in the Syndicate or the Executive Council. Academic matters are under the control of the Boards of Studies, Faculties and the Academic Council which co-ordinates the work of the Boards and the Faculties. The income of the Universities is derived from the fees of students and from grants from the Provincial and the Central Governments.

ADMISSION AND DEGREES. The minimum requirement for entering a University is the Matriculation examination of a Pakistani University which is generally taken at the age of 16, or an examination which is recognized as its equivalent by the various Universities. Two more years are required for taking the Intermediate examination. The B.A. or B.Sc. (ordinary) degree is granted after a further study of two years and the B.A. or B.Sc. (Honours) degree after three years. The Master's degree is granted after one or two years' study after the B.A. or B.Sc. degree. In the ordinary course a student may take his M.A. or M.Sc. degree at the end of the sixth year after passing the Matriculation examination.

The first medical degree (M.B., B.S.) is taken after a study of 5 years after passing the pre-medical Intermediate examination in Physics, Chemistry, Botany and Zoology. The B.Sc. degree in Engineering is taken after a study of three years after passing the Intermediate examination in Physics, Chemistry and Mathematics. The LL.B. degree is taken after a study of two years after the B.A. degree. The Ph.D., D.Phil. and M.D. degrees are conferred after a course of advanced study and research extending over two or three years. Candidates entering upon a course of study for the Ph.D. or D.Phil. must have taken the Master's degree of a Pakistani University or of some other approved University. Candidates for the M.D. degree must have taken the M.B., B.S. degree or a degree which is recognized as equivalent to it. Candidates on completion of research must present a thesis and submit to oral examination on that thesis.

The University of the Panjab also gives diplomas in various subjects. Of special importance are diplomas in the Classical and Pakistani languages, Arabic, Persian, Urdu, Panjabi and Pashto. The oriental titles, Maulvi Fazil (Honours in Arabic), Munshi Fazil (Honours in Persian), Adib Fazil (Honours in Urdu), are conferred on those who pass the Honours examinations in the relevant subjects. The University of Peshawar gives the diploma of Honours in Pashto only.

TERMS. In the Universities of the Panjab and Peshawar the

academic year is divided into three terms, which run from about Oct. 1 to the third week of Dec. ; first week of Jan. to end of March ; middle of April to end of June. At the University of Dacca, the three terms run from about July 1 to Sept. 15 ; Oct. 16 to Dec. 20 ; Jan. 2 to April 15. In the Universities of Sind and Karachi the academic year is divided into two terms, which run approximately from the beginning of June to the end of Oct. ; beginning of Nov. to the end of March.

RESIDENCE. Residence is provided for a large number of students in the hostels maintained by the Universities or affiliated Colleges.

EXPENSES. It is not possible to make any general estimate of the cost of a University course, which varies with the Universities and the type of study. The cost of living is higher in the big cities like Lahore and Karachi than in Dacca and Peshawar. The Engineering and Medical courses cost more than the ordinary Arts and Science courses. The monthly expense of a student may therefore vary from Rs. 80 in Dacca and Peshawar to Rs. 150 in Lahore and Karachi.

(*Note.* Rupee = 2s. 2d. approximately.)

THE INTER-UNIVERSITY BOARD. For the purpose of discussing problems which affect the Universities in general and also for exchange of views on Inter-University relations, a body representing the five Universities of Pakistan and the Central Government has been established, which meets once a year. The Standing Committee of Vice-Chancellors acts as the executive body and meets twice a year. The Secretary of the Board for the calendar year 1952 was the Registrar of the University of Peshawar. The Board has decided to have its own permanent Secretary from the year 1953, whose Office will be at Karachi.

GENERAL INFORMATION

The University was established in 1921 under the Govt. of India Act XVIII of 1920, which was based on the recommendations of the Calcutta Univ. Commission presided over by Sir Michael Sadler, and provides for the constitution of Facs. of Arts, Sci., Law, Agric., Med. and Engin. It was established as a unitary, teaching and residential Univ. with a constitution similar in many respects to that of modern English Univs. Following the creation in 1947 of the province of East Bengal as part of Pakistan, the East Bengal Educational Ordinance, 1947, was promulgated, by which the Univ., without prejudice to its original character as a teaching and residential Univ., is entrusted with sole authority to recognize and affiliate all educnl. institutions in E. Bengal above Matricn. and High Madrassa standard. Accordingly, in 1947, the Univ. affiliated 55 first and second grade Colls. spread over the whole of E. Bengal, as well as several other institutions. The number has since increased and is still increasing.

The Univ. area covers about a square mile of fine parkland, including over 100 acres of playing fields, and lies about 1 mile N.W. of the centre of Dacca City.

The authorities of the Univ. include the Court, the Executive Council, the Academic Council and the Faculties.

RESIDENCE. Students reading in the Univ. itself must live either in one of the Halls of Residence or under specially approved conditions. Halls for Muslims: Salimullah Muslim Hall (accomm. for 400 students), Fazlul Huq Muslim Hall (250); for non-Muslims: Dacca Hall (160), Jagannath Hall (partially in use by Govt.; students transferred to Dacca Hall). Women Students' Residence (25). Iqbal Hall, a new student residence, will be opened shortly. For Provosts *see* p. 1328.

Some Univ. teachers live in houses within the Univ. area.

The usual LANGUAGE OF INSTRUCTION is English.

LIBRARIES, ETC. Univ. Library: over 150,000 vols. and about 20,000 Sanskrit, Bengali, Arabic, Urdu and Punthi MSS. Reading Room. Separate Sci. Library. Each Hall of Residence has a library.

GENERAL INFORMATION

The idea of a separate University for Sind was first broached in the year 1886, when the then Principal of the D.J. Sind College, Karachi, prophesied the coming of the time when the province would need a separate University to serve its distinctive cultural needs. Sind, though long connected administratively with Bombay, was a distinct cultural unit, with a language and literature of its own, and with distinctive economic and geographical features. The idea lay dormant until, in 1934, the Govt. of India appointed a cttee. to consider the administrative requirements of Sind as a separate province in view of the coming autonomy which was to be an important feature of the Government of India Act of 1935. This cttee., presided over by Sir Hugh Dow, emphasized the necessity of cultural autonomy for Sind as an inevitable sequel to political autonomy. The idea suffered many vicissitudes until in 1940 the autonomous Govt. of Sind appointed the Sind University Committee with comprehensive terms of reference to go into the entire problem of a separate Univ. The Report of the Cttee., issued in 1941, covered the entire field of organizational and academic issues involved. But action on the Report was delayed by several causes, till a regular Bill for the creation of a separate Univ. for Sind was introduced in the local legislature in 1945, and passed finally into an Act in 1947.

As a separate Karachi University for the Karachi Federal Area was established as from session 1951-52, the headquarters of the University of Sind were moved from Karachi to Hyderabad in May 1951.

The University is now an affiliating, examining and teaching Univ. Most of the teaching work is carried on by the affiliated colls., but postgraduate teaching under the direct control of the Univ. has been started and there are schemes for the taking over by the Univ. of all postgrad. teaching and research. A start has been made by establishing the depts. of Sindhology, Educn., Religion, Islamic Culture and Muslim Hist. Depts. of Geog., General Hist., Pol. Sci., Econ. are soon to be established. The dept. of Sindhology is designed to organize extensive res. work in the hist., lit., lang., folklore, economic conditions and material resources of the Province of Sind.

A Univ. township scheme has been prepared and has been approved in principle by the Provincial and Central Govts. The scheme envisages the establishment of the following institutions under direct Univ. control: Educn. Dept. with Model Primary Sch. and Model Collegiate Sec. Sch.; Arts Colls.; Commerce Colls.; Law Coll.; Sci. Coll.; Engin. Coll.; Technical Inst.

UNIVERSITY INSTITUTIONS IN THE COLONIES

THE provision of facilities for higher education within the Colonies has a long history; Codrington College, Barbados, founded in 1710, and Fourah Bay College, Sierra Leone, founded in 1827, have since 1875 been affiliated with the University of Durham (*see* p. 113). The present phase of exceptionally rapid development, however, dates from the end of the 1939-45 war. In June 1945 reports were published of the Commission on Higher Education in the Colonies under the chairmanship of Mr. Justice Asquith, of its West Indies Committee under the chairmanship of Sir James Irvine, and of the Commission on Higher Education in West Africa under the chairmanship of Colonel Walter Elliot (Cmd. 6647, Cmd. 6654, Cmd. 6655, H.M. Stationery Office). These reports recommended that additional University institutions should be created within the Colonies, formulated the principles on which they should be developed, proposed the establishment of an Inter-University Council through which the Universities of the United Kingdom could assist, and provided detailed plans for new University colleges in the West Indies and West Africa. After the liberation of Malaya, a commission under the chairmanship of Sir Alexander Carr-Saunders (Report, Col. 229, H.M. Stationery Office) visited the area and recommended that a University of Malaya should be established by the amalgamation of the King Edward VII College of Medicine (founded 1904) and Raffles College (founded 1928).

In this post-war development, the two existing Universities of Malta (founded 1769) and Hong Kong (founded 1911) have been strengthened, a new University of Malaya founded, three new University Colleges created, the University College of the West Indies, the University College of the Gold Coast, and University College, Ibadan, Nigeria, and Makerere College (founded 1922) raised to the status of the University College of East Africa.

All the Colonial Universities and University Colleges are autonomous corporations, established by local ordinances or, for the University College of the West Indies, by Royal Charter. With minor variations, their constitutions provide for a *Council*, with a majority of lay members and some academic representatives, and a *Senate* or *Academic Board*, wholly academic in membership.

The institutions have relatively small endowments, the largest being £1 million for the University of Hong Kong in 1951 from Japanese assets available under the peace treaty and nearly £1 million for the Faculty of Agriculture at University College, Ibadan, from the Nigerian Cocoa Marketing Board. They receive most of their recurrent income from the local governments in the form of block grants, not internally earmarked. Local governments have given generous sites for the new Colleges, for instance areas of five square miles each for the University College of the Gold Coast and University College, Ibadan, and over one

square mile in Jamaica for the University College of the West Indies. In addition to substantial capital gifts for buildings and equipment from local governments and private sources, His Majesty's Government in the United Kingdom has contributed £6 million for capital purposes from funds available under the Colonial Development and Welfare Act, 1945.

The three Universities award their own degrees. The four University Colleges provide courses leading to the degree examinations of the University of London, with which they are in special relationship ; by this arrangement the academic boards of the Colleges work out with the University special syllabuses adapted to local conditions, and members of the College staffs assist in the examining of their own students. In addition to courses leading to University of London degree examinations, the University Colleges provide, in some subjects, courses leading to their own diplomas and certificates.

The academic year is from Oct. to June, except at Makerere, where it is from March to Dec. The institutions, except Malta, are either wholly or for the majority of students residential. The language of instruction is English.

All have Faculties of Arts and Natural Science ; all, except the Gold Coast, Medicine. Social Sciences are taught at Hong Kong, Malaya, Gold Coast and Makerere ; Veterinary Science at Makerere ; Engineering and Architecture at Malta and Hong Kong ; Dentistry at Malaya ; Theology at Malta and Gold Coast ; Law at Malta ; Education at Hong Kong, Malaya, West Indies, Gold Coast and Makerere. West Indies, Gold Coast and Ibadan have departments of Extra-Mural Studies.

All are active centres of research as well as of teaching. At three of the colleges, West Indies, Ibadan and Makerere, regional Institutes of Social and Economic Research have been established with grants under the Colonial Development and Welfare Act.

In addition to the three Universities and four University Colleges, there are in the Colonies several other institutions of research and higher education, including two specialized agricultural colleges, the Imperial College of Tropical Agriculture, Trinidad, and the College of Agriculture, Mauritius.

THE INTER-UNIVERSITY COUNCIL FOR HIGHER EDUCATION IN THE COLONIES, 1 Gordon Square, London, W.C.1. (*Telephone*: Museum 8916 ; *Telegrams*: Interuniv London.) The Inter-University Council was created in March 1946 by the Universities in Great Britain and Northern Ireland and the existing Universities in Colonial territories, at the invitation of the Secretary of State for the Colonies, for the purposes of—

- “ strengthening co-operation between the Universities of Great Britain and Northern Ireland and the Universities in territories in respect of which the Secretary of State for the Colonies has responsibility ;
- fostering the development of higher colleges in the British Colonies and their advance to University status ;

giving effect to the principles recommended by the Asquith Commission on Higher Education in the Colonies for the promotion of higher education, learning and research in the British Colonies ; discharging the tasks which the Secretary of State for the Colonies has invited them to undertake ;

taking other appropriate action for the development of higher and particularly University education for the peoples of the British Colonies, Protectorates, Mandated Territories and the High Commission Territories in South Africa ;

and, at the invitation of the Governor-General of the Sudan, performing, in relation to the development of higher education in the Sudan, functions analogous to those which they undertake in relation to the Colonial territories."

The Council's composition is : Chairman : Sir Alexander Carr-Saunders, M.A., LL.D., D.Litt., Litt.D., F.B.A. Vice-Chairman : Sir Raymond Priestley, M.C., M.A., D.Sc., LL.D., D.Litt.

Among the duties of the Council is the organization of periodical visits by its members or other academic specialists to the Colonial institutions of higher education. The Council has undertaken recruitment of staff for the Universities and Colleges in the Colonies and advised the Colleges on such questions as constitutions, conditions of service for staff, building programmes, academic development, recogni-

tion of diplomas, scholarship policy and library services. The Council reviews the academic aspects of applications submitted to the Colonial University Grants Advisory Committee, on which it is represented by two of its members.

THE COLONIAL UNIVERSITY GRANTS ADVISORY COMMITTEE. The Committee was appointed in 1946 by the Secretary of State for the Colonies with the following terms of reference :

" The function of the Committee will be to advise the Secretary of State for the Colonies on all matters which he may refer to it, relating to the expenditure of United Kingdom funds for the development of higher education in the Colonies. It is expected that in advising on these matters, the Committee will take into account the funds available for Colonial higher education from sources other than the United Kingdom Government. On the academic aspects of the proposals which are referred to it, the Committee will be guided by the opinion of the Inter-University Council for Higher Education in the Colonies."

The members are : Sir Hector Hetherington, K.B.E., D.L., M.A., LL.D., D.Litt. (Chairman); H. T. Bourdillon, C.M.G. ; Sir Christopher Cox, K.C.M.G. ; Sir John Huggins, K.C.M.G. ; Sir Walter Moberly, G.B.E., K.C.B., D.S.O. ; C. R. GENERAL INFORMATION

In 1887 Sir Patrick Manson, G.C.M.G., started the Hong Kong College of
Medicine for the Chinese in the Alice Memorial Hospl. opened the same yr.
on a London Missionary Soc. foundation. As students of nationality other than
Chinese began to join the Coll., the words "for the Chinese" were struck out of
the title in 1907, and the institution was incorporated as "The Hong Kong
College of Medicine."

The College offered to amalgamate in a University, and in March 1911 the
Univ. of Hong Kong was incorporated by a local Ordinance, embodying the
principle of religious and racial neutrality. In connexion with the foundation
H.M. Govt. guaranteed funds for the foundation of "King Edward VII
Scholarships," awarded on entrance examn. results. The Univ. was opened
in March 1912, in a bldg. donated by Sir Hormusjee Mody, with Facs. of Med.
and Engin. A Fac. of Arts was organized in the following yr., a Fac. of Science
in 1939 and Fac. of Archit. in 1951.

CONSTITUTION. The supreme governing body of the Univ. is the Court,
with the Governor of Hong Kong as Chancellor and Chairman. The executive

body is the Council, composed of the Vice-Chancellor, the Treasurer, certain Govt. officials and Chinese members of the Legislative Council, the Deans of the Facs., 2 representatives of the commercial community and 2 additional members approved by the Chancellor. The Senate, which deals with academic matters, is composed of the Vice-Chancellor, the Dir. of Education and the Profs. and Readers.

GENERAL INFORMATION

The University was established by Ordinances of the Government of the Federation of Malaya and of the Colony of Singapore in April 1949, and Foundation Day was Oct. 8, 1949. It was formed by the fusion of the two existing Colls. in Singapore, The King Edward VII College of Medicine and Raffles College, and teaching began as a full Univ. in Session 1949-50.

The bldgs. of the 2 former Colls. are being used until completely new bldgs. are erected on a site which has been reserved and is about to be acquired near Johore Bahru. A grant of £1 million has already been made by H.M. Govt. as a contribution towards the capital cost, and a public appeal was launched in April 1949. The Appeal Fund now stands at approx. £565,000. The Univ.

is thus physically separated into 2 pts., the former Raffles Coll. containing the Admin. Offices and the Facs. of Arts and Sci., and the former Coll. of Med. containing the Fac. of Med.

LIBRARY. The Library is housed in 2 divisions. Medical books are located in the former Coll. of Med. bldgs. and books relating to Arts and Science Facs. are housed in the former Raffles College buildings. The library is being built up rapidly and a new library bldg. is nearing completion.

FACULTIES AND DEANS. *Arts*, Prof. T. H. Silcock (Econ.); *Medicine*, Dr. D. W. G. Faris (whole-time Dean); *Science*, Prof. R. A. Robinson (Chem.).

DEGREE COURSES. B.A. Pass, 3 yrs.; B.A. Hons., 4 yrs.; B.Sc. Pass, 3-4 yrs.; B.Sc. Hons., 4-5 yrs.; M.B., B.S., 6 yrs.; B.D.S., 5 yrs. Honours students must first take a Pass degree.

HIGHER DEGREES. Open to Hons. graduates, M.A., M.Sc. (1 yr.'s residence); Ph.D. (2 yrs.' residence); open to graduates of 3 yrs.' standing, M.D., M.S., M.D.S.; open to Masters or Doctors of Philosophy of 5 yrs.' standing, D.Sc., D.Litt. Diploma holders of the College of Medicine and of Raffles College, and graduates of other Univs., may also be admitted to higher degrees of the Univ.

DIPLOMAS. Pharmacy (2 yrs.), followed by 2 yrs.' practical work. Education (1 yr.), open to graduates. Public Health (1 yr.), open to med. graduates. Social Studies (2 yrs.), open to graduates and suitable non-graduates.

GENERAL INFORMATION

Founded in 1769 by Grandmaster Fra Emmanuel Pinto de Fonceca of the Order of St. John of Jerusalem under the authority of Pope Clement XIV, the University is lodged in a building erected by the Jesuit Fathers in 1591-1593 for a College with the power of granting degrees in Theology and Philosophy, whilst its Medical Faculty originated in a School of Anatomy founded in 1674 by Grandmaster Nicolas Cottoner in the Great Hospital of the Order, which accommodated 745 patients. By an Ordinance promulgated in 1947, the Univ. is governed by a Council consisting of the Chancellor as President, the Vice-Chancellor and Rector Magnificus as Vice-President, a representative of the Inter-University Council for Higher Education in the Colonies, six members from the Legislature of Malta, six members elected by the Senate of the Univ., one member from the Guild of Graduates and three members appointed by the Chancellor in consultation with the Vice-Chancellor. A Senate consisting of fourteen members, twelve elected by the Faculties and two appointed by the Chancellor, to deal with questions regarding teaching and discipline, was also instituted by this Ordinance.

The Council is the supreme authority of the University.

LIBRARY, 12,300 vols. A public library maintained in connexion with the Univ. contains over 100,000 vols. and is rich in MSS. and rare editions of great historical interest. **MUSEUMS**: Nat. Hist. and Archæol. **OBSERVATORY**, full meteorol. equipment and seismograph. **BOTANICAL GARDEN**. **HOSPITALS**, available for Clinics: general (650 beds) and several special—Leprosy Hospital (80); Mental Diseases (800); Aged Poor (1000).

FACULTIES. Arts, Engineering and Architecture, Laws, Medicine and Surgery, Science, Theology.

MATRICULATION examn. requires pass in six subjects, including English (Language and Literature), Maltese, Mathematics and three other subjects at the choice of candidates. Latin is obligatory for the Faculties of Arts, Laws, and Theology and, for the latter, also Greek, as from 1954.

GENERAL INFORMATION

This is a non-govt. institution incorporated by the University College of
 the Gold Coast Ordinance, 1948. Nominations to the College Council are made

by the Governor in Council, the Territorial Councils of Chiefs and the Academic Bd. The Coll. has been admitted to the special relationship with the Univ. of London as recommended by the Asquith Commission on Higher Education in the Colonies, 1945. A site of 5 square miles near Accra, presented by the Govt., is being developed for the permanent bldgs. of the Coll. Some of these are under constrcn. and the first, including one permanent Hall, are approaching completion. Until there is sufficient accomm. on the permanent site, parts of the Coll. will continue to be housed in bldgs. belonging to Achimota School and in temp. bldgs. within the Achimota School precincts.

An initial grant of £896,000 was made by the Gold Coast Cocoa Marketing Board, which also, in 1950, made a further grant of £1,000,000 for the development of a Dept. of Agric. and the associated Sci. Depts. The Gold Coast Govt. has also undertaken, in the first instance, to subscribe £1,100,000 towards the cost of the permanent bldgs. and their equipment. Annual revenue is voted quinquennially by the Legislative Assembly.

Messrs. Harrison, Barnes & Hubbard are the Architects to the College.

ADMISSION. Entrance to degree courses is by annual competitive examn. Candidates must be exempt from Matricn. (approx. standard : Sch. Certif. with 6 credits). Entrance to the course in the Inst. of Educn. leading to the Associate's Certif. is by a separate examn., to which only experienced teachers are admitted.

DEGREE COURSES are provided for Hons., Spec. and General London Degrees in Arts, Sci., Div. and Econ. Graduate students and full-time teaching and res. officers of the Coll. may register for the Ph.D. degree of London under the internal regulns.

FEES. Inclusive fee for tuition and residence, £100 p.a.

The **LANGUAGE OF INSTRUCTION** is English. Non-members of the College not admitted to classes. All students required to reside full-time.

The **INSTITUTE OF EDUCATION** gives internal courses for postgraduate Diploma and non-graduate Associate Certificate (for experienced teachers only).

TERMS. Michaelmas : Oct. to Dec. Lent : Jan. to March. Trinity : April to June.

THE YEAR 1950-51

BENEFACTIONS. H.M. Govt. approved the grant of £400,000 from Colonial Development and Welfare funds towards the bldg. and capital expenditure programme of the Coll. Work commenced on first permanent bldgs. and a rd. connecting the permanent site at Legon with the temp. site at Achimota Sch.

NEW DEPARTMENT. Dept. of Archæol. created. At invitation of Gold Coast Govt., Coll. agreed to make provision, within the Coll. precincts, for a Gold Coast National Museum.

EXAMINATIONS. The first final degree examns., for the degree of B.Sc. (Gen.), were held under the Special Relationship. The first College examn., in the Inst. of Education, for the Associate's Certif. was held.

OTHER EVENTS. The International West African Educational Conference was held in the Coll. in Jan. 1951. Prof. W. J. McCallien was the Coll.'s delegate to the quincentenary celebrations of the Univ. of Glasgow.

RETIREMENT. Prof. P. Gurrey (English).

RESIGNATION. K. H. G. Eichenberg (Supervisor of Works), apptd. to Kumasi Coll. of Technol., Gold Coast.

GENERAL INFORMATION

University College, Ibadan, is an autonomous institution. The financial management is in the hands of a Provisional Council, representative of both Nigeria and the United Kingdom. Teaching and Research is the charge of an Academic Board of which the heads of all departments are members. The Board is represented on the Council. The College was opened in Jan. 1948, and in Sept. 1948 the Provisional Council was incorporated by Government Ordinance. A grant has been made under the Colonial Development and Welfare Act towards the cost of the permanent buildings. An annual grant is received from the Nigerian Government and other income comes from endowments and fees. In addition, endowments amounting to £750,000 and £1,175,000 have been received from the Nigerian Government and the Nigerian Cocoa Marketing Board respectively. An Endowment Fund Appeal has been launched.

LANGUAGE OF INSTRUCTION : English.

ADMISSION. Students are required to pass the College Entrance Examn., for which they are ordinarily eligible only if they have passed the Cambridge School Certif. and have attained a standard equivalent to that required for exemption from London Matricn. under the Regns. in force before April 1951.

TERMS. There are three terms in the academic year, which lasts from Oct. until June.

FEES. £95-£130 p.a. These fees cover board and tuition. All students are resident.

SCHOLARSHIPS, ETC. Fees plus £50 p.a. for duration of course awarded on entrance examn. in any Fac. ; fees plus £25 p.a. and vacation allowances (Nigerian Cocoa Marketing Bd.) open to sons and daughters of cocoa farmers. The Nigerian Govt. awards scholps. similar to those of the N.C.M.B., to selected students in any Fac.

DEGREES. The College has been admitted to a special relationship with the Univ. of London, and courses of instructn. are given in preparation for degrees of this Univ. The Coll. staff co-operate with the Univ. of London in preparing syllabuses and in the examns.

Students are at present prepared for the B.A., B.Sc. and B.Sc. (Agric.) degrees. Full-time members of the teaching staff may register as internal students for the Ph.D. degree of the Univ. of London.

VACATION COURSES, involving residence in the Coll., are conducted during the Long Vacation by the Dept. of Extra-Mural Studies.

The APPOINTMENTS BOARD (Sec., K. S. Lambert, F.L.A.) makes arrangements for sending students overseas for supplementary courses.

LIBRARY. Over 60,000 vols. in Arts, Sciences, Med. and Agric. ; subscribes to 800 current journals. Special collections include W. African Hist. and Ethnol., Trop. Agric. and Trop. Med. The Library is legal depository for all Nigerian publications.

A new TEACHING HOSPITAL is being planned ; at present clinical teaching and res. teaching are carried out in one Govt. and one Native Admin. Hospl.

The WEST AFRICAN INSTITUTE OF SOCIAL AND ECONOMIC RESEARCH is associated with the Univ. Coll.

HONORARY ASSOCIATES. Sir John MacPherson, Governor of Nigeria; Professor T. Monod, Directeur de l'Institut Français de l'Afrique Noire; Professor C. Daryll Forde; the Rt. Hon. Walter Elliot.

The STUDENT HEALTH SERVICE is under the supervision of the Prof. of Med.

The UNION controls all student athletic and other extra-curricular activities. Student officers are elected terminally.

PUBLICATIONS. *Calendar* (annual, 3s. 6d.); *Annual Report*; *Library Record* (monthly); *University Herald* (student; terminal); *News & Views* (Dept. of Extra-Mural Studies).

GENERAL INFORMATION

Makerere College was founded in 1922 as a Technical Sch. under the Educn. Dept. of Uganda Admin. It rapidly broadened its educational aims and raised its standard of work, for even in quite early yrs. its potentialities as a centre for advanced educn. were not ignored. Following the De la Warr Report in 1937, which pointed to the future of the Coll. as a centre of higher studies in

* Seconded by Govt. Medical Service.

E. Africa, under the inspiration of Sir Philip Mitchell the Coll. was presented with land and an endowment and a nucleus of its bldgs. Work on the present admin. block was inaugurated by H.R.H. the Duke of Gloucester, and the block with its twin chapels was completed in 1941. Support and benefactors from African and European sources have consolidated the inter-territorial status of Makerere. On the recommendation of the Asquith Commission in 1945 it was definitely decided that the Coll. should become the centre of Univ. studies in E. Africa. A Scheme of Special Relationship with the Univ. of London was entered into at the end of 1949, whereupon the Coll. assumed its present title. Courses leading to the General Degrees of the Univ. of London in Arts and Sci. started at the beginning of 1950.

The govt. and admin. of the Coll. follow the provisions of the Makerere College Act, 1949, and so far as these are applicable, the established practices and conventions of English Civic Univs.

The policy of the Coll. is that it shall be open to all students, regardless of race, colour and religion, who have the academic qualificns. nec. for admission. Entries are accepted from any of the E. African Territories, *i.e.* Kenya, Uganda, Tanganyika and Zanzibar. Entries from N. Rhodesia and Nyasaland, as well as from the southern part of the Anglo-Egyptian Sudan, are also considered.

On admission to the Coll., students reside in one or other of the Halls of Residence: Mitchell Hall (accomm. 214 men students) or Northcote Hall (180 men students). There is one hostel for women students, which will accomm. approx. 12, and a new hostel is to be built for women which will accomm. 50 students. It is planned to build another Hall, similar to Northcote Hall, to accomm. a further 180 men students. At the Med. Sch., there is accomm. for med. students in the clin. yrs. of their course. At Kabete, Kenya, there is accomm. for Vet. Sci. students.

A large building programme, financed by a grant of £1,100,000 from the Colonial Development and Welfare Act, is at present under way, consisting of a new Arts Block, Phys. Lab., Chem. Lab., Staff Houses and the Halls of Residence mentioned above. When completed (it is hoped by 1955) the number of students accommodated will be 630, including 50 women.

LIBRARIES. Main library, approx. 20,000 vols.; sub-library at Med. Sch., approx. 6000 vols.

There are 2 Chapels (the Chapel of St. Augustine for Catholics, and the Chapel of St. Francis for members of other branches of the Church) and a Mosque.

STUDENT ATHLETIC FACILITIES. The Coll. has its own playing fields, and there are facilities for athletics, football, hockey, cricket, tennis, boxing and swimming.

A CADET CORPS has been in existence for some yrs.

ALUMNI SOCIETY. Makerere College Union Society. Further information from Sec., c/o The Dean, Makerere Coll.

The EAST AFRICAN INSTITUTE OF SOCIAL RESEARCH is administered by the Coll.; Dir., Dr. A. I. Richards. Its main function is field res. in Uganda, Kenya, Tanganyika and Zanzibar, covering anthropological studies in particular tribes, or urban surveys and comparative studies of particular aspects of problems of interest to all E. African Territories in the field of sociol., econ., psychol., public admin. and law, and linguistic res.

THE PHYSIOLOGICAL AND BIOCHEMICAL RESEARCH SCHEME—Dir., Prof. E. G. Holmes—was established in 1947 under the auspices of the Colonial Med. Res. Cttee. It gives res. facilities to staff of dept. of Physiol., and to certain visiting res. workers (at present 3, from the Med. Res. Council). The res. undertaken deals chiefly with nutrition and kindred subjects.

GENERAL INFORMATION

The Univ. Coll. was incorporated by Royal Charter granted on Jan. 5, 1949. Its establishment was recommended and planned by a Cttee. of the Commission on Higher Educ. in the Colonies under the chairmanship of Sir James Irvine, Principal and Vice-Chancellor of the Univ. of St. Andrews. It is an autonomous institution, governed by a Council to which each of the British Caribbean Colonies nominates a member and on which the Senate and the Inter-Univ. Council are represented. The Senate consists of members of the teaching staff with the Principal as Chairman. A grant has been made from Colonial Development and Welfare funds towards the capital costs and recurrent expenditure is met from the revenues of the Caribbean Colonies. Undergraduates were first admitted in Oct. 1948. The Govt. of Jamaica has given on lease for 999 years a site of over one square mile about seven miles from Kingston. Existing wooden buildings on the site are still partly in use and provide satisfactory temporary accommodation for undergraduate quarters, library, labs., lecture rooms and administrative offices.

AN INSTITUTE OF SOCIAL AND ECONOMIC RESEARCH is associated with the Univ. Coll. The capital cost and recurrent expenditure for 5 yrs. is covered by a grant from the Colonial Social Science Research Council.

