REPORT

ON

JOINT STOCK COMPANIES

FOR

1937-38

Introductory Note.

This report relates to Joint Stock Companies at work in British India and in the Indian States of Hyderabad, Mysore, Baroda, Gwalior, Indore, Travancore and Cochin during the year 1937-38. The volumes in this series included figures for British India and Mysore only till 1918-19, but Baroda, Gwalior, and Indore were added from 1919-20, Travancore from 1920-21, Hyderabad from 1921-22, and Cochin from 1935-36. The sources of these statistics are the returns prepared by the Registrars of Joint Stock Companies in regard to companies governed, in the case of British India, by the Indian Companies Act VII of 1913 as amended by Act XXII of 1936 and in the case of the Indian States concerned by similar laws relating to registration of companies in force in them. Owing to the separation of Burma from India with effect from the 1st April, 1937, companies registered in that country are no longer treated as Indian companies. The figures for previous years shown in tables 1 and 2 have accordingly been adjusted on that basis. Source of statistics.

In the year under review, the number of newly registered companies (both public and private) decreased by 14·7 per cent. as compared with the previous year. The authorised capital of the newly registered companies, as compared with the preceding year, decreased by 50·2 per cent. but the paid-up capital increased by 41·3 per cent. The number of private companies registered in 1937-38 was 506 as against 496* in 1936-37. The total authorised capital of the companies both private and public registered during 1936-37 and 1937-38 was distributed between the different classes as shown below :— Main feature of the year.

Banking, loan and insurance.

The total paid-up capital invested in banking, loan, investment and trust, nidhis and chit associations and insurance companies amounted in the year under review to R30 crores, to which Bombay and Bengal contributed R8,59 lakhs or 29 per cent each, and Madras R5,71 lakhs or 19 per cent. There is a striking contrast between the authorised and the paid-up capital of insurance companies.

Transit and Transport.

Transit and transport companies accounted for a paid-up capital of R22 crores, of which R15 crores, or 68 per cent, were invested in railways and tramways. Bombay contributed about R7,52 lakhs or 51 per cent, and Bengal R6,65 lakhs or 45 per cent, of the total capital invested in railways and tramways.

† See footnote * on page (ii).

Trading and manufacturing companies accounted for a paid-up capital of R97 crores, of which R20,07 lakhs, or 21 per cent, were invested in public service companies; R9,84 lakhs in clay, stone, cement, lime and other building and constructing materials; R7,57 lakhs in agencies; R5,15 lakhs in engineering; R4,81 lakhs in tobacco (cigars, etc.); R3,38 lakhs in iron, steel and shipbuilding; R3,36 lakhs in chemicals and allied trades; and R3,27 lakhs in printing, publishing and stationery. Trading and Manufacturing.

Nearly one-fourth (R67,84 lakhs) of the aggregate paid-up capital was invested in mills and presses, chiefly for working or pressing cotton, jute, wool and silk. Bombay had 39 per cent (R26,60 lakhs) of the total investments under this head, most of it being employed in cotton mills and presses and silk and woollen mills and Bengal followed closely with R26,33 lakhs, mostly invested in jute and cotton mills and jute presses. Mills and Presses.

In tea, coffee, and other plantations, a paid-up capital of R14,36 lakhs was invested, and of this amount R10,77 lakhs were held in Bengal, mostly in tea companies, the majority of which own gardens in north-east India and are registered at Calcutta. Planting.

The paid-up capital of mining and quarrying companies was R21,48 lakhs, of which 53 per cent (R11,35 lakhs) was invested in companies registered in Bombay and 36 per cent (R7,74 lakhs) in companies registered in Bengal, most of the latter representing capital invested in coal mines. Paid-up capital amounting to R10,48 lakhs was invested in iron ore. Mining and Quarrying.

Estate, land and building absorbed a paid-up capital of R12,08 lakhs; Bombay and Bengal accounting for R6,44 lakhs and R4,84 lakhs, respectively. Estate, land and building.

R9,79 lakhs were invested in sugar (including jaggery) manufacturing concerns; Bengal and the United Provinces having between them R5,98 lakhs or 61 per cent of the total paid-up capital. Sugar (including jaggery) manufacture.

At the close of the year 1937-38, there were 635 companies limited by guarantee (including associations not for profit) having no paid-up capital, incorporated in India, with a total membership of 205,527, as against 638 companies with 207,150 on the 31st March, 1937. Companies limited by guarantee and associations not for profit.

Statistics have been collected, so far as possible, regarding companies which have been incorporated elsewhere than in India, chiefly with sterling capital, but which carry on work in India. The total number of such companies working at the end of 1937-38 for which returns are available was 884, and the paid-up capital thereof amounted to £757,372,000, besides debentures to the extent of £127,883,000. Of the paid-up capital and debentures, £112,033,000 and £19,787,000, respectively, were invested in petroleum mining, £101,089,000 and £45,168,000 in engineering, £85,499,000 and £43,000 in banking, £76,073,000 and £4,633,000 in insurance, £51,570,000 and £9,678,000 in iron, steel and shipbuilding, £48,770,000 and £3,599,000 in public service companies, £36,944,000 and £15,061,000 in navigation, £28,880,000 and £2,320,000 in tea planting, £23,647,000 and £13,314,000 in railways and tramways, £10,739,000 and £250,000 in investment and trust, £7,402,000 and £1,536,000 in docks, harbours, shipping, landing and warehousing, £4,630,000 and £559,000 in hotels, theatres and entertainments and £3,633,000 and £8,000 in jute mills. The gold fields in Southern India are chiefly worked by companies formed in the United Kingdom, the paid-up sterling capital invested therein being £1,527,000. It should, however, be borne in mind that in the case of most of the banking and insurance companies and of some of the navigation and other trading companies incorporated outside India, only a portion, of the capital shown above is invested in India, as these companies work also in other countries besides India. Companies incorporated outside India.