ADMISSION. Men and women are eligible for admission if they are qualified to satisfy the entrance requirements of the Univ. of London. Candidates for admission are examined by papers set by the Coll. and are interviewed.

TERMS. The academic year is from Oct. to the end of June, with three terms, each of eleven weeks.

CURRICULA. The Univ. College is in a special relationship with the Univ. of London, the degrees awarded being those of London, the schemes of examn. being devised jointly by the Coll. and the Univ. and the examn. conducted by examiners from both bodies. Teaching in the Fac. of Medicine began in Oct. 1948 and in the Fac. of Natural Sciences in Oct. 1949. Teaching in the Fac. of Arts began in Oct. 1950.

RESIDENCE. The Univ. Coll. is entirely residential.

FEES. A charge of £120 covers residence, sports subscription and simple medical attention for 33 weeks' residence. Tuition fees are £50 p.a. in medicine, £25 p.a. in science, and £20 p.a. in arts.

SCHOLARSHIPS. The Univ. Coll. awards open scholps. by examns. held in the Caribbean Colonies each yr. In addition, several of the Colonies award exhibitions to those educated or born in the Colony. Private benefactions

have established the following awards: Cadbury Exhibition, Farquharson Memorial Exhibition, Gilchrist Scholp.; St. Madeleine, St. Kitts, Antigua Exhibition. The Geddes Grant Fellowship is awarded for postgrad. work in subjects of Caribbean interest.

PUBLICATIONS. *Year Book*; *Caribbean Quarterly*; *Caribbean Affairs* (series of pamphlets).

THE YEAR 1950-51

GENERAL. Progress in the development of the Univ. Coll. maintained. The College suffered considerable damage, however, as the result of a severe hurricane which struck Jamaica on Aug. 17, 1951.

BENEFACTIONS. A generous grant from British Treasury, voluntary subscriptions from British Univ. institutions and private contributions from Britain, the West Indies and the U.S.A. have provided for repair of bldgs. and replacement of equipment damaged by hurricane. Messrs. Wieting and Richter, Ltd., of British Guiana, \$3600 B.W.I. to be held as a trust fund to assist deserving students from that Colony. Jamaica Chamber of Commerce, £1347 for spectrograph. British Guiana Sugar Industry, £1500 for equipment for Library.

SITE AND BUILDINGS. The first Hall of Residence, Irvine Hall, in use throughout yr.; 2 addl. Halls under constrcn. Library, Sci. Schs., Arts block and Univ. Coll. Hospl. nearing completion. Work on Students' Union about to begin.

EXTRA-MURAL DEPARTMENT. The Department received valuable co-operation from Caribbean Governments, British Council, Carnegie Corporation and other organizations. Sp. courses and summer schools held in Antigua, Barbados, Jamaica, Tortola and Trinidad. Circulation of booklets, *Caribbean Quarterly* and *Caribbean Affairs*, greatly increased. Departmental *Bulletin* circulated.

VISIT BY MEMBER OF STAFF FROM OTHER UNIVERSITY. Dr. L. Broom, Calif., visited Coll. under Fulbright Programme.

VISITS OF MEMBER OF STAFF TO OTHER UNIVERSITIES. Under auspices of Carnegie Corporation of New York the Registrar visited several Univs. in U.S.A.

GENERAL INFORMATION

Incorporated in 1921 and reincorporated by Royal Charter in 1926, the College aims at promoting the study of and conducting research in tropical

agriculture in suitable surroundings and creating a body of British expert agriculturists well versed in the knowledge of the cultivation of land in the tropics, of chemists, and of scientific advisers possessing an intimate knowledge of the means of combating pests and diseases. The College buildings are at St. Augustine, near St. Joseph, Trinidad, on land granted by the Govt. of Trinidad and Tobago.

To meet the expanding work of the College a comprehensive building programme has recently been completed, in addition to the provision of new staff and student quarters. A new Biology Bldg. and new Sugar Technology Labs. were completed in 1950-51, the former housing the Depts. of Botany, Plant Pathology and Entomology and the latter the Dept. of Sugar Technology. Through the generosity of Cadbury Bros., Ltd., the Coll. has acquired a 426-acre estate, which is being developed as a cocoa experiment station. 300 acres of land were acquired from the Trinidad Govt. in 1947 which are being developed as a mixed farm for investigational and instructional purposes.

The foundation-stone of the new buildings and laboratories was laid by Sir Samuel Wilson, Governor of Trinidad and Tobago, in 1924. An Instructional and Experimental Sugar Factory, towards which British sugar machinery manufacturers contributed plant worth £20,000, was opened in 1925 and has recently been modernized. The Milner Hostel and College Dining-Hall were completed in 1927. A Plant Quarantine Station to serve the British West Indies, British Guiana and British Honduras was completed in 1933. A Cacao Research Scheme was inaugurated in 1930. This is financed by contributions from the main cacao-growing Colonies and from some of the more important British cocoa and chocolate manufacturers. New schemes of research into sugar, bananas, cocoa and soils were approved during 1947. Two of these, for bananas and sugar, are on a 5-yr. basis and the other two, for cocoa and soils, are on a 10-yr. basis. The soils scheme is financed wholly from Colonial Development and Welfare funds, while in the case of each of the other three the different industries are bearing a share of the cost.

The income of the College is derived from contributions by the principal British and West Indian Colonies, the Imperial Government, and various Associations, Companies and individuals.

The academic year extends from Oct. 1 to June 30.

COURSES OF STUDY. (1) A 3-yr. course leading to a *Diploma* of the College (D.I.C.T.A.) either (a) in *Agriculture* or (b) in *Sugar Technology*, designed primarily for students from the West Indian Colonies and admission to which is limited, save in exceptional circumstances, to students from the Caribbean area.

(2) A 2-yr. course leading to an *Associateship* of the College (A.I.C.T.A.) in *Agriculture*, open to students who obtain the Diploma with credit and to postgraduate students. The period of study to cover all requirements is 2 sessions of 3 terms each.

(3) A 1-yr. course leading to an *Associateship* of the College (A.I.C.T.A.) in *Sugar Technology*, open to students possessing the Diploma in Sugar Technology of the College or acceptable graduate qualifications in Science.

(4) A 1-yr. postgraduate course, leading to a *Diploma* in Tropical Agriculture (D.T.A. Trin.), necessitating not less than 1 yr.'s postgraduate training or experience before entry. This course is open to Colonial Office probationers who have already had a one-year postgraduate course at Cambridge and to students possessing a degree in Agriculture or Natural Science or a Diploma of an approved Agricultural College involving at least a 3-yr. course of study in Agriculture or Horticulture together with at least 1 yr.'s approved

postgraduate training, either at Cambridge or elsewhere, or who possess approved equivalent postgraduate experience.

(5) Special courses, particulars of which may be obtained on application to the Registrar.

TUITION FEES. *Diploma Courses*: British subjects from contributing colonies, £25 p.a.; other British subjects, £50 p.a.; Foreign subjects, £100 p.a. A limited number of students from contributing colonies on the nomination of the respective Governments are admitted without payment of tuition fees. *Associateship and Postgraduate D.T.A. Courses*: British subjects, £75 p.a.; Foreign subjects, £125 p.a. *Special Courses*: British subjects nominated by Govts. of contributing colonies, £15; other British subjects, £75; foreign subjects, £125.

EXPENSES. The following figures are given as an approximate estimate for students coming from a country to which they cannot return for the Long Vacation: Living, £22:10s. per mo.; 1st and 2nd yrs. 12 mos. (each £270); 3rd yr. 9 mos. (£202:10s.). Subscriptions, say, £5 p.a. Books, tours, pocket-money, etc., a minimum of £150 p.a. (1st and 2nd yrs.); £112 p.a. (3rd yr.). To these must be added the fees set out above, and also cost of passage to Trinidad in the first, and from it in the third, year. In the case of students attending the College for one year, the expense will be approx. that of the third year, with the cost of return passage added. West Indian students who can return home for the Long Vacation and who are reasonably careful find it possible to cover all essential expenses, exclusive of the cost of passages and tuition fees, for about £350.

STUDENTS FROM INDIA AND FOREIGN COUNTRIES. Applications for admission from students from the British Commonwealth including India and Pakistan should be submitted through the appropriate High Commissioner or other official Govt. representative in London.

The Academic Board will consider applications from students who are not British subjects on their producing evidence of having attained a standard equivalent to that prescribed by the regulations and of possessing an adequate knowledge of English. Such applications should be made through a British Consul, whose recommendation should also be obtained.

PUBLICATIONS. *Prospectus*; *Principal's Report*; *Tropical Agriculture*; *Memoirs and Reports*.

THE YEAR 1950-51

EXTRA-MURAL WORK. Visits of Coll. Officers to neighbouring colonies in the Caribbean area.

STUDENTS. Full-time, 55; graduates and special course students, 25; preparing for diploma, 30. Included in the above total were 33 first-year admissions.

GENERAL INFORMATION

The College is administered as an integral part of the Department of Agriculture of the Colony. The cost of the building (opened Jan. 1925) and equipment was £14,000. Experimental fields and farms cover 60 acres. Laboratories provide accommodation for research in Chemistry, Entomology, Botany, Mycology, Physics and Sugar Technology. Athletic grounds are attached to the College.

A 3 yrs.' course leads to the Diploma of the College. Short courses in the inter-crop period are provided for estate employees and special courses for agricultural and sugar-house chemists. The examns. of the City and Guilds of London Institute in sugar technology are held at the College.

The College year begins in May.

Minimum age for admission, 18. Entrance examn. in English, French, Chemistry and Maths. Holders of Matric. certificate of any British University are excused those subjects which appear on their matric. certificate.

Tuition fee £22 p.a.

GENERAL INFORMATION

This is a non-Govt. institution incorporating the Gordon Memorial College and the Kitchener School of Medicine, endowed partly by Sudan Govt. and partly by public subscription, with the balance of its expenditure supplied by an annual grant-in-aid from the Sudan Govt. It is managed by Executive Cttees. (one for each of the two units comprising the Univ. Coll.) in London and by a Council in the Sudan, and advised by an Academic Bd. composed of hds. of Depts. with the Principal as Chairman. Gordon Memorial College was opened by Lord Kitchener as a primary school in 1902, became a secondary school in 1909, and in 1945 a number of Higher Schools in Admin., Agric., Arts, Engin., Sci. and Vet. Sci., which had been formed independently of each other during the years 1938-45, were consolidated into the Coll. In 1947 a School of Design was added, but in 1950 this was transferred to the Khartoum

Technical Inst. The Kitchener School of Medicine was opened in 1924 as a memorial to Lord Kitchener. In 1951 the two institutions were brought together under the title of University College of Khartoum.

ADMISSION. The qualificn. for admission is the Cambridge Overseas Sch. Certif. or equivalent. The minimum requirement is a Sch. Certif., with 4 or 5 credits, one of them being in English or Arabic. There are, in addition, certain minimum Fac. requirements.

COURSES. The Coll. has been admitted to a special relationship with the Univ. of London. Students who are matriculated proceed first to the inter. and then to the final examn., for an external B.A., B.Sc., B.Sc.Agric., LL.B. or B.Sc.Eng. degree of the Univ. Those who do not qualify for the degree courses may take a course leading to a Coll. dipl. The Med. and Vet. Schools have not yet instituted degree courses. Courses are : *Arts*—4 yrs. leading to London ext. Gen. B.A. or to Coll. Dipl. *Sci.*—4 yrs. leading to London ext. Gen. B.Sc. or to Coll. Dipl. *Agric.*—3 yrs. after Sci. inter. (5 yrs. in all) leading to London ext. B.Sc. (Agric.) or to Coll. Dipl. *Engin.*—4 yrs. after Sci. inter. (6 yrs. in all) leading to Coll. Dipl. or London ext. B.Sc. (Eng.). *Vet. Sci.*—4 yrs. after prelim. sci. yr. (5 yrs. in all) leading to Coll. Dipl. *Admin. and Law*—(a) 1-yr. postgraduate course for students taking admin.; (b) 4 yrs. for students taking law leading to London ext. LL.B. or to Coll. Dipl. *Med.*—5 yrs. after prelim. sci. yr. (6 yrs. in all) leading to Dipl. of Kitchener Sch. of Med.

TERMS. First, July 19–Sept. 25 ; Second, Oct. 4–Dec. 4 ; Third, Jan. 3–March 5.

FEEs. Full fees are £55 p.a. for residents in the Sudan ; £125 p.a. for those coming from elsewhere. There are many bursaries for Sudanese students.

RESIDENCE. There is hostel accomm. for all students and residence is normally obligatory.

THE LANGUAGE OF INSTRUCTION is English, although the official lang. of the Students' Union is Arabic.

LIBRARY. Newbold Library : at present 31,000 vols. including important Sudan Collection.

VACATION COURSES. Annual study camp at Erkowit (Red Sea Hills), in April ; Annual Winter School at Coll. in Dec.

PUBLICATION. *Calendar* (March, biennial).

THE YEAR 1951

On Sept. 1, 1951, the University College of Khartoum created by Ordinance of the Sudan Legislative Assembly. It incorporates Gordon Memorial Coll. and Kitchener Sch. of Med. Agreement reached with Univ. of London on applicn. to the Coll. of revised min. entrance requirements in terms of Cambridge Overseas Sch. Certif.

NEW BUILDINGS. Work completed on 2 new hostels for 80 students each. Conversion of 2 old hostels completed. New lab. block and lecture theatre built for Fac. of Sci. New Vet. Sch. built near Fac. of Agric. New hostel built for Fac. of Agric. Development of Hydraulics and Heat Engines Lab. continued in Fac. of Engin. Acquisition of 650 acres of addl. land for Fac. of Agric. Farm. Refitting of Newbold Library completed.

NEW POSTS. Chairs : Zool., Phys., Agric., Vet. Sci., Engin., Maths., Chem., Med., Surg., Anat., Physiol., Pub. Health, Pathol., Gynæcol. and

Obstet. Dept. of Econ. created and lectr. apptd. ; Lectureships added in Depts. of Civil Law, Mech. and Civil Engin., Vet. Anat., Maths.

EXTRA-MURAL WORK. The subject of study at Erkowit Camp, attended by 40 members, was "The Problems of Racial Contact in Africa." The Winter Sch. was not held. A special 4-wk. course in local govt. matters was held for officers from Rural District Councils and was attended by 17 students from 8 provinces.

[This statement relates only to the admission of students proposing to take full courses for a first degree. For conditions relating to recognition of study at other Universities and admission for higher degrees, v. pp. 13-24 and under the several Universities. Students desiring to study in a University without intending to graduate are generally admitted if they satisfy the authorities that they are qualified to profit by the course of study they propose to take, and if accommodation is available for them.]

GENERAL OUTLINE

A comparison of the University regulations regarding admission discloses a general agreement in principle, with certain divergencies in application. Before inserting a student's name *in matricula*, all the Univs. require evidence that the applicant's intellectual equipment fits him to undertake a course of study for a degree. This is tested either by an entrance examn. held by the Univ. concerned, or by the candidate's performance in an alternative exempting examn. In many cases there are additional Faculty requirements to be satisfied before a matriculated student may pursue a specific degree course. Most of the Oxford and Cambridge Colleges require candidates to pass a College entrance examn. in addition to satisfying the Univ. entrance requirements.

Early application is advisable for admission to a University, and frequently there are last dates for receipt of applications for entrance to the different Faculties of a University.

The introduction in England and Wales of the General Certificate of Education and the consequent cessation of the School and Higher School Certificate examns. (except for the Univ. of Cambridge Local Examns. Syndicate's Overseas Certificates) have affected not only the list of equivalent examns. accepted by Univs., but, in some cases, the holding of special entrance examns. by individual Univs. London no longer holds a Matricn. Examn. or a special Univ. entrance examn. (private candidates are, however, accepted for the General Certificate examns.

held by the Univ.). The Univ. of Wales has also ceased to hold its Matricn. Examn. On the other hand, the Univ. of Durham retains an entrance examn., and the Univ. of Nottingham a special entrance examn., to which in each case certain classes of candidates may enter by permission. At Oxford, regulations for Responsions (and exemption therefrom), and at Cambridge the regulations for the Previous Examn. (and exemption therefrom), have been revised.

SCHOOL EXAMINATIONS—ENGLAND AND WALES. The Ministry of Education in Circular 168 (April 1948) announced the acceptance of the main recommendations of the 1947 Report of the Secondary School Examinations Council. In principle the course of action which the Council unanimously recommended in their Report can be simply expressed. It recognized that the schools alone were in a position to decide what courses were best for their pupils, and that they needed the utmost freedom and flexibility to give effect to their judgments. At the same time it recognized the practical necessity of a system of external examns. to provide selective tests for those who wished to compete for scholarships at Univs. or other institutions, and a test of a qualifying nature for those who, having followed courses substantially beyond the statutory minimum leaving age, wished to establish competence in certain subjects, *e.g.* for entrance to a Univ. or profession. Apart from such necessary external tests, the testing of achievements in the schools would become a matter for the schools themselves.

Accordingly, in 1951 the examn. for the General Certificate of Education superseded the School and Higher School Certificate examns. Papers are provided at two levels: Ordinary and Advanced, with Scholarship papers available to serve a selective purpose. The standard of pass at the Ordinary level is approximately that of Credit in the School Certificate: a pass at the Advanced level approximates to a Higher School Certificate Principal pass. All subjects are optional and there are no minimum or group requirements. The examn. is open to all candidates, whether attending school or not, who are 16 by Sept. 1 in the year of examn., and a General Certificate of Education is issued to every candidate who reaches the pass standard in any subject at the Ordinary or Advanced level.

In April 1952, the Secondary School Examns. Council presented their second and unanimous Report to the Minister at the conclusion of a review of the new examn. in the light of the principles underlying their 1947 Report, and of experience of the examns. held in 1951. In this Report the Council reaffirmed the view that the standard of the Ordinary level pass should represent approximately that of the School Certificate Credit, and other views expressed in their 1947 Report. But, while they saw no reason to change the main structure of the examn., they were impressed by certain difficulties associated with the age limit. They were also aware of a demand for some mark of grading on the certificates, which they believed to be both possible and desirable at the Advanced level. In Circular 251 (April 1952) the Minister gave effect to both of the Council's recommendations. As a result, from 1953 onwards:

- (i) the age limit will be retained, but the head of a school will have full discretion to enter pupils who are not 16 by Sept. 1, if he certifies that it is educationally desirable for them to take the examn. in the particular subjects offered at the time proposed, and that they have pursued a course of study with such a degree of competence as to make it very probable that they will pass in those subjects ;
- (ii) a Distinction endorsement to a pass at Advanced level can be awarded to candidates whose performance merits it.

The examns. are conducted by the approved Examining Bodies,* over whom the Minister of Education exercises a co-ordinating authority with the help of the Secondary School Examns. Council, composed of representatives of Univs., local education authorities and teachers' associations, and members nominated by the Minister of Education, with a Chairman appointed by the Minister.

The new examn. for the General Certificate of Education has been accepted, subject to various qualifications, by all United Kingdom Univs. and a number of professional bodies for the purpose of exempting candidates from entrance and other examns., in the same way as were the School Certificate and Higher School Certificate examns. Transitional provision is generally made for the acceptance of a School Certificate Credit or Higher School Certificate pass in a subsidiary subject as equivalent to a pass at the Ordinary level in the General Certificate of Education, and of a Higher School Certificate pass at Principal level as equivalent to a pass at the Advanced level in the new examn.

A substantial degree of inter-availability of minimum entrance requirements to Univs. has been achieved consequent upon the individual Univs. deciding to frame their requirements in the light of the following resolution passed at a meeting of Univ. representatives convened in Nov. 1948 by the Committee of Vice-Chancellors and Principals :

" That in order to secure the maximum inter-availability in entrance requirements and in order to meet as far as possible the wishes of the schools, this meeting of representatives of Universities strongly recommends for the serious consideration of all Universities the adoption, for a period of five years, of the following scheme : (i) in order to satisfy minimum University entrance requirements, a candidate must pass in English Language and in either *four* or *five* other subjects ; (ii) the subjects must include (a) a language other than English and (b) either mathematics or an approved science ; (iii) at least *two* of the subjects must be passed at the advanced level ; (iv) candidates who offer only *four* subjects in addition to English Language must pass at one and the same sitting in two subjects at

the advanced level and in one other subject not related to the subjects offered at the advanced level."

Oxford and Cambridge have decided not to require the passing of two subjects at Advanced level from candidates who seek exemption from Responsions and the Previous Examn. respectively by way of the General Certificate of Education. Oxford has retained the requirement of a pass in two languages other than English, one of which must be either Latin or Greek, but at Cambridge, while Latin or Greek is still required, two other approved subjects may be offered in place of the second language other than English.

There are also certain other minor differences of interpretation, according to local circumstances, concerning the subjects which the several Univs. recognize as approved subjects of matriculation, approved science subjects and subjects related or unrelated to other subjects. Some Univs., however, have decided to regard as eligible for matriculation candidates who possess a General Certificate of Education which is certified by the appropriate official as satisfying the matriculation requirements of another Univ. in Great Britain or Northern Ireland under that Univ.'s conditions for recognizing the General Certificate of Education.

SCOTLAND. Under Ordinance No. LXX of the Courts of St. Andrews, Glasgow, Aberdeen, and Edinburgh Univs., the Scottish Univs. Entrance Board has been constituted to determine the requirements qualifying applicants to enter upon a course of study leading to a degree of a Scottish Univ. and to issue certificates attesting the educational fitness of applicants who have fulfilled these requirements.

Applicants should note, however, that the Board's certificate may not qualify them to study for a particular degree if they have not a sufficient knowledge of a subject or subjects required in one or other of the prescribed curricula for that degree. They are therefore advised to ascertain from the Univ. which they propose to enter whether they need to obtain passes in additional subjects or at higher standards.

The Board's Regulations are contained in a leaflet published in Feb. every year. These prescribe for the recognition, on certain conditions, of Certificates awarded by the Scottish Education Department, English School and Higher School Certificates, the English General Certificate of Education, certain certificates awarded by overseas Univs. and State Education Departments and, for those who do not qualify completely, or at all, by these certificates, provide a Preliminary Examn. twice annually, in March and Aug. V. also pp. 1449-1457.

NORTHERN IRELAND. The Senior Certificate of the Ministry of Education of Northern Ireland is accepted, subject for subject, by the Queen's Univ. of Belfast in lieu of its Matriculation examn. subject to the following provisos: (a) that the whole examn. has been passed, and (b) that a minimum of three *Credits* has been obtained. For applicants from other parts of the United Kingdom and overseas countries Belfast accepts, subject for subject, certain other certificates.

UNIVERSITY ADMISSION (UNITED KINGDOM) 1413

In all cases subjects are accepted only if recognized for the particular Faculty to which admission is desired. V. also pp. 1457-1458.

ADMISSION OF STUDENTS FROM THE COMMONWEALTH OVERSEAS AND FROM FOREIGN COUNTRIES. As regards a student educated in another country the regulations are drafted on the understanding that the application of the ordinary entrance tests might be inappropriate owing to these tests having been framed with reference to secondary education curricula different from those which obtain in his own country, or to the student having reached a stage in his education at which the passing of ordinary entrance tests would involve a wasteful repetition of preparatory studies. They accordingly provide for the submission by such a student of other evidence of academic qualificns.: ordinarily, certs. (relating to, for example, Dominion Matricn., or Baccalaureat, examns.), which would entitle to admission to an approved Univ. in the student's own country, together with such further evidence as may be necessary to ensure that no student shall be admitted to a course of study for a degree without a reasonable prospect of his being able to pursue it to graduation (in particular, if the student be one whose mother tongue is not English, evidence that he has a sufficient mastery of this language to enable him to follow courses of instruction conducted in English). When certificates are in a foreign language they should ordinarily be accompanied by a certified English translation. Unless the certificate shows on its face that it would admit the holder to a Univ. in his own country it should be accompanied by a letter to this effect from the Registrar of such a Univ. or by an authenticated declaration by a Government official or the local British Council Representative or by an official of an Embassy, Legation, or Consulate of the country to which the applicant belongs, testifying that the certificate would entitle the holder to enter on a regular course of study in a Univ. in that country. Intending students should apply for information to the Registrar of the Univ. in which they desire to be matriculated. The regulations are summarized below under each Univ. or group of Univs.

It does not follow that any student, although having the minimum educational qualifications for admission in accordance with the preceding paragraphs, will in fact be admitted to a Univ. in a particular year. Most Univs. have, under present conditions, long waiting-lists from which selections are made for the offer of actual places as new students. It is therefore desirable that any prospective entrant from overseas should make application as early as possible and should submit particulars of any further educational distinctions which he may possess. In general, in the absence of exceptional circumstances (such as the lack of appropriate facilities for study in the applicant's own country *) the United Kingdom Univs. are at present unable to offer places for undergraduate study to students from overseas in preference to those from this country, but this does not apply to the same extent to applications at the postgraduate level.

* Students from Colonial territories for whom on this ground a special quota of places is often set aside should apply through their local education service.

SPECIFIC CONDITIONS

Candidates for admission to a Univ. in the United Kingdom, unless they are graduates of a recognized Univ., must have passed the appropriate entrance examn. for that Univ. or an alternative exempting examn. The principal examns. (indicated by a number in this Appendix for the purpose of reference) are as follows :

1. Oxford Responsions.
2. Cambridge Previous Examn.

General Certificate of Education Examns. held by the following Examining Bodies :

3. Oxford and Cambridge Schools Examn. Board.
4. Univ. of Cambridge Local Examns. Syndicate.
5. Oxford Local Examns. Delegacy.
6. Univ. of Bristol.
7. Univ. of Durham.
8. Univ. of London.
9. Joint Matriculation Board of Manchester, Liverpool, Leeds, Sheffield and Birmingham.
10. Welsh Joint Education Committee.
11. Preliminary Examn. of the Scottish Univs. Entrance Board.
12. Senior Leaving Certificate Examn. of the Scottish Education Department.
13. Senior Certificate Examn. of the Ministry of Education, Northern Ireland.
14. Belfast Matriculation Examn.
15. Univ. of Cambridge Local Examns. Syndicate's Oversea Certificate Examns. : (a) School, (b) Higher School.
16. Army Special Certificate of Education Examn.

The Univs. also include certain examns. other than those enumerated above as qualifying for admission. These examns. and the conditions affecting them are referred to in the text below under each Univ. or group of Univs.

JOINT MATRICULATION BOARD OF THE UNIVERSITIES OF MANCHESTER, LIVERPOOL, LEEDS, SHEFFIELD AND BIRMINGHAM

1. Before admission to a degree course in one of the five Univs. which constitute the Joint Matriculation Board a student must satisfy (a) the requirements of the Board which are concerned with general education and (b) any special Faculty requirements of the individual Univ. concerned (v. *infra*, pp. 1419-1423). Completion of the requirements under (a) and (b) does not automatically give right of entry to a Univ. To be accepted by a Univ. a student must apply direct to the Registrar of that Univ. Full information regarding admission to the constituent Univs. may be obtained from the Secretary, 315 Oxford Rd., Manchester, 13.

2. As from May 1, 1951, up to and including Oct. 31, 1955, the Univ. entrance requirements of the Joint Matriculation Board will be

satisfied by any one of the following qualifications: I. A General Certificate of Education which fulfils the prescribed conditions (v. pp. 1415-1417). II. A pass in the Board's examn. for candidates of mature years (p. 1417). III. A pass in the Board's examn. for candidates who have been engaged in industry or commerce (v. p. 1417). IV. One of the qualifications listed under section IV (v. pp. 1418-1419). V. Any qualification which satisfied the Board's requirements in force at the date the qualification was obtained.

I. General Certificate of Education

3. The Board's Univ. entrance requirements will be satisfied by a G.C.E. issued by the Board (or by one of the examining bodies referred to in para. 4) which shows: either (a) A pass in six subjects which include (i) English Lang., (ii) a language other than English, (iii) either Maths. (para. 6) or an approved Science (para. 7), (iv) at least two subjects at the Advanced level; *Provided that* (1) The requirements under (a) may be fulfilled at more than one sitting. (2) The required subjects must be selected from the list given in para. 5, except that one, but only one, of the following may be included among the six required subjects: Handicraft, Domestic Subjects, Geometrical and Machine Drawing, Mechanical Science. (3) No subject may be counted both at the Ordinary and at the Advanced level. Or (b) A pass in five subjects which include (i) English Lang., (ii) a language other than English, (iii) either Maths. (para. 6) or an approved Science (para. 7), (iv) at least two subjects at the Advanced level passed at one and the same sitting together with at least one other of the five required subjects; *Provided that* (1) The required subjects must be selected from the list given in para. 5. (2) Of the minimum of three subjects required under (iv) to be passed at one and the same sitting one subject must not be "related to" the other two (para. 8). (3) No subject may be counted both at the Ordinary and at the Advanced level.

4. The General Certificate of Education of the following examining bodies will be accepted under the same conditions as the Board's General Certificate: Nos. 3-8, and 10 (v. *supra*, p. 1414). The requirements under para. 3 (a) and para. 3 (b) above may be fulfilled by a combination of certificates issued by more than one examining body.

5. The following subjects of the Board's General Certificate Examn. and the corresponding subjects in the examns. of any of the bodies referred to in para. 4, will be accepted for the purposes of para. 3: 1. General Paper; 2. English Lang.; 3. English Lit.; 4. History; 5. Ancient History and Lit. (may not be counted with History); 6. Geog.; 7. Economics; 8. Scripture Knowledge; 9. Art; 10. History and Appreciation of Art (may not be counted with Art); 11. Music; 12. Greek and Roman Lit. in Translation (may not be counted with Greek and/or Latin); 13. Greek; 14. Latin; 15. French; 16. German; 17. Spanish; 18. Italian; 19. Russian; 20. Welsh; 21. Specially approved langs.; 22. Maths.; 23. Maths. and Theoretical Mechanics (counts as two Advanced subjects but may not be counted with Maths.); 24. Physics; 25. Chem.; 26. Physics-with-Chem. (may not be counted

with any of the following : Physics, Chem., General Science) ; 27. Bot. ; 28. Zool. ; 29. Biol. (may not be counted with Bot. and/or Zool.) ; 30. Geol. ; 31. General Science I ; 32. General Science II (General Science I and/or II may not be counted with any of the following : Physics, Chem., Physics-with-Chem., Bot., Zool., Biol.) ; 33. Elementary Physiol. (may not be counted with Zool. or Biol.).

6. Either 22. Maths. or 23. Maths. and Theoretical Mechanics will satisfy the requirement of Maths. under para. 3 (a) (iii) and para. 3 (b) (iii).

7. Of the subjects listed in para. 5, Nos. 24 to 33 (both inclusive) are " approved Sciences " for the purposes of para. 3 (a) (iii) and para. 3 (b) (iii).

8. The condition that of the minimum of three subjects required under para. 3 (b) (iv) one must not be " related to " the other two subjects will be interpreted as follows, provided that certain combinations as indicated in para. 5 will not be counted : (a) the General Paper will not be regarded as related to any other subject in the list under para. 5 ; (b) subjects 2 to 12 will not be regarded as related to subjects 13 to 33 ; (c) subjects 13 to 21 will not be regarded as related to subjects 2 to 12 and 22 to 33 ; (d) subjects 22 to 33 will not be regarded as related to subjects 2 to 21.

9. The Board's Univ. entrance requirements will also be satisfied by a General Certificate of Education which satisfies the three following conditions : (a) it is awarded by one (or more) of the bodies referred to in para. 4 ; (b) it satisfies the general conditions of para. 3 ; (c) it is certified by the appropriate official as satisfying the Matriculation requirements of a Univ. in Gt. Britain or N. Ireland under that Univ.'s conditions for recognizing the General Certificate of Education.

10. The Board is prepared to consider the exercise of its discretionary powers as regards the acceptability or otherwise of any of its own General Certificates of Education which may not satisfy paras. 5, 6, 7 and 8 but may satisfy para. 9 (b) and (c).

11. Transitional Provisions. The institution in 1951 of the examn. for the General Certificate of Education and the consequent withdrawal of the School Certificate and Higher School Certificate Examns. will prevent some candidates who hold School Certificates and/or Higher School Certificates (or Letters of Success) from completing the Board's requirements as set out in the 1949-50 *Yearbook*, pp. 1192-1193. The following provisions are therefore made : (a) A *pass with Credit* in a subject of an approved School Certificate examn. or a *pass* in a Subsidiary subject (including " Subsidiary Standard ") of an approved Higher School Certificate examn. will be accepted in lieu of a *pass* in the corresponding subject at the Ordinary level in the General Certificate Examn. (b) A *pass* in a Principal subject of an approved Higher School Certificate examn. (or a *pass* in a subject of a London Univ. External Intermediate Examn.) will be accepted in lieu of a *pass* in the corresponding subject at the Advanced level in the General Certificate Examn. (c) A *pass* in a subject of any of the following examns. before May 1, 1951 (but *see* (x) and (xi) below), will be accepted in lieu of a *pass* in the corresponding subject at the Ordinary level in the

UNIVERSITY ADMISSION (UNITED KINGDOM) 1417

General Certificate Examn. : (i) Nos 1, 2 and 14.* (ii) The Matriculation Examn. of the Univ. of London (a pass at a Lower Alternative standard is not acceptable). (iii) The Entrance Examn. of the Univ. of Durham. (iv) The Matriculation Examn. of the Univ. of Wales. (v) No. 11* (a pass at the Lower standard is not acceptable). (vi) The Matriculation Examn. of the Univ. of Dublin, Trinity College. (vii) The Matriculation Examn. of the National Univ. of Ireland. (viii) No. 13* (a pass in a subject at the Subsidiary standard is not acceptable). (ix) The Intermediate Certificate Examn., Department of Education, Republic of Ireland (only subjects passed at the Honours standard are acceptable). (x) The Forces Preliminary Examn. up to Nov. 1952 inclusive. (xi) The Passing-Out Examn. of the Royal Naval College, Dartmouth, up to Oct. 31, 1955. (d) The Board's requirements will be satisfied in full if a candidate (1) holds a School Certificate showing (i) passes in each of Groups I, II, III as defined in *Regulations for the Award of School Certificates*, (ii) the *Credit* standard in at least one subject from those named in para. 5 and subsequently (2) passes in three Advanced subjects at one and the same sitting of the Examn. for the General Certificate of Education. If one of the Groups I, II or III is not represented on the School Certificate, a subject of the missing group must be passed at the *Credit* standard in the School Certificate Examn., or at the Subsidiary standard in the Higher School Certificate Examn., or at the Ordinary or at the Advanced standard in the Examn. for the G.C.E.

II. *Examination for Candidates of Mature Years*

12. This examn. is for exceptional candidates who have been unable to qualify at the normal time but show promise of obtaining more than ordinary success in a Univ. course. The examn. may be taken only by candidates who desire to proceed to an approved course in one of the constituent Univs. Candidates must be not less than 23 years of age on May 1 of the year of examn. Only in exceptional circumstances will a candidate who fails in this examn. be permitted to make a second attempt. Details from the Secretary.

III. *Examination for Candidates who have been engaged in Industry or Commerce*

13. Permission to enter for this examination is granted only to candidates who are not less than 19 years of age on July 31 of the year of examn. and desire to proceed to a degree course in one of the constituent Univs., having been engaged in full-time industrial, technical or commercial employment for a period of at least three years; candidates must also have attended systematic courses of instruction satisfactory to the Board for a period of at least three years and have gained at the end of the course a certif. or diploma deemed satisfactory by the Board. Details from the Secretary.

* V. *supra*, p. 1414.

IV. *Other Qualifications accepted by the Board*

14. A candidate will be regarded as satisfying the Board's requirements if he holds any one of the following: (a) A degree conferred by an approved Univ. after examn. (b) A certif. showing that the holder has attended for at least two years full-time courses approved by the Board and has passed the final examn. of a training college accepted by the Board for this purpose. (c) A certif. showing that the holder is a Barrister called to the English Bar or a Solicitor admitted on the Rolls after passing the Final Examn. of the Law Society (*Fac. of Law only*). (d) *Either* (i) No. 12,* † provided that the candidate passed at one and the same examn. in five subjects at the Higher Grade (a pass in either Physical Science or Natural Science will be regarded as equivalent to a pass in two sci. subjects), or (ii) No. 12, † provided that the candidate passed at not more than two sittings of the examn. in four approved Higher Grade subjects and two approved Lower Grade subjects, and provided that the six subjects include passes in English Language, in a language other than English, and in Maths. (or an approved Science). (e) *Either* (i) No. 13, † provided that at one sitting before 1952 the candidate reached the *Credit* standard in English and in four other subjects, including at least one subject of each of Groups I, II and III of the Board's School Certificate Examn., or (ii) No. 13, † provided that at one sitting after 1951 the candidate passes in English Lang., English Lit., an approved lang. other than English, Maths. (or an approved Sci.) and two other approved subjects, at least two of the six required subjects being passed at the Advanced level. (*Passes with Credit* in subjects offered at the Subsidiary standard are not acceptable.) (f) The Leaving Certificate of the Department of Education, Republic of Ireland, ‡ provided that the candidate passed with Hons. at one and the same examn. in five subjects approved by the Board. Alternatively: by a pass at one and the same sitting of one of the General Certificate Examns. Nos. 3-10 † in four approved subjects at the Ordinary level, together with a pass at Honours standard in two approved subjects at one and the same sitting of the Leaving Certificate Examn. of the Dept. of Education, Republic of Ireland, provided that the six required subjects show passes in English lang., an approved lang. other than English, and Maths. (or an approved Sci.). (g) No. 16. † (h) The Matriculation Certificate of an approved British Univ. overseas (under certain conditions). (j) A certificate of having passed at one and the same examn. the Intermediate Examn. in Arts, Science, or Medicine of an approved Univ. in India or Pakistan. (Candidates from Pakistan are required to apply to the Board through the High Commissioner

* Certificates gained after Dec. 1, 1947, must show a pass at one and the same examn. in five subjects at the Higher standard including at least one subject of each of Groups I, II and III of the Board's School Certificate Examination.

† V. *supra*, p. 1414.

for Pakistan, 35 Lowndes Square, London, S.W.1.) (*k*) Either the Matriculation Certificate of the Palestine Board of Higher Studies * or, under certain conditions, the Israeli Secondary School Leaving Certificate. (*l*) The Secondary Education Certificate, Part II, of the Egyptian Ministry of Education. On Certificates issued in and after June 1938 a pass in the Special Part must be shown. (*m*) The Baccalaureat Certificate of Iraq,† provided that the candidate is recommended by the Iraqi Ministry of Education. (*n*) A foreign examn. certificate which entitles the candidate to enter upon a degree course in all Faculties of a recognized Univ. of the country in which the certificate was issued if that country is not specified above.

15. The Board will exercise its discretionary power of accepting certificates of having passed other examns. of a standard at least equal to those mentioned above.

N.B.—Leeds. Applications from persons of British nationality whose home is in the British Isles may be received on the appropriate forms up to June 30. Applications from persons resident outside the British Isles must be received before May 31. Applicants of foreign nationality whether resident overseas or in the British Isles must make application through the Embassy or Education Bureau of their government or through the British Council. Applicants from British Colonial territories must apply through the Education Department of the Colonial Office.

At *Liverpool* the Senate, after report from the Faculty concerned, determines before registration whether the applications of foreign, Indian and Pakistan students shall be accepted. Students from Pakistan are required to apply for admission through the High Commissioner for Pakistan and are not admitted without his recommendation. Applications for registration from Indian and Pakistan students must be received before Jan. 1 in each year, and must be accompanied by detailed references certifying as to character and educational qualifications. All such students, before admission to courses of study in the Univ., shall satisfy the Faculty concerned that they have a knowledge of English sufficient for the purpose of their work. Except by special permission of the Senate, no student who is not normally resident in Great Britain will be admitted to classes or courses of study in the Univ. unless he is accredited on personal and academic grounds and is assured of adequate financial support by his own Government or by some approved academic institution.

Special Regulations for Entrance to Faculties

Birmingham. Science. Candidates for admission to an Hons. course in any Pure Science subject or to the second year of any Applied

* Certificates gained after Dec. 1, 1947, must show that at one sitting the candidate reached the *credit* standard in English, Syllabus A, and in four other subjects including at least one subject of each of Groups I, II and III of the Board's School Certificate Examn.

† A certificate showing the passing of the Commerce section is not acceptable if gained after Dec. 1, 1947.

Science course must have passed in three Science subjects at Advanced standard at the same examn.

Arts. Candidates for admission to an Hons. course must have passed in three subjects at Advanced standard, normally at the same examn. In addition, they must have passed at Ordinary standard in Latin for admission to the Schools of French, Italian, Spanish and History, and in Latin or Greek for admission to the School of English.

Medicine. Candidates for admission to the second year of Medicine or Dentistry must have passed in Physics, Chem. and Biol. (or Bot. and Zool.) at Advanced standard at the same examn.

Commerce. Candidates must normally have passed in three subjects at Advanced standard. Maths. must have been passed at least at Ordinary standard.

Law. Candidates for admission to the Faculty must, in addition to the Matriculation requirement, have passed in Latin at Ordinary standard in the General Certificate.

Note : Higher and School Certificate qualifications equivalent to the qualifications based on the General Certificate of Education will still be accepted by all Faculties.

Leeds. Special entry requirements are made as follows :

Arts. B.A. in Special Studies in French, Spanish or Italian or in the Modern Langs. combination when one or more of these subjects form part of the combination—a qualificn. in Latin equivalent to the Credit standard in the School Certif. Examn. of the Jt. Matricn. Bd.

Science and Technology. Information concerning specified subjects in which qualificns. are required for entry to particular courses is obtainable from the Registrar.

Medicine. M.B., Ch.B.—Chem. at the Ordinary standard in the G.C.E. examn., or at the subsidiary standard in the H.S.C. examn., and Maths. at the Ordinary standard (alternative or ordinary syllabus) in the G.C.E. examn., or at the " Pass " standard in the School Certif. examn.

Dentistry. B.Ch.D.—Maths. at least equivalent to that of " Pass " standard in the School Certif. examn. (For Session 1952-53 and thereafter : Maths., Chem. and Phys. at least at Ordinary standard in the G.C.E. examn.)

Exemptions. In certain circumstances, applicants for admission to courses leading to the degrees of B.A. and B.Sc. in Special or General Studies may be exempted by the Boards of the Faculties concerned from one-year courses and corresponding examns. if they possess qualifications obtained in the examination for the General Certificate of Education or other equivalent examn. of a sufficiently high standard. Exemptions will not be automatic and, in the case of B.A. applicants, will be granted only in exceptional cases. Subject to a minimum attendance in this Univ. of two years and to the approval of the Senate, members of other Univs. which require residence as a condition of graduation may be permitted to count their studies and examns. (other than the Final Examn.) therein towards graduation in Leeds.

Liverpool.* Arts. Applicants for the Faculty of Arts must have passed in three subjects of the General Certificate of Education at the Advanced level, and in Greek or Latin or Maths., if not included in these three subjects, at the Ordinary level.

Candidates who have qualified in Maths., but not in Greek or Latin, will be required : (a) For the degree of Bachelor of Arts in General Studies to take not less than five courses of the nine required from the following subjects : Geog., Economics, Economic History, Sociol., Political Science and Psychol. (b) For the degree of Bachelor of Arts in Special Studies to present themselves in any one of the following four schools : Geog., Economics, Social Science, Psychol.

Architecture. All applicants for admission to this School must have passed the Joint Matriculation Board's requirements for entry on a degree course.

Science. Particulars of the amount of knowledge (in terms of the syllabuses given in the Joint Matriculation Board publication : *Examination for the General Certificate of Education, 1951*) assumed as a basis for introductory courses, may be had on application to the Registrar ; from whom also may be obtained details of qualifications necessary for exemption from the first session of a course of study in this Faculty.

Medicine, Dental Surgery. The Faculty recommends that the subjects of Physics and Chem. should be included at least at the Ordinary level in the subjects taken in the General Certificate of Education. Exemptions will be granted in the individual subjects of Physics, Chem. and Biol. in the First M.B., Ch.B. or B.D.S. or L.D.S. examns. to candidates who have passed in such subjects at the Advanced level in the examn. for the General Certificate of Education ; but as soon as accommodation and teaching staff are available all exemptions from the courses of study and examns. for the First M.B., Ch.B. or B.D.S. or L.D.S. examns. will be withdrawn.

Law. The Faculty will not regard with favour any applicant who intends to become a Solicitor or a Barrister and who, at the date of entry into the Faculty, does not possess the qualification for exemption from the Preliminary Examn. of the Law Society or for admission as a student into one of the Inns of Court, as the case may be.

Engineering. Courses in the Faculty of Engineering are designed on the assumption that students have some previous knowledge of Maths., Physics and Chem. Candidates are recommended to present in the Examn. for the General Certificate of Education (a) Maths. at the Ordinary standard (Syllabus II) ; and (b) either Physics or Chem. (or, preferably, Physics and Chem.) at the Ordinary standard. In view of the small number of places in the first year of study, candidates are recommended to obtain qualifications which will exempt them from the first year of study and from the Intermediate B.Eng. Examn.

Exemption from the first year of study and Intermediate B.Eng. Examn. may be granted, under certain circumstances, to candidates

* These special regulations are subject to modification when more is known about the new system.

who have passed the Examn. for the General Certificate of Education* and whose performance in a prescribed combination of subjects is satisfactory.

Candidates who have passed the Examn. for the General Certificate of Education but have not reached a sufficiently high standard for exemption from the first year of study and Intermediate B.Eng. Examn. may be considered for such exemption, provided that they satisfy the examiners in Pure Mathematics and Applied Mathematics separately in the Intermediate Examn. before entering the Univ.

Veterinary Science. The Faculty does not insist on any particular qualification beyond the fulfilment of the requirements of the Joint Matriculation Board to enter on a degree course. It recommends, however, that the subjects of Physics and Chemistry should have been studied up to the Ordinary level of the General Certificate of Education.

Exemptions are not granted in First Year subjects passed at Principal standard by holders of a Higher School Certificate or at the Advanced level in the examn. for the General Certificate of Education.

Manchester. Students entering for the following degree courses must have reached the Ordinary or a higher level in an examn. for the General Certificate of Education in the subjects named or give evidence of having attained an equivalent standard: 1. Hons. Schools in *Arts* (except Archit., Town and Country Planning, Pol. and Mod. Hist., Mod. Hist. with Econ. and Pol., Philos., Psychology, Geog. and Oriental Studies)—Latin (*or* Greek in case of Hons. Schools of English or German *or* Maths. in case of Hons. School of Maths.), unless prepared to devote 4 yrs. to the course. Students entering Hons. course in Combined Subjects must satisfy this regln. if it applies to the Hons. course in either of the two subjects combined. The requirement of Latin may be waived for students entering by means of Mature Matriculation. 2. *Law*—Latin. 3. *Medicine*—Maths. 4. *Dentistry*—Maths. 5. *Technology*—Maths. (*Note:* Wherever Maths. is specified as a Faculty requirement a pass at the Advanced level in "Maths. and Theoretical Mechanics" will be accepted.) The attainment of at least School Certificate Credit standard in the relevant subject will continue to be accepted until further notice.

Sheffield. *Arts.* With certain exceptions to be mentioned below, candidates who have not passed in a language in the recognized qualifying examn. for entry upon a degree course must, before admission to the Intermediate course, satisfy the Hd. of the Dept. concerned that their knowledge of the lang. is sufficient for them to profit by the course in that subject. Similarly, a student who wishes to include Music in his degree course must satisfy the Hd. of that Dept. as to his proficiency in that subject. Candidates who have passed in either Latin or French at the Ordinary standard in the examn. for the General

* Or who hold a Cert. of the appropriate standard of any of the following bodies: (1) Oxford Local Examns. Delegacy. (2) Univ. of Cambridge Local Examns. Syndicate. (3) Oxford and Cambridge Schools Examn. Board. (4) Welsh Joint Educn. Cttee. (5) Univ. of Durham. (6) Univ. of London.

Certificate of Education may be admitted to the Intermediate course in Spanish without any previous knowledge of that lang. The course for beginners in Greek is recognized as a full Intermediate course, under certain conditions. A qualification in Latin or Greek is required before admission to certain of the Honours Schools. Details of the requirements for admission to Honours Schools should be ascertained by application to the Registrar of the Univ.

Law. Students who intend to read for the degree of LL.B. must have passed in Latin at the Ordinary standard at the examn. for the General Certificate of Education or at some examn. of equal or higher standard.

Pure Science. Students desiring to enter Special Honours Schools may be allowed to take the higher courses of instruction for the first-year qualifying examn. in one or more of the subjects: Maths., Physics, Chem., Zool., Bot., Geol., and Geog., if they have passed in the respective subjects at an approved standard in the Advanced papers of the General Certificate of Education.

Engineering. For admission to degree courses in Civil, Mechanical, Electrical Engineering and Mining, applicants should have passed at a satisfactory standard the Advanced * papers of the General Certificate of Education in Maths., Physics and Chem. Applicants for admission to degrees in Fuel Technology should have obtained passes at Advanced* level in the General Certificate of Education in Maths., Physics and Chem. Applicants for admission to a degree course in Glass Technology who have reached a standard satisfactory to the Faculty in Maths., Physics and Chem., all at the Advanced level, will be exempted from the Intermediate examn. in these subjects.

Metallurgy. Applicants for admission to degree courses in Metallurgy are advised to include Maths., Physics and Chem. in the examn. for the General Certificate of Education. Candidates who wish to be admitted to the first year of the *Honours* course must have passed the Advanced papers in these three subjects at a standard satisfactory to the Faculty.

Medicine. Applicants should normally have reached at least the Ordinary standard in the General Certificate of Education in the subjects of Chem. and Physics, and preferably also Biol. Exemption from the first examn. for degree of M.B., Ch.B. or for degree of B.D.S. may be gained under conditions which should be ascertained by application to the Dean of the Faculty (or to the Director of Dental Studies in the case of B.D.S.).

Note: Higher and School Certificate qualifications equivalent to the qualifications based on the G.C.E. will still be accepted by all Faculties.

BRISTOL

The Univ. holds no Matriculation or Entrance Examn. (except for candidates engaged in Industry or Commerce) but recognizes the examns. set forth below as qualifying for matriculation, provided that the following special Faculty requirements are fulfilled: For B.A.—

* Candidates whose passes in the subjects specified do not reach a level satisfactory to the Faculty may be admitted to a preliminary course of 1 yr.

candidates must have passed at Ordinary or Advanced level in Latin or Classical Greek * in the General Certificate of Education (or equivalent) or reached a recognized equivalent standard in Classical Arabic (in the case of nationals of Arabic-speaking countries). For B.A. (Econ.).—candidates must have passed at or above Ordinary level in either French or German and in either Maths. or a classical language. For LL.B.—candidates must have passed at Ordinary or Advanced level in Latin or give evidence of such proficiency in Latin as may be satisfactory to the Board of the Faculty of Law.

Qualifying Examinations

(a) General Certificate of Education examinations held by Nos. 3, 4, 5, 6, 7, 8, 9 and 10 † provided (v. *supra*, p. 1411, final para.) that the Certificate shows **either** Scheme A (Six subjects)—A pass in (a) English Lang., (b) a language other than English, (c) either Maths. or an approved Science subject, and three other subjects chosen from the approved list of subjects; and provided two of the six subjects are passed at the Advanced level; or Scheme B (Five subjects)—A pass in (a) English Lang., (b) a language other than English, (c) either Maths. or an approved Science subject and two other subjects chosen from the approved list of subjects, provided that three of these subjects, including two at the Advanced level, are passed at one and the same sitting. DURHAM

I. Students admitted to a coll. or recognized society in the Durham Division, or to the Newcastle Division, or to an affiliated coll., may matriculate if they (a) possess a general qualification for matriculation and (b) comply with any special requirements for the course they propose to follow.

II. GENERAL QUALIFICATION FOR MATRICULATION. The General Certificate of Education awarded by Nos. 3, 4, 5, 6, 7, 8, 9 and 10 (v. *supra*, p. 1414) will constitute a general qualification provided that : (a) The student passed in English Lang. and *either* four *or* five other subjects. (b) The subjects include : (i) a language other than English ; (ii) *either* Maths. *or* one of the following—Chem., Physics, Chem.-with-Physics, Bot., Zool., Biol., Geol., General Science ; (iii) at least two subjects at Advanced level.

If the candidate passed in English Lang. and *four* other subjects, he must have passed at one and the same sitting in three subjects other than English Lang., drawn from at least two of the following groups, two of these three subjects being at Advanced level. Group A : Arts subjects excluding languages. Group B : Languages other than English. Group C : Maths. and Sciences. Details should be checked from the regulations or with the Registrar.

Note : Credits in a School Certificate obtained before 1951 may be counted as Ordinary level passes. Higher School Certificate passes, Principal or Subsidiary, obtained before 1951 may be counted as Advanced level passes. Credits in the Cambridge Oversea School Certificate or Subsidiary passes in the Cambridge Oversea Higher

School Certificate will be accepted as Ordinary level passes. Principal passes in the Cambridge Oversea Higher School Certificate will be accepted as Advanced level passes. Until Oct. 31, 1955, the Univ. will accept as a general qualification to matriculate a General Certificate of Education which does not comply with certain rules on the selection of subjects, provided that the Certificate would qualify to matriculate in a Univ. in England.

III. SPECIAL QUALIFICATIONS FOR PARTICULAR COURSES. (1) Students entering upon courses for degrees named below and submitting a General Certificate of Education must not only satisfy the general requirements for matriculation but must also satisfy the following special requirements: B.A. in General Studies, B.A. with Honours (except B.A. with Honours in Town and Country Planning): Latin or Classical Greek at Advanced or Ordinary level. (Candidates entering certain Honours Schools or offering certain languages must comply with further requirements in regard to languages.) B.Sc. in Applied Science (excluding Metallurgy): either Additional Maths. at Ordinary level, or Pure and Applied Maths. at Advanced level, either as a joint or as two separate subjects, and Physics and Chem. at either Advanced or Ordinary level. (Elementary Maths. at Advanced level in the General Certificate of Education may be supplemented by Additional Maths. in the Entrance Examn.) B.Sc. in Metallurgy: Maths., Physics and Chem., of which one shall be at Advanced level. LL.B.: Latin at either Advanced or Ordinary level.

(2) Candidates for the B.A. in Fine Art may matriculate *either* (a) if they hold a general qualification to matriculate, and pass the Entrance Examn. of the Dept. of Fine Art or otherwise satisfy the Hd. of the Dept. that they are qualified to take the course; *or* (b) if they hold a General Certificate of Education with English and two subjects other than Fine Art passed at one and the same occasion, and pass the Entrance Examn. of the Dept. of Fine Art.

(3) Candidates for the L.D.S. may matriculate on a general qualification to matriculate or by passing an approved examn. in the subjects required for a general qualification to matriculate.

(4) Candidates for the (external) degree of B.Mus. do not matriculate, but must pass or be exempt from an Entrance Examn. conducted by the Univ.

If a candidate holds a General Certificate of Education, or a certificate referred to in paras. IV (2)-(6) *infra*, and that certificate constitutes a general qualification to matriculate but does not satisfy the special requirements for a particular course, the candidate may be permitted by the Matriculation Board to complete his qualification by attaining the required standard in specified subjects in the Entrance Examn.

IV. QUALIFICATIONS OTHER THAN GENERAL CERTIFICATE OF EDUCATION. (1) A candidate may be permitted by the Matriculation Board to matriculate by satisfying special tests or by recognition of certain examns. Such permission may be granted if the candidate

satisfies the Matriculation Board that he has been at work for not less than two years after leaving school or that the circumstances of his education have not afforded a proper opportunity of taking the General Certificate of Education. The Matriculation Board may require such a candidate to attain a required standard in the Entrance Examn. conducted by the Univ. in any subjects which the Matriculation Board may direct.

(2) The Attestation of Fitness of the Scottish Universities Entrance Board, granted on passes in No. 11 * or No. 12,* will qualify to matriculate if it includes any special qualification required.

(3) No. 13 * will qualify under the same condition.

(4) The Honours Leaving Certificate of the Dept. of Education of Eire or of the Republic of Ireland will qualify to matriculate provided that it includes (a) English, (b) a language other than English, (c) either Maths. or an approved Science subject ; and provided that it includes at Hons. standard any subjects required for entry to a particular course.

(5) The following will qualify to matriculate, if they include any subjects required for entry on a particular course and if the candidate presents sufficient evidence of proficiency in English : A degree of any Univ. in the British Isles or of any other approved Univ. A certificate awarded by any public examining body in Canada, Australia, S. Africa, New Zealand, the U.S.A., or any country in the Western Union, provided that the certificate qualifies for admission to an approved Univ. in the country in which it was awarded. The certificate of the Junior Associated grade of the Council of Higher Education in Newfoundland. The Intermediate Examn. of an approved Univ. in India or Pakistan.

(6) The following certificates will qualify to matriculate if the candidate submits sufficient evidence of proficiency in English, and any subjects required for entry on a particular course are included, except that Arabic (including Classical Arabic) and Hebrew (including Classical Hebrew) may be substituted for Latin or Classical Greek for the B.A. in General Studies or (by permission) for the B.A. with Hons. : Palestine Matriculation Certificate. Egyptian Secondary School Certificate, Part II. Iraqi Baccalaureat.

LONDON

In 1953, and until further notice, the normal method of satisfying minimum entrance requirements will be through the General Certificate of Education awarded by one or more of the approved Examining Bodies.* The Certificate must comply with one or other of the two Schemes A and B.

Scheme A. The candidate must have obtained passes (not necessarily on the same occasion) in (a) English Lang., (b) a lang. other than English, (c) either Maths. or an approved science subject, and three other subjects, provided that : (i) at least two of the subjects are passed at the Advanced level ; (ii) the subjects are chosen from the approved list.

* V. *supra*, p. 1414.

Scheme B. The candidate must have obtained passes in (a) English Lang., (b) a lang. other than English, (c) either Maths. or an approved science subject, and two other subjects, provided that : (i) at least three subjects are passed on the same occasion, of which at least two must be at the Advanced level ; (ii) the subjects are chosen from the approved list.

The approved list of subjects is as follows : 1. English Lang. (O) * ; 2. English Lit. (O, A) ; 3. Geog. (O, A) ; 4. History (O, A) ; 5. Ancient History (O, A) ; 6. English Economic History (O, A) ; 7. British Constitution (O, A) ; 8. Economics (O, A) ; 9. Logic (O) ; 10. Religious Knowledge (O, A) ; 11. Greek Lit. in Translation (O) ; 12. Latin (O, A) ; 13. Greek (O, A) ; 14. Classical Hebrew (O, A) ; 15. Modern Hebrew (O) ; 16. French (O, A) ; 17. German (O, A) ; 18. Spanish (O, A) ; 19. Italian (O, A) ; 20. Russian (O, A) ; 21. Any other approved language (O, A) ; 22. Pure Maths. (O, A) ; 23. Applied Maths. (O, A) ; 24. Maths. (Pure & Applied) (A) ; 25. Physics (O, A) ; 26. Chem. (O, A) ; 27. Physics-with-Chem. (O) ; 28. Geol. (O, A) ; 29. Geometrical & Mechanical Drawing (O) ; 30. Engineering Drawing (A) ; 31. Elementary Surveying (O) ; 32. General Science (O) ; 33. Additional General Science (O) ; 34. Bot. (O, A) ; 35. Zool. (A) ; 36. Biol. (O, A) ; 37. Rural Biol. (O) ; 38. Music (O, A) ; 39. Art (O, A) ; 40. Handicraft (O, A) ; 41. Domestic Subjects (O, A).

The approved science subjects for Scheme A and Scheme B will be as follows : Physics, Chem., Physics-with-Chem., Geol., General Science, Additional General Science, Bot., Zool., Biol., Rural Biol.

The selection of subjects under Scheme A or Scheme B will be subject to certain limitations.

No subject shall be counted at both Ordinary and Advanced levels. Not more than one of the subjects 40, 41 and 42 shall be counted at Advanced level.

Under Section (i) of Scheme B the three subjects passed at one and the same examn. must not all be chosen from any one of the following groups : subjects 4-7, subjects 11-21, subjects 22-32, subjects 35-38, subjects 39-42.

A General Certificate (or Certificates) of Education will be accepted for the purpose of satisfying min. entrance requirements if it fulfils the above conditions and provided that the Univ. is satisfied that there is a subject for subject equivalence with the subjects listed above.

The General Certificates of Education awarded by Durham, Joint Matriculation Board, Welsh Joint Education Committee, and Bristol, accepted by those authorities as satisfying their minimum entrance requirements will also be accepted by London.

In addition, certain Faculty requirements may have to be satisfied before registration as an Internal or an External Student can be effected. At present these are as follows :

Arts. Applicants for admission must have passed in two langs. other than English at Ordinary or Advanced level ; one, at least, of the two langs. must be a Classical lang.

Laws. No specific Faculty requirements are laid down, but candidates for the LL.B. degree are advised to offer English History as one of their subjects.

Music. Applicants for admission must have passed at Ordinary or Advanced level in a modern foreign lang.

Medicine. In and after Sept. 1953, candidates proceeding to degree of M.B., B.S., B.D.S., B.Pharm. or B.Vet.Med. must have passed in Chemistry and Physics at Ordinary or Advanced level.

Science and Engineering. Applicants for admission must have passed in Maths. at Ordinary or Advanced level.

Theology and Economics. No additional Faculty requirements are laid down.

Under the new conditions, it should be noted that it will not be possible for a student to matriculate unless, and until, he registers as an Internal Student or as an External Student. The procedure will be that the holder of a General Certificate of Education will submit it to the Univ. for decision as to whether or not it satisfies minimum entrance requirements. If it does, he will be so informed and at the same time will be told that he may apply for registration as an Internal or an External Student. It is only on the completion of such registration that he will be matriculated. The registration fee of three guineas will be exacted at the time of registration as an Internal or External Student.

Special Provisions

(1) Credits obtained in 1949 or 1950 at a School Certificate examn., or Main Subject passes at a Higher School Certificate examn., will be accepted as passes at Ordinary level and Advanced level, respectively. Higher School Certificate Subsidiary subject passes will count as Ordinary level passes.

(2) Candidates who gained a School Certificate issued by one of the approved examining bodies, in or before 1950, and pass in three Advanced level subjects at one and the same examn. not later than 1954, will be deemed to have satisfied minimum entrance requirements.

(3) Candidates who hold a School Certificate and a Higher School Certificate awarded by an approved examining body, gained before April 30, 1951, will be deemed to have satisfied minimum entrance requirements.

(4) A pass in a subject entered on a Certificate gained in one of the following examns. will be regarded as equivalent to a pass at Ordinary level in the corresponding subject at the General Certificate of Education Examn. :

Nos. 1, 2, 11, 12,* 13 and 14 (v. *supra*, p. 1414); *Passing-Out Examination of the Royal Naval College, Dartmouth; Matriculation Examination of the University of Wales; Matriculation Examination of the National University of Ireland; *Leaving Certificate of the

Department of Education, Eire; Adelaide Leaving Certificate; Melbourne School Leaving Certificate; New South Wales Leaving Certificate; Queensland Senior Public Examination; Matriculation Examination of the University of Sydney; Tasmania Public Leaving Certificate; Western Australia School Leaving Certificate; University of New Zealand Entrance Examination; New Zealand Department of Education School Certificate; *Matriculation Examination of the South African Joint Matriculation Board; National Senior Certificate (Matriculation Equivalent) of the Union of South Africa; *Secondary School Senior Certificate of the Department of Public Education, Cape of Good Hope; *Transvaal Secondary School Certificate; *Orange Free State School Leaving Certificate; Ontario Upper School Certificate; British Columbia Senior Matriculation Examination; Senior Matriculation Examination of other Canadian Universities and Depts. of Education; *Ceylon Government Senior School Certificate (English); Matriculation Examination of the University of Hong Kong; *Cyprus Certificate Examination.

Candidates holding any of the above certificates may satisfy minimum entrance requirements by passing at the General Certificate of Education Examn. in two subjects at Advanced level, together with such Ordinary level subjects as may be required to satisfy the conditions of Scheme A or Scheme B.

(5) A candidate may satisfy minimum entrance requirements if he has attained the age of 20 and has passed in five subjects at the Examn. for the General Certificate of Education, of which at least three must be at the Advanced level and must be passed on the same occasion, and one of the five subjects must be English Lang. The three subjects at Advanced level must be passed after attaining the age of 20.

(6) A candidate who has attained the age of 25 and thereafter passes in three subjects at Advanced level at the General Certificate of Education may be interviewed by a Board for the purpose of assessing his qualifications in general education and in regard to the degree or diploma for which he proposes to study. The Board may recommend that the candidate be considered to have satisfied minimum entrance requirements or may require him to present himself for examn. in additional subjects if thought desirable.

(7) A candidate whose native language is not English, and who is not a native of Great Britain, N. Ireland or the Republic of Ireland, may satisfy minimum entrance requirements (i) by presenting an acceptable Matriculation Certificate of a Commonwealth, or Foreign, Univ., and (ii) by passing in English at the Univ. Entrance Examn. and two subjects at Advanced level at the General Certificate of Education Examn.

NOTTINGHAM

The Univ. conducts a Univ. Special Entrance Examn. in Sept. at Nottingham. The Special Entrance Examn. is open to candidates who are over 21 years of age, and consists of (i) English, (ii) Maths., Logic or an approved Science subject, (iii) two other subjects chosen according to the proposed degree course.

Exempting Examinations

A candidate shall be eligible to matriculate if he possesses one of the following: (a) a General Certificate of Education * awarded by Nos. 3-10 † satisfying the requirements set out in final para. of p. 1411 above. (b) A degree conferred by an approved Univ. after examn. (c) A certificate showing that the holder has attended a two-year full-time Teachers' Training Course and has passed a final examn. of an Area

* Candidates will continue to be eligible to matriculate in the Univ. if before March 1, 1951, they have satisfied the Univ.'s entrance requirements based on School Leaving Certificate and Higher Certificate Examns. in force up to that date. For candidates who wish to claim partial exemption from the new matriculation requirements: 1. A pass with Credit in a subject of an approved School Certificate Examn. or a pass at Subsidiary standard or in a Subsidiary subject of an approved Higher School Certificate Examn. will be accepted in lieu of a pass in the corresponding subject at the Ordinary level in the General Certificate of Education. 2. A pass in a Principal subject of an approved Higher School Certificate Examn. will be accepted in lieu of a pass in a corresponding subject at Advanced level in the General Certificate of Education.

† V. *supra*, p. 1414.

Training Organization approved by Senate for this purpose. (d) A Certificate showing that the holder is a Barrister called to the English Bar, or a Solicitor admitted to the Roll after passing the final examn. of the Law Society. (Dept. of Law only.) (e) No. 12,* provided that the holder passed at one and the same examn. in five subjects at the Higher Standard and provided that Certificates gained after Dec. 1, 1947, show a pass in English Lang. together with a pass in at least one subject from each of Sections II, III and IV of Appendix A, *infra*. (A pass in either Physical Science or Natural Science will be regarded as equivalent to a pass in two sci. subjects.) (f) No. 13,* provided that it entitles the holder to enter upon a degree course in a Faculty of The Queen's Univ. of Belfast. (g) The Leaving Certificate of the Dept. of Education, Eire, provided that the holder passed with Hons. at one and the same examn. five subjects approved by the Univ., and that certificates gained after Dec. 1, 1947, must include passes in at least one subject from each of Sections II, III and IV of Appendix A. (h) No. 16.* (i) The Matriculation Certif. of an approved British overseas Univ. (j) A Certificate of having passed at one and the same examn. the Intermediate Examn. in Arts, Science or Medicine of an approved Univ. in India or Pakistan. (k) The Matriculation Examn. of the Palestine Board of Higher Studies, provided that Certificates gained after Dec. 1, 1947, show that at one and the same examn. the holder reached credit standard in English Syllabus A, and in four other subjects, including at least one subject from each of Sections II, III and IV of Appendix A. (l) The Secondary Education Certificate, Part II, of the Egyptian Ministry of Education. On Certificates issued on and after June 1938, a pass in Special Part must be shown. (m) The Baccalaureat Certificate of Iraq provided that the holder is recommended by the Iraqi Ministry of Education. A Certificate showing the passing of the Commerce Section is not acceptable if gained after Dec. 1, 1947. (n) An examn. certificate awarded in countries not mentioned in the above provisions, which entitles the holder to enter upon a degree course in a Faculty of a recognized Univ. of the country in which the certificate was issued.

The Senate will consider individually, for the purposes of matriculation, certificates obtained in other examns. of a standard at least equal to those mentioned above.

Faculty Admission Requirements

Candidates must not only satisfy the general requirements of matriculation set out above, but for admission to certain courses must satisfy also the following special requirements. These are set out in terms of the General Certificate of Education but the Univ. will recognize qualifications of equivalent standard obtained as a result of passing other recognized examns.

Candidates for admission to courses for which no specific requirements are laid down will normally be expected to have a preliminary knowledge (to Ordinary standard in the General Certificate of Education or its equivalent) of the subject or subjects of the degree course they propose to follow, except for such subjects as Theol., Law, Economics, Philosophy, Psychol. or Sociol. which are not usually taught in schools.

Faculty of Arts

Degree of B.A. Candidates (other than those for entry to the School of Maths. and the School of Philosophy, Economics and Social Science) will be required to have passed at Advanced standard in two subjects within the purview of the Faculty. In addition, candidates for Honours in Classics, English, French, German and Spanish Studies will be required to have passed in Latin at least at Ordinary standard, and candidates for Honours in Mediaeval and Modern History will be required to have passed in Latin or French or German at least at Ordinary standard. Candidates for admission to the School of Maths. will be required to have passed at Advanced standard in Maths. counting as two subjects and including both Pure and Applied Maths. Candidates for the School of Philosophy, Economics and Social Science will be required to have passed at Advanced standard in any two subjects, except that these two subjects must be Maths. if the degree course includes Maths.

Degree of LL.B. Candidates for admission will normally be required to have an Ordinary pass in Latin in the General Certificate, but may be permitted to furnish other evidence of proficiency in Latin satisfactory to the Hd. of the Dept. of Law and the Board of the Faculty not later than the beginning of the candidate's second year of study.

Exemption from the qualifying Examn. may be granted for students who have passed a comparable examn. approved by Senate in subjects relevant to the degree of LL.B., but the degree will not normally be awarded until the student has completed three years of study in the Univ.

Degree of B.Mus. Candidates for admission will be required to have a reasonable knowledge of the theory of music, and proficiency in performance of an instrument approved by the Hd. of the Dept. of Music.

Direct admission to the Final Course may be permitted for those students who have passed the London Univ. Intermediate Examn. in subjects relevant to the degree of B.Mus., but the degree will not normally be awarded until the student has completed three years of study in the Univ.

Faculty of Pure Science

Degree of B.Sc. Candidates may be exempted from the Intermediate Course and Examn. if they furnish evidence of having passed at Advanced standard in certain specified subjects in the General Certificate of Education. Further details from the Registrar.

Degree of B.Pharm. Candidates may be exempted from the Intermediate Course and Examn. and accepted for direct entry to the Final B.Pharm. Course if they have passed at Advanced standard in Chem., Physics, and *either* Botany *or* Zoology *or* Biology.

Faculty of Agriculture and Horticulture

Degree of B.Sc. Candidates may be exempted from the Intermediate Course and Examn. if they furnish evidence of having passed at Advanced standard *either* (i) in Chem., Bot., and *either* Zoology *or* Phys. *or* an

approved Science subject *or* (ii) in Chem., Biol., and one other approved Science subject, which shall not be Bot. or Zool.

Faculty of Applied Science

Degrees of B.Sc. (Min.) and B.Sc. in Civil or Mechanical Engineering.

Candidates may be exempted from the Intermediate Course and Examn. and accepted for direct entry into the Final Degree Courses if they have passed at Advanced standard in Pure Maths., Applied Maths. (or Pure-and-Applied Maths.) and Physics, and at Advanced or Ordinary standard in Chem. Candidates who have reached only Ordinary standard in Chem. will be required to follow a course and take an examn. in this subject at the end of their first year.

Degree of B.Sc. and Electrical Engineering. Candidates may be exempted from the Intermediate course and examn. and accepted for direct entry into the Final Degree Course if they have passed at Advanced standard in Pure Maths., Applied Maths. (or Pure-and-Applied Maths.), and Physics.

OXFORD

Admission to the Univ. ("Matriculation") is without respect of sex, age, nationality or creed, and follows upon admission to a Society, *i.e.* a College or Hall or Society. No one can become a member of the Univ. unless he first becomes a member of one of these Societies. An application for admission must therefore be addressed, not to any officer of the Univ., but to the proper officer of the Society to which admission is desired, *e.g.* Balliol, Queen's and Magdalen—The Senior Tutor; Brasenose, New College, Jesus, and University—The Tutor for Admissions; St. Catherine's Society—The Censor; in other cases—The Hd. of the Society. (*See* Colleges, etc., under Oxford Univ.) It should be made, if possible, more than one year before residence is contemplated.

Applicants for admission normally have to pass or be qualified for exemption from (a) Univ. entrance examn., (b) College entrance examn. The Univ. entrance examn. is *Responsions*. The Colleges and Halls and Societies require certain qualifications of character and intellectual attainment in which the passing of *Responsions* or some equivalent examn. is necessarily included.

Responsions comprises: I English Lang.; II (a) Latin, (b) Greek; III (a) Holy Scripture, (b) English Lit., (c) English History, (d) French, (e) German, (f) Italian, (g) Spanish; IV (a) Maths., (b) Natural Science. In order to pass *Responsions*, candidates are required to satisfy the Masters of the Schools in Group I, English Lang., and *either* in at least one subject from each of the Groups II, III and IV and in five subjects in all (including English Lang.), *or* in both subjects from Group II and in both subjects from Group IV. All candidates must satisfy the Masters of the Schools in two langs. other than English (of which Latin or Greek must be one), and must satisfy them *either* in all five subjects at one examn., *or* in four subjects at one examn. and in the fifth subject at a subsequent examn., *or* in three subjects at one examn. and in two subjects offered together at a subsequent examn.

Candidates must offer four or five subjects, or, if they have previously satisfied the Masters of the Schools in three or four subjects, they must offer the two subjects or single subject required to complete the examn.

Latin or Greek taken early. A candidate is permitted to offer Latin or Greek as a single subject : if he satisfies the Masters of the Schools in Latin or Greek under this regulation, he is required to pass in all four remaining subjects subsequently at one examn. in order to pass Responsions.

A candidate who has passed in Latin or Greek as a single subject in the Previous Examn. of the Univ. of Cambridge is permitted to pass Responsions on the same conditions as a candidate who has passed in Latin or Greek under this regulation in Responsions.

Examinations Exempting from Responsions

Great Britain and Ireland, etc. A. Exemption from Responsions may be obtained by holders of the status of Bachelor of Arts or by persons accepted for admission as Service Students or Senior Students, or as candidates for the degree of B.C.L. under certain conditions, or as Advanced Students, or as candidates for the Degree of B.Litt. or of B.Phil. or of B.Sc., or who hold a degree at another Univ., such degree and such Univ. having been approved by the Hebdomadal Council, or as Students of Mature Years recommended by the Delegates for Extra-Mural Studies under certain conditions. Exemption may also be claimed by anyone who has pursued a course of study extending over 2 yrs. at a Univ. approved for Senior Status, provided that the applicant has passed all examns. incidental to his course at that Univ. and has submitted a certif. of satisfactory progress signed by a competent authority of that Univ. ; and provided further that the required course of study at an Asiatic Univ. has included the study of English and has been pursued subsequently to the Intermed. Examn. or to the corresponding stage at a Univ. which does not hold an Intermed. Examn.

B. Exemption may be granted to any person who has : (i) obtained a General Certificate of Education awarded by Nos. 3, 4, 5, 6, 7, 8, 9 and 10 (v. *supra*, p. 1414) subject *inter alia* to passing at the Ordinary or Advanced level in English Lang., and two of the langs., Latin, Greek, French, German, Italian, Spanish, Russian, of which Latin or Greek must be one ; or (ii) gained a class in the Senior Freshman Examn. of Dublin or a Certificate of Fitness granted by the Scottish Universities Entrance Board, or passed in the Intermediate Arts or higher examn. of Birmingham, Durham, Leeds, Liverpool, London, Manchester, Sheffield, Bristol or one of the examns. numbered 2, 12, 13, 14, 15 (a & b), 16 * (v. *supra*, p. 1414), provided that he has passed *inter alia* in two of the above-mentioned languages, of which Latin or Greek must be one.

Dominions and Colonies. Exemption may be granted to any person who has obtained (1) a certificate of having passed *either* (a) the Matriculation Examn. of the Joint Board of the South African Univs., or (b) the Secondary School Certificate Examn. of the Education Dept. of the Transvaal or Secondary School Senior Certif. Examn. of the

* Latin or Greek must be added to this certificate at Responsions.

Dept. of Education of the Cape Province, or (c) the School Leaving Certif. Examn. of the Orange Free State if the holder is thereby qualified for exemption from the Matricn. Examn. of the Joint Board of the South African Univs. ; provided that it shows that he has passed in two languages, other than English, of which Latin or Greek must be one ; *or*

(2) A certificate or certificates of having passed one of the following, provided he has satisfied the examiners in two of the said languages, of which Latin or Greek must be one : An examn. or examns. conducted by a Univ. or other public Educational Authority in the Dominions of Canada or New Zealand or in the Commonwealth of Australia which satisfy the requirements for entrance to a Univ. in the said Dominion or Commonwealth, such Univ. having been approved by the Hebdomadal Council for the purposes of Senior Status ; Univ. of Malta Matriculation ; Univ. of Hong Kong Matriculation Examn ; *or*

(3) A Ceylon Sr. School Certificate (English) with credits in *inter alia* two of the above-mentioned languages, of which Latin or Greek must be one.

[India—See A above.]

Palestine. Exemption will be granted to any Palestinian student provided that he holds the Matricn. Certif. of the Palestine Board of Higher Studies, showing that he passed with credit in English (Syllabus A), either Arabic or Hebrew (Syllabus A), and in one of the languages, Latin, Greek, French, German (Syllabus B).

Foreign Students. Exemption may be granted to any person who has obtained a certificate or certificates qualifying him for admission to a Univ. in Austria, Belgium, Czecho-Slovakia, Denmark, Finland, France, Germany, Holland, Hungary, Italy, Norway, Poland, Sweden, Switzerland or Yugoslavia, or a Certificate of Part I of the Baccalauréat de l'Enseignement Secondaire in France, provided it shows that he has satisfied the examiners in either Latin or Greek.

Natives of Asia and Africa, not being of European or American parentage, can apply for permission to offer a substitute for Latin or Greek in Responsions or in certain certificates exempting from Responsions.

Admission to Privileged Standing: " Senior Status "

The following may be admitted to the status and privileges of a Senior Student :

(1) Any person who has obtained a degree at another Univ., such degree and such Univ. having been approved by the Hebdomadal Council,* provided that he shall have pursued a course of study extending over 3 yrs. at the least at a Univ. or Univs. so approved, or, should the Hebdomadal Council in his case approve, partly at a Univ. so approved and partly at another or other Univs.

(2) Any person who, having been a student at a Univ. in a European

* The Hebdomadal Council will not approve any degree of an Indian Univ. under this clause unless the course of study leading to it has extended to 3 yrs. subsequently to the Intermed. Examn. In most cases a First Class is required either in B.A. Honours or B.Sc. Honours or M A. or M.Sc.

country, where there is no degree in any way equivalent to that of Bachelor of Arts but where there are State or Univ. examns. at approximately the same stage as the examns. for the degree of Bachelor of Arts, has passed such State or Univ. examn., such examn. and such Univ. having been approved by the Hebdomadal Council, provided that he shall have pursued a course of study extending over 3 yrs. at the least at a Univ. or Univs. so approved.

(3) Any person who has obtained a degree at another Univ. and has also been selected to come to Oxford by some Body approved, for the purposes of this section, by the Hebdomadal Council.

(4) Any person who, though not eligible under sub-clause (1) or (2) or (3), has satisfied the Hebdomadal Council that he is particularly well qualified to be admitted as a Senior Student.

(5) Any medical student of a Univ. in the British Dominions, except India, Pakistan and Ceylon, or Colonies or in Gt. Britain and Northern Ireland may be admitted to the status and privileges of a Senior Student; provided that the Univ. shall have been approved by the Hebdomadal Council and that he shall have pursued at that Univ., or, should the Hebdomadal Council in his case so approve, at more than one Univ., for at least 3 yrs., a course of study leading to a degree in Medicine and shall have passed all examns. incidental to that portion of the course.

A Senior Student: (a) may reckon his 1st term as his 4th; (b) is not required to pass Responsions or any part of the 1st Public Examn.; (c) is entitled to supplicate for the degree of B.A. after having kept statutable residence for 6 terms, and having (i) obtained a place in the Class List of an Honour School of the 2nd Public Examn., or been allowed "aegrotat," or, if disqualified by standing from obtaining Honours, shown such merit as would otherwise have entitled him to a place in the Class List; or (ii) satisfied the Examiners in the 2nd Public Examn. in the Final Honour School of Nat. Sci. in Chem., Pt. I.

No Senior Student will be entitled to supplicate for the degree of B.A. except as above.

Incorporation. Admission of members of the Univs. of Cambridge and Dublin to incorporation. See p. 433.

The University holds no Matriculation Examination.

Matriculation, minimum age 17, is open to:

1. Graduates of Univs. in the United Kingdom or other approved Univs.

2. Until further notice—

(a) Persons who have passed or are exempt from the Matriculation Examination of the Univ. of London.

(b) Persons who have qualified for the Certificate issued on the result of an approved First Examn. for Secondary Schools and who at one and the same Examn.* have obtained passes with credit in

* Until further notice, four passes with credit at one examn. and one pass with credit obtained at another examn. may be accepted.

five subjects as follows : (i) English. (ii) Maths. *or* Latin *or* Greek. (iii) Three subjects not already offered under (i) and (ii) above, chosen from the following : (1) History, (2) Geog., (3) Art or Music, (4) Greek, (5) Latin, (6) French, (7) German, (8) one other modern foreign lang. approved by the Univ., (9) Maths., (10) Mechanics, (11) Physics, (12) Chem., (13) Physics-with-Chem., (14) Bot., (15) Zool., (16) Biol., (17) General Science, (18) Religious Knowledge, provided that (a) persons offering Maths. under (ii) include one of the subjects (4) to (8); (b) persons offering (13) may not offer (11) or (12); (c) persons offering (16) may not offer (14) or (15); (d) persons offering (17) may not offer (11), (12), (13), (14), (15) or (16).

Persons desiring to qualify for matriculation in virtue of subjects not included under (iii) should apply to the Registrar.

(c) Persons who have qualified for the two Certificates issued on the results of approved First and Second Examns. for Secondary Schools.

(d) Persons who have qualified for the Certificate issued on the result of an approved First Examn. for Secondary Schools and whose attainments as shown by the result of an approved Second Examn. for Secondary Schools satisfy the Senate.

(e) Persons whose attainments as shown by the results of other approved examns. satisfy the Senate.

(f) Persons who, being at least 23 years of age, have passed a special examn. for matriculation held by the Univ. for approved candidates of mature years. (Details from the Registrar.)

In exceptional circumstances, the Senate may exempt from examn., as a condition of matriculation, persons who are able to produce such evidence of previous education and attainments as the Senate shall deem sufficient.

A candidate qualified for matriculation on the basis of results obtained in a School Leaving Certificate or Higher School Certificate Examn. will not be admitted to the course of study for the degree of B.A. unless he has passed in Latin or Greek in a First Examn. approved for Secondary Schools by the Ministry of Education or in some other examn. approved for the purpose of this Regulation by the Senate. But this requirement shall not apply in the case of candidates for the degree of B.A. with Honours in Philosophy, Psychol., Political Economy, Geog., Maths., Fine Art, Economics and Social Psychol., Economics and Social Philosophy, Philosophy and German, Music, provided that, except with the express permission of the Board of the Faculty, a modern foreign lang. is included in the First Univ. Examn.

A candidate who proposes to offer Latin as a subject in the First Univ. Examn. must, before entry upon the course of study for the First Univ. Examn., have passed in Latin in the Matriculation Examn. of the Univ. of London or have passed with credit in Latin in a First Examn. approved for Secondary Schools by the Ministry of Education or have passed in Latin as a Principal or Subsidiary Subject in a Second Examn. approved for Secondary Schools by the Ministry of Education

or have passed in Latin in some other examn. approved for the purpose of this Regulation by the Senate.

3. *In 1951 and for five years thereafter*, persons who have obtained passes in the General Certificate of Education (v. *supra*, p. 1414) in English Lang. and in either four or five other approved subjects provided that (a) the subjects include a lang. other than English and either Maths. or an approved Sci. subject; (b) at least two of the subjects have been passed at Advanced standard; (c) candidates offering four subjects only in addition to English Lang. have passed at one and the same sitting in two subjects at the Advanced standard and in one other subject not related to the subjects offered at the Advanced standard.

The following subjects have been approved for the purpose of this Regulation by the Senate:

1. English Lang. (O *); 2. English Lit. (O, A); 3. History (O, A); 4. Ancient History (O, A); 5. Geog. (O, A); 6. Economics (O, A); 7. Logic (O); 8. Scripture Knowledge (O); 9. Art (O, A); 10. History and Appreciation of Art (O, A) (may not be counted with Art); 11. Music (O, A); 12. Greek (O, A); 13. Latin (O, A); 14. French (O, A); 15. German (O, A); 16. Spanish (O, A); 17. Italian (O, A); 18. Russian (O, A); 19. Other specially approved languages (O, A); 20. History with Foreign Texts (A only; counts as two subjects at A standard); 21. Maths. (O, A); 22. Applied Maths. (O, A) (may not be counted at Advanced standard unless Maths. has been taken at Ordinary or Advanced standard); 23. Physics (O, A); 24. Chem. (O, A); 25. Physics-with-Chem. (O, A) (may not be counted with Physics, Chem., or General Science); 26. Bot. (O, A); 27. Zool. (O, A); 28. Biol. (O, A) (may not be counted with Bot. or Zool.); 29. Geol. (O, A); 30. General Science (O) (may not be counted with Physics, Chem., Bot., Zool., Geol. or Biol.); 31. Physiol. (O) (may not be counted with Zool. or Biol.); 32. History of Science (O).

The following subjects have been approved by the Senate as alternative options to Maths. (*see* Clause (a) above): Physics, Chem., Physics-with-Chem., Bot., Zool., Biol., Geol., General Science, History of Science.

No subject may be counted at both the Ordinary and the Advanced standard.

For the purpose of Clause (c) above candidates who offer two subjects at Advanced standard chosen from subjects Nos. 2-20 must offer one subject chosen from Nos. 21-31; candidates who offer two subjects at Advanced standard chosen from Nos. 21-32 must offer one subject chosen from Nos. 2-20.

A candidate qualified for Matriculation on the General Certificate of Education will not ordinarily be admitted to the course of study for the degree of B.A. with Honours in Classics, Latin, Greek, English, French, Modern History, Latin and English Lit., Greek and English Lit., unless he has passed in Latin at Advanced standard in the General Certificate of Education (or in an examn. of equivalent standard

* O = Ordinary standard; A = Advanced standard.

approved for the purpose of this Regulation by the Senate), save that candidates who have passed in History with Foreign Texts at Advanced standard may be admitted to the course of study for the degree of B.A. with honours in Modern History.

4. (a) A candidate who has obtained either three or four credits in a School Certificate examn. shall be deemed to be qualified by examn. for Matriculation, provided that he obtains in the General Certificate of Education *either* passes at Advanced standard in two subjects *or* a pass at Advanced standard in one subject together with passes at Ordinary standard in two subjects, if the range of subjects in the two examns. conforms with the range of subjects in paragraph 2 (b) above.

(b) A candidate who has obtained five or more credits in a School Certificate examn. but whose range of subjects does not conform with the requirements in paragraph 2 (b) above, shall be deemed to be qualified by examn. for Matriculation, provided that in the General Certificate of Education he obtains passes at Ordinary or Advanced standard in the subject or subjects necessary to complete the required range of subjects.

5. Persons who hold a General Certificate of Education (v. *supra*, p. 1414) which is acceptable to any Matriculating Body in England or Wales.

SOUTHAMPTON

Matriculation (minimum age 17) is open to persons having one of the following qualifications :

1. A degree of a United Kingdom University or other approved University.
2. A certificate qualifying for matriculation in any other Univ. of the United Kingdom.
3. The General Certificate of Education of an approved examining body (v. *supra*, p. 1414) showing passes in English Language and either four or five approved subjects, provided that the subjects include—
 - (i) A lang. other than English.
 - (ii) Maths. or one of the following subjects—Phys., Chem., Phys.-with-Chem., Bot., Zool., Biol., Geol., General Science.
 - (iii) At least two subjects at Advanced level.
 - (iv) Candidates offering *four* subjects only in addition to English Lang. must have passed at one and the same sitting in three subjects drawn from at least two of the following groups, two of the three being at Advanced level: Group I—Humanistic subjects; Group II—Sciences.
4. In exceptional circumstances only, Senate may declare eligible for matriculation candidates who do not satisfy the above requirements but who can produce evidence of qualificn. in (i) English Lang., (ii) a humanistic subject and (iii) Maths. or an approved sci. subject.

Note: The Ordinary National Certificate and Joint Section A examn. of Institutes of Civil, Mechanical and Electrical

Engineers carry exemption from certain requirements of matriculation. (Details from the Academic Registrar.)

5. A Trained Teacher's Certificate showing distinction in at least one of the subjects prescribed in a recognized Certificate examn.
6. An attestation of fitness of the Scottish Universities Entrance Board.
7. Barristers-at-Law and Solicitors of the Supreme Court.
8. In special cases evidence of sufficient education, capacity and attainments where the candidate is over 23 years.

9. **OVERSEAS STUDENTS.** Candidates educated outside the United Kingdom who can produce such evidence as Senate may deem sufficient of examns. passed equal to any of the above-named and of ability to follow instruction in English.

Entrance Examination

Candidates for Matriculation who do not come under the foregoing categories may, at the discretion of the Heads of Depts. concerned, take an Entrance Examn. conducted by the Univ. consisting of five subjects including English, a foreign lang., Maths. or an approved Science. All subjects must be passed at one and the same examn., special proficiency in at least two of the subjects being required.

Faculty Entrance Requirements

In addition to matriculation requirements, candidates for degrees must satisfy the following special requirements of the particular Fac. to which entrance is sought :

Arts. Two langs. other than English at Ordinary or Advanced level in the G.C.E. or equivalent examn., one at least must be Latin * or Greek except where exempted in certain depts. (details from the Academic Registrar).

Science. Maths., a foreign lang., and two Science subjects in the G.C.E. or equivalent examn. A pass at Advanced level is required in either the two Science subjects or in Maths. and one Science subject.

Engineering. Advanced level Phys., Pure and Applied Maths. (or Pure Maths. and Applied Maths.), Ordinary level Chem. in the G.C.E. or equivalent examn. Maths. passed with distinction in the Ordinary National Certificate or a pass in the Maths. papers of the Univ. Industrial Scholarships Examn. is recognized as equivalent to G.C.E. Advanced level Maths.

Economics. There are no Faculty requirements, other than Matriculation, for entry to the first yr. of a degree course, at the end of which there is a qualifying examn. Exemption from the qualifying examn. and direct entry to the three-yr. final course may be obtained by a candidate in any subject in which he has passed the G.C.E. Advanced level, the Higher School Certificate Main standard, the Preliminary Economics Examn., or the Intermediate Examn. in Economics, Commerce, Arts or Science, of the Univ. of London.

Law. No special requirements.

* In the case of non-European candidates, other langs. such as classical Arabic would be considered on sp. applicn.

WALES

The Univ. of Wales no longer holds a Matriculation Examn. and admission is now mainly determined on candidates' performance at the examns. of the Welsh Joint Education Committee for the General Certificate of Education.

For candidates seeking exemption through the examns. of the Welsh Joint Education Committee for the General Certificate of Education, the approved subjects* are: 1. English Lang. (O †); 2. English (O, A); 3. Welsh Lang. (O); 4. Welsh (O, A); 5. Scripture (O, A); 6. History (O, A); 7. Greek and Roman History (O, A); 8. Greek (O, A); 9. Latin (O, A); 10. French (O, A); 11. German (O, A); 12. Any other lang. approved by the Univ. (O, A); 13. Economics (O, A); 14. Maths. (O); 15. Pure Maths. (A); 16. Applied Maths. (A); 17. Pure and Applied Maths. (A); 18. Mechanics (O); 19. Physics (O, A); 20. Chem. (O, A); 21. Bot. (O, A); 22. Zool. (A); 23. Biol. (O, A); 24. Geol. (O, A); 25. Practical Plane and Solid Geom. (O); 26. Geometrical and Machine Drawing (O); 27. General Science (O); 28. Agricultural Science (O); 29. Geog. (O, A); 30. Music (O, A); 31. Art (O, A); 32. Domestic Subjects (O).

Candidates may not count more than one of the subjects in each of the following groups: 1 and 3; 14, 15 and 17; 14, 16, 17; 18, 19; 21, 23; 22, 23; 25, 26; 27, 28. No candidate who counts 27 or 28 may count one of 18-24, and no candidate may count at Advanced level both 30 and 31. The same subject may not be counted at both Ordinary and Advanced levels.

In order to satisfy minimum entrance requirements, a candidate must pass in (i) English Lang. *or* Welsh Lang., and *either* four *or* five other subjects, at least two of which must be passed at the Advanced level; (ii) an additional language other than that selected under (i); (iii) Maths. *or* an approved Science subject. Candidates who have passed in only four subjects in addition to English Lang. *or* Welsh Lang. must have passed on one and the same occasion in three subjects, one of which is not related to the other two and two of which are at Advanced level. "Related" subjects are: (i) 8-12; (ii) 14-28.

The minimum age for matriculation is 17 years.

Note: The certificates of candidates desiring exemption must in general comply either with the conditions of exemption in force at the time of the award of the certificates or with the present examn. requirements.

For the purposes of a transitional period, a credit in a subject at an approved School Certificate examn., or a pass in a subject at Subsidiary subject level in an approved Higher School Certificate examn. will be regarded as equivalent to a pass in that subject at Ordinary level in an examn. for a General Certificate of Education, and a pass in any subject at the Principal subject level of an approved Higher School Certificate examn. will be regarded as equivalent to a

pass in that subject at Advanced level in an examn. for a General Certificate of Education.

Exempting Examinations

A graduate of an approved Univ. or Coll., or a Barrister-at-Law, or a Solicitor of the Supreme Court of Judicature in England and Wales, or an Advocate or other legal practitioner in Scotland, or a medical practitioner registered in the United Kingdom may qualify for matriculation.

Great Britain and Ireland. General Certificates of Education awarded by Nos. 3-9 (v. *supra*, p. 1414), provided that the candidates are certified to have qualified for matriculation in one of the Univs.: Birmingham, Bristol, Durham, Leeds, Liverpool, London, Manchester, Nottingham, Reading, Sheffield, under that Univ.'s provisions for recognizing the General Certificate of Education; and Nos. 12 (Higher standard), 13 (Credit standard), 14 and 15. V. *supra*, p. 1414.

Dominions and Foreign. The matriculation examn. of a Univ. in Canada, Australia, New Zealand or South Africa, which is listed in the *Commonwealth Universities Yearbook*.

The matriculation examn. of an approved Univ. in Belgium or Holland, the Intermediate examn. in Arts or Science of an approved Univ. of India or Pakistan, or of the Univs. of Malta, Hong Kong or Ceylon, or the examns. for the French Baccalaureat, or the Iraqi Baccalaureat, together with a certificate of fitness from the Iraqi Ministry of Education, if certified in each case by a constituent Coll. of the Univ. of Wales to possess a sufficient knowledge of English.

The matriculation examns. of the Swiss Univs., the Royal Norwegian Ministry of Church and Education, the Palestine Board of Higher Studies, the Entrance examns. of the Univ. of Iceland; the Secondary Education Certificate examn., Part II, of the Egyptian Ministry of Education (with pass in Special Part); provided in each case that the candidate passes in the subjects required.

A pass with credit in a subject in the Ceylon Sr. School Certificate (English) examn. is recognized as equivalent to a pass at the Ordinary level in that subject at the General Certificate of Education examns., provided that the passes at the Ordinary level comply with the grouping requirements and are supplemented by two passes at the Advanced level in an examn. conducted by the Univ. of London (or any other approved examining body).

Special Exemptions

Candidates of 23 or more years of age, if specially recommended by one of the constituent Colls. as having reached a satisfactory standard of educn.

Candidates of 20 or more years of age, who have been either full-time pupils for at least two years at an approved Adult School or have been candidates for a Univ. diploma and for at least one year full-time students at a constituent Coll. or an Associated Theological Coll., are not required to satisfy the condition of passing in two subjects at the Advanced level, and may have passed in only four subjects in addition

to English Lang. or Welsh Lang., of which one must be a lang. and one Maths. or an approved science subject, provided in each case that they are specially recommended by a constituent Coll. for admission.

Candidates who have passed the appropriate Ordinary National Certificate at a recognized teaching centre, after three years at least in industry, have passed in English Lang. at the General Certificate of Education examn., and are recommended for an approved degree course by a constituent Coll., and such recommendation has been approved by the Academic Board, may qualify for Matriculation.

UNIVERSITY COLLEGE OF NORTH STAFFORDSHIRE

The following are eligible for admission: 1. Graduates of Univs. of the United Kingdom, or of such other Univs. as may be approved by the Senate.

2. Holders of approved Higher School Certifs., provided they also hold approved First School Certifs. under the arrangements which maintained until the introduction of the General Certificate of Education.

3. In exceptional cases, holders of approved School Certifs., provided that the certif. shows a pass with credits in five subjects taken at one and the same examn. Of these five, one must be English Lang., and the other four must be separate subjects. The meaning of "separate subject" is that the subject must not either wholly or in part be included in any other subject, *e.g.* General Science will not be allowed with Physics or Chem. In such cases, sp. importance will be attached to the interview and an addtnl. examn. may be required.

4. Students who satisfy the transitional requirements for 1951-55 as set out by Univ. Examining Bds., such as the Northern Universities Jt. Matriculation Bd.

5. Holders of academic certificates, or such other proof of academic attainment as may be accepted by the Senate as equivalent to 3 and 4.

6. Candidates who have been engaged in some Trade or Profession, provided that they (a) have been so engaged for a period of not less than 3 yrs. and during that time have attended systematic courses of study, *e.g.* Univ. tutorial classes. Sp. importance will be attached to the interview. Approved candidates will be allowed to take a sp. entrance examn. designed to test their capacity to benefit by the courses of study in the Coll.; (b) submit an applicn. to the Registrar not later than March 31 of the yr. in which they desire to be admitted; (c) have attained the age of 19 on Oct. 1 of the yr. in which they desire to be admitted; if required, pay an examn. fee of £2.

7. Holders of a General Certificate of Education* approved as such by the Ministry of Education, according to the scheme approved by other Univs. and Univ. Colls., namely, the certif. must show EITHER:

Scheme A. (Six subjects) A pass in (a) English Lang., (b) a lang. other than English, (c) *either* Maths. or an approved Science subject and three other subjects chosen from the approved list of subjects; and provided two of the six subjects are passed at the Advanced level;

OR

SCOTTISH UNIVERSITIES

Summary of Qualifications for Admission to Degree Courses in Scottish Universities

No applicant for admission to a degree course in any Scottish Univ. may be accepted unless he holds the Certificate of Attestation, which is issued by the Scottish Univs. Entrance Board to those who have proved their educational fitness in one or other of the following ways :

(1) Applicants who have been admitted to an approved Degree (other than Honorary) of a British or recognized overseas Univ.

(2) Applicants who have obtained passes in the Scottish Leaving Certif. and/or in the Entrance Board's Prelim. Examn. in not more than two sessions of examn. in subjects taken from the following groups : I. English ; II. Maths., Dynamics, Sci. (*i.e.* any two of the following

* Candidates submitting Northern Universities Jt. Matriculation Bd. certs. in which maths. subjects are designated as follows : " Maths." and " Maths. and Theoretical Mechanics," may offer 13. Maths., 14. Maths. and Theoretical Mechanics (counts as two Advanced subjects but may not be counted with Maths.).

No subject may count at both Ordinary and Advanced levels. *Either* Maths. *or* Pure Maths. *or* Applied Maths. *or* Pure and Applied Maths. will satisfy the to 22 inclusi of Maths. under regulations for Schemes A and B. Subjects 15 under Scheme are approved Science subjects for the purposes of Matricn. requirements A and B.

branches of Sci., viz. : Physics, Chem., Bot., Zool., Geol.) ; III. Latin, Greek, French, German, Italian, Spanish, Gaelic, Russian and such other langs. as may from time to time be recognized for the purpose by the Board ; IV. History, Geog., Music and (Scottish Leaving Certif. only) Applied Sci. The Board requires four passes to be obtained on the Higher standard, or three on the Higher and two on the Lower standard. There must always be a pass on the Higher standard in English and in either a Group II or a Group III subject ; and there must be passes in at least one subject from Group II and one from Group III.

(3) Applicants who present General Certificates of Education issued by any of the Examining Bodies, 3-10 (v. *supra*, p. 1414), showing that passes have been obtained in subjects recognized by the Board that must include the following : (i) English Lang. ; (ii) either Maths. or a recognized Science ; and (iii) a language other than English. The subjects are : Group I, English Lang., English Lit. ; Geog. ; Ancient Hist., Modern Hist. Group II, Maths. (Pure) ; Applied Maths. ; Physics ; Chem. ; Bot. ; Zool. ; Geol. Group III, Latin ; Greek ; French ; German ; Spanish ; Italian ; Gaelic ; Welsh ; Irish, etc. Group IV, Art and Music.

There must be passes *either* in six such subjects, at least two of them having been awarded at Advanced level, of which one must be a Group II or Group III subject ; *or*, if there are passes in only five such subjects, there must be three passes at Advanced level, one at least from Group II or Group III and the three from not fewer than two of the Groups. (Three passes, including at least two at Advanced level, must have been gained at one sitting.)

Note 1. Passes at Ordinary standard in the London Matricn. Examn., credits in English School Certificates taken at home or overseas centres, or passes on the Subsidiary standard in Higher School Certificates, will be treated as if they were passes at the Ordinary level, and passes at Main or Principal standard in such certificates and passes in the Inter. Arts or Inter. Science Examns. of the Univ. of London, as if they were passes at the Advanced level in the General Certificate of Education, if collectively they satisfy this rule.

Note 2. No. 13 (v. *supra*, p. 1414) (a) issued in 1951 or earlier—will be accepted up to Jan. 31, 1956, if it contains five subjects recognized by the Board, including the three compulsory subjects of the above rule ; and, if all the subjects have been taken at Main standard, if there are credits in three of them, including English and at least one from Group II or Group III ; or, if the foreign lang. has been taken on the subsidiary standard, if there are credits in four subjects including a Group II subject and English. (b) Issued in 1952 or later—will be accepted if it contains passes in at least six subjects recognized by the Board including English Lang. ; English Lit. ; a language other than English and a Mathematical or Scientific subject, on condition that three of the passes are at the Advanced level, one of them being either in a lang. other than English or in a Mathematical or Scientific subject, and that all passes have been gained at not more than two separate sessions of examn.

(4) Passes at 50 per cent., or better, shown in a Certif. qualifying the applicant for entry on a degree course in Arts, Pure Sci. or Med. at a recognized Univ. of the Republic of Ireland, Canada, Australasia or of the Union of South Africa, if they are in subjects recognized by the Board, will count (1) as passes at Ordinary level if the holder completes his qualifications by means of the General Certif. of Educn. examn. (Clause 3 above), or (2) as passes on the Lower standard if he completes by the Entrance Board's Prelim. Examn. (Clause 2 above). Alternatively a certif. signed by the Registrar of a recognized Univ. in these countries stating that the applicant has completed satisfactorily the first two yrs. of a course leading to a Degree in Arts, Pure Sci. or Med., and has duly passed in all the subjects of his course up to that point, will qualify for the Certificate of Attestation.

(5) Evidence of the satisfactory completion of the second yr. of a course leading to a degree in Arts or Pure Sci. or of the pre-medical course, of a Univ. or Coll. in the U.S.A. (other than a Jr. Coll.) appearing in the current list published by the American National Cttee. of Regional Accrediting Agencies, will qualify for the Board's Certificate of Attestation if the applicant's academic record shows Grades averaging not below B. in such of the following subjects as have been included in the first two yrs. of his academic course: English, Foreign Langs., Maths. (Pure and Applied), Sci., Hist., Geog., Art and Music.

(6) A School Leaving, Matricn. or Univ. Entrance Certif. awarded in any one of the following countries and qualifying unconditionally for entrance on a course leading to a Degree in Arts, Pure Sci. or Med. in a recognized Univ. of that country, is acceptable: (a) if it contains passes of "Satisfactory" (or higher) grade in six of the subjects detailed in para. 3 above, and these include (1) the language of the country issuing the Certificate; (2) a second recognized language; and (3) either Maths. or a recognized Science; and (b) if at least two of these passes (which must include English or a subject of Group II or Group III [taken in the written examn.]) are graded as "Very Satisfactory"; and (c) on condition that it is supplemented by (1) a London Univ., or Cambridge Senior, Certificate of Proficiency in English; or (2) a pass in Special English in the Entrance Board's Preliminary Examination; provided that exemption from this condition will be granted if the Grade "Very Satisfactory" has been awarded in English (written and oral). A Certif. that fails to satisfy clauses (a) and (b) of this Rule for want of a sixth subject, or in respect of the grade of pass required in one subject only, may be made good by a pass of the requisite standard in an appropriate subject obtained either (1) in a subsequent session of the original examn., or (2) in the Entrance Board's Preliminary Examn., in which the pass must be on the Higher standard; or (3) in the English General Certif. of Educn. Examn., in which the pass must be on the Advanced level.

The countries are: Norway, Sweden, Denmark, Iceland, Holland, Belgium, France, Luxembourg, Switzerland, Western Germany and Italy, and probably Spain, Portugal and Finland.

Full information as to the regulations for examns. and for exemptions

can be obtained from the Secretary, Scottish Univs. Entrance Board, Westerlea, Kennedy Gardens, St. Andrews, Scotland.

Special Regulations for Entrance to Classes

Aberdeen. In the case of Greek, Hebrew, Arabic, Syriac, Mathematics and Music, a student shall be admitted to attendance on the classes qualifying for graduation if he has the subject of the class as one of the subjects either of his Group Leaving Certificate or of the University Preliminary Examination. Where a student desires to attend a course qualifying for graduation and does not satisfy the above condition, he shall inform the Secretary to the University of Aberdeen not later than one week before the commencement of the class, and a written examination or other test will be provided to determine his fitness to attend the class.

Edinburgh. Certain preliminary passes are required for entrance to certain classes and for entry upon or to follow the curricula for certain Honours groups. If a student intends to take a curriculum containing a class which requires a special qualification, it is desirable that he should have included this qualification in his Leaving Certif. (or its equivalent), but failing this he may take the subject in the Univ. Preliminary Examn.

Preliminary Qualifications Necessary for Attendance at Certain Classes and for following the Curricula for Certain Honours Groups

Arts and Commerce. Ordinary classes in Latin, Greek, French, German, Italian, Spanish, Celtic, Russian—A pass in the lang. on the Higher standard in the Leaving Certif., or some equivalent evidence of proficiency.

Second Ordinary, Intermediate Honours, and Honours Classes in English, and Interm. and Hons. Classes in French, Italian, Spanish.—A pass in Latin on at least the Lower standard in the Leaving Certif. (on the higher for Hons. English), or some equivalent evidence of proficiency.

Honours in English.—A reading knowledge of German (for those specializing in Language); or of French (for those specializing in Literature or Mediæval Studies).

Honours in Spanish.—A reading knowledge of French.

Sanskrit.—A knowledge of Sanskrit grammar (as in Macdonell's *Sanskrit Grammar for Students*) and ability to read simple texts.

Hebrew.—A knowledge of Hebrew grammar (as in Davidson's *Introductory Hebrew Grammar*), and ability to read simple prose, such as the Book of Ruth or the narratives of Genesis.

Arabic, Persian, Turkish.—A knowledge of grammar of the lang., and ability to read a simple text.

Music.—A pass in Music in the Leaving Certif., or some equivalent evidence of proficiency. A pass in a qualifying examn. held in March and Sept. consisting of one written paper and an oral and practical test.

UNIVERSITY ADMISSION (UNITED KINGDOM) 1453

Honours in Psychology and Social Anthropology.—A pass in Maths. on the Lower standard in the Leaving Certif., or some equivalent evidence of proficiency.

Maths., 1st Ordinary, and Natural Philos., 1st Ordinary—for students not proposing to go beyond first ordinary classes a pass in Lower Maths. in the Leaving Certificate. or some equivalent evidence of proficiency.

Maths., Second Course ; Hons. Maths. and Natural Philos. ; Technical Maths. ; Mathematical Physics and Natural Philos.—for students proceeding beyond the first ordinary classes a pass in Higher Maths. in the Scottish Leaving Certificate, or some equivalent evidence of proficiency.

Meteorology.—An elementary knowledge of mechanics, general physics and heat.

Astronomy.—A knowledge of Maths. as represented by the first ordinary course in Maths., and of Dynamics as represented by the Preliminary Examn.

Chemistry.—A pass in an Admission Examn., unless the student has a pass on the Higher standard in Sci. (incl. Chem.) in the Leaving Certif., or other evidence of proficiency accepted as equivalent.

Honours in Geography.—Ability to read French or German.

The Ordinary Classes in Ancient (Gk. and Roman) Hist., Ecclesiastical Hist. and Roman Law, and Hons. Classes in British Hist. and Scottish Hist.—A pass in Latin on at least the Lower standard of the Leaving Certif., or some equivalent evidence of proficiency.

Honours in History.—A reading knowledge of French.

Honours in Fine Art.—A reading knowledge of at least one modern foreign European lang. and a pass in an entrance test prescribed by the Edinburgh College of Art.

Honours in Architecture.—A pass in an entrance test prescribed by the Edinburgh College of Art.

Accounting and Business Method.—A pass in an Admission Examn. in Book-keeping or evidence of a sufficient practical training in an office or otherwise.

Science. For admission to degree courses in Pure Science or in Applied Science (except Vet. Science)—passes in Maths., Physics and Chem. on the Higher standard in the Leaving Certif., or some equivalent evidence of proficiency. In certain cases for admission to degree courses in Pure Science the requirement of Higher Physics and Chem. may be relaxed. Besides these general requirements, entrance qualifications as for Arts are required for Maths., Technical Maths., Physics (Nat. Philos.), Chem., Astronomy, Meteorology.

Agriculture. In addition to the above general requirements—evidence of a complete twelve months' experience, covering the four seasons, on an approved farm.

Law. Civil Law.—A pass in Lower Latin in the Leaving Certif. or some evidence of a sufficient knowledge of the language.

Medicine and Dental Surgery. A student, before commencing the curriculum for graduation, must have the Certif. of Attestation of

Fitness.* Prospective students are advised to include elementary Physics and Chem. in their School or Pre-University studies.†

Recognition of Institutions Outside the United Kingdom

Arts. Undergraduates who have attended courses in another Univ. may apply for exemption from one (not the Final) yr. of the course for M.A. or for B.Com., and from attendance on classes in two subjects. Graduates of another Univ. may apply for exemption from examination as well as attendance. Each application will be considered on its merits.

Science. Certain courses (first year only) may be taken in other Univs. or institutions approved by the University Court. The Higher School Certif. is not regarded as qualifying for exemption.

Law. The Arts degree of certain approved Colonial, Indian and American Univs. is recognized for admission to the LL.B. course. Two of the three yrs.' study for LL.B. may be taken at one of the following recognized institutions: the Univs. of Oxford, Cambridge and Dublin; the Inns of Court; the Madras Law School; the Maharaja's Law College, Trivandrum; Ripon College, Calcutta; Univ. of Rangoon; McGill Univ.; University College and King's College, London; the Colls. and Univs. approved by the Association of American Universities. The exemption granted is only in respect of attendance at classes, not of examination.

Medicine and Dental Surgery. Recognition may be given to courses taken in the first two yrs. of the curriculum at any Univ. of the United Kingdom or at such Indian, Colonial or foreign Univ. or Coll., or under such teachers as may be recognized by the University Court.

Glasgow. *Arts.*

- (a) Ordinary Classes of Humanity, Greek, French, German, Italian, Spanish, Russian, Gaelic, Welsh, Arabic, Norwegian; Senior Class of Hebrew.
- (b) Ordinary Classes of Mathematics, Natural Philosophy and Astronomy.

Attendance on any of these classes shall not, except as hereinafter provided, qualify for graduation unless before admission to the class the student has produced evidence that he has passed in the subject of the class (for (b) in Maths.) on the Higher standard (where different grades exist) in the Leaving Certificate or the Preliminary Examination or on the corresponding standard in another examination recognized as equivalent: but a student not so qualified, if for special reasons he has been admitted to any of these classes by the Head of the Department concerned and has passed in the subject of the class (for (b) in Maths.) on the Higher standard in the Spring Preliminary Examination of the same academic year, may make application to the Senatus for the recognition

* Any student holding a certif. admitting him to an English, Irish or Welsh Univ. will be exempted by the Entrance Bd. from Examn. (1).

† Applications for exemption should be addressed to the Dean of the Faculty of Medicine.

of such pass, and, if such recognition is granted, his attendance and class record will be allowed to qualify for graduation.

- (c) Intermediate Classes of Humanity, Greek, French, German, Italian, Spanish, Arabic ; Higher Classes of English, Russian, Hebrew, Logic, Moral Philosophy, Political Economy, History, Scottish History, Constitutional History, Mathematics, Natural Philosophy, Geography, Music ; Classes of Greek History, English Language, Political Philosophy and Social Economics.

Attendance on any of these classes shall not qualify for graduation on the Higher standard unless, before admission to the class, the student has obtained a pass on the Ordinary standard in the subject in which he is taking a Double Course.

- (d) Higher Classes of English, French, German, Italian, Spanish, Hebrew, History, Constitutional History ; Honours Classes of English, French, German, Italian, Spanish, History, Scottish History and Literature.

Attendance on any of these classes shall not normally qualify for graduation unless, before admission to the class, the student has produced evidence that he has passed in Latin or Greek on the Higher or the Lower standard in the Leaving Certificate or the Preliminary Examination or in another examination recognized as equivalent : but the Faculty of Arts shall have the power to accept in lieu of such a pass such other evidence of proficiency in the subject concerned as it may deem equivalent.

- (e) Honours Class of Hebrew.

Attendance on this class shall not normally qualify for graduation in Arts unless, before admission to the class, the student has produced evidence that he has passed in Greek on the Higher or on the Lower standard in the Leaving Certificate or the Preliminary Examination or in another examination recognized as equivalent, or that he has diligently attended a non-qualifying class in Greek ; but the Head of the Department shall have power to accept such other evidence of proficiency in Greek as he may deem equivalent. Each case in which this power has been exercised shall be reported to the Faculty of Arts and the admission of a student under this provision shall be subject to confirmation by that Faculty.

- (f) Ordinary Class of Music.

Attendance on this class shall not normally qualify for graduation unless, before admission to the class, the student has either (a) produced evidence that he has passed in Music on the Higher standard in the Leaving Certificate Examination, or (b) attended the Elementary Class and satisfactorily performed the class work ; but the Head of the Department shall have power to accept such other evidence of proficiency in Music as he may deem equivalent. Each case in which this power has been exercised shall be reported to the Faculty of Arts, and the admission of a student under this provision shall be subject to confirmation by that Faculty.

- (g) Honours Class of Gaelic. Attendance on this class will not qualify for graduation unless, before admission to the class, the student

has passed in the degree examination in Latin on at least the Ordinary standard.

Science.

- (1) Ordinary Classes of Mathematics, Natural Philosophy and Astronomy.

Attendance on any of these classes shall not, except as hereinafter provided, qualify for graduation unless, before admission to the class, the student has produced evidence that he has passed in Mathematics on the Higher standard in the Leaving Certificate or the Preliminary Examination or on the corresponding standard in another examination recognized as equivalent: but a student not so qualified, if for special reasons he has been admitted to any of these classes by the Head of the Department concerned and has passed in Mathematics on the Higher standard in the Spring Preliminary Examination of the same academic year, may make application to the Senatus for the recognition of such pass, and, if such recognition is granted, his attendance and class record will be allowed to qualify for graduation.

- (2) Classes in Double-course subjects.

Attendance on any of these classes shall not qualify for graduation on the Higher (Double-course) standard unless, before admission to the class, the student has passed on the Ordinary (Single-course) standard in the same subject.

- (3) Before presenting themselves for examination in a Double-course subject candidates must have attended at least two qualifying courses in that subject. One of these courses must be a higher course and all courses in any subject except Mathematics must include practical or laboratory work.
- (4) A qualifying course in any subject shall normally extend over three terms, but the Senatus, with the approval of the University Court, may sanction partial courses of not less than one term's duration, and two or three such partial courses shall be held to be equivalent to a full normal course in such cases as the Senatus, with the approval of the University Court, may determine and under such rules as may from time to time be made for that purpose.

Engineering.

- (1) Mathematics (1st Course) and Mathematics (2nd Course).

These classes may not be taken in the same academic year except by express permission of the Faculty of Engineering.

- (2) Mathematics (1st Course) and Applied Physics (Ordinary).

Attendance on these classes shall not normally qualify for graduation in Engineering unless, before admission to the class, the student has produced evidence that in the Leaving Certificate or the Preliminary Examination, or in another examination recognized as equivalent, he has passed in Mathematics on the Higher standard, or that he has diligently attended a non-qualifying course in Mathematics: but the Head of each of the Departments concerned shall have power to accept such other evidence of proficiency in Mathematics as he may deem equivalent.

St. Andrews. In the Faculty of Arts, students who propose to attend a graduating course in Latin or Greek, or Hebrew, or French, or German, or Spanish must produce evidence of having passed the Leaving Certificate Examn. in the language on the Higher standard or some equivalent qualification, or must (in the case of Latin, Greek, Hebrew, German and Spanish) have attended a Junior Class in the Univ. and duly performed the work of that class for one session. Students who wish to attend a graduating course in Maths., Applied Maths. or Nat. Philos. must show that they have passed the Leaving Certif. in Maths. on the Higher standard or obtained some equivalent qualification. For a graduating course in Chem., candidates who do not produce evidence of having passed the Leaving Certificate in Higher Chem. or some equivalent qualification may be required by the Professor to pass an examn. during the Martinmas term. For a graduating course in Nat. Philos., candidates who do not produce evidence of having obtained a knowledge of Physics equivalent to that of the Leaving Certif. examn. on the Higher standard may be required by the Professor to pass an examn. at the beginning of the course.

In the subjects of Maths., Applied Maths., Nat. Philos. and Chemistry, students who do not have the above qualifications may attend the General Class on passing an examination to be held at the beginning of the Martinmas Term.

In the Faculty of Science, the above rules apply to the classes of Maths., Applied Maths., Nat. Philos. and Chemistry.

BELFAST

The Matriculation Examn. comprises English, Mathematics and 3 of the following: (a) Greek, (b) Latin, (c) French, (d) German, (e) Italian, (f) Spanish, (g) Modern History, (h) Physics or Mechanics, (j) Geog., (k) Chem., (l) Bot., (m) for Faculties of Arts, Economics, Applied Science and Technology—Celtic, (n) for Science, Medicine, Agriculture or Applied Science or Technology—Mechanical Drawing; for Economics—(o) Elementary Economics, and (p) Accounting; for Faculty of Arts—(q) Music. For Arts or Medicine or Economics one language other than English must be taken; for Science and Agriculture—French or German; for Applied Science or Technology—one of the languages (a)-(f). Candidates for Faculty of Arts may, under certain conditions, take Latin or Greek instead of Maths. For the Faculty of Law, English, Latin, and History are compulsory. For the Faculty of Applied Science, Physics is compulsory; for students of Chemical Technology and of Pharmaceutics, Chemistry is compulsory; for the Faculties of Science and of Agriculture, both Physics and Chem. are compulsory.

A candidate who has passed in at least three subjects, but failed to pass the examn. as a whole, is allowed to complete his matricn. at the next subsequent examn.

Exempting Examinations

Candidates who have passed any of the following examns. are admitted as matriculated students, provided that if they have not

passed in all the subjects required by the Univ. for matriculation in the respective Faculties they shall be required to pass in the additional subjects at one and the same Matricn. Examn.

Great Britain and Ireland—A. Nos. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 (v. *supra*, p. 1414), provided that in the cases of Nos. 3 to 10 inclusive passes have been obtained in (i) English Lang., (ii) a lang. other than English, (iii) Maths. or an approved science and (iv) *three* other subjects, two of the six to be passed at Advanced level *or* (v) *two* other subjects, three of the five being passed on the same occasion and *two* of these three at Advanced level *or* the certificate has been certified by an appropriate officer of a Univ. of England or Wales as satisfying its requirements for matriculation. No. 12 is subject to certain conditions.

B. Graduation examn. of a British Univ.

C. Dominion and foreign qualifications receive special consideration, provided full details of education and relative certificates are submitted.

Special Exemptions

Students of mature age (not less than 23) may be admitted without passing the ordinary Matricn. Examn. Applications are dealt with by a special committee of the Academic Council, who may submit candidates to such tests of their fitness to profit by the courses of the Univ. as they may consider necessary in each case. Applications must be submitted on or before June 1 in each year.

Special Regulations for Entrance to Faculties

Arts. Candidates for the Faculty of Arts who intend to enter an Honours School must pass in Greek or Latin at Matricn.

Medicine. Candidates must have passed an examn. in Latin of at least Junior Certificate (Northern Ireland) standard, and a pre-entry examination in Physics and in Chem.

Science and Agriculture. Candidates must have passed an examn. in French or German, and a pre-entry examn. in Physics and Chem.

In addition, candidates for entry into the Faculty of Agriculture must satisfy the Faculty that they possess a sound knowledge of the practice of Agriculture, and have been engaged for at least one year in farm practice.

Civil Engineering. Candidates may qualify *either* according to the regulations for the Faculty of Science *or* for the Faculty of Applied Science.

Law. English, Latin and History are compulsory.

(B) CANADA *

[Specially contributed for this edition by Professor Léon Lortie, University of Montreal.]

The educational qualifications for admission to a first degree course in Canadian Univs. vary from one province to another and, in certain cases, from one Univ. to another within the same province. There are also differences in the subjects required for different courses in the same University. But if allowance is made for individual variations owing to differences in local conditions, language or orientation, there is a general pattern that applies to regulations governing the admission of students to a first degree course across Canada. Except in a very few cases, there is actually little difference in the amount of knowledge that is required for that purpose even if, at first sight, there should be some question as to how much can be learned in three or four years of secondary school. It may also appear that French-speaking institutions, mainly in the Province of Quebec but also in the Maritime Provinces and in Ontario, deviate widely from the general pattern but, as far as qualifications for a first degree are concerned, the present practice in the *collèges classiques* of Quebec makes it easier to bring them into line with other Canadian institutions. There is practically no difference when Science courses, both Pure and Applied, are considered, between Laval and Montreal Univs. on the one hand and any other Univ. in Canada.

In all Canadian Univs. a candidate for admission to the first yr. of a course leading to a first degree is required to have completed a course of secondary education and obtained a diploma or certificate, issued by the Dept. of Education of the province in which the Univ. is located. Since the Univs. in many provinces are state-controlled or state-supported, there is a normal articulation between the secondary school leaving examn. and the admission requirements of the Univs. Otherwise the candidate is required to write the Matriculation or Entrance examn. conducted by the Univ. From one province to another certificates of High School leaving examns. may be accepted in so far as they meet the admission requirements of each individual Univ. The problem of admitting students from foreign countries, more especially the United States, is not an easy one. McGill Univ., which receives numerous applications of that kind, has recently joined the College Entrance Examinations Board, a U.S. organization set up to facilitate the work of evaluating the academic knowledge and aptitude of candidates.

Secondary education is not completed in the same number of yrs. in each Canadian province but, with a few exceptions, the contents of the secondary courses do not differ widely from one province to another. One must also note that graduation from a High School does not necessarily entitle a candidate to be admitted to a first degree course,

* See also the Admissions paragraphs in the entries for the Canadian Universities above, e.g. for Acadia, see p. 636.

unless a definite number of prescribed subjects have been taken by him in the secondary school exams. The number of such subjects is usually from five to seven (many including two papers) and the nature of these subjects varies from one course to another. English is always required (or French, in those institutions where that language is the medium of instruction), with usually another language (ancient or modern), History, Latin or Maths., a Science and one or more options from a rather generous list in most Univs.

It would be quite impossible to list the various qualifications required by each Canadian Univ. and it would surely be misleading to summarize them. A survey is presently being made under the joint auspices of the Canadian Education Association and the National Conference of Canadian Universities, which will cover the whole field and it is expected that the report will be voluminous. The following table (v. pp. 1461-1463) is an effort to present the general pattern that exists in each province, but it should only be considered as a bird's-eye view of the present situation.

Such variations as may be apparent in this list may give the idea that there is a degree of confusion, but Canada is well known for her effort to achieve unity in diversity and the apparent lack of uniformity in entrance requirements does not hinder the quality of the academic work of Canadian Univs. Each of them is adapted to the needs of the local population from which it draws the great majority of its students and manages to bring the latter from apparently different levels of previous schooling to a degree of higher learning that is practically comparable across the country.

Notes on Terms used in the Table

Grade XI. Canadian children are usually about 6 yrs. old when they first go to school. The term "Grade XI" in the table indicates that the student has been attending school for eleven yrs. Similarly "Grade XII" indicates twelve yrs'. school attendance. The average age of students entering University is 17 or 18 yrs. but exceptional students and a few of those who have attended special preparatory schools may be a yr. younger.

Junior Matriculation. The educational minimum acceptable for admission to most Canadian Universities is Junior Matriculation, which is also called Pass Matriculation, Middle School or Secondary School Graduation, and usually corresponds to the termination of Grade XI (except in Ontario and British Columbia where Grade XII is required for a similar certificate). Saskatchewan and Alberta have no Junior Matriculation.

Senior Matriculation. In each province, a twelfth (or thirteenth in Ontario and British Columbia) yr. is available which leads to the level of Senior Matriculation. Except in Ontario, where Toronto, Queen's and Western Ontario demand this higher certificate for entrance to all or to certain Faculties, this extra yr. practically corresponds to the first yr. of a Canadian Univ. course and, wherever accepted, reduces by one yr. the duration of the University course, save in British Columbia where partial credit only is granted.

Alberta	Univ. of Alberta	XII	Sr. Matric. of the High Schools of Alberta, which should include English, Social Studies, Algebra, Geom., Trigonometry, Physics, Chem. and a foreign language, but other credits may be substituted to meet the demand of specific Schools or Facs.
British Columbia	Univ. of British Columbia	XII	B.C. Univ. Entrance Examn. (Jr. Matric.) or the equivalent admits to 1st yr.
		XIII	Sr. Matric. allows for credits in 1st yr. only.

(C) AUSTRALIA

[This statement relates only to the admission of students proposing to take full courses leading to a first degree. For information regarding admission to courses leading to higher degrees, *see* the entries for the several Universities.]

GENERAL NOTE

The primary and secondary educational systems of the Australian States are the responsibility of the various State Govts. Consequently they differ in many respects. However, they are all alike in that they prepare students to the standard necessary for matric. at the Univ. or Univs. established in their home state. In all cases there is some liaison between the state educational system and the Univs. in that state to ensure that candidates coming forward to the Univs. will be able to comply with the matric. requirements.

There is no provision for jt. matric. in Australia, each Univ. controlling its own admission requirements. Thus the Univs. of Adelaide, Melbourne, Queensland, Sydney, Tasmania and Western Australia and the New South Wales University of Technology have individual matric. requirements which are specified below.

The New England Univ. Coll. is a coll. of the Univ. of Sydney and requirements for matric. are those of the Univ. of Sydney.

The Canberra Univ. Coll. by arrangement with the Univ. of Melbourne conducts courses leading to degrees in that Univ. and consequently its admission requirements are those of the Univ. of Melbourne.

The Australian National Univ. was established primarily for post-grad. research and study and does not conduct courses leading to a first degree. The minimum academic requirement for admission to the Univ. is a Master's Degree (or its equivalent) from an Australian or other recognized Univ.

The admission requirements of the Australian Univs. have the same purpose, being designed to ascertain whether candidates are educationally fitted to undertake courses leading to a first degree. This may be done either at an examn. conducted by the Univ. or alternatively at an examn. conducted by the State Educn. Dept. In some cases passes are required in special subjects for entrance to the different Facs., in addition to the requirements for matric.

Although the requirements for entrance to the various Univs. are not uniform, all possible reciprocity is exercised in the interchange of students, whether from Australian or British Univs. In general the Univs. will admit to matric. *ad eundem statum* a student who has matriculated or qualified to matriculate at another Univ. of recognized standing, but in some cases the passing of compulsory "prerequisite" subjects for particular courses may be required.

Special facilities are offered for matric. in some Univs. to persons of mature age who have not had the opportunity of qualifying in the ordinary way and who pass certain special entrance tests.

PUBLIC EXAMINATIONS IN AUSTRALIA

The following is a list of the public examns. in each state recognized by the Univ. for matric. purposes. The examns. are recognized only by the Univ. conducting them, though, as mentioned above, qualification for matric. by a student at the Univ. of his home state is generally recognized by the other Australian Univs.

<i>State</i>	<i>Examination</i>	<i>Conducting Body</i>
New South Wales and Australian Capital Territory	Leaving Certif.	N.S.W. Dept. of Educn.

SPECIFIC CONDITIONS

ADELAIDE

South Australian Candidates

The minimum age for matric. is 16 yrs. In general the requirements for matric. in the Univ. of Adelaide are 5 subjects at the Leaving Examn. held annually in Nov.-Dec. with certain subjects specified for the various Facs. as follows :—

Arts. 5 subjects, including Engl. and either Latin or Greek, at the Leaving Examn.; and if Maths. I is not also included, Maths. (2 subjects) must have been passed at the Inter. Examn.

Economics. 5 subjects, including Engl. and either a lang. other than English or Maths. I or Maths. II, at the Leaving Examn.; provided that (a) if a lang. other than Engl. be not included in the Leaving subjects such a lang. must have been passed at the Inter. Examn.; and (b) if Maths. I or Maths. II be not included in the Leaving subjects, Maths. (2 subjects) must have been passed at the Inter. Examn.

Science and Agricultural Science. 5 subjects, including Maths. I at

the Leaving Examn. ; and if Engl. and 1 other lang. are not also included, these subjects must have been passed at the Inter. Examn. Further, a candidate who intends to include Pure Maths. I in his course for the degree of B.Sc. must pass in Maths. II and in a special examn. in Maths.

Engineering. 5 subjects, including Engl. and Maths. Parts I and II, at the Leaving Examn. ; and if a lang. other than Engl. be not included in the Leaving subjects, such a lang. must have been passed at the Inter. Examn. Further, every candidate must pass in a special examn. in Maths.

Law. 5 subjects, including Engl. and Latin, at the Leaving Examn.

Medicine. Five subjects, including Engl. and a lang. other than Engl., at the Leaving Examn. ; if Maths. I be not passed at the Leaving Examn., Maths. (2 subjects) must have been passed at the Inter. Examn. ; and if Phys. be not passed at the Leaving Examn. it must have been passed at the Inter. Examn.

Dentistry. 5 subjects at the Leaving Examn., including Phys. and a lang. other than Engl. ; if Engl. be not included in the Leaving subjects it must have been passed at the Inter. Examn. ; and if Maths. I be not included in the Leaving subjects, Maths. (2 subjects) must have been passed at the Inter. Examn.

Music. A candidate is required (a) to hold the Leaving Certif., or to have passed in 4 subjects at the Leaving Examn., including Engl., a lang. other than Engl., and either Ancient Hist. or Mod. Hist. ; and (b) either to have passed in the Theory of Music at the 7th Grade of the Public Examns. in Music, or to satisfy the Dean of the Fac. of Music in a special Entrance Examn. in the Theory of Music of equivalent standard.

Candidates from Other Australian States

Matric. in any other Australian Univ. is accepted provided that the subjects prescribed for S. Australian students are included. A candidate whose qualifications for matric. in the Univ. of his own state do not include one or more of the subjects specified by Adel. is required to pass in only the outstanding subject or subjects.

Overseas Candidates

(a) *United Kingdom.* Qualifications which entitle the holder to matric. in the corresponding Fac. in any recognized Univ. of the U.K. are accepted, provided that the subjects prescribed for S. Australian candidates are included. The English G.C.E. is accepted on a basis similar to that required by English Univs., provided that the subjects specified at Leaving standard by Adel. have been passed at the Advanced level. A candidate whose qualifications do not include one or more of the subjects specified by Adel. is required to pass in only the outstanding subject or subjects.

(b) *Other Parts of the British Commonwealth.* A candidate from another country within the British Commonwealth may be admitted to matric. who (i) has passed at the Oxon. or Camb. Sch. Certif. Examn., at Credit standard, or better, in at least 5 subjects, including those

specified in the Adel. requirements (Engl. Lang. and Engl. Lit. are not counted as 2 subjects, Religious Knowledge is not counted, and a pass only is taken as equivalent to a pass at the Inter. Examn.); (ii) has passed with Credit in Engl. Lang.; and (iii) has passed at the S. Australian Leaving Examn. in such subject or subjects (if any) as may be determined in each case.

An examn. other than the Oxon. or Camb. Sch. Certif. Examn. may be accepted in accordance with these principles if the Univ. is satisfied that it is of equivalent standard.

A candidate seeking admission to the Fac. of Engin. or wishing to take a Sci. course which will include Pure Maths. I, must have passed at Credit standard or better in Addtnl. Maths. as well as in Elementary Maths.

Candidates from India and Pakistan are required to have passed at a good standard in their own Univ.'s Inter. Examn. in Arts or Sci. and to have included in that examn. Engl. and such other prerequisite subject or subjects as may be specified in the Adel. requirements.

Where the English G.C.E. Examn. has replaced the Oxon. and Camb. Overseas School Certif. Examns. the G.C.E. is accepted on the same conditions as apply to candidates from the U.K.

(c) *Other Overseas Students.* A candidate may be admitted to matric. who (i) holds a certif. which qualifies him for matric. in a recognized European or American Univ., provided that the subjects specified in the Adel. requirements are included; (ii) has passed in Engl. at the matric. standard either of Adel. or of a recognized Univ. of his native country (in the latter case he will be required also to pass in a special test in Engl. lang.); and (iii) has passed in the prescribed Fac. prerequisites as follows:

Science and Engineering (and for admission to the class in Pure Maths. I). Either in Maths. I and II and Sp. Maths. at the S. Australian Leaving Examn. or in a special examn. in Maths. of equivalent standard.

Law. Latin at the S. Australian Leaving Examn.

Arts. Either Latin or Greek at the S. Australian Leaving Examn.

Mature Age

No provision is made for modification of the normal requirements for matric. on account of age.

Special Cases

The Matric. Bd. may consider applications from candidates who have qualifications in secondary educn. but have not satisfied the normal requirements for matric. The Bd. usually does not exempt such a candidate from the specified entrance requirements, but it may admit him for 1 yr. under conditions which it specifies and which must be fulfilled within 1 yr.

CANBERRA UNIVERSITY COLLEGE

Admission requirements are those of the Univ. of Melb. (See Melb. Univ., p. 1468, and General Note, p. 1464.)

MELBOURNE

General Requirements

In order to become qualified to matriculate, candidates must (a) obtain the Melbourne Sch. Leaving Certif. and be credited therein with 5 subjects including: (i) Engl.; (ii) a branch of Maths. or Sci.; (iii) 1 other subject chosen from the langs. other than Engl., Greek and Roman Hist., Mod. Hist., British Hist., Econ., Soc. Studies; (b) pass the Matric. Examn. by passing or obtaining hons. in 4 subjects, including Engl. Expression; (c) attain the age of 17 yrs. by March 31 in the yr. concerned.

Special Faculty Requirements

In addition to qualifying to matriculate, for the following Facs. the prerequisites set out below must have been passed at a standard equivalent to that of the Melb. Matric. Examn.:

Arts. A lang. other than Engl.

Engineering. Either Chem. or Phys. and either Calculus and Appl. Maths. or Pure Maths.

Science. 2 of the following: Chem., Phys. and branch of Maths.

Medicine. For admission to the Med. Course, it is necessary to have qualified to matric. in a recognized Univ., to have completed a preliminary course conducted by or approved by the Univ. of Melb. in Chem., Phys. and Biol., to have passed the Preliminary Examn. in these subjects and, on the basis of this examn., to be selected in the quota fixed for the 1st Yr. of the Degree Course in Med. Only a limited no. of overseas students, selected on the basis of academic merit, will be admitted to the preliminary course.

Overseas Students

The matric. qualifications of the following insts. are accepted as grounds for admitting overseas students to matric. status without further requirements (although they may have to make up the Fac. prerequisites at the Melb. Matric. Examn.):

Canada. Senior Matric.

Ceylon. Matric. of the Univ. of Ceylon.

Egypt. Secondary Educ. Certif. Part II (Sp. Course) of the Egyptian Ministry of Educ.

Eire. Matric. of Trinity Coll., Dub. or N.U.I.

Continent of Europe. Certif. of Maturity or equivalent certif. qualifying student to enter a continental Univ.

United Kingdom. Matric. of any English or Scottish Univ., or Univ. of Wales, or Queen's Univ., Belf.

Greece. Matric. of Univ. of Athens.

Holland. (i) Leaving Certif. from "Gymnasium" after 6-yr. course. (ii) Dipl. of H.B.S. "B" (except for Law). (iii) Certif. of completion of 6-yr. course at "Lyceum" (except for Law).

Hong Kong. Matric. of Univ. of Hong Kong.

India. Passing in the 1st Division of Inter. Sci. or Arts Examn.—prerequisites, if involved, to be at Inter. standard.

Israel. Qualification to enter either Hebrew Univ., Jerusalem or Hebrew Tech. Inst., Haifa.

Malaya. Univ. of Malaya Matric.

Pakistan. Passing in the 1st Division of Inter. Examn. in Sci. or Arts—prerequisites, if involved, to be at Inter. standard.

Siam. Matric. of Univ. of Chulalongkorn.

South Africa. Matric. of Jt. Matric. Bd. of Univs. of S.A.

Syria. Matric. of American Univ. of Beirut.

U.S.A. Qualification to enter a Univ. accredited with the Assoc. of American Univs.

Other Australian Institutions

Persons qualified to matriculate in another Australian Univ. will be admitted to matric. status, but will be required to satisfy special Fac. requirements either at the Melb. Matric. Examn. or at an equivalent standard.

Provision is made for the recognition of qualifications gained at certain Australian Service establishments, and at certain Victorian Tech. Colls.

Adult Matriculation

Special provision is made for persons who are at least 20 yrs. of age and have left school 4 full yrs. These provisions apply to local students only.

NEW ENGLAND UNIVERSITY COLLEGE

Admission requirements are those of the Univ. of Syd. (*See* Syd. Univ., p. 1473, and General Note, p. 1464.)

THE NEW SOUTH WALES UNIVERSITY OF TECHNOLOGY

General

(a) Applicants for entry to undergrad. courses leading to a degree may satisfy entrance requirements by passing the N.S.W. Leaving Certif., or equivalent examn., in at least 5 subjects, of which one must be Engl. and one other must be Maths. I, or Maths. II, or General Maths., 3 other subjects being chosen from the following groups, at least 1 of the 3 being from Group A.

Group A. Latin, French, Greek, German, Italian, Hebrew, Chinese, Japanese, Russian, Dutch, Geol., Geog., Agric., Econ., Mod. Hist., Ancient Hist., Combined Phys. and Chem., Phys., Chem., Physiol., Biol., Bot. or Zool.

Group B. Appl. Maths., Theory and Practice of Music, General Maths., Maths. I or Maths. II.

(b) General Requirements. The following general provisions apply : candidates must meet the requirements set out in section (a) above at one examn., provided that

(i) neither Phys. nor Chem. be taken along with the combined subject Phys. and Chem. ;

(ii) neither Bot. nor Zool. be taken with Biol. ;

(iii) neither Bot. nor Zool. nor Biol. be taken with Physiol. ;

(iv) neither Maths. I nor Maths. II be taken with General Maths. ;

(v) a candidate who offers Maths. and elects to take General Maths. may not sit for Maths. I or Maths. II ; a candidate who offers Maths. and does not elect to take General Maths. must take both Maths. I and Maths. II ; a pass in either Maths. I or Maths. II will count as a pass in 1 subject ; a pass in both papers will count as passes in 2 subjects ;

(vi) Theory and Practice of Music is accepted only from March 1946 ;

(vii) Ancient Hist. and Agric. are accepted only where the pass was obtained at an examn. held in 1945 or subsequent yrs. ;

(viii) Econ. is accepted only in cases where the pass was obtained at an examn. held in 1947 or subsequent yrs.

(c) Notwithstanding the foregoing, candidates may be accepted under the following conditions :

(i) Any person who has satisfied the examn. requirements for entrance to the dipl. courses of the Dept. of Tech. Educ., N.S.W., since and including the qualifying examns. of the Dept. of Tech. Educ. held at the end of 1940, may be admitted as a "registered student" of the Univ. of Technol., but this provision shall not apply to examns. held later than March 1953.

(ii) (a) A grad. of any approved Univ.

(b) An applicant who presents a certif. from any Univ. showing that he is qualified for entrance to that Univ., provided that, in the opinion of the Professorial Bd., there is an acceptable correspondence between the qualifying conditions relied upon by the applicant and the conditions laid down for ordinary entrance to the nominated Fac. of the N.S.W.U.T.

Adult Matriculation

Special provision is made for persons who are at least 25 yrs. of age and who have satisfactorily completed a systematic course of study extending over at least 3 yrs. from the Inter. Certif. level.

QUEENSLAND

General Requirements

In order to qualify for matric., a candidate is required to pass in a selection of subjects at the Public Examns. held annually by the Univ. The Jr. and Sr. Examns. are held in Nov.-Dec., and there is also a Matric. Examn. held in Feb.

Subject to the provisions below a candidate may qualify for matric. in 2 examn. sittings, provided that at one of such sittings a pass is secured in at least 4 subjects at Sr. Examn. standard, otherwise the whole of the subjects required for matric. must be passed at one sitting. The examn. in Nov. and the Matric. Examn. in Feb. are regarded as constituting one sitting under this rule.

Where the requirements of a Fac. specify the Jr. Examn. standard for a particular matric. subject, this subject must be passed by the candidate either when sitting for a Jr. Public Examn. or during the

same examn. periods in which the requisite passes at Sr. standard are secured. In cases where a pass in a subject at Jr. standard is accepted for matric. purposes in any Fac., and this pass is included in the subjects covered by a Jr. Public Examn. taken by the candidate, the Jr. Public Examn. at which the subject was passed will not be counted as a sitting.

The examn. in Feb. may be used only for matric. purposes.

The Univ. will consider applications for exemptions from all or part of the Matric. Examn. from candidates who have passed examns. used for matric. in any other Australian Univ.

The subjects which may be used for matric. purposes are :

(i) Group A. Engl., a lang. other than Engl. from Group B, Maths. I.

(ii) Group B. Latin, Greek, German, French, Italian, Modern Hist., Ancient Hist., Logic, Econ., Music or Art,* Maths. II, Chem., Physics, Botany, Geology, Zoology, Physiology, Geog., Home Sci. A, Book-keeping and Accounts, Appl. Mechanics, Geometrical Drawing and Perspective.

A candidate for matric. is required to pass in Engl. at Sr. standard, and in the remaining subjects of Group A at the standard prescribed by the Fac. concerned, in accordance with the requirements for the various Facs.

Special Faculty Requirements

Arts. A candidate is required to pass at Sr. standard in at least 4 subjects covering 4 of the following groups of subjects : (a) Engl. ; (b) French, German, Greek, Latin ; (c) Maths. I, Maths. II ; (d) Bot., Chem., Geol., Phys., Physiol., Zool. ; (e) Mod. Hist., Ancient Hist., Geog. The 4 subjects must include Engl. and a subject from Group (b), the other 2 subjects being selected from any 2 of Groups (c), (d) and (e). If Latin is not one of the 4 subjects, a pass in Latin at Jr. or higher standard is also required, but this requirement may be fulfilled at any time whether before, at, or after the matric. examn. in which the other subjects are passed.

Note : The above requirements are minimum requirements, and a student intending to pursue an Arts course would benefit by taking more than 4 subjects, either to lead up to subjects he intends to take at the Univ., or to give him the advantage of a wider background of general knowledge.

Science. A candidate is required to pass at Sr. standard in 4 subjects including Engl., Maths. I and a Sci. subject, and in so far as Chem., Phys. and a lang. other than Engl. are not included in the 4 subjects, must pass or have passed them at not less than Jr. standard.

A person desiring to pursue the course in Indus. Chem. must pass at Sr. standard in both Chem. and Phys. and otherwise fulfil the requirements set out above.

Engineering. A candidate is required to pass in 5 Sr. subjects from the Open Scholp. list, including Engl., Maths. I, Phys. and Chem.

A lang. other than Engl. must be passed at not less than Jr. standard

* The requirements in Music for matric. purposes are Theory, Grade II, and a practical subject Grade II taken in the Examns. of the A.M.E. Board.

Note: The matric. examn. for the Fac. of Engin. is recognized by the Engin. Jt. Examn. Bd., Lond., as qualifying in lieu of their Prelim. Examn.

Surveying. A candidate shall have fulfilled the matric. requirements of any Fac. which include Engl. and Maths. I, or have passed in 5 Sr. subjects, including Engl. and Maths. I.

Commerce. A candidate may matriculate if he passes at Sr. standard in 4 matric. subjects, including Engl. and either Maths. I or a lang. other than Engl.; provided that if a lang. other than Engl. is not passed at Sr. standard it must be passed as a 5th subject at Jr. standard, and if Maths. I is not passed at Sr. standard it must be passed as a 5th subject at an approved Inter. standard.

A person who has qualified for the Dipl. in Comm. and who has passed in Maths. I at Sr., or an approved Inter., standard or in stats. or holds some other examn. qualifications in Maths. accepted by the Senate as equivalent, may matriculate in the Fac. of Comm.

Agriculture. A candidate is required to pass in 4 Sr. subjects, including Engl., Maths. I and a Sci. subject.

If Chem., Phys. and a lang. other than Engl. be not passed at Sr. standard, these subjects shall be passed or have been passed at Jr. standard in addition to 4 Sr. subjects.

A student of the Queensland Agriculture High Sch. and Coll., Lawes, may matriculate if he has (1) been awarded the Pass Dipl. of the Coll.; and (2) passed in Phys. and Chem. in the Jr. Public Examn.; and (3) attained at least 2nd class hon. standard at the Coll. in (a) Engl., (b) Chem. and (c) Agric. Bot. or Microbiol.; and (4) passed in Special Maths. for Coll. students or the special course in Maths. up to Inter. standard.

Students who have matriculated in the Fac. of Agric. are regarded as having also satisfied the requirements for matric. in Forestry.

Law. Matric. in the Fac. of Arts will also give matric. in the Fac. of Law.

Dentistry. The matric. requirements are the same as for Pure Sci. in the Fac. of Sci.

Veterinary Science. The matric. requirements are the same as those for the Fac. of Agric.

For students of the Queensland Agriculture High Sch. and Coll., Lawes, conditions for enrolment in the Fac. of Vet. Sci. are the same as those for the Fac. of Agric.

Medicine. A candidate is required to pass in 5 Sr. subjects including Engl., Maths. I, Chem. and Phys.

German, French or Latin must be passed or have been passed at not less than Jr. standard.

Architecture. A candidate is required to pass in 5 subjects at Sr. standard including Engl., Maths. I, Phys. and one of the following:

- (i) Art (both papers);
- (ii) Chemistry.

Should Chem. not be taken to Sr. standard a pass in this subject must

have been obtained at Jr. standard. Should the full subject Art not be taken, a pass in the 2nd paper of the subject must be obtained.

Adult Matriculation

A candidate who has attained the age of 25 yrs. may be admitted to matric. in the several Facs. on passing a special examn. The candidate may, if he so elects, matriculate under the ordinary regulations.

SYDNEY

Matriculation

Candidates for any of the degrees granted by the Univ. of Sydney shall be required to matriculate before entering upon the prescribed course for the degree. Before being admitted to matric., candidates shall have passed one of the examns. required by the by-laws for admission to the prescribed courses in the different Facs., or shall have been admitted *ad eundem statum*.

Matriculation Examination

The examn. shall be in the following subjects :

- Group A. Engl.
- Group B. Mod. Hist., Ancient Hist., Econ.
- Group C. Latin, Greek, French, German, Italian, Hebrew, Chinese, Japanese, Russian, Dutch.
- Group D. Maths. I., Maths. II., General Maths., Appl. Maths., Theory and Practice of Music.
- Group E. Phys., Chem., Geol., Geog., Phys.-and-Chem., Bot., Zool., Biol., Physiol., Agric.

In order to qualify for matric., candidates must pass at one examination in at least 5 subjects, of which one must be English, and the other 4 subjects must be chosen from at least 2 of Groups B. C. D. and E., provided that :

- (a) neither Phys. nor Chem. may be taken along with the combined subject Phys.-and-Chem. ;
- (b) neither Bot. nor Zool. may be taken with Biol. ;
- (c) neither Zool. nor Biol. may be taken with Physiol. ;
- (d) neither Maths. I nor Maths. II may be taken with General Maths. ;
- (e) a candidate who offers Maths. and elects to take General Maths. may not sit for Maths. I or Maths. II ; a candidate who offers Maths. and does not elect to take General Maths. must take both Maths. I and Maths. II ; a pass in either Maths. I or Maths. II will count as a pass in one subject ; passes in both papers will count as passes in 2 subjects ;
- (f) Theory and Practice of Music is accepted for matric. only in cases where the pass was obtained at an examn. held in 1943 or subsequent yrs., provided further that a pass in the subject of Music II at the Leaving Certif. Examns. held in 1943 and 1944 is accepted as equivalent to a pass in the subject of Theory and Practice of Music.
- (g) Ancient Hist. is accepted for matric. only in cases where the pass was obtained at an examn. held in 1945 or subsequent yrs. ;

further, Ancient Hist. may be taken with Mod. Hist. at the Leaving Certif. Examn. 1951 and subsequent examns. ;

- (h) Agric. is accepted for matric. only in cases where the pass was obtained at an examn. held in 1945 or subsequent yrs. ;
- (i) Econ. is accepted for matric. only in cases where the pass was obtained at an examn. held in 1947 or subsequent yrs.

Special requirements are not prescribed for matric. in any Fac.

These requirements shall not affect the right which any person would have had, because of a qualification obtained before March 1, 1945, to matriculate or to matriculate into any particular Fac.

Leaving Certificate Examination

A candidate who has passed at the Leaving Certif. Examn. of the Dept. of Educ., N.S.W., in the subjects and at the standards (an Hons., an " A " or a " B " pass) required for matric., may be admitted to matric. without further examn.

A candidate for matric. who has presented himself for the Leaving Certif. Examn. held in 1947 and subsequent yrs. in 5 or 6 subjects selected in accordance with the above requirements, and who has passed in Engl. and 3 others of these subjects, shall be granted matric. status provided that he has been awarded " A " passes or passes with Hons. in at least 3 of these 4 subjects.

General

Any person who produces evidence that he has completed (a) the 1st year of the course at the Royal Military Coll. of Australia, or (b) the full 4-yr. course at the Royal Australian Naval Coll., or (c) the 1st yr. of the course at the Royal Australian Air Force Coll. may be admitted to matric. without further examn.

Holders of the Dipl. with Hons. of an approved Agric. Coll. in Australia or holders of a Dipl. with Hons. or Credit of an approved Technical Coll. in Australia may be admitted to matric. in 1950 and subsequent yrs.

Persons of foreign nationality and educn. may be admitted to matric. by a special examn. if they give evidence that satisfies a three-fourths majority of the Fac. of Arts and of the Professorial Bd. that they are of good fame and character, and personally and educationally qualified for entrance to the Univ.

Provisional Matriculation

Provisional matric. may be granted to any person of not less than 25 yrs. of age who produces satisfactory evidence that he is of distinct educational merit and who passes such examns. as may be prescribed. Provisional matric. granted to a person under these conditions shall be confirmed when he has fulfilled such requirements as the Senate shall determine.

Admission ad eundem statum

The Professorial Bd. may admit as a matriculated student in any Fac., with such status as the Bd. thinks proper in the circumstances, a person :

(a) who is a grad. of any other Univ., or

(b) who presents a certif. from an approved Univ. showing that he is qualified for matric. and entrance to that Univ. and setting out the grounds of that qualification, provided that, in the opinion of the Bd. there is a reasonable correspondence between the qualifying conditions relied on by the applicant and the conditions laid down for ordinary entrance to the Univ. of Syd.

An applicant shall not be admitted unless he gives evidence of his degree or status and of good conduct.

Before being admitted to matric., foreign students are required to show that they have an adequate knowledge of the Engl. lang.

TASMANIA

General Requirements

Examns. at which qualifications for matric. are obtained are (a) the Matric. Examn. conducted by the Univ.; (b) the Schools Bd. Certif. Examn. conducted by the Schools Bd. of Tasmania. The latter is the sch. leaving examn. and is normally taken 1 yr. before matric., *i.e.* at the age of 15 or 16 yrs.

Students are required to pass 6 subjects, including (a) Engl. Expression; (b) one of Engl. Lit., Mod. Hist., Ancient Hist. and Soc. Studies; (c) one of French, German, Latin and Greek; (d) Maths. The remaining subjects may be chosen from the above groups and from Appl. Maths., Phys., Chem., Biol., Geol., Geog., Econ., Music and Art.

Engl. Expression and 2 other subjects may be passed at the Schools Bd. Examn. or at the lower pass standard of the Matric. Examn. The remaining 3 subjects must be passed at the higher pass standard of the Matric. Examn. Students may be exempted from the requirement of having to pass in subjects of both groups (c) and (d), provided that a subject of one of the groups is passed and that a certain subsidiary standard is reached in a subject of the other group. Engl. Expression, one lower pass and the 3 higher passes must be gained in 2 sittings, examns. held in Dec. and the following Feb. counting as one sitting for this purpose. The remaining lower pass may be gained at any sitting. Schools Bd. subjects and corresponding Matric. subjects may not both be counted, *e.g.* Schools Bd. Maths. II may not be counted if Matric. Maths. A has been passed.

The normal minimum age for admission to Matric. is 17 yrs. but students under this age may be admitted if considered by the Professorial Bd. to be of exceptional ability. Persons over the age of 23 yrs. may be admitted to Matric. without having complied in full with the ordinary requirements.

Prerequisites

There are no Fac. prerequisites as such, but the following prerequisites for specific subjects are required:

Foreign Languages. A higher pass in the corresponding Matric. subject.

Mathematics. A higher pass in Matric. Maths. A.

Physics. A pass in Schools Bd. Maths. II.

Exempting Examinations

The Univ. will admit to Matric. students who are qualified for admission to other Australian Univs., to Univs. in Gt. Britain and N.Z. and (subject to proficiency in Engl.) to other Univs. of standing throughout the world. Students who gain partial qualifications elsewhere may be awarded Matric. on passing such subjects of the Matric. Examn. as may be prescribed by the Professorial Bd.

WESTERN AUSTRALIA

General Qualifications for Matriculation

The normal method of satisfying minimum entrance requirements is by means of a qualifying examn. in which candidates must pass in Engl. and any 4 of the following subjects: Latin, Greek, French, German, Italian, Spanish, Hebrew, Russian, Hist., Indust. Hist. and Econ., Geog., Maths. A, Maths. B, Appl. Maths., Phys., Chem., Biol., Geol., Agric. Sci., Physiol. and Hyg., Music, Drawing.

The qualifying examns. include the W. Aust. Leaving Certif. Examn. held annually in Nov. and the Matric. Examn. conducted by the Univ. of W. Aust. in Feb. each yr. The prescribed subjects must be passed at not more than 2 examns., the Leaving Certif. Examn. and the Matric. Examn. being regarded as separate examns. Admission to the Matric. Examn. is restricted to persons who seek to complete matric. requirements and to be admitted to the Univ. in the same yr. There are no special requirements for entrance to any Fac.

Special Exemptions

Students of mature age may be admitted without passing the normal matric. examn. The age varies according to the Fac. concerned and in some cases a special mature age examn. is held, while in others students are required to provide satisfactory evidence that they possess educational qualifications sufficient to enable them to take the proposed course.

Exempting Qualifications

(i) Matric. in the corresponding Fac. in any other Univ. in Australia, N.Z., the U.K. or other approved Univ., Coll. or Inst.

(ii) Graduation in a Univ. in Australia, N.Z., the U.K. or other approved Univ.

(iii) Certifs. from other countries will receive separate consideration. Candidates from overseas must submit satisfactory evidence that they are qualified for the courses they propose to enter, including evidence of sufficient knowledge of the Engl. lang.

(D) SOUTH AFRICA

GENERAL. The qualificn. for entrance to a course of study for a first degree of any Univ. in South Africa is the Matric. Certif. of the Joint Matriculation Board for the nine Univs. in South Africa, or a Certif. of Exemption issued by that Bd. The Bd. was established by Act of Parliament passed in 1916 and has conducted the Matric. Examn. since 1918. Before that the Matric. Examn. was conducted by the now defunct Univ. of the Cape of Good Hope. For all practical purposes, therefore, the only recognized qualificn. for admission to a course of study for a first degree is the Matric. Certif., or the Exemption Certif. of the Bd. A successful candidate at the Matric. Examn. may be awarded *either* a School Leaving Certif. *or* a Matric. Certif., depending upon the subjects passed and the standards attained in specific subjects. The School Leaving Certif. is not an entrance qualificn. for a course leading to a degree, although it may be accepted by the Univs. for admission to courses of study leading to certain dipls. and certifs.

APPROVED SUBJECTS FOR THE MATRICULATION EXAMINATION. The list of approved subjects is as follows :

Section A. 1. English (H.) * (not to be taken with 2) ; 2. English (O.) * ; 3. Afrikaans (H.) (not to be taken with 4, 5 or 6) ; 4. Afrikaans (O.) (not to be taken with 3, 5 or 6) ; 5. (in and after Nov. 1953 : Agriculture) ; 24. Domestic Sci. and Hyg. (in and after Nov. 1953 : Housecraft and Hygiene) ; 25. Hist. ; 26. Geog. ; 27. Mechanics ; 28. Book-keeping and Commercial Arithmetic ; 29. Art ; 30. Music ; 31. Geometrical Drawing.

Section B. (may only be taken as 6th or 7th subject in the examn.). 32. Commerce ; 33. Shorthand and Typewriting ; 34. Additional Maths. (may not be taken without 15) ; 35. Nederlands (may only be taken by candidates also offering 3).

Candidates are required to take, at one and the same examn., not fewer than six or more than seven subjects, and to pass in not fewer than five subjects with not less than $33\frac{1}{3}$ per cent. in each of the five, and obtain a fixed minimum aggregate. Candidates so passing obtain **EITHER** *School Leaving Certificates*, if the subjects passed include (i) an official

* H. = Higher Grade ; O. = Ordinary Grade.

lang. (*i.e.* English or Afrikaans) * on the Higher Grade ; (ii) Maths. or a Sci. ; (iii) the other official lang., on the Higher or Ordinary Grade, or an approved Bantu lang. (*i.e.* 13, 14, 14A or 14B) or Latin or Greek or French or German or Hist. or Geog. or Portuguese or Hebrew or other lang. in which the Board decides to conduct an examn. ; (iv) and (v) any two subjects (not already taken) selected from Section A of the above list of approved subjects ; or *Matriculation Certificates*, if the subjects passed include four subjects in each of which the candidate has obtained the Matric. standard of 40 per cent., viz. (I) an official lang. (*i.e.* English or Afrikaans) on the Higher Grade ; (II) the other official lang., on the Higher or Ordinary Grade, or an approved Bantu lang. (*i.e.* 13, 14, 14A or 14B) or Latin or Greek or French or German ; (III) Maths. or a Sci. ; (IV) Maths. if not taken under (III) or another lang. from (II) or Hist. or Geog. or Portuguese or Hebrew or other lang. in which the Bd. decides to conduct an examn. Candidates who are awarded a Matric. Certif. must have *either* (i) included in their four subjects Maths. or an approved lang. other than English or Afrikaans or Nederlands, *or* (ii) taken Maths. or an approved lang. other than English or Afrikaans or Nederlands, as a fifth subject, and obtained not less than $33\frac{1}{3}$ per cent. of the total marks.

The four Provincial Depts. of Education in the Union (Cape, Natal, Orange Free State and the Transvaal) conduct examns. for a sr. certif. on syllabuses approved by the Bd. These examns. are recognized by the Bd. for exemption from its own Matric. Examn. subject to conditions prescribed by the Bd.

FACULTY AND DEPARTMENTAL REQUIREMENTS. Although the Bd.'s Matric. Certif. or Certif. of Exemption is the normal requirement for admission to a Univ., certain subjects are prescribed by the Univs. as prerequisites for enrolment in some Depts. or Facs. A student is advised to have a broad general educn. and to take for the Matric. Certif. at least two of the subjects, Maths., Latin, Greek, French, German, in addition to both official langs., *i.e.* Afrikaans and English. Maths. is essential for Agric., Archit., Forestry, Med. and Quantity Surveying, and highly desirable for courses in Accountancy, Engin., Land Surveying and Sci. A knowledge of Latin of matric. standard is necessary for Law. Further particulars of Fac. and Departmental requirements should be obtained direct from the Registrars of the individual Univs., *not* from the Joint Matriculation Board.

OVERSEAS EXAMINATIONS. The Bd. recognizes for purposes of exemption School Certifs. issued by a number of overseas bodies if the Certifs. entitle the holder to unconditional admission to an approved Univ. in the country of origin and the subjects passed and the standard attained are in accordance with the Bd.'s reguins. for its own Matric.

* The medium of instruction in the teaching Universities is predominantly either English or Afrikaans, viz. English at the Universities of Cape Town, Natal, Rhodes and the Witwatersrand, Johannesburg, and Afrikaans at the Universities of the Orange Free State, Potchefstroom, Pretoria and Stellenbosch. The University of South Africa conducts examinations in both media for external students and it has a division of External Studies.

Certif. As examples, a Credit in a subject for the Cambridge School Certif. and for the School Certif. of the Joint Matriculation Board of the Northern Univs. in England (cf. p. 1414) is accepted as equivalent to a "40% pass," and a pass in a subject for the Higher Certif. of the Oxford and Cambridge Schools Examn. Board is accepted. Exemption is given subject for subject and in the case of English both Lang. and Lit. must be included (English Lang. or Lit. alone is not recognized as fulfilling the requirement for exemption from English). The Board may issue either a Certif. of full exemption or a Certif. of conditional exemption which may be converted into a Certif. of full exemption if the holder fulfils specified conditions within a prescribed time.

Overseas qualificns. recognized by the Bd. include: the School Certifs. awarded by each of the eight Examining Bodies in England and Wales recognized by the Ministry of Education for England and Wales; the General Certifs. of Educn. awarded, in and after 1951, by the same eight Examining Bodies; the Higher School Certifs. of five of these Examining Bodies (*i.e.* Oxford and Cambridge Schools Examn. Bd.; Northern Jt. Matric. Bd.; London Univ.; Oxford Local Examns. Delegacy; Univ. of Cambridge Local Examns. Syndicate; Central Welsh Bd.); Intermediate Examn., First Class, of Indian Univs.; Matric. or other entrance certif. of other approved Univs.; Leaving Certif. of Education Depts. or Secondary Schools entitling holder to admission to an approved Univ.; Leaving Certifs. of Education Depts. of Scotland and Eire; Hoofdakte (Holland).

SPECIAL EXEMPTION. Non-matriculated candidates over the age of 25 who desire to proceed to a degree and are not eligible for exemption under the ordinary regulns. may, under certain conditions, be specially exempted from Matric. on the recommendation of the Univ. or other authority concerned. Such candidates cannot be admitted to a degree unless they have not only completed the curriculum for the degree but have also fulfilled any other conditions for exemption from the Matric. Examn.

A full and official statement of the Matriculation requirements of the South African Universities is contained in the annual Matriculation Examination Handbook published by the Joint Matriculation Board, P.O. Box 392, Pretoria, Transvaal, South Africa. Full details of each University's Faculty and Departmental prerequisites, which are additional to the Joint Matriculation Board's requirements, should be obtained direct from the Registrar of the University, not from the Joint Matriculation Board.

APPENDIX II

POSTGRADUATE AWARDS (FELLOWSHIPS, SCHOLARSHIPS, GRANTS, ETC.) FOR ADVANCED STUDY AND RESEARCH TENABLE IN THE UNITED KINGDOM

The scope of this Appendix is limited to awards tenable at Universities or institutions of equivalent status in the United Kingdom.

To facilitate prompt reference by prospective applicants, the principal classification on the score of eligibility into which each award falls has been indicated as follows :

- * open to graduates of United Kingdom Univs. ;
- † open to graduates of British Univs. overseas ;
- ‡ open to graduates of Univs. outside the British Commonwealth.

The field of eligibility is more precisely defined in the paragraph of information following each title. An award which is only open to the graduates of the Univ. announcing it, is not included in this Appendix.

Cross-references throughout the text relate to the bracketed numbers opposite each award or group of awards and not to page numerals.

Reference may also be made to the following publications : *Study Abroad*, an International Handbook of Fellowships, Scholarships, and Educational Exchange (UNESCO) ; *Inter-Commonwealth Postgraduate Scholarships in Science* (H.M.S.O. for British Commonwealth of Nations Scientific Liaison Offices, London, 1951) ; and *The B.M.A. Book of Medical Scholarships* (British Medical Association, London, 1951).

Prospective applicants should note that Ministry of Education State Scholarships (*see* [32]) are available in respect of *certain* postgraduate awards at Universities and University Colleges in England and Wales. Candidates must have begun a degree course not before Oct. 1946 and must normally be resident in England or Wales.

The list of awards in this Appendix is arranged in order of subject as follows :

1. General (the subject being optional or there being a large field of choice) [1]-[46].
2. Agriculture, Veterinary Science, etc. [47]-[54].
3. Applied Science and Technology [55]-[67].

Last day for applications, June 1. Further particulars from Academic Registrar.

2. AGRICULTURE, VETERINARY SCIENCE, ETC.

[47] * † AGRICULTURAL RESEARCH COUNCIL, Cunard Building, 15 Regent St., London, S.W.1. At present, up to twenty-five awards for postgraduate training in scientific subjects bearing on research into the problems of agriculture and animal health are offered to *British subjects*. The object of these awards is to enable students to obtain postgraduate training, either in some aspect of science not adequately covered in their degree curricula, or in the methods of research in subjects with which they have already been concerned. The training provided in this way, usually at Univ. Departments or Research Institutions in Great Britain, although primarily directed to research, is also suitable for those who wish to obtain certain specialized appointments in the Agricultural Advisory Services.

Three types of award are offered :

(i) *Training grants*, intended primarily to enable students who graduate with Honours in Science or have an equivalent qualification, and holders of a veterinary qualification, to undergo a course of training prescribed by the Council in some aspect of science bearing on the investigation of agricultural problems, *e.g.* a zoologist may require a training in genetics or a veterinarian in physiology. In these circumstances the course of studies will not, as a rule, be such as to make it possible for the holder of an award to qualify at the same time for a higher degree (Ph.D.). The awards are tenable for a period up to 3 yrs. and are renewable annually, either as training grants or studentships (*see under (iii)*). An opportunity of study abroad for part of the period will be given so far as circumstances allow.

(ii) *Veterinary training grants*, tenable for not more than 4 yrs. and intended to enable graduates with Honours in Science to obtain a veterinary professional qualification with a view to undertaking research into problems of animal health.

(iii) *Research Studentships*, tenable for a period of up to 3 yrs. and open to those who graduate with Honours in Science, or hold an equivalent qualification, and to holders of a veterinary qualification, to enable them to gain research experience through the study of some specific problem under suitable supervision. Considerable latitude in

the choice of subject will be allowed, but in selecting candidates the Council will have regard to the need for workers in particular basic sciences of importance to agricultural research. So far as the programme of study admits, the holders of these awards will be allowed to register for a higher degree. Study abroad will only be possible in suitable circumstances.

The maintenance allowance to be granted for the three types of award varies from £250 to £350 per annum, according to the place and circumstances in which the award is held. The awards are free of income tax. In addition to the maintenance allowance, fees compulsorily incurred and approved expenses and maintenance while abroad will be paid, together with a sum not exceeding £10 p.a. for essential text-books.

Applications must be submitted by a senior member of the candidate's Department, usually in the spring, but applications will be considered at other times, and, in respect of Research Studentships, should indicate either that the study to be pursued can be undertaken in the Department sponsoring the application or that the candidate has been accepted in a University Department or Research Institution. Provisional applications can be made on behalf of candidates who have not yet been informed of the result of, or who have not yet sat, their final examination.

Junior Agricultural Research Fellowships. A limited number of Fellowships are offered to provide opportunities for research workers of outstanding ability to continue their investigations and widen their experience in subjects relating to agriculture. Candidates, who should hold an Honours degree in Science and have completed not less than three years' postgraduate study and/or research, must be nominated by the Supervisor of their postgraduate work. If the Supervisor is not the Head of the Dept. in which they have worked, the Head of the Dept. must countersign the application.

The maintenance allowance granted for this type of award is £600 per annum, on the assumption that income tax will be payable. In the event of a Fellowship being exempted from income tax the amount of the emoluments would be reduced. Fees compulsorily incurred and travelling expenses for approved journeys will also be paid. Where the Fellow is insured under the Federated Superannuation System for Univs., the Council will, in appropriate cases, be prepared to contribute towards the maintenance of the policies.

Senior Fellowships. Awards can also be made to enable more senior workers to widen their experience, or to gain proficiency in new techniques where this is desirable in the interests of agricultural research. There is no formal scheme for these awards. Those interested should enquire of the Secretary of the Council.

Special research grants for specific investigations are made by the Council direct to Universities, Research Institutes, and other recognized bodies. In exceptional circumstances, assistance from this source to individual experimental research workers would be considered.

Further particulars of the grants, studentships, and fellowships awarded by the Council are contained in the pamphlet *Careers in Agricultural Research*, obtainable from the Secretary of the Council.

[48] ANIMAL HEALTH TRUST. (i) *Wellcome Fellowship* for research work in any branch of veterinary science. Tenable for 1 to 3 yrs. Annual value, £600, and occasionally more.

(ii) *Baxter Memorial Fellowship* for research work in connexion with the dairy cow. Value, £500 p.a.

(iii) *A. D. Allen Memorial Scholarship* for work in connexion with diseases of bovines. Value, £340 p.a.

(iv) *Trust Research Training Scholarship*. Value, £340 p.a. together with certain essential fees for extra postgraduate training or for research work in connexion with research degrees.

Occasionally the Trust helps students with special grants to enable them to go overseas or to help them with research in Gt. Britain.

Further particulars from the General Secretary, 232-235 Abbey House, Victoria Street, London, S.W.1.

[49] * † BRISTOL UNIV. *Boots Research Scholarships*. These Scholps. have been established by Messrs. Boots Pure Drug Company Ltd., to aid research at the Long Ashton Research Station. The Scholps. are open to graduates of Univs. in the British Commonwealth, and the scholars are required to engage in full-time research in the Univ. in any branch of Science pursued at the Research Station. There will be three successive scholps., each of the value of £300 per annum, tenable for 2 yrs. ; next award 1953.

[50] * † ‡ EMPIRE COTTON GROWING CORPORATION, 12 Chantrey House, Eccleston Street, London, S.W.1. *Postgraduate Studentships*. Open to male graduates who have completed National Service, for specialized training in such subjects as plant breeding, physiology, pathology and genetics, entomology and soil science. Normally tenable for one year at some selected Univ. or Scientific Institution in the U.K. or alternatively at a Research Station in Africa. The value of a studentship in the United Kingdom is not less than £25 per month plus approved fees, and extra allowances to married students. Tenure of a studentship is the normal preliminary to appointment to the Corporation's staff abroad.

[51] * † LONDON UNIV. : WYE COLL. *May and Baker Research Fellowship*, £400 p.a., renewable for a maximum period of 3 yrs., tenable in the Department of Physical Sciences. Open to graduates of Univs. in Gt. Britain, Ireland or of British Univs. overseas. The holder must be prepared to carry out research in a field of Agricultural Chemistry approved by the Head of the Department.

[52] * † ‡ MANCHESTER UNIV. *Philip Buckle Research Scholarship* in Agric. Zool. Offered at such times as funds permit, normally £300, renewable for 2nd yr. Normally tenable at the above. Open to graduates of British Univs. or other candidates possessing required qualifications, with preference to Science graduates of the Univ. Due notice will be given of the next offer.

Further particulars from the Registrar.

3. APPLIED SCIENCE AND TECHNOLOGY

[55] * † BELFAST, THE QUEEN'S UNIV. *Food Industries Research Studentship*, value £350, tenable for 1 yr. at Belfast (renewable for a 2nd yr.), open to graduates (with some previous experience in research) for fundamental research in some field which may be relevant to the food industries of Northern Ireland. Applications should be submitted with the scheme of work proposed, together with a statement of qualifications and the names of two referees, to the Secretary of the Univ. before June 21.

[56] * † ‡ BIRMINGHAM UNIV. (i) *Anglo-American Studentship* in Chemical Engineering. Open to candidates with Univ. degree, with Chemistry or Engineering as principal subject, and some industrial experience in Chemical Engineering. Normally tenable for 1 yr. £350 and remission of tuition fees. Renewable for a further yr. at £400.

(ii) *Research Studentship* in Oil Engineering and Refining, £240 p.a., and remission of tuition fees, tenable at Birmingham, renewable annually for not more than 3 further yrs. with increase of £20 p.a. to maximum £300. Candidates must possess a Univ. degree or equivalent in Science. Preference to those with industrial lab. experience. Offered every alternate yr. Next award will probably be made in 1954.

(iii) *Research Scholarships* in Chemical Engineering and Petroleum Production. Two or more annually; £220-£260 and remission of tuition and examination fees. Renewable. Open to graduates (or equivalent) in Science, preference to those with industrial experience.

Further particulars from the Registrar.

[57] * † BRITISH IRON AND STEEL RESEARCH ASSOCIATION. *Bursaries* of £250-£325 p.a., plus essential fees, for the advancement of scientific knowledge directly related to the production or processing of iron and steel may be awarded to students desirous of studying for a higher degree in Metallurgy, Physics, Chemistry or Engineering. Open to graduates who are holders of a Science degree or an equivalent qualification in a United Kingdom or Commonwealth Univ. Tenable

at any Univ. or Coll. but preferably not where the bursar took his first degree. The subject of research must be approved by the Director of the Association. The period of tenure will, in general, be determined by the nature of the research.

Applications, stating the nature of the proposed research, should be made through the Professor of the Univ. or Coll. at which the bursary will be tenable.

Further particulars obtainable from the Personnel Officer, British Iron and Steel Research Association, 11 Park Lane, London, W.1.

[58] * † ‡ BRITISH RAYON RESEARCH ASSOCIATION, 58 Whitworth Street, Manchester 1. *Technological Scholarships*, value £300 p.a., plus Univ. fees, for 2 yrs. Candidates must have good degrees, not necessarily, in Science. Study to be undertaken in Textile Chem., Textile Technol., Textile Engin. or Dyeing. Tenable at Leeds or Manchester Univ., or at other Univs. or technical colls. with appropriate facilities, or, in special circumstances, overseas. Application to the Secretary at the above address.

[59] * † ‡ DURHAM UNIV.: KING'S COLL., Newcastle upon Tyne. *Coke Research Fellowship*, £350 for 1 yr., tenable at King's College. Open to graduates of any Univ. qualified for the prosecution of postgraduate research on a subject connected with the Coking Industry. Preference given to candidates who have signified their intention of entering the Coking Industry or, in the absence of such a candidate, to a person qualified for some other branch of the Fuel Industry. Applications to Registrar not later than May 1 in each year.

[60] * † ‡ LEEDS UNIV. (i) *Fellowships* (£200) and *Scholarships* (£190 to £220 with fees) instituted by the Clothworkers' Company for research in Textiles and Colour Chemistry, open to graduates of any Univ. Tenable for 1 yr. and renewable. Applications received up to June 1.

* † ‡ (ii) *Gas Research Fellowship*, £325 p.a., open to qualified candidate, with preference to one intending to enter the coal-gas industry. Tenable for 1 yr. and renewable. Award made in June, after advertisement.

* † ‡ (iii) *James Edmondson Ackroyd Fellowship*, value not less than £150 p.a., for research work for the furtherance of the Textile Industry of the West Riding of Yorkshire. With exceptions where specially recommended, candidates must hold a first-class honours degree of a Univ. within the British Commonwealth. Awards will not ordinarily be made to candidates under 21 or over 27 yrs. of age. The period of the studentships is from 3 to 6 yrs., of which at least a third should be spent in the country to which the studies relate. There is normally a probationary period of about a yr. in which the student receives maintenance allowance. The maximum annual rate of this allowance for unmarried students is £300 for Oxford, Cambridge, and London Univs. and £260 elsewhere. The rates are increased for married students. On the successful completion of the probationary period the student is granted senior studentship allowance at annual rates varying from £440 to £500. Allowances are also given to meet the additional cost of residence in foreign countries, and free passages are provided. Necessary Univ. and College fees are met throughout the period of the studentship.

II. FISHERIES

[147] * † ‡ DEVELOPMENT COMMISSIONERS, 6A Dean's Yard, Westminster, London, S.W.1. *Postgraduate Training Grants* in Fishery Research are offered in association with the Ministry of Agriculture and Fisheries and the Scottish Home Department.

These Grants are intended to enable selected candidates to undergo a specified course of training to fit them for the investigation of problems in marine or freshwater science. The course of training will not, as a rule, be such as to make it possible for the holder of an award to qualify at the same time for a higher degree (Ph.D.). The awards do not carry with them any guarantee of subsequent employment in connexion with fishery research, nor do they entail any obligation to accept such employment; but the training which students will receive should fit them for employment either in the Fishery Research Services of the Ministry of Agriculture and Fisheries and the Scottish Home Department or in a Marine or Freshwater Biological Research Institute.

Applications, to be submitted by a senior member of the candidate's Department in the Univ., should be received by the Development Commission, usually in the spring. Provisional applications may be made on behalf of candidates who have not yet sat their final examination or who have not yet been informed of the result thereof.

The number of Training Grants awarded in 1951 did not exceed five. Both men and women are eligible to apply, although women are unsuitable for employment in the marine research services of the Ministry of Agriculture and Fisheries and the Scottish Home Department, which involve sea-going duties. Opportunities for the employment of women may arise, however, in certain of the Marine or Freshwater Biological Institutes.

Candidates must be *British* subjects and graduates with Honours in Science of a Univ. or possess equivalent qualifications.

The value of the Training Grant will depend on the centre at which training is undertaken, but will not be less than £250 nor exceed £350 per annum, free of Income Tax; for students with 2 yrs.' post-graduate experience, the value of the award will be increased. An additional allowance will be made in respect of Univ. fees, etc., com-

pulsorily incurred, and an allowance not exceeding £10 in all for the purchase of approved text-books will also be granted. The Training Grants will be tenable for from 1 to 3 yrs. and will be renewable annually. In some circumstances there may be special allowances for male students who are married.

Forms of application and copies of the Regulations governing the awards may be obtained from the Secretary, Development Commission.

The Commissioners are also prepared to consider applications for additional grants for temporary assistants and for apparatus, etc., to enable members of the staff of a Marine Institution to prosecute special lines of enquiry.

[148] * LIVERPOOL UNIV. *Herdman Scholarship* in Marine Zoology, value £200 for 1 yr., renewable for 2nd yr. Open to grads. in Sci. of Liverpool or any other U.K. Univ. qualified to carry on research at the Univ. and at the Port Erin or other Biological Station. Applications to the Dean of the Fac. of Science.

[230] OXFORD UNIV. * † ‡ (i) *Imperial Chemical Industries Fellowships* in Physical Chemistry, Biochemistry, Colloid Science, Chemotherapy, Pharmacology, Engineering or Metallurgy, or any other subject which, in the opinion of the Cttee., is related to the study of Chemistry or Physics. Stipend £600-£900 p.a., the length and conditions of tenure being determined by the Cttee. Further particulars from the Registrar, University Registry, Oxford.

* † ‡ (ii) *Pressed Steel Co. Ltd. Research Fellowships*, normally for 3 yrs. in the first instance, stipend between £600 and £1400 p.a. and children's allowances and superannuation. Further particulars from the Registrar, University Registry, Oxford.

[231] ROYAL COMMISSION FOR THE EXHIBITION OF 1851 offers: * † (i) *Science Research Scholarships for Overseas Universities* (10), to enable selected students who have already completed a full Univ. course and given sufficient evidence of capacity for scientific investigation to devote themselves for 2 yrs. to research work under conditions most likely to equip them for practical service in the scientific life of the Commonwealth. Value £450 p.a., with supplements in certain cases.

Tenable ordinarily for 2 yrs., and in exceptional cases for 3 yrs., at any institution approved by the Commrs., but not, except in very special circumstances, in the country in which the scholar has received his scientific education; open to British subjects aged (except in very special circumstances) under 26 yrs. At present 10 (Canada 3, Australia 2, S. Africa, N.Z., Eire, and India and Pakistan, 1 each) are offered annually; recommendations for Scholarships offered for 1953 receivable by March 21 from the following Univs.: Alta., B.C., Dal., Laval, McG., McM., Manit., Queen's (Ont.), Sask., Tor., W. Ont. and any of the Univs. of Australia, N.Z., S. Africa, India and Pakistan possessing postgraduate departments of science. A Scholar is not permitted to hold any position of emolument likely to conflict with the devotion of his whole time to the objects of the Scholarship, nor to accept any additional emoluments without the previous consent of the Commrs. Women are eligible on equal terms.

* (ii) *Senior Studentships* (4), each of £600 p.a., with supplements in certain cases, for 2 yrs. or, in special cases, for 3 yrs.; open to British subjects not (except in very special circumstances) more than 30 yrs. of age, on recommendation, receivable up to May 1, by Profs. and Heads of Depts. through the executive authorities of such Univ. and other institutions as may be invited by the Commrs. to nominate; tenable at any instn. at home or abroad approved by the Commrs. The student is not permitted to undertake any work likely to conflict with the devotion of his whole time to the objects of the studentship, but a limited amount of time may, with the approval of the Commrs., be spent in delivering an advanced course of lectures. He is not debarred from holding another position of emolument, but in such cases the Commrs. may modify the value of the studentship. Women are eligible on equal terms.

Address of the Sec. to the Commrs., 1 Lowther Gardens, Exhibition Rd., London, S.W.7.

[232] * † ‡ ROYAL INSTITUTION. *Dewar Research Fellowship* for the furtherance of research in a subject related to the chemical or physical sciences, at the discretion of the Managers of the Institution, tenable at the Davy-Faraday Research Laboratory of the Institution, London, for 3 yrs., renewable for a further 2 yrs.

Further particulars from the Secretary, 21 Albemarle Street, London, W.1.

[233] ROYAL SOCIETY, Burlington House, Piccadilly, London, W.1.

Tenable for 2 yrs. and renewable from year to year, with a maximum total tenure of 5 yrs. from the first award.

(ii) *Yarrow Research Professorships* for research (whole-time) in Math., Physical, Chemical or Engineering Sciences. Value £1000-£1600 p.a., tenable at a Univ. or other place to be approved by the President and Council of the Royal Society for a period of 5 yrs., the appointments being renewable for further successive periods of 5 yrs.

* † ‡ (iii) *Mackinnon Research Studentship* for "furthering Natural and Physical Science, including Geology and Astronomy, and . . . original research and investigation in Pathology," £500 p.a., tenable at any place approved by the Council of the R.S., in the first instance for 2 yrs., but renewable in exceptional cases from year to year. Open to graduates of any Univ.

* † (iv) *Smithson Research Fellowship* in Natural Science. The Royal Society hold the capital of the Fund in trust. The income is administered by a Joint Committee of the Society and the Univ. of Cambridge. The Fellowship, £900 p.a. with superannuation provision, is open normally to British subjects of either sex, including subjects of the Dominions and Colonies; but the Committee may, in special circumstances, invite a foreigner of scientific distinction to apply. Preference to candidates not over 35 yrs. of age. The holder will work in the Univ. of Camb. if appropriate laboratory accommodation is available. Appointment for 4 yrs. in first instance, may be renewed annually up to maximum period of 8 yrs.

* † ‡ (v) *Sorby Research Fellowship* for original scientific research, £1100 p.a., tenable ordinarily in the Univ. of Sheffield for 5 yrs., renewable for further periods. No permanent duties outside the research work may be undertaken. Appointments are made by a Committee composed of 4 persons appointed by the Council of the R.S. and 3 appointed by the authorities of the Univ. of Sheffield.

* † ‡ (vi) *Locke Research Fellowship* for research in the general field of experimental physiology and pharmacology; £1250 p.a., tenable at any place approved by the Council of the Royal Society, in the first instance for 2 yrs., but may be renewed annually for such periods as Council may determine. Open to graduates of any Univ.

* † ‡ (vii) *Stoithert Research Fellowship* in the field of medicine, including the sciences on which medical knowledge is based; £600 p.a., tenable in any Hospital, Medical School or other appropriate Research Institution or Univ. Dept. in the British Isles, or at any other place approved by the Council of the Royal Society, in the first instance for 2 yrs., but may be renewed annually up to a total of 4 yrs. Open to graduates of any Univ.

For all the above appointments applications are invited by public advertisement.

* † ‡ (viii) *E. Alan Johnston, Lawrence and Mosely Research Fellowship* (income not less than £500 p.a.) for increasing the knowledge of the causes of disease and conditions of healthy life, tenable in the first instance for 2 yrs., renewable, at any place approved by the Council of the R.S. Open to graduates of any Univ.

(ix) *Warren Fellowships* in Metallurgy, Engineering, Chemistry and Physics, value not less than £500 p.a., tenable at any place approved by the Council of the R.S. Open to British subjects.

The foregoing awards, unless otherwise stated, are open to qualified persons, irrespective of nationality, but in practice are generally awarded to British nationals.

(x) *Scientific Relief Fund* (income about £1600 p.a.) to aid scientific men or their families requiring assistance.

(xi) *Other Funds*: Browne, for assisting marine expeditions and marine biological research; Forsyth for medical research; Medical Research, with particular reference to tropical diseases in British possessions; Messel, for scientific research; Dewrance, for experimental research; General Research and Gunning, both for research in physical science and biology; Pedler, chemistry; Tyndall Mining Research, mining, ventilation, temperature and disease incidental to miners.

(xii) *Government Grant for Scientific Investigations*, advertised thrice annually in time for applications to be received by March 31, July 31 and Nov. 20. Only British subjects are eligible.

(xiii) *Medals*. Copley, for philosophical research (with money grant); Rumford (with money grant, biennial), for useful discovery in light or heat, in any part of Europe; Royal (2), for advancement of natural knowledge; Davy (with money grant), for discovery in chemistry in Europe or Anglo-America; Darwin (with grant of £100, biennial), for work in Darwinian field; Buchanan (with money grant, quinquennial), for service to hygienic science or practice; Sylvester (with money grant, triennial), for mathematical research; Hughes (with money grant), for discovery in physical sciences, particularly electricity and magnetism. With the exception of the Royal Medals, all are open to foreigners as well as to British subjects.

* † (xiv) *Rutherford Scholarship*. Open to graduates (under 26 on Oct. 1, 1953) of a Univ. in the British Commonwealth. For research in any branch of the Natural Sciences, but some preference for work in Experimental Physics. Tenable for 3 yrs. in some part of the British Commonwealth other than that in which the applicant graduated. Value varies according to circumstances of appointment but, if held in the U.K., will be not less than £450 p.a. Additional allowances may be granted for travel, Univ. fees, etc. The appointment will date from Oct. 1, 1953. Applications from Univ. graduates outside the U.K. should be made *through their Univs.* to the Royal Commission for the Exhibition of 1851. APPENDIX V

COMMONWEALTH STUDIES IN UNITED
KINGDOM UNIVERSITIES

A summary of the regulations governing the admission of students from the Commonwealth overseas to the United Kingdom Universities will be found in Appendix I above.

Appendix II lists many Fellowships and Scholarships which are tenable at United Kingdom Universities and University Colleges and for which graduates from the Commonwealth overseas are eligible to compete. University teachers on study leave, and postgraduate research workers, wishing to travel to the United Kingdom from another part of the Commonwealth, should note especially the Commonwealth University Interchange arrangements summarized on p. 1482. The awards listed in Appendix II are "open," *i.e.* not restricted to graduates of any one University. There are also other, restricted, awards, *e.g.* the Beaverbrook Scholarships tenable only at London University by graduates from the University of New Brunswick, Mount Allison University, and University of Bishop's College, Lennoxville; the "Toronto" Fund, administered by Manchester University, from which grants are made to Canadian students, with a preference for those from the University of Toronto, who wish to conduct postgraduate study or research at Manchester; and the "1940 Toronto Fund" (set up in 1947 with funds derived from contributions from Oxford parents of children who received hospitality in Canada during the war), from which grants are made to undergraduates or graduates of the University of Toronto who wish to attend a United Kingdom University.

There are ample facilities at United Kingdom Universities and Colleges for the study of the Commonwealth and Colonial aspects of a great many subjects, including Agriculture, Anthropology, Archæology, Botany, Economics, Geography, History, Law, Medicine (especially Tropical Medicine), Politics and Zoology. For details, *see* individual University entries above and the official publications of the various Universities. Attention is drawn to the following appointments and institutes:

BRISTOL. Professor of Imperial History; Lecturer in Colonial History and Administration.

CAMBRIDGE. A Smuts Memorial Fund, raised by public subscription to commemorate General Smuts' part in the development of the conception of the Commonwealth, has been presented to the University for the endowment of Commonwealth Studies at Cambridge. It is

proposed that the establishment of a Smuts Professorship of the History of the British Commonwealth shall be a first charge on the fund, and that a Board of Managers shall make recommendations from time to time for the advancement of Commonwealth Studies in the widest sense of the term by the use of the remainder of the income of the fund.

LONDON. The University of London has recently established an Institute of Commonwealth Studies, with the object of promoting the study of Commonwealth problems; further information from the Librarian/Secretary, 27 Russell Square, London, W.C.1. The University maintains the following Chairs and Readerships in Commonwealth subjects: *Chairs*—Commonwealth Affairs; Imperial History; Education, with special reference to Education in Colonial Areas. *Readerships*—Colonial Administration; Imperial History; Law, with special reference to administration of Law in Colonial Territories.

OXFORD. An Institute for Colonial Studies was established in 1945; further information from the Director, 10 and 11 Keble Road, Oxford. University appointments include the following: Beit Professor of the History of the British Empire; Professor of Colonial Economic Affairs; Reader in Colonial Administration; Reader in Indian History; Beit Lecturer in the History of the British Empire; University Lecturers in African Sociology, Colonial Administration, Colonial Economic History, Indian Sociology.

In 1953 a special Conference on Commonwealth Studies is being convened at Oxford, from June 29 to July 10, under British Council administration. Director of Studies—Sir Keith Hancock, Director of the Institute of Commonwealth Studies of the University of London.

GENERAL INFORMATION

Trinity College was founded and incorporated by Royal Charter in 1592 as "Mater Universitatis," but no other College has been founded, so that "Dublin Univ." and "Trinity College" are practically interchangeable terms. The Corporation of the College was put on its present basis by Letters Patent in 1637. Letters Patent of 1911 transferred the powers of making statutes from the Crown to the Corporation, subject to the consent of a majority of the Fellows and the approval of the Visitors. The general government of the Univ. is in the hands of the Board of Trinity College, which consists of the Provost, Senior Fellows, 2 representatives of Junior Fellows and 2 representatives of the non-Fellow Profs. The Univ. Council, formed by representatives from the Board and various Faculties and Schools, has the right of nomination to most Professorships, and in conjunction with the Board can make changes in the curriculum, but otherwise has only advisory functions.

The College occupies a large site in the middle of the city, with ample grounds for the athletic clubs.

The LIBRARY of Trinity College has enjoyed since 1801 the privilege of receiving a copy of every book published in the United Kingdom. It contains

about 532,000 printed books, amongst which there is, in the Fagel Library, a group of early pamphlets relating to the Dutch and English East and West India Companies. The MSS. are over 2000 in number, and include an important collection in Irish. A General Catalogue of the MSS. was published in 1900, and a Revised Catalogue of the Irish MSS. in 1921. A Catalogue of Printed Books in the library in 1872 was published in 1887 and widely distributed. There are smaller libraries in the Schools of Mod. Langs., Hist., Econ., Med., Maths., Nat. Scis., Geog., Philol. and Educn.

MUSEUMS. The scientific museums include Zool. and Comp. Anat., Geol. and Mineral., Anat., Path. The Zoological collection is one of the best in the country. The series of vertebrate osteology is extensive. Attached Laboratories offer all facilities for research work. The collection of Geological and Mineralogical specimens is also extensive.

LABORATORIES. Anat., Biochem., Bot., Chem., Geol., Geog., Histology, Engin., Pathol., Physical (Iveagh), Physiol., Zool.

HERBARIUM (rich in plants of N. America, India, S. Africa and Australia). **BOTANIC GARDENS**, 8 acres.

Ample facilities for clinical studies and many appointments for graduates are available in numerous HOSPITALS, including the well-known Rotunda. The Irish High Court is situated within a short distance of the College.

PROFESSIONAL SCHOOLS. Divinity, Law, Physics, Engin., Social Sci., Agric., Forestry, Music, Educn., Comm., Vet. Registrars: *Law*—F. E. Dowrick, B.A.; *Physics*—Winifred Kinnear, M.A.; *Engin.*—J. Purser, M.A.; *Music*—G. H. P. Hewson, Mus.D.; *Educn.*—E. A. Crawford, M.A., Ph.D.; *Agric.*—J. Purser, M.A.; *Comm.*—F. B. Chubb, M.A., D.Phil.; *Social Sci.*—Eileen Duncan, M.Sc.

ADMISSION. *Arts* (including Science). The Matricn. Examn., held 6 times a yr., comprises English Composition, Maths., Latin, a second lang. and a subject chosen from Physics, Chem., Biol., Hist. and Geog. Exempting Examinations—*Gt. Britain and Ireland*: Candidates who have passed the Examn. for Leaving Certifs. held by the Dept. of Educn. in the Irish Free State, or the Examn. for Sr. Certifs. held by the Ministry of Educn. in N. Ireland, or any other examns. regarded by the Sr. Lectr. as equivalent thereto, are qualified for entrance to Trinity Coll. on passing, if required to do so by the Sr. Lectr., a further examn. in those subjects, if any, of the Trinity Coll. Entrance Examn. which are not included in those which they have already passed. *Africa*: Certifs. in Dutch or Afrikaans may be presented by S. African students, and in various African langs. by other African students, in part fulfilment of entrance requirements.

ADMISSION TO ADVANCED STANDING. Special regulns. provide for the grant of credit for previous academic attainments at the Univs. of Oxford and Cambridge, while students or graduates of the following Univs., Aberdeen, Belfast, Birmingham, Bristol, Durham, Edinburgh, Glasgow, Leeds, Liverpool, London, Manchester, St. Andrews, Sheffield, Wales, and the National Univ. of Ireland, may be allowed credit *pro tanto* for the first 2 yrs. and the examn. held at their expiration; but every such student must keep at least 2 yrs. at Trinity Coll.: and further, no medical degree can be taken without at least 3 yrs.' attendance. *Dominions, U.S.A., etc.*: Certain privileges in Arts are granted to approved students of the following Univs. and Colls.: Adel., Agra, Alld., Annamalai, Bom., Calc., Dacca, Dalhousie, King's Coll. (Halifax, N.S.), Laval, Lucknow, McGill, Madras, Melbourne, Nagpur, New Brun., N. Zeal.,

Panj., Patna, Queen's (Kingston, Ont.), Queensland, Rangoon, Saskatchewan, Syd., Tas., Tor., Western Ontario, the Univs. in South Africa, and Univs. and Colls. in the U.S.A. approved by the Assn. of American Univs.

DEGREES. Every student must take the B.A. before proceeding to any other degree, except those in music and M.Sc., B.Litt., Ph.D. The course lasts 4 yrs., but it is only necessary to keep 2 out of the 3 terms in each, or 8 in all. It is also possible to complete the course within 3 yrs. from entrance by taking the final examn. of the 1st yr. at the time of entering and keeping all 3 terms of the 2nd yr. However, all students not in a professional school are required to attend Arts lectures in every term, unless specially exempted (*e.g.* those earning their living by teaching). If exempted they are permitted to keep all of their 8 terms by examn. instead of by attendance. Exemption from attendance is never granted to students taking scientific subjects for the B.A.(Sc.).

During the first 2 yrs. (Junr. and Senr. Freshman) of the Pass B.A. course English, Latin, Logic and Mathematics are compulsory subjects, with a choice of other subjects. After the examn. ("Little-Go") at the end of the 2nd yr. wide freedom of choice is allowed of subjects for the remaining (Junr. and Senr. Sophister) years, and exemptions are granted to Law, Engin., Comm. and Div. students. For Med. students there is a specially reduced Arts course throughout.

Every student must choose one of the Tutor Fellows (*see* list above) as his Tutor and should apply to him for all information before and after entrance.

The *Honours* B.A.—known as *Moderatorship*—can be taken in 13 different groups (*viz.* 1 Math., 2 Class., 3 Ment. and Mor. Sci., 4 Exp. Sci., 5 Nat. Sci., 6 Hist. and Pol. Sci., 7 Mod. Lit., 8 Leg. Sci., 9 Eng. Sci., 10 Celtic, 11 Oriental Lang., 12 Econ. and Pol. Sci., 13 Anc. and Mod. Lit.) and undergraduate honours in the same subjects (except Nos. 9 and 11) can be obtained in each academic year and in most subjects in each term. The course lasts 4 yrs. in the case of Nos. 1, 2, 3, 4, 5, 6, 7, 8, 10, 11, 12, 13—3 yrs. in No. 9. Instruction in these Honour courses is given partly by the Profs. and partly by the Tutorial staff.

A B.A. of 3 yrs.' standing may be admitted M.A. There is no examn. for this, nor is a thesis required.

The B.Litt. is obtained by a thesis, and candidates must have at least 1 yr.'s standing as B.A. They must also, except by special permission of the Board, be graduates with 1st or 2nd Class Honours of Dublin or of an approved University.

The Pass B.A.(Sc.) is obtained by a 4-yr. course covering approx. the same ground as the first three yrs. of the honour course in Natural Science. In the last two years the student studies 3 subjects chosen from Physics, Chem., Bot., Zool., Geol., Geog.

The B.D. is obtained by an examn. open to all grads. in Arts, the D.D. is open to any B.D., 8 yrs. after taking B.A., and is awarded on a thesis or published Theol. work.

The LL.B. course covers 2 yrs.; the M.B., B.Ch. and B.A.O., 6 yrs.; B.Dent.Sc., 6 yrs.; B.A.I., 3 yrs. (optional 4th yr. in Elec. and Mech. Engin.); Agr.B. or Agr. (Forestry) B., 4 yrs., of which 3rd and 4th are taken in Univ. Coll. (N.U.I.); B.Comm., 3 yrs. The M.Sc. and Ph.D. involve postgraduate study and research for 1 yr. and 2 yrs. respectively. Candidates for M.Sc. must be science graduates with 1st or 2nd class honours. Candidates for Ph.D. must, except by special permission of the Board, be graduates with 1st class honours.

A candidate for the Sc.D. or Litt.D. must have at least 3 yrs.' standing as B.A., or have obtained M.Sc., B.Litt. or Ph.D., and submit important original

work ; for LL.D. must be of M.A. standing—a thesis or a published work is required ; for M.D. must have taken the M.B. degree, be of M.A. standing ; for M.Ch. must be a B.Ch. of 3 yrs.' standing ; for M.A.O., a B.A.O. of 2 yrs.' standing ; a thesis or examn. is required for M.D., an examn. for the M.Ch. or M.A.O. A candidate for M.Dent.Sc. must be a B.Dent.Sc. of 3 yrs.' standing, and pass an examn. ; for M.A.I. must have practised his profession for 3 yrs. after graduating as B.A.I.

The Mus.B. is granted after an exercise or practical test and 2 examns., the Mus.D. after an exercise and examn.

GENERAL INFORMATION

Queen's University in Ireland, founded in 1850, was replaced in 1880 by the Royal University of Ireland, which, with Queen's College, Belfast, was dissolved on Oct. 31, 1909. On this date the National University of Ireland, University College, Dublin, the Queen's University of Belfast, came into being, and the Colleges previously known as Queen's at Cork and Galway became, with the new College at Dublin, constituents of the National Univ. of Ireland.

FACULTIES. Arts, Philos. and Sociol., Celtic Studies, Sci., Law, Med., Engin. and Archit., Comm., General Agric. (U.C., Dublin, only), Dairy Sci. (U.C., Cork, only), Vet. Med. (U.C., Dublin, only). Music is included in Arts and Celtic Studies. Classes are held in all Facs., except the three last, at each of the constituent Colls., and in Arts, Philos. and Sociol., Celtic Studies and Sci. at Maynooth.

ADMISSION. The normal method of entry is by the Matricn. Examn. of the Univ.

GENERAL INFORMATION

The College had its origin in the Catholic University of Ireland, founded in 1852. The foundation of the Royal University in 1879 led to a change of title, by which what had originally been St. Patrick's House in the Catholic University became the seat of University College, Dublin. From 1883 until the passing of the Universities Act, 1908, the College was administered by the Jesuit Fathers. Under that Act and by Royal Charter it was re-established as a Constituent College of the National University of Ireland.

By the University Education (Agriculture and Dairy Science) Act, 1926, the Royal College of Science and the Albert Agricultural College were transferred to Univ. Coll., Dublin, which was empowered to continue the functions formerly fulfilled by these institutions.

APPENDIX VII

ANGLO-AMERICAN ACADEMIC RELATIONS

A summary of the regulations governing the admission of American students to United Kingdom Universities will be found in Appendix I above.

Appendix II lists many fellowships and scholarships which are tenable at United Kingdom Universities and University Colleges and for which American graduates are eligible to compete. Appendix III, although it does not claim to be exhaustive, contains information about some of the more important postgraduate awards, *e.g.* the Commonwealth Fund, English-Speaking Union, Henry, Procter and Smith-Mundt awards, tenable in the United States of America by British graduates. For Fulbright and Marshall awards, *see* below. The awards noted in Appendices II and III are "open," *i.e.* not restricted to graduates of any one University. Some United Kingdom Universities have also arranged direct exchanges of their staff, graduates or senior students with American institutions, *e.g.* St. Mary's Hospital Medical School (University of London) has a regular exchange scheme at graduate level with the Peter Brent Brigham Hospital, Boston (associated with Harvard University); and the University of Glasgow exchanges a scholar annually with Cornell University.

There are facilities at many United Kingdom Universities and Colleges for the study of American aspects of such subjects as History, Literature, and Economics. For details, *see* individual University entries above, and the official publications of the various Universities. Attention is drawn to the following:

CAMBRIDGE. *Pitt Professorship of American History and Institutions.* The Professor is elected annually, with tenure for one year. Salary, £1950 p.a. 1952-53: A. O. Craven (Chicago); 1953-54: C. D. Edwards, Director of the Bureau of Industrial Economics, Federal Trade Commission, Washington.

LONDON. *Commonwealth Fund Professorship of American History*, tenable at University College. The Commonwealth Fund of New York appropriated \$214,500 in 1929 to endow a Department of American History at University College, University of London, including a professorship and assistants. Present holder: Professor H. Hale Bellot, M.A. Oxon. A sum of £4991 was raised in London and New York, the income of which is available for the library of American History at the College and the library on the same subject at the Institute of Historical Research, University of London, Senate House, London, W.C.1.

MANCHESTER. *Department of American Studies.* *See* p. 355.

OXFORD. *George Eastman Visiting Professorship.* At the time of his election, the Professor must be an American citizen "eminent in teaching or research in any branch of University study." Period of appointment is normally from 1 to 5 years. Appointments are made to the Professorship with a view to the representation of different subjects of study by successive appointees. 1952-53: G. W. Corner, M.A., D.Sc. Ball. (Carnegie Institution, Washington).

Harold Vyvyan Harmsworth Professorship of American History. At the time of his election the Professor, whose term of office is 1 to 5 years, must be an American citizen. 1952-53: H. S. Commager, M.A. Queen's (Columbia Univ.). 1953-54: R. A. Billington, Ph.B. Wis., M.A. Mich., Ph.D. Harv.

GEORGE WATSON LECTURESHIP. Founded by the late Sir W. G. Watson in 1920. Each year's course usually comprises about six lectures by an eminent authority, American or British. The courses are given in rotation in the various British Universities and at other institutions. Lecturer, 1952: Walter Lippmann. Subject: "Public Opinion and Foreign Policy in the United States." The Foundation is administered by the Sulgrave Manor Board and all communications should be addressed to the Secretary (G. M. Veit, M.A.), 37 Charles St., Berkeley Sq., London, W.1. *Telephone*: Mayfair 7400, ext. 20.

UNITED STATES EDUCATIONAL COMMISSION IN THE UNITED KINGDOM. Under the provisions of the Fulbright Act of the United States Congress, part of the currencies and credits of other countries (including several in the Commonwealth) acquired by the United States through the sale of surplus property abroad can be used for educational exchanges. Scholarships for research and study in Britain or the Colonies are available to American graduate students, and awards are also made to visiting American professors and lecturers and advanced research students, while sterling grants covering transatlantic fares and United States rail costs are made to British professors, lecturers, research workers and graduate students going to American Universities, the funds available to the Commission allowing for an expenditure up to £357,000 p.a. The Fulbright programme in the United Kingdom is administered by the United States Educational Commission in the United Kingdom, which was established by an agreement between the United Kingdom and the United States Governments in Sept. 1948 as a joint Commission of seven British and seven American members.

Executive Secretary, United States Educational Commission in the United Kingdom—Richard P. Taylor, M.A. *Postal Address*: 55 Upper Brook St., London, W.1. *Cables*: Usedcom. *Telephone*: Mayfair 2191-3.

MARSHALL SCHOLARSHIPS. It was announced in July 1952 that the U.K. Government have decided to give effect to the proposal of the previous govt. to express the gratitude of the United Kingdom for the assistance of the Marshall programme by founding twelve scholarships for United States students. These will be competed for annually, will be open to men and women and tenable at any British University.

BRITISH INFORMATION SERVICES (established 1942 with the fusion of the British Library of Information and the British Press Service), 30 Rockefeller Plaza, New York 20, N.Y. (*Telephone* : Circle 6-5100) (Reference Division, Press and Radio Division, Films and Publications Division). B.I.S. is a part of the Foreign Office Information Services and its services are confined to the United States and its possessions. It has a library of official documents, British newspapers and periodicals, and books dealing with every aspect of British affairs ; these are available for inter-library loan as well as for study in the B.I.S. reading-room. It answers enquiries on British affairs, and publishes information papers, pamphlets and periodicals. Special sections deal with information on Commonwealth and Economic affairs. The Films and Publications Division has a collection of British Government Films for hire or sale. The Press and Radio Division does not compete with commercial news-agencies, but supplies background material not available elsewhere. Speakers are provided for clubs, schools, Universities and other organizations. B.I.S. is the agency in the United States for Her Majesty's Stationery Office. It has branch offices in Washington (3100 Massachusetts Avenue), Chicago (39 South La Salle Street), San Francisco (310 Sansome Street), and Los Angeles (448 South Hill Street). *Controller*—G. D'Arcy Edmondson, O.B.E.

PUBLICATIONS. Students in the United Kingdom who intend to study in the United States, and who wish to consult the calendars of the various Universities, are advised to apply to the American Library, United States Information Service, 5 Grosvenor Square, London, W.1. The Institute of International Education, 2 West 45th Street, New York 19, N.Y., has published a handbook for foreign students, entitled *Meet the U.S.A.* This booklet, which was written by a foreign student, contains a great deal of general information about the history and customs of that country, as well as specific information about higher education in the United States. Copies are available for consultation at American Consulates and Embassies throughout the world. Cost, 35 cents. A useful publication is the *Complete Guide to American Colleges and Universities* by Clarence E. Lovejoy (Simon and Schuster, New York). Another helpful reference book is *American Universities and Colleges*, published by the American Council on Education, 744 Jackson Place, Washington 6, D.C. Pt. I is devoted to a general explanation of the organization and operation of higher education, and includes a special chapter on the foreign student in the United States ; Pt. II gives separate statements of the individual Colleges and Universities, arranged alphabetically. *See also* Appendix IX.

APPENDIX VIII

INTERNATIONAL UNIVERSITY ORGANIZATIONS

THE INTERNATIONAL ASSOCIATION OF UNIVERSITIES (I.A.U.) was formed, and its constitution adopted, by the delegates of 167 Universities and institutions of higher learning from 52 different countries, at the International Conference of Universities held at Nice in Dec. 1950. The first steps towards its formation had been taken by the Preparatory Conference of Universities organized at Utrecht in Aug. 1948 by UNESCO, in collaboration with the Netherlands Government.

The purpose of the Association, as defined in its constitution, is "to provide a centre of co-operation at the international level among the Universities and similar institutions of higher education of all countries, as well as among organizations in the field of higher education generally." The organs of the Association are: the General Conference of Universities, meeting at least once every five years; the President of the Association, elected by the General Conference and holding office until the next meeting of the General Conference; the Administrative Board of the Association, of which the President of the Association is chairman; the International Universities Bureau (I.U.B.), which is the Association's secretariat.

The following are at present in office: *President of Association and Chairman of Administrative Bd.*, Dr. Jean Sarrailh, Rector, Univ. of Paris; *Vice-President of Association and Vice-Chairman of Administrative Bd.*, Dr. S. C. Roberts, Univ. of Cambridge; *Members of Administrative Bd.*, Vice-Chancellor E. Ashby, The Queen's Univ., Belfast; Vice-Recteur J. Baugniet, Univ. Libre de Bruxelles; Rettore C. Cereti, Univ. di Genova; Prof. M. C. Chagas, Univ. Nacional de Brasil; S. R. Dongerkery, Registrar, Univ. of Bombay; Prof. W. Erbe, Univ. of Tübingen; Prof. M. H. Fisch, Univ. of Illinois; Recteur L. Garrido, Univ. Autonoma Nacional de Mexico; President M. V. De Los Santos, Univ. of Manila; Prof. J. Nielsen, Univ. of Copenhagen; Dean F. Rogers, Harvard Graduate School of Arts and Sciences; Prof. T. Saglam, Univ. of Istanbul; Rector A. Siassi, Univ. of Teheran. *Secretary-General of Association and Director of International Universities Bureau*, H. M. Keyes. *Postal Address*: 19 Avenue Kléber, Paris 16. *Telephone*: Kléber 52-00, Balzac 24-08.

THE INTERNATIONAL ASSOCIATION OF UNIVERSITY PROFESSORS AND LECTURERS. The definitive statutes of the Association were adopted in Brussels in 1947. I.A.U.P.L. took shape from the activities and discussions of University teachers and research workers from overseas who were temporary inhabitants of Great Britain during World War II, and who, with a few British colleagues, formed themselves into an *Association of Professors and Lecturers of the Allied Countries in Great*

Britain; and from the movement towards co-operation among University personnel, under the name of *The International University Conference*, inaugurated in 1934 by the Association of University Teachers of the United Kingdom. Each of the national associations affiliated to I.A.U.P.L. retains its separate identity.

I.A.U.P.L.'s province is the University as a whole. Its broad aims are the development of academic fraternity among University teachers across faculty and national boundaries; the protection of freedom of teaching and research; the furtherance of the interests of University teachers; and the consideration of any academic problems, whether initiated by the Association or referred to it by Governments or Universities or by UNESCO.

Topics of interest to University teachers have been discussed at six post-war international conferences attended by delegates of the national associations affiliated to I.A.U.P.L. and held respectively at Oxford, Brussels, Paris, Basle, Florence and Nice.

In its initial programme adopted in Brussels in 1947, the Association's more immediate projects were stated to be the establishment of an International Universities Bureau (v. *supra*) and an International Institute of Social Sciences, together with the examination of the following problems, about which reports have since been prepared: Equivalence of University Standards, Student Health Services and Recurrent Long Leave. I.A.U.P.L. co-operates with organizations which help exiled Professors and Lecturers to find suitable employment.

The Association's activities are recorded in its journal, *Communication*, normally published three times a year.

General Secretary—Professor R. Douglas Laurie, 19 Dunraven Street, London, W.1. *Telephone*: Mayfair 5934.

THE INTERNATIONAL FEDERATION OF UNIVERSITY WOMEN, founded in 1919, is a world-wide organization of women who have had a University training. Membership is open to all qualified University women without distinction of race, religion or political opinion, through National Associations which are affiliated in over 30 countries, with a total membership of over 143,000.

The aim of the Federation is to promote understanding and friendship among University women of different nationalities, and so to further their common interests and to develop sympathy and co-operation between their countries. The Federation offers members research fellowships, travel facilities, opportunity for exchange of posts and an organization for combined action to improve their professional status. Since 1936 it has built up special funds to assist University women in distress as a result of war or political upheaval.

The work of the Federation is planned by a Conference of delegates of the National Associations, of which there can be only one affiliated from each country. The Conference meets every three years to receive reports, to elect officers, to define policy, to consider new developments and to discuss questions of general interest. Between Conferences there are meetings of the Council, on which each National Association has one representative, and of Standing International Committees

responsible for the direction of special activities. The International Headquarters Office in London acts as a co-ordinating centre.

The publications of the Federation include the *International Glossary of Academic Terms* (1939), *Human Rights : the Task before Us* (1950), an annual *Report* and a periodical *News-Letter*.

Executive Secretary—Miss M. C. Hermes, M.B.E., B.A. *Postal Address* : 1 Sedding St., London, S.W.1. *Cables* : Ifederuw, London. *Telegrams* : Ifederuw, Knights, London. *Telephone* : Sloane 8281.

WORLD UNIVERSITY SERVICE (formerly International Student Service) has developed from the feeling for mutual assistance between members of the world University community which led to the formation of the University Committee of the Imperial War Relief Fund in 1920.

W.U.S. to-day is a fellowship of over thirty national committees co-ordinated by an International Secretariat in Geneva. It seeks to promote the free flow of information and to create a spirit of understanding between members of Universities and Colleges throughout the world. In war-devastated and undeveloped countries W.U.S. helps to establish new student hostels, clinics, sanatoria, rest centres, and refugee camps ; as far as its funds permit, it provides drugs, supplementary food and clothing for individual students in need, and books, stationery, laboratory equipment and periodicals are sent to Universities where they are lacking. In Britain, students are recruited by W.U.S. for overseas conferences, study tours, seminars and vacation courses, travel bursaries often being made available. Hospitality is sought for colonial and foreign students in Britain, and W.U.S. seeks to develop the interest of British students in University life abroad.

The International Headquarters of W.U.S. is at 13 rue Calvin, Geneva, Switzerland.

President, British Committee—Sir Walter Moberly, G.B.E., K.C.B., D.S.O., M.A., D.Litt. *General Secretary, British Committee*—Douglas Mayer, B.Sc. *Postal Address* : 59 Gloucester Place, London, W.1. *Telegrams* : Interstud, London. *Telephone* : Welbeck 3921.

UNESCO AND UNIVERSITIES. UNESCO, the United Nations Educational, Scientific and Cultural Organization, directly and indirectly fosters international contacts among Universities all over the world and encourages them to give mutual assistance in various fields of their activities. The annual UNESCO publication, *Study Abroad*, lists more than 30,000 fellowships offered by Governments and other bodies to students of various nations to enable them to study abroad.

UNESCO gave impulse and assistance to the representatives of various national Universities in the organization of two University Conferences : at Utrecht in 1948 and at Nice in 1950. (V. I.A.U. *supra*.)

UNESCO maintains close working relations with the international University bodies listed above and with the international student organizations. All these organizations benefit from a special consultative arrangement with UNESCO.

The working programme of UNESCO includes several activities of

importance to the Universities, such as, upon their request, assisting them to obtain books and other equipment, helping certain countries to find University teachers abroad ; organizing assistance to refugee students ; maintaining special regional offices throughout the world to promote co-operation among scientists in the area ; offering assistance to international organizations in all fields of education, science, and culture, and promoting the creation and development of such organizations ; promoting the creation of research centres on an international basis (*e.g.* a computation centre) ; working for an improvement in scientific abstracting.

The Universities of different countries often provide UNESCO with experts to carry out these projects. From 1952-53 onwards, a limited number of small international groups of University teachers have been organized ; they stay in selected Universities in various countries for one year, in order to increase the exchange of teaching methods and to encourage certain studies needed in a given region (*e.g.* Social Studies at the University of Dacca).

The programme of UNESCO is carried out by the 65 Member States, assisted by a secretariat, headed by the Director-General. *Postal Address* : 19 Avenue Kléber, Paris 16. *Telegrams* : Unesco Paris. *Telephone* : Kléber 52-00.

APPENDIX IX

SHORT BIBLIOGRAPHY

The two lists which follow do not include books about individual Universities and do not claim to be exhaustive. They may be supplemented by reference to the "Publications" paragraph in each University entry *supra*.

Part I. This section lists books published in the United Kingdom since the 1952 *Yearbook* went to press. It is hoped to include each year in this Appendix a short list of books which have appeared during the preceding twelve months, and also to extend the list, if possible, to include books published in the same period in other parts of the Commonwealth.

Conferences of the Home Universities, 1951 and 1952. Reports of Proceedings. (Association of Universities of the British Commonwealth.) Topics of discussion were: 1951—The Procedure for the Selection of Students for Admission to Universities; Universities and the Fine Arts; Student Health. 1952—Halls of Residence and Student Amenities; Success and Failure at the University; Vacation Employment.

Education for Management. Report of a specialist team which visited the U.S.A. in 1951. (Anglo-American Council on Productivity, 1951.)
